Have You Had Your Own Oil Experience Yet?

Learning about essential oils is generally best in a live class environment where the oils can be experienced first-hand. However, if you can't seem to make it to a live class, the next best thing is our spOIL & surPRIZE Week!

Many have found the best way to engage in this online essential oil experience is to have your oils in front of you during the event as you participate. If you are new to oils and don't yet have your own, I would love to send you some samples to work with during the event.

Copaiba

You will be hearing much more about Copaiba essential oil in the near future and we will be adding more personal testimonies of using this oil as they come in. Copaiba is a Cannabinoid oil and more effective than typical CBD oils on the market today because of Copaiba's ability to interact with both CB1 and CB2 cannabinoid receptors! Watch Dr. Hill and Nicole Stevens

discuss the high level of beta-caryophyllene contained in Copaiba essential oil. Why is this component important? When you use Copaiba oil, the beta-caryophyllene interacts with a receptor on the surface of a cell. This interaction creates a chain reaction, which changes the way the molecules inside the cell behave. This causes the DNA and other molecules to be up-regulated, or down-regulated. In other words, Copaiba essential oil has the ability to offer profound strength and support to the immune and endocrine systems. [Learn more at our blog post on Copaiba HERE...](#) The potential for Copaiba oil is almost limitless!

“

You had suggested taking [DigestZen Softgels](#), to see if my bloody rash of many weeks would clear up. Telling me that maybe taking it internally and it entering the soft tissue would be better for me. I did this and the rash was completely gone in three days! This was like 2 months of rash to 3 days completely to healed!

— Sara R.

Franchise Teacher - Washington State

“

I started using essential oils over 10 years ago to make different bath/beauty products and also in my massage practice. Then about 6 months ago I had a friend invite me to a doTERRA party to learn about their products. I had a few friends that already used doTERRA products and loved them so I was very excited to see what they had to offer. After smelling one bottle of **Peppermint** I knew that all of the oils I had used those past 10 years were not even comparable to what I had in my hand at that moment. Then I smelled a few other oils and it scared me how huge of a difference there was between the oils I had always used compared to the oils I was now experiencing. I ended up ordering a **Natural Solutions Kit** and felt like that was just the beginning of a very great thing.

And man was I right! I can truthfully say that ordering that kit changed my life. It opened a door to this amazing team called Essential Ninja, where I have come across some incredible people and resources. It feels like one big, happy, crazy family of world changers! I feel so blessed to be able to share doTERRA with the world and help people reduce their toxic load while exploring safe and natural solutions to promote overall wellness.

— Kim H.

“

Clary Calm is noticeably effective in balancing my moods and hot flashes that come with being in my mid 40's!

Mindy Rowser is a fearless leader who invests herself 100% in her leaders in order to get them the training they need!

I know that I can trust the information that I get from Essential Ninja because both Mindy and Andrew are full of integrity and take the time to research topics for us.

— Pam V.

I used to take ibuprofen and Excedrin Migraine several times a week. I thought this was normal and harmless. I learned pretty quickly this was not the case after a co-worker noticed how frequently I was reaching for pain relievers. I did some research on whether I should be concerned and, sure enough, I found a plethora of literature stating the havoc synthetic pain relievers wreak on your system. Shortly after this revelation I was introduced to **Deep Blue Polyphenols**. This product has, quite simply, made my head tension and muscle aches so much more manageable!! I have only had 3 unbearable headaches/migraines, in the last year, where I did end up using plain aspirin. This has been a game changer for me. And I think my gut health has improved as well!

Note: I showed my Naturopath my bottle of **Deep Blue** and she commented "This looks like a really great product. Keep using it." :)

“

I have been in numerous car accidents being on the road as a Pharmaceutical rep for over 15 years. Not only are **Mindy's treatment sessions very effective** but also **her relaxation massage is the best I've ever had**. That little Ninja knows her stuff!

— Megan H.

Pharmaceutical Rep Denver, CO

“

So much information... answers so many questions! Thank you!

— Kandiss L.

Nampa, Idaho

“

One of my other favorites is that he (Patrick) did not take any pain killers after his sinus surgery or his bike accident. We put two drops of each **Frankincense, Marjoram, and Oregano** into a veggie cap, and he took one four times a day. **His discomfort was totally under control, without the negative side effects of narcotics.** They make him drowsy, and super itchy. **Now, we just use our oils!**

— Julie M.

Los Angeles, Washington
