

Tranont Product Reviews – VIBE Health

📅 November 25, 2020 👤 Lorenz Valdez 📁 Blog, Physical Health, Uncategorized

[vibe]

[Vibe]'s B vitamins provide you with true energy and clarity to make it through the day.*

Directions: As a dietary supplement, take 1 capsule in the morning and 1 in the early afternoon. May take an additional capsule for desired results or as directed by a health professional. Always take with food. With the increase of blood flow near the skin, you may experience a niacin flush that lasts a few minutes.

TRANONT HEALTH

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

B vitamins play a major role in enzyme activity, making **[Vibe]** an ideal complement to **[Life]** and **[Balance]**.

B vitamins also influence the production of energy within cells, naturally, without the addiction, jitters or withdrawals.

Along with B vitamins, **[Vibe]** is uniquely blended with Lion's Mane Mushroom, Yerba mate, Ginkgo biloba, DMAE, Rhodiola and Huperzine A for mental clarity, physical adaptation and additional metabolic support.

Chelates give the body the ultimate chance to absorb each mineral for the best result.

[Vibe] Provides:

- ✓ Increased sense awareness
- ✓ Enhanced mood and energized feeling
- ✓ Heightened clarity and mental focus*
- ✓ Improved concentration and memory*
- ✓ Boosted circulation and blood flow*

Back in October I was clinically diagnosed with ADULT ADD. It was a no brainer....I have been like this my whole life. I just never got help because honestly I thought I had dementia and was too scared to go.

It really came to a point where I was dreading getting up and facing my days. I already knew I'd be "spinning" from one thing to the next, never accomplish anything, be angry and frustrated about not focusing and then go to bed feeling like a huge failure. I could go to send a text and forget in a matter of seconds who I was texting or what I wanted to say. I would leave my phone in the fridge or just throw an entire jug of detergent into the washing machine and do a load. So many weird things were starting to happen....complete lost thoughts. It was scary.

So I went to a psychiatrist. Have you ever been tested for ADD? It's a three hour test and I failed it with flying colors.

Let's talk about the process you go through to try feeling better, shall we? You have to have THE RIGHT drug and THE RIGHT dose for it to work. It's a lot of trial and error. I've been on different doses of Strattera, Vyvance, Foculine? and worked up to 30 mg of Adderall. In two months I lost over 20 lbs. I was nauseous everyday with pounding headaches from the drugs. I CRIED AT MY

LAST APPOINTMENT. I was embarrassed that nothing was working. I thought he would think I was just wanting drugs.... which I HATE taking anything.....even Tylenol.

I asked him "why isn't anything working? Do I have something else? Do I have dementia? Am I just dumb??"

Unless you have ADD or have someone close to you who has it.... you may think "oh you're just too busy" Or "life is hard and you have stress"....just de stress and get sleep and write down a list to follow. I know people were trying to help but I wanted to SCREAM!!! I'm 42. I've tried all that for years.

I did natural remedies, meds, took irons out of the fire, wrote lists, prayed, meditated, decluttered, destressed.....IT WAS NOT THOSE THINGS.

At the beginning of April I started taking **VIBE** and Suthe...and eventually added Mojo. I haven't touched ADD meds since the day I started these. I'm not spinning. I can knock out a to-do list. I don't lay in bed and feel like a failure anymore....I feel completely opposite of that and at night I can lay in bed and shut off my loud non-stop thoughts with a simple drop of Suthe!

Anyway I just wanted to share my joy and hope that this can help someone....maybe even someone with a child who's struggling with ADD/ADHD! I wish I would have known about all of this LONG AGO!

Tell Me I am Not Only one who Struggles with Focusing and constant Racing Thoughts??

I am self diagnosed ADD!!

Can I say....Squirrel.

I Always refer to my Brain as a Web Browser with 50 tabs open all the time.

My Brain makes me feel like I have accomplished so much in a day but the tasks are all left partly done because I wind up hopping around from one task to the other! At the

end it looks and feels like an even bigger mess than the beginning.

I recently started taking some Amazing All Natural plant based products that have changed my Life!

✓ One For Mental Focus, Clarity, Mood Booster,

Foggy Brain, Energy= VIBE

✓ Second for Stress, Anxiety, Sleep=SUTHE CBD

✓ Third for Digestive issues because

Gut Health = Brain Health = **LIFE**

I am so Grateful to have found something Natural that actually works and is able to keep me off Pharmaceuticals 🥰❤️🥰

These 2 are my crazy children, 2 of my 5!

I'm a single momma and every day is a struggle.

These two are my hardest, both adhd, at least one with ODD, both can go from 0 to 100 in .5 seconds on either end of the spectrum (sad/mad) and I was on my last string when thankfully my brother stepped in to help me buy vibe, life, balance and cbd.

I have my children on a daily regimen of these supplements. I'm not saying that my days are all peaceful BUT I can say that my kids have had a drastic change!

They have began to concentrate better, be able to handle situations better, go to bed better.

We have a ways to go but I can say that these supplements have began the path to a

better life with my children!

Not to mention my kids can actually take the pill themselves now! And they brag about how these are making them better.

Sometimes, I do my best thinking, in the complete silence of the morning...so you're just going to have to be ok with my pajamas and messy hair and crusty mascara left-over from the day before. Just for a bit....I have something I need to say. It's long, but please hear me out.

I am still trying to mentally process the whirlwind that has happened in my life for the last 2 weeks....in more ways than one.

Folks, I have been on such a journey, torturous at times, for well over 15 years, to find a way back to some sort of semblance of normalcy in my life. Now hear me...you probably see my posts and think, what is she talking about? Her life looks amazing! She has a job, a loving spouse, healthy kids, a nice home...what more does she need? YES, I do have ALL of those things and for that I am sooooo grateful but sometimes, we have other things going on behind the scenes that not everyone sees. Things that become big giant roadblocks when it comes to enjoying the good parts of life.

Mine has been my health. It's always my health.

*Have you ever missed out on quality time with your family on repeat because you're too sick or in too much pain to join them? I HAVE.

*Have you ever had a doctor treat you like you were crazy when you tried to tell them

that something was very wrong even though every single test came back "normal"? I HAVE. I actually had one tell me I just needed to calm down and go home and have a beer...not...even...kidding.

*Have you ever sat alone in the dark angry, SO ANGRY, with God for giving you this amazing life, but then also giving you immense challenges that prevent you from enjoying those gifts? I HAVE. My faith has been shaken so many times.

*Have you ever mentally run through what your kids and spouse' life would look like without you in it? Either because you think you're health is going to steal you away from them to soon or you aren't sure can carry on living in pain every day? I HAVE.

I've been in the deepest trenches of those dark places countless times. I DISTINCTLY remember a day that I went to a specialist in so much pain I could barely move, with hands that wouldn't work correctly, a leg that was numb and such brain fog that I thought I had early onset dementia. And they told me there was nothing wrong with me. I left that office and went back to work, where I locked myself in my office and had a mini mental breakdown, which led to a panic attack. I ran outside for fresh air, called my primary doctor and begged....sobbed for them put me on depression meds because I just wasn't sure what I might do.

I WAS SCARED.

One year later, after continually fighting for a diagnosis, I got one. MULTIPLE SCLEROSIS. And as crazy as it sounds, the only thing I felt in that moment was relief. "You aren't crazy Kara. You ARE sick. You have BEEN sick this whole time. You were RIGHT. NOW, we can fight this."

But guess what y'all. You can't get rid of MS. All you can do is treat the symptoms with meds. This med for muscle spasms. This one for restless legs. This one for depression. This one to make you sleep. This one for stomach issues. This one.....well, you get the picture. I now had to face the reality of pain forever or a medicated zombie. I CHOSE PAIN.

Now let's fast forward to a few months ago, when a friend reached out to me and told me that she found something... something I desperately needed. Help. A way to feel better. Safely. Without drugs. And I IGNORED HER. Because I had tried everything and I didn't have it in me to try again.

What I know now? She literally had my life right there... handing it back to me... a MASSIVE GIFT... and I didn't even know it

What I know now...I literally had my life right there!!! Handing it back to me...a WISDOM GIFT, and I didn't even know it because I was too conditioned to believe nothing was ever going to work.
Until two weeks ago when I finally said yes.
2 weeks...after all this time...TWO WEEKS is all it took to see that there is a light in that tunnel. There is a way to be pain free. There is a way to live my amazing life and to not struggle with anxiety, depression and a racing mind.
Am I kicking myself for waiting? Oh you bet I am. So much wasted time.
I feel good. Like REALLY good for the first time in 20 years. I could cry because I didn't realize how bad it had gotten. And I could cry because while I'm feeling good, I'm also able to bless my family with a lift from financial burdens as well. In just 2 weeks, I am just about to earn my first bonus of \$1,000. ONE THOUSAND DOLLARS. That's life-changing y'all!
You guys...this company has a box and inside it is the most WONDERFUL gift. A gift of health and opportunity. And they are handing that box...that gift to YOU.
DO NOT DO WHAT I DID. Take that gift and change your life! Now...right now. Because another day is never promised and how I WISH I had found my Life, **VIBE**, Mojo and raw CBD fluid sooner. My whole world would have been different. I am ooooozing with gratitude today.

Get Paid To Advocate Our Message!

If you ever wanted to make money in the health & wealth industry, **HERE'S YOUR CHANCE!**

Tranont is a Health & Wealth company that has actually been around for a while, however, they never really had an online presence.

As big of a company as they are, they haven't done any kind of marketing online...

UNTIL NOW!

The reason why I decided to join Tranont, RIGHT NOW, was not only for the health products that they offered, but because I was really looking for the right vehicle for wealth.

I was able to use my story with Anxiety to promote a product that **actually helped me**.

Not just with Anxiety, but also all the other products that could help all of my family members dealing with all kinds of other issues.

I was waiting for something I could be proud to promote, NOT just because I wanted to make money, but I'm in the game to help people in every aspect of their life.

So if my vision & the company's vision I affiliate myself with does not align, then I won't even buy the product/service.

And this is something every marketer should keep in mind.

Thanks for the Tranont product review! Good to know you successfully built a private Facebook community of over 70,000 members from all walks of life! One thing people appreciate in a product is its effectiveness. Once they take a product and see it work for them, they won't hesitate to spread the word. Interesting to know your products have been taken by many people out there, and they testified to the effectiveness!

I'm encouraged to promote these products, especially the ones that solve the problem of anxiety. This is an issue many people are suffering from, and I believe getting a lasting solution is amazing. Thanks for introducing the wellness aspect! I'd be more than happy to take it online and promote it to my audience. Thanks.

Haha thanks for the article my guy! To be honest with you, I've never even heard of Vibe Health or Tranont. From this article, it looks like a very dependable product and an even more dependable company! I'll definitely have to give them a look to see if they have any other products as worth it as this one. Thanks again!

You are most welcome my brother.

Thank you for stopping by.

Have a great day!

VIBE sounds very impressive! I'm just starting out in the holistic health and gut-brain axis field and was intrigued by the results people have gotten with this. It's important to me that the products I promote are natural and that they work. And it definitely seems that these work for many people.

It was heart-warming to read of people finally getting relief from life-long struggles with pain, anxiety, memory, and focus. I will keep you in mind as I build my brand and customer base. Perhaps there is some overlap here. Congrats on your success so far!
