Tea Tree : Since the time of Captain Cook, who used the preparations with this wonderful plant to cure soldiers, the **Tea Tree or Tea Tree** has been used for many therapeutic purposes, such as antiseptic and antiviral, as anti-inflammatory, to combat fungi and acne, to heal wounds, as an analgesic and as a calming agent for nerve endings.

El **Tea Tree**, a diferencia de otros remedios conocidos para combatir las bacterias, posee la característica única de no dañar los tejidos que rodean las zonas afectadas.

Its properties are strengthened by the incorporation of the **Essential Oils of Manuca and Rosalina** .

Together, the **Tea Tree Oils with Manuca and Rosalina** , have **antiseptic, antiviral, antifungal, anti-inflammatory, healing, regenerating properties of the outer layers of the skin, analgesics and calming of nerve endings** . So it is highly effective in fighting infections of any kind, as well as preventing them.

Tea Tree Oil is therefore an invaluable natural medicinal resource, due to its numerous applications and proven results. With extraordinary value for first aid care and is an efficient and effective means that should not be missing in the first aid kit, neither at home, nor in the travel bag. Since it is highly effective in fighting infections of any kind, as well as preventing them.

CURATIVE AND THERAPEUTIC USES :

- **Hair** : dandruff, boils, pediculosis, oily or dry hair, scalp irritation, cradle cap.
- **Nose**: nasal congestion, sinusitis, ulcerations, infections
- **Throat** : infections, burning, swollen tonsils, sore throat
- **Oído**: infección, dolor de oído, inflamación, oídos tapados, otitis,
- **Boca**: gingivitis, encías inflamadas y sangrantes, placa, mal aliento, llagas, úlceras, aftas, dolores dentales, algodoncillo, fuegos, labios paspados
- **Pecho**: enfisema, tos, congestión bronquial, bronquitis
- **Piel**: acné, herpes, ampollas, heridas, llagas, quemaduras, ronchas, infecciones, hongos, culebrilla, úlceras, varicela, verrugas, picaduras infectadas, rozaduras, depilación, eczemas, urticaria, forúnculos, micosis (Tínea), úlceras varicosas, quemaduras menores, candidiasis cutánea, entre otras.
- **Higiene íntima**: cistitis, infecciones vaginales y urinarias, hemorroides, micosis vaginal, candidiasis vaginal, prevención de infecciones
- **Pies**: uñas encarnadas, pie de atleta, hongos debajo de las uñas, mal olor, callos, verrugas plantares
- **Mascotas**: garrapatas, pulgas, erupciones, infecciones
- **Otras recomendaciones**: recomendado en momentos de cambios hormonales o cuando se está más susceptible a infecciones, o cuando no es tan recomendado el uso de medicamentos, se aconseja el uso de aceites esenciales de tea tree, manuca y rosalina.

FORMS OF USE : It is used according to the need or treatment required and in small quantities:

- **Direct application** : Tea Tree Essential Oil can be used directly on the skin, even on open wounds, as it calms nerve endings and pain. Drop a drop on the affected area.

Tub bath : Place 8 drops in a bathtub filled with water at a comfortable temperature and take a 15-minute bath.

Compresses : Place 3-5 drops in a container with hot or cold water as indicated. Soak a cotton cloth or towel and apply to the affected area.

Gargles/Swishes : Dilute 2-3 drops in half a glass of warm water and swish and/or gargle.

Inhalaciones: Colocar 3- 5 gotas en un bowl con muy caliente. Cubrir la cabeza con una toalla y respirar profundamente (con los ojos cerrados y teniendo cuidado de no quemarse) durante 5-10 minutos.

Diluido en shampoo: Puede agregarse de 30 a 40 gotas en 100ml de shampoo de pH neutro o de preferencia de ingredientes naturales. Altamente recomendado con el **Shampoo de Tea Tree**. Nota: si tiene descamaciones, granos o infecciones en cuero cabelludo, además del lavado, será necesario agregar una gota directa al cuero cabelludo después del baño.

Baños de asiento/Pediluvios/Maniluvios: Colocar 5-8 gotas en agua tibia y realizar el baño de asiento o de pies o manos durante 20 minutos. (Diabéticos solo 10 min.)

Skin care : it can be applied directly or diluted with any of the face or skin care creams
Vaporization : Add 5-8 drops to hot water from a vaporizer, electric diffuser, inhaler, or any vapor source.

Other presentations : due to the numerous benefits of **Tea Tree Essential Oil** , **Just** facilitates its application and use by including it in other presentations, its recommendation is depending on the need: **Tea Tree Cream, Tea Tree Shampoo, Tea Cleaning Gel Tree, Tea Tree Tonic, Tea Tree Spray**

PRECAUTIONS :

- Due to its high concentration, only a small amount is sufficient in most cases.
- The **Tea Tree Oil** must be 100% pure and of high quality, like Just's, in order to be used in the treatment of infections.
- Tea **Tree Oil** is for external use only.
- It does not replace at all the medical consultation, nor the specific treatment that your doctor indicates.
