### Thrive, 02 Drops, Detox Tea, LurraFit Coffee, LurraFit Energy

#### Day ONE Report: So Happy My Blood Sugar Levels Are Dropping!

Just got my lowest reading on blood sugar 146, about 4:00am before bed last night did a thrive in tea and did the 02 oxygen drops in my eyes and 15 drops under the tongue. Also yesterday afternoon I did one cup of the Lurrafit Coffee and tested the new LurraFit Energy capsules. However I do love the energy cap, very amazing and my recommendation is do not take it in the afternoon as it was 5:00am before I got to bed:) Yes, I am excited about all these products. Thank you JESUS for LurraLife health products.

Before adding Vitamin D3 my blood sugars were running around 300 to sometimes close to 400, after adding vitamin D3 it drop to around the 200 mark (Vitamin D3 6000 IU a day, Recommendation also take vitamin K2 which I learned Vitamin K2 is in the Thrive) and now with the Thrive and 02 Drops I am down to 146. Thank you JESUS!

You want better health get on the Thrive and 02 Drops and the Detox tea and STAY on them!  
 - **Adrian M.**

### Dr. Miller's Detox Tea Testimonies

"I've been back using the tea for a month now and I was looking for weight loss results. I am glad I didn't give up because what I actually got was better. I normally experience joint pain in my knees and ankles due to old injuries. I'm happy to report that I have no joint pain, my ankles don't hurt at the end of the day and most of all I'm now able to comfortably do yoga." - **Mervetta S.**

"The challenge was to lose 5lbs in 5 Days using the Detox tea. Well, I did that and still dropping. Did I eat clean the entire time? Did I do strenuous exercise? Not really. I kept up my water intake though. Now just imagine what's going to happen to these numbers, rapidly, when I incorporate the exercise and meal prep. And the best part is this isn't just limited to me. You have the capability of achieving this success as well." - **Cochise B.**

"My acid reflux use to flare up really bad sometimes I would have to jump out of bed in fear of strangling. I started drinking Dr. Miller's Detox tea two weeks ago. After the first week of drinking the tea, I have no symptoms of the acid reflux. It is flushing out my digestive system. I've even lost 2 inches from my waist. I will never let my Dr. Miller's Detox tea run out." - **Peter P.**

"100% in love with the tea! After only three days in, I noticed I was urinating more frequently, so that puffiness in my hands is gone! I've become so regular with my bowels. I'm so proud! I want to call for my mommy to come look! :) I don't own scales, but my tummy feels five pounds lighter! Happy happy happy!" - **Mary**

"These were my favorite jeans and jogging pants when I was first introduced to this AMAZING tea about four years ago. My results catapulted my Lifestyle change, and began my weight loss journey. This particular formula was SPECIAL in that it contained four additional detoxifying ingredients that allowed me to lose about 9 pounds in my first month of use, without changing a thing. When I heard that LurraLife was the only Home Business that now had access to the ORIGINAL formula, and it was available again, I couldn't wait to begin taking it, as I have learned more things about my body as it relates to obtaining optimal health. This time, I lost 9 pounds in less than seven (7) days. YES, 9 pounds!!

Besides cleansing my intestinal tract, I know that my organs are also being cleaned. In the past, I know for a fact that I had also been able to keep the weight off when I continue to use this Detox tea. I am so thankful that it has been reintroduced to the world. No more aimlessly searching for comparable teas... I couldn't find any because there are NONE... Eternally Grateful" - **Andrea L.**

"WOW is right! I don't have a scale, and the weight loss is not that important to me. However, the intestinal Detox is working! I have had a lifelong battle with intestinal disorders, and last night I was in agony. I made my first batch of tea earlier in the day, and was going to let it "steep" overnight. I couldn't wait, so at 1am I got up, drank 1/4 cup of the "straight stuff" mixed with 18 ounces of water, and by 7am, I was a "new woman"! Yes, it was some pretty scary stuff coming out of me, but well worth it! Intestinal pain all gone! After my first dose, I can honestly say I will NEVER be out of this tea! - **Sally P.**

Lost 24 lbs

Lost 94 lbs

Lost 84 lbs

Lost 25 lbs

Lost 36 lbs

Lost 26 lbs

Lost 41 lbs

Lost 71 lbs

"Since starting my Dr Miller's Detox tea and Thrive healthy living and weight loss journey, I am down 8 lbs and 8 inches. Inch loss is a better judge than weight loss, imo. :) 2 of those inches came from my belly.

A picture is worth a 1,000 words." - **Rhonda P.**

#### Thrive Cardio Health Drink Testimonies

"About 6 months ago, my MD prescribed Lipitor for my high cholesterol (197), but I never got it filled because I wanted to solve the problem naturally... And I did (Thrive): As of Sept. 22, 2018, I'm happy to report that my total cholesterol is 175! Thrive also helped to lower my blood sugar from 144 to 125 to 79! I was out of Thrive for a couple weeks, and noticed burning and tingling in my feet and legs. Since I started taking it regularly again, the burning and tingling stopped. Isn't it funny how you forget how awful you used to feel, when you start feeling good again? I can say from my own experience, please give Thrive a try." - **Jeanette T.**

"I am loving the Thrive. I had only been using it for 3 weeks, and got my sugar level from 460 back down to the 300's, then 200's. Now I have been on Thrive for over a month, and my sugar levels are back to normal, and stay normal." - **Regina A.**

"I have been diagnosed with vascular disease, and just a year ago with A-Fib. My doctor put me on a blood thinner, which I don't want to take. I also have COPD and high blood pressure, and I am on medication for them, as well. Within just a few days of starting to take Thrive, my blood pressure started coming down, and I've had to cut way back on the BP meds. I also noticed that my breathing is improving, and I'm not using my inhalers as much. But the kicker is... After about three weeks, I was looking at my arms, which were always covered with bruises that appeared from seemingly nowhere. Besides being a sign of "mature" skin, the blood thinners were making it worse. I couldn't believe my eyes as I noticed that my arms were clear of all those awful bruises. They were gone! I believe my arteries and blood vessels are truly being cleansed of the plaque. My cholesterol is in normal range for the first time in years, and all my blood work was good. My doctor said he had no complaints." - **Heidi C.**

"I have been taking Thrive for 8 weeks now, and my blood pressure has gone down to an average of 130/80. One day, it was 112/74. I still take my blood pressure meds. I take one in the AM and one in the PM. Some days, I only need to take the AM one, as my blood pressure stays in the 130's range. What really got my attention is... I started going to the Gym and started taking Thrive... And I believe it has helped me gain 1 and 1/4 inches on my arms in only 8 weeks. The amazing part is, I am 75 Years old." - **William B.**

"Well isn't this interesting, I ran out of my Thrive samples starting on the 3rd day this morning. I take my blood pressure every morning at the same time. So this morning my blood pressure shot back up to 140/82 with a low yesterday of 120/67 as I took it twice yesterday because I was so shocked how low it was. Some could say I suppose it was just a fluke yesterday but I'm not so sure, the 120 number I have not seen in years. I have been writing everything down so the only thing different in the equation is...Thrive. My product comes this next week so I will keep everyone up-to-date." - **Bill F.**

"I was intentionally looking for a nutritious green drink when I came across Thrive. At the time, I was on a very low budget and could not afford to eat properly. (Have you noticed that food that is really good for you cost a lot more than food that is really bad for you?! LOL) I wanted to have 'super-powered' nutrition, and it was more cost effective for me to use a green superfood than it was to buy the equivalent nutrition in fresh fruits and vegetables. My friend told me that Thrive had not only enhanced his health, but had actually reversed his heart damage! I was intrigued, so I bought the three day trial. That's all it took to convince me that I wanted Thrive to be a part of my every day life! I know some people think that Thrive is a luxury. For me, it's a necessity! If anyone reading this thinks they can't afford good nutrition for themselves and their family, I encourage them to rethink!! Thrive is the most cost effective way I know of, to get the vital nutrition we need to live a healthy life!" - **Mary T.**

"I had been using Thrive for 2 months, and was able to fit in two pairs of pants that I was not able to fit for the past 2 years." - **Joann J.**

"Thrive has helped lessen my stomach discomfort due to diverticulitis, plus I've lost over 12 pounds in two months without even trying! Love it." - **Belinda P.**

"June 22, I was at the gym working out with a personal trainer. I over did on the workout, and got dizzy. My personal trainer took my BP, and immediately called 911. Within 20 minutes, I was in ER... Spent 4 days in Hospital... Diagnosed as stroke. Having extended high Blood Pressure, the primary care doctor wrote me a prescription for Losartan. I took 4 of them over next two weeks, but a friend showed me Randy's Thrive video, and I ordered his product. I started taking the THRIVE all natural product, instead of Losartan. My primary care doctor was not happy with my decision, and told me I could probably end up with kidney issues if I didn't get my blood pressure lower. I showed him a few pictures of my blood pressure after taking thrive, and there was not much he could say because the proof is in the pictures. Still taking my thrive daily. WHAT WOULD YOU TELL YOUR DOCTOR???" - **Jerry U.**

"I originally started taking thrive as a tool to help keep my heart health in good shape as I prepared my body to be able to donate a kidney to a friend of mine who is battling Stage-4 Kidney failure. Along with his kidney failure, he is also diabetic with severely high blood pressure, and fights with blood-sugar issues. After we were informed that the surgery wasn't going to be as quick as we originally hoped for, I decided to gift him with a 2-month supply of Thrive, to help him keep as physically stable as possible until our surgery date arrives. Over the past month of using the Thrive daily, his blood-sugar has normalized to the point he does not have to take insulin before meals and his blood pressure has gone from an average of 180/110 to an average of 130/80. He has also seen improvements in his energy levels coming out of dialysis 3 times per week. What used to wipe him out for an entire day no longer does. He is now able to be an active member of his family while we await our transplant date. I am so grateful that the product which keeps me healthy enough to be able to donate an organ, is also powerful enough to reverse the recipient's medical issues while we await a transplant. And who knows if they surgery date takes too long to arrive, Thrive may very well reverse all of his conditions." - **Cochise B.**

## O2 Drops® Testimonials

"My experience with O2 Drops has been one of surprises. I did not know what to expect when I took the first drops, however within minutes I felt stronger and could move around easier. I just couldn't believe anything working that fast. A few days later, I noticed that my varicose veins were less pronounced. I had not done anything different, so I researched stabilized oxygen and varicose veins, and to my surprise, it does reduce varicose veins. I also noticed about the same time that my gums stopped bleeding when I brush my teeth. I researched this also and to my surprise, it strengthens gums. I am now looking for my next surprise anytime soon." - L. Hodge

"All I can say is, I'm impressed. Gave me energy and mental clarity to complete what I needed to work on!"  
- John S.

"I have a 7-year-old and an almost 5-year-old, and typically I'm stressed out when they act up, but yesterday I was calm and did not get all stressed, and in turn, they were calm as well. My lower back feels better, and overall I had more energy. I do not feel the need to drink 10 cups of coffee before noon anymore! Thank you O2!!! I'm also sleeping much better, and when I wake up, I'm ready to get going...I am following the instructions on the bottle, and I feel awesome. Yesterday my co-worker even asked me if I'd lost some weight. I do feel like my cravings for bad food have gone away...Love O2, and do not see myself stopping EVER!" - Bradley M.

"So here's a little update from surgery, up to today. In all, I'm doing GREAT! When doctors (yes plural) are so impressed with the results, you have to share. Has anyone ever heard of this little gem, O2? This is what I've been using, and has helped with my healing journey. This is simply a liquid supplement with a bio - available form of oxygen w/the minerals that our body lacks, to rebuild and maintain a strong and healthy immune system. So not only did I put this on my foot, but I make it a daily addition to my liquid intake." - Valerie G.

"Love using O2 Drops... It gives me more energy, especially when I feel tired." - Jacques A.

"I am a dialysis patient, and on the days I get my treatments, I am so wasted that I can barely function. Since using my O2 Drops, I have been feeling like my old self again." - MaryAnn G.

"When I always stand up, I always have a sharp pain in my hip from hip surgery 9 months ago. The pain will go away after standing for a minute or so, but every time I stand, I always have that uncomfortable pain. (Freak accident while snow skiing.) Well, that sharp pain was not there!! WOW!! I then took the drops again at bedtime, and slept REALLY good last night...sleeping all night without waking up 1 time. I always wake up several times during the night. Can hardly wait to see what other benefits from this AWESOME O2 Product!!" - Anita R.

"I have always been active in sports, bowling 2 leagues a week, playing softball with my daughter 3 times a week, fishing, hunting. Now that I'm getting older, I can't do the things I used to do. With a number of health issues, it's been impossible. I have arthritis, neuropathy in feet, bulging discs in lower back. I was hoping these O2 Drops would give me some relief. I have to admit, I was skeptical at first. I mean, what could 10 little drops of O2 do for me? I am AMAZED! I took 8 drops before going to sleep, woke up this morning, and just realized for the first time in years, I actually slept the night thru! The pain in my feet from the neuropathy is GONE!" - Gary K.

"I have a lot of issues brought on me from a dentist with my sinuses, mouth, and throat. Long story! I had had pressure in my ears, so I said let me put O2 in my ears because I had taken all my products, and it wasn't stopping the pressure... Well, it stopped it quickly. My gums don't hurt anymore, and it's stopped the gum recession and pain. I have also been using O2 as eye drops, and love it! I've tried other oxygen products, but they didn't work!!! This one is working fast! I'm amazed how quickly, plus I stopped all my herbs yesterday, and I've had to take a lot these the past 6 years!" - Eyvette L., Naturopathy Doctor

"I wanted to share my experiences with the O2 drops. I have noticed a couple of things. First, I am usually under a lot of stress at work, and it usually causes my shoulders and back to get tense and hurt. Last week I had a lot of pain, and decided to see if the drops would help. I checked the clock, took 15 drops and continued working. I had forgotten about it until I noticed I no longer had the pain! I checked the clock and exactly 30 minutes had passed. I am AMAZED!

Another is when my 13 yr old son woke up not being able to hear well from one ear. I had run out of q tips and didn't know how to help him quickly. That's when I thought of the O2 drops. I laid him on his side, and had about 6 drops enter his ear canal. I let him stay like that while I dressed my other 2 kids for school. About 5 minutes later, he comes to me saying, I can hear! Mom, why didn't you get these drops sooner! Lol. Lastly, my 6 yr old daughter was coughing a lot last night. I gave her O2 drops around 2am, and within minutes, her cough went down enough for both of us to sleep. I love these drops!" - Jessica M.

"Over the years, I have used natural supplements, but typically it takes time for natural or herbal products to build up in your system to feel results, NOT with O2 Drops. Within minutes of taking, I could feel it starting to work. It's an energy boost, but at the same time, it has almost a calming effect, and you start to just feel better overall. Like many in their 50's, I typically have lower back pain and stiffness daily. I noticed as I was just now taking the second dose that my back does not have the usual stiffness or soreness." - Wayne C.

"The big difference to me is when I go to bed I immediately fall asleep for the first time in my life and I don't wake up 4 or 5 times. I get a good restful night and wake up ready to start my day. This makes everything better." - Billie D.

"I've been taking the O2 drops since Saturday which is 4 days ago. Great stuff! Right away I notice improved mental clarity, energy, sleeping much better, and breathing easier and deeper. I didn't realize how shallow my breathing had been. Today I had to shovel a 4-foot high pile of hard, packed snow, the length of a car so I could park! (We still have some large snow piles after getting 27 inches after a recent blizzard here in NYC.) I finished in 30-40 minutes, and only had to stop twice to take a short breather, maybe 1 to 2 minutes. Then afterwards I felt totally normal 20 minutes later. This is what athletes have reported which is fast recovery time after high stress workouts or competitions. By the way, I'm 61 years old! But don't tell anybody!" Things are definitely happening!" - Les J.

"I feel so blessed that I was introduced to the o2 oxygen product. I was having a rash and swelling in my armpits, and no idea where it came from. All I know is that it was extremely painful, and my armpits had turned red and black. It really looked raw. I went to a dermatologist. She gave me some cream that did not help. I then went to a Doctor of Internal medicine, and he

did not have an answer. My husband received his o2 drops before I did, so he said why not put some of the drops under your arms. I was in so much pain, it was hard for me to put my arms down by my side, so he put them under my arms. I could not believe that the pain went away in just 10 minutes, and within a day or two, the rash disappeared. If it had not happened to me, it would be hard to believe how the pain went almost immediately away. I was thinking that the drops were just for the inside of the body, but afterwards, I researched it, and it helps so many things, even rashes, cuts, bruises etc., Thanks O2 for helping me feel so much better." - Jerri S.

"I have been suffering from terrible acne on my face for the past 7 months or so, and prescription medicated cream wasn't even helping! Not cystic acne, but a bunch of little bumps all over my face. I put the O2 Drops directly on my face yesterday morning and again last night before going to bed and when I woke up this morning, I was AMAZED to find that a lot of them had disappeared and the others had shrunk in size! What a relief! I've never had problems with acne, so this was totally new and a bit terrifying for me, really. I'm so happy to see this problem going away!! I LOVE MY O2 DROPS!!!" - Vanessa C.

"On Friday, I drove six hours from Manassas, VA to Dover, New Jersey. I taught martial arts class for 5 hours. That evening, I drove another hour and a half to NYC. On Saturday, I taught another 2 hour martial arts class. Usually, these kinds of workouts would take several days to recuperate from the aches, inflammation and stiffness in my joints. On Sunday, my joint aches, inflammation and stiffness were minimized. I felt as if I had taken a couple of Ibuprofen. I added some O2 drops to the water bottle I take to the gym. I feel more energy during the workout and I go from one weight training machine to the next much faster. I have taken vitamin supplements all my life, and have never felt the type of energy, pain relief, and reduced joint inflammation from any other product. I felt a cold sore starting to develop on my lip, I hate those. I put some O2 on it and immediately felt less pain, swelling, and it stifled the growth of the sore. O2 stopped it to the point where it was just a red spot on my lip, and did not develop into a full blown sore. I have paid over \$18 for over the counter medicine that did not work as well. I have to admit, I take the recommended 15 drops of O2 about 5 times a day instead of 3 times. I guess I'm a little obsessive. I have more energy, sleep great, and feel less stress in my joints. I know this is empirical knowledge and not scientific proof. But with all the research and testimonials I've read, I would highly recommend this to everyone." - Edwin C.

"As a result of getting more sleep...I am focused, clear, and my cravings have dramatically reduced. This morning, I went walking for an hour with my friends, and at the end of the hour, I felt energized rather than exhausted. When I talk to people about O2, I speak with the confidence of knowing this product will work for everyone. If you love your life and the people in it, you will use the product and share it with everyone you care about." - Alice H.

"I had to share this with all of you. While cleaning my pool late Tuesday afternoon, I gouged the top of my hand, not a long puncture but it was deep. I completed the cleaning, and put a couple of drops on the wound. I continue to do so three times a day Wednesday and Thursday. Well, I took the second photo at 10 AM this morning (02/05/16). Folks, I often have cuts while doing my honey dues. Normally, one like this takes a minimum of a week or more - one reason is, I am on blood thinner, BUT THIS IS AMAZING!!!" - Randy T.

"I've been putting one drop in each eye twice a day. Because of lack of rest, my eyes were irritated and red. The redness and irritation seem to have gone away. Not to mention my quality of sleep has greatly improved, and I'm thinking clearer during the day. Truly I can't think of anyone that wouldn't benefit from this product." - Jay J.

"Since I started taking the O2 Drops five weeks ago, I've seen several improvements. I sleep much better, and I'm rested when I get up. I'm also in a better mood and happier. The nagging aches, pains, and stiffness I had learned to live with are almost non-existent now, including the pain in my knee and the pain from the arthritis in my lower back. Every time I take O2, I feel a calming energy that runs throughout my body and lasts for hours. My stamina is up. My endurance is up, and my energy level feels like it was twenty years ago when I was in my 40's. My recovery period when I do something strenuous, has also been reduced significantly. My mental clarity and focus are also much better. The longer I'm on the O2 Drops, the better I'm feeling. I would also recommend O2 to any man with an enlarged prostate (BHP). After my 4th week of taking O2 three times daily (and now making the last time I take it right before bedtime)... I realized that I'm no longer getting up at night to use the restroom. That is a blessing. I don't know how or why O2 helped my prostate, and frankly, I don't care... As long as I'm not getting up at night anymore, I'm happy. Thank you Shelly for introducing me to O2." - Keith F.

"I deal with "Metabolic Syndrome" which includes both severe Depression and severe obstructive Apnea. So without my CPAP machine pumping positive air pressure into me at night, I would think normal is oxygen deprivation. But now I wake up after 6 or 7 hours and feel alive, instead of sleeping double that amount of time and feeling wasted." - Keith B.

"I had not felt well for several years, and finally 1 1/2 years ago, I found out that a major part of my suffering was due to mold toxicity in the brain, and a leaky gut. I had made major changes to my diet, gone through many detox protocols, and taken numerous supplements... All which has helped me greatly. I felt that I made great improvements. The foggy feeling in the brain had lessened greatly; migraine headaches had lessened; physical coordination and balance were improving; plus digestive system was getting back on track. I was feeling good with my progress. Two weeks ago, I started to take O2 Drops, not really expecting to see any dramatic results. I was actually thinking I was good as I was going to get. But now, I notice that a certain drive or mental energy has come back. I feel more positive and eager to do things; plus the level of pain my body had been experiencing is greatly lessened. O2 Drops are so easy to take. It's hard to believe that just taking these drops a few times a day could make dramatic improvements in my well-being in just a short time. They are amazing!" - Susan D.

"I have suffered all my life with the shakes. If I got nervous, it got worse. If I was rushing around, it got worse. It was passed on to me from my Father and his Mother, etc. Since I got O2, when I find I'm getting shaky, I take my Drops, and it calms it right down in minutes... Awesome!" - Marjorie P.

"My first week with the o2 product: I have very very dry eyes. I have been using Restasis for about 2 years now. I have been putting one drop of o2 in each eye every morning and every night for about 1 week now. I have not had any dryness at all during the day! I am no longer using the Restasis because the o2 works so much better! My eyes have not felt this good in years... \$300 a month compared to \$40.00 a month:) Even though I have been sick during this time, I am still using the o2 drops. It has really helped me to sleep better, in spite of all my coughing. And has helped to keep me going through the day with my energy level. I can't wait to see how my energy actually sky rockets when I finally get over this Bronchitis! I also had major dental work done on one of my teeth about 6 months ago, and ever since, I have had to live with this dull pain. That is, until I started using the o2 drops. Pain free for over a week

live with this dull pain... That is, until I started using the O2 drops. Pain free for over a week now! How amazing is that." - Beverly M.

"I have had an ear infection. I put a drop in each ear. Today when I woke up my ears felt normal. Also, I have had trouble with nose allergies. I put some drops in my nose at night and in the morning. My nose feels so much better. I put some in my eyes because they were red and itchy. My eyes are clear and feel great today: no itching and no redness. I love my O2 Drops. I added O2 Drops to water in a spray bottle. I spray the solution on my face and neck. It gives a nice glow to my face. I have really put the O2 Drops to the test. I will not be without this product. I feel so much better. My energy level is very strong. I call this product my HappyNowDrops!" - Colleen H.

"I have been suffering with Fibrocystic breast for the past 30 years. In the past few years, some of my cysts would develop fluid, and my breast would swell very large and become extremely painful. I always had to wear a padded bra. It was difficult to sleep, and I could not even hug my husband. As a result, I would always have to have my Breast aspirated by a breast surgeon. 24 hours after taking the O2 drops for the first time, 3 times the day I received it, and also rubbing the drops on the area... To my surprise, during the night while sleeping, I was in disbelief in the fact that I could turn and did not feel pain nor discomfort. When I woke up, I was shocked and in tears seeing that the swelling in my breast had gone down, and the pain was completely GONE. I could not believe that a product so simple could have such amazing results in a short time. This is truly a MIRACLE in a bottle. It's attached to my hip. And I will never leave home without it." - Carol G.

"My son woke up with pink eye. He went to school, and they sent him right back home. I put two O2 Drops in his eye right away, then two more that afternoon and evening, and repeated on Saturday. His pink eye is gone today. I'm amazed with O2 Drops. Thanks." - Fontae P.

"The first time I took the O2 Drops, my neck started to relax, I felt calmer, and my whole body and spirit felt a notable lightness. My constant nagging winter cough stopped. Within a day or two, my shoulders started to relax, and my whole body was more relaxed and flexible, and I experienced an overall feeling of calm. I was more focused, positive, present and interactive in my interactions at work and people noticed. I felt more energized. I have experienced sleep problems most of my adult life - I now sleep like a baby. I also have less food cravings and mood swings and my energy is more steady and up." - Judy C.

"Just a quick testimony on how the o2 Drops have enriched my life. As a result of a lot of neck trauma over the years, ie, Football, Car Accidents, etc; I had a neck fusion of my C5 & C6 Disks in my neck 20 years ago. Since that time C3 & C6 have taken the overload, causing degeneration of the area and allowing arthritis to set in; making it impossible for full mobility in my neck, not to mention the constant almost at times unbearable pain as a result of swollen nerves pressing against the disk. My o2 Drops arrived this past Friday. Started taking the drops that evening, 7-8 as recommended. Yes, almost immediately there was positive things happening within my body; letting me know that I was on to something. Increased dosage to 15 for a couple of more days. Felt a wave of energy flow from the top of my neck down past my shoulder blades. Almost like a Spiritual Encounter of faint warm water flowing down the back of my neck. As a result, started taking 20 drops before laying down at night; and I must say that after day three, the results have been AMAZING! I have not totally regained lateral movement of my neck. However the increased movement WITHOUT INTENSE PAIN is very noticeable. Mild soreness prevails due I feel to long term trauma. I can tell you that after 6 days on this product that I will NEVER go without it. When will BULK purchases be available???? I have also started applying the drops "topically" to my neck on the discs mentioned, asking my wife to rub the drops into my neck.... Pain was 95% improved within 5-7 minutes WOW! - D. Anderson

"Just received my O2 Drops :))) Got Home from a 2 hr drive, and had my usual lower back pain. I decided instead of rolling myself in that big blue ball to pop my back into place, I would take what's inside that little blue bottle. I don't know if it's just "placebo effect" or what, but my lower back pain is gone. It can't be...after just 5 minutes?? To be continued...report back in a few days. WAIT, I'm also not tired. I also read Santos's story, so I decided to rub some (2 Drops) on the upper top part of my thumb where thumb meets wrist. JUST TO TEST IT... I've had some muscle pain there for about 3 weeks. I thought it could be my carpal tunnel coming back. OMG... It took less than 3 minutes to stop hurting. I CAN'T BELIEVE IT... Amazing!" - Gilbert A.

## Professional Athletes Testimonials

For years professional athletes and trainers, including Olympians and World Record Holders, have put the proprietary Activated Stabilized Oxygen in O2 Drops to the test. If it can work for people who consistently put extreme demands on their bodies, imagine what it can do for you.

"I have been involved in professional sports for years, both at a professional level and a performance coaching level. ASO® is probably the biggest breakthrough I've seen in those years. Take control... Take AO2." - Tony Brigstock, PGA Golf Pro

"Having researched the benefits of oxygen, I tried AO2® and was amazed at the difference it made to my energy, endurance and alertness at training. It's a winner." - Adam Watt, 4-Time World Kickboxing Champion

"On behalf of the World Team, I want to personally thank you for your assistance in one of the greatest sporting endeavors ever undertaken. As you probably already know, of the 15 members that participated...11 are going to Sydney! That is an incredible rate of success...you (ASO®) are an important part of that successful team." - Gary Hall, Sr., M.D., U.S. Olympic Sprint Swimming Team

"AO2® contributed to me feeling energetic in the water. Glad to have found such a helpful, natural and drug-free product." - Gabrielle Workman, Triathlon Champion

"Since using the AO2® I have found a number of benefits from the supplementation. The benefiting factor that I have noticed was increased long lasting energy." - Brent Livermore, Olympic Hockey

"Since using Sports AO2® I have been able to take my training to the next level, translating into improved results." - Chris Winn, Champion Cyclist

"We first tried Sports AO2® during competition and were amazed by the results. We both agreed that it boosted our performance dramatically, especially towards the end of the program when fatigue really takes its toll. We felt as though we could continue to push ourselves harder throughout the whole routine, without "hitting the wall" at the end. Thank you for making available such a wonderful product."

Florian Ambrosius and Sarah Bechtolt, Olympic Synchronized Swimmers

- Erise Amberger and Sarah Bombell, Olympic Synchronized Swimmers

"Mt. Everest has challenged the best-of-the-best...I turned to ASO® as a nutritional source to supplement my oxygen intake and took it multiple times every day. The results were beyond my expectations. I know that this supplement helped to make the difference in achieving my goal to stand at the top of the world."

- Ingolfur Geir Gissurarson, World Class Mountain Climber

"I have noticed an improved performance at track training since I've been taking AO2®. I was really pushing it and my legs were screaming with the efforts, but I was still able to maintain the cadence and repeat the efforts after a rest period....After taking AO2® for nearly three weeks...I can report that across the board the benefits have been that I can operate at 6-8 beats HR higher, feel much more relaxed, able to sleep better and feel more invigorated. I am not experiencing the energy spikes/mood problems when hard training."

- Jayson Austin, World Cycling Record Holder
