

Giving the Gift of Health

Nathalie, Belgium

In the age of easy fixes and fast results, Nathalie Kever is an unapologetic ambassador for elbow grease. She knows that while change doesn't happen overnight, it can come a lot faster than you might think if you're willing to put in the work.

For nearly two decades, she was an independent beautician in Belgium, operating her own business. Nathalie became a specialist in the area of quick-fix slimming treatments that turned into a revolving door of clients returning again and again. She wanted to offer products that would promote a fundamental lifestyle change with meaningful, long-lasting results.

"I realized that many of the people coming to me to improve their figure had a lifestyle that compromised the effectiveness of the care I was providing," Nathalie remembers. "I've always been passionate about fitness and figured it was high time to instill that same type of passion in my customers."

She went online in search of the perfect food rebalancing program, something her customers could use at home to improve nutrition and live a more active lifestyle. It was during this research that Nathalie came across Forever Living's Clean 9® program. It seemed to have everything she was looking for, a nutritional foundation to reset the body and put someone on the path toward better eating and exercise habits.

At the time, Nathalie was wholly unfamiliar with the concept of network marketing but determined to find out how she could start offering C9 to her clientele. So she set up a meeting with a Forever distributor in her area. It didn't take long for Nathalie to become convinced that this was in fact, just what she'd been searching for.

She signed up as a Forever Business Owner and began selling C9 to her clientele. Nathalie's retail business took off faster than even she'd expected. Her clients were seeing great results and word quickly got around.

It happened like a whirlwind after that. Nathalie got so busy with her business that she recruited her son Lorenzo to help out. Nathalie managed the knowledge and product trainings while Lorenzo handled more of the day-to-day business aspects. In just over a year, Nathalie had become a Senior Manager and one of the top-performing FBOs in all of Belgium, Luxemburg and The Netherlands.

That's part of the reason Nathalie decided to close her beauty institute and focus primarily on her Forever Business. She realized her passion for Forever and the friends she's made through the opportunity far exceeded that of her former business.

"And I must admit the professional life is so much better at Forever," Nathalie says. "I finally have time to devote to my hobbies. I can spend more time with my son. You can't put a price on the type of value Forever has brought to my life."

With Nathalie's business going strong, she's keeping an eye on the future and says by the time she hits her 50th birthday in 2028, she plans to achieve Diamond Manager, one of the highest levels in the business. The way things are going now, Nathalie probably won't have to wait that long.
