# ZEST FOR LIFE

## Frankie

Frankie joined Forever in 2016. A few months prior, she was living in London working in education as a projects officer...

I loved my job, but I found that I was spending more and more time at work and on the daily commute. I had no social life and very little disposable income once my bills had been paid. I had a really poor work-life balance, and knew that I needed to make a change as year after year I'd promise myself that the next year would be different, and it never was. I wasn't happy, I was always anxious about what the next month would bring, and had lost a lot of my confidence and zest for life.

After eight years I made the decision to leave London and carried on working for my previous employer remotely but on a contract basis with no real security. I knew very few people in my area and there were no jobs local to me that excited me. Fortunately, that's when I came across Forever via a post on social media. I immediately recognised the products and got butterflies when I saw just the introductory information. When I saw the business presentation I knew it was something I wanted to do and something I would enjoy. I could see how Forever could give me the security and future I had dreamed of for so long.

In the months that followed I got stuck into the training, engaged with the team and fell in love with the products. I got to work on building a solid customer base and developing my skillset. One of the most important things that Forever has given me so far is confidence in myself and my abilities. I have delivered online training to my wider team several times which I would never have done when I first started, and I work closely with my sponsor who supports and encourages me to step out of my comfort zone to build my business.

I have built a solid business since joining Forever and getting recognised on stage at Success Express for promotion is an incredible experience which I am looking forward to repeating again and again in the future.

I enjoy a challenge and am working towards all the incentives that Forever has to offer. Forever has given me my confidence back, allowed me to escape the rat race and enjoy a healthy work-life balance. I am very excited about my future with this incredible company!
