Tea Tree Cream with Rosaline x 60 ml

In his exploration trips through Australia, Captain Cook learned about the wonderful properties of tea tree from the native Indians and used it to offer first aid to his soldiers as a disinfectant, antiinflammatory, analgesic and wound healing agent. Ever since, tea tree has been used extensively in a variety of skin related problems and considered very effective and delicate at the same time. The cream is an easy way to use the tea tree essential oil.
