

As a homeowner, it's important to do all you can to protect your home and your family if an unexpected accidental death prevents you from paying your mortgage. If you are not prepared, your home and everything you've worked hard for can be taken away.

### You Are Eligible For Mortgage Protection Insurance

Don't make the mistake of thinking an accident can't happen to you. Accidents can happen anywhere at any time. That's why having the security of this coverage is so important. Right now, you are eligible for Mortgage Protection insurance, an accidental death and dismemberment insurance policy that can give your family security in their home for just a fraction of your monthly mortgage payment.

### Premiums Never Increase

Choose the Individual Plan for yourself or choose the Family Plan so your entire family will be covered. Your premium will never increase for any reason, regardless of changes in health or occupation.
