# ROOM FOR GROWTH

## Claire and Gary

Claire started her business in January 2014 whilst on maternity leave from a career in education...

I had been searching for a way for me to be a full-time mum but not have to compromise on lifestyle. I suppose when I look back, I also knew I craved success, financial independence and that I wanted to set a great example for my children.

Very quickly I had developed an income that gave me the confidence in myself and belief in the company that I could develop a serious career with Forever and I made the decision not to return to work at the end of my maternity leave in June 2014. In fact, six months in and I was earning more than my full-time monthly wage, working part time around my daughter.

This wasn't without a very sceptical start. Network marketing was new to me and seeing for myself that I could, in fact, develop a serious career, as well as feeling fulfilled as a mum, made me feel both excited and sceptical. I could see others developing successful businesses so I developed the attitude that if they can, maybe with some work on myself then I could too!

I came with a huge desire to change my life and a great work ethic. This saw me quickly progress through the marketing plan and go on to qualify for the car, travel and chairman's bonus programmes. My income allowed us to get a mortgage on a house we wouldn't have been able to previously, which was a huge goal for us and our growing family.

I now continue to develop my business as a full-time mum to our three young daughters; Bella, 5, Sadie, 3 and Minnie 1. We have enjoyed not only a dramatic change in lifestyle that the income from my business has given us but also the time it has given us as a family.

I feel free, that's the best way to describe it. I won't miss a thing with my children because I'm in charge of my diary. I'm not aware of another opportunity that would enable us the same work life balance, lifestyle and financial security we have currently.

Forever is a way of living for us, not just a job that I pick up for an hour or two at a time and because of this I'm able to show the girls that by working hard and smart, anything is possible if you're bold enough to chase after your dreams. I use the nooks and crannies of the day to work my business, and the beauty of it for me is that many of the business-building activities are incorporated into life as a busy mum, perfect!

Our girls are growing up in a positive environment, with people with great attitudes, and around other children that we meet on the trips away with Forever. The travel incentives have been really special to us. I've used them as a way to enable the girls to see parts of the world that we wouldn't have been able to prior to me starting my business. I feel privileged that the company has invested in me, as the training and the people we have met as part of those trips have been incredible.

I'm driven by being able to show others that you can absolutely have both! You can have the time with your children whilst they're young without having to sacrifice income, career satisfaction and personal development.

My passion is to help others to see the potential in the marketing plan and help them to learn the skills necessary to make the changes they're looking to make to their lives. I'm a very proud Network Marketing Professional and am really excited about the future not only for our family but for the people we work alongside and the industry as a whole.
