Plaintiffs Dr. Mehmet Oz, Zo Co I, LLC ("Zo Co"), OW Licensing Company, LLC ("OW"), and Harpo, Inc. ("Harpo") (together, "Plaintiffs"), by and through their undersigned attorneys, for their Complaint against the defendants named in this action and described below (collectively referred to herein as the "Defendants") allege as follows:

NATURE OF ACTION

1. Dr. Oz, a renowned doctor who regularly appeared on television on the talk show *The Oprah Winfrey Show* ("TOWS") and who will host the soon-to-premiere *The Dr. Oz Show*, Zo Co, the owner of the DR. OZ family of trademarks, OW, the holder of the right of publicity rights of Oprah Winfrey – one of the most famous and respected individuals in the world – and Harpo, the owner of the "OPRAH" and "O" family of trademarks and the copyrights in the number-one-rated, award-winning *TOWS*, bring this action seeking injunctive relief and damages for the Defendants' deceptive and fraudulent practices that have harmed them and thousands of consumers who have been and are being injured by Defendants' conduct.
2. Defendants are the sellers, suppliers, importers and/or marketers of products that purport to be dietary supplements, such as for "resveratrol," "acai berry" and colon cleansing; cosmetics,

such as cellulite and anti-wrinkle creams; and/or over-the-counter drugs, such as tooth-whitening products (together, the "Infringing Products"). These Infringing Products include, but are not limited to: Resveratrol Ultra, ResV, Vital RezV, ResV Pure, ResV Pro, Youth ResV, ResVer XP, Acai Berry Breeze, Acai X3, Acai Pure, Acai Berry Detox, Acai Edge, Acai Burn, Body Solutions, Nature Cleanse, Colon Pro Cleanse, Power Colon Cleanse, Colon Max, Whitening Now, Easy White, Cellutone, and Cosmetyn.

3. These Defendants are willfully capitalizing on Plaintiffs' valuable reputation and intellectual property rights to lure consumers into ordering their Infringing Products on the false premise that they have been tested or recommended by Ms. Winfrey and/or Dr. Oz when they have not. Defendants are fabricating quotes or falsely purporting to speak in Dr. Oz's and/or Ms. Winfrey's voice about specific brands and products that neither of them has endorsed. Defendants' conduct has gravely injured Plaintiffs' reputations. Plaintiffs seek to stop the unauthorized and unlawful use of Dr. Oz's and Ms. Winfrey's names, pictures, voices and identities, and Harpo's and Zo Co's trademarks and copyrighted works in connection with Defendants' marketing and sales of, or offers to sell the Infringing Products.

4. Upon information and belief, many of Defendants' offers turn out to be credit card scams or other fraudulent schemes by which Defendants (a) charge customers despite advertising that the Infringing Products are available for a "free trial;" (b) fail to fulfill orders despite charging consumers; or (c) charge consumers for monthly subscriptions of Infringing Products without the consumers having signed up for any such subscription.

5. Defendants' conduct also raises serious public health and safety concerns because many, if not all, of the Defendants are illegally marketing the Infringing Products, which are not approved as drugs, as a means to cure, mitigate, treat or prevent diseases, illnesses, or serious

conditions. Such marketing messages are, upon information and belief, unsubstantiated and unauthorized health claims, which Defendants falsely attribute to Dr. Oz and Ms. Winfrey.

6. Defendants are brazenly using Plaintiffs' property and infringing upon their rights despite repeated requests that they cease and desist from such use and/or Plaintiffs' other extensive efforts to put a stop to such unauthorized and unlawful use.

7. Plaintiffs seek injunctive relief, damages, including exemplary and punitive damages, and attorney's fees under various causes of action, for violation of their statutory rights of privacy and publicity under New York Civil Rights Law §§ 50 and 51 and the Illinois Right of Publicity Act, 765 ILCS § 1075/1 *et seq.*, trademark infringement, false endorsement, sponsorship or affiliation, and dilution under Sections 32 and 43(a) of the Trademark Act of 1946 (the "Lanham Act"), 15 U.S.C. §§1114, 1116-1118 and 1125, copyright infringement under the Copyright Act, 17 U.S.C. § 101 *et seq.*, deceptive acts and practices under New York General Business Law § 349, false advertising under New York General Business Law § 350, violation of the Illinois Uniform Deceptive Trade Practices Act, cybersquatting under the Anticybersquatting Consumer Protection Act, 15 U.S.C. § 1125(d), common law unfair competition, and unjust enrichment.

68. New York is a major center of Plaintiffs' activities, and Defendants aggressively market and sell their goods in New York and in this District, including making sales to New York residents through active websites.

FACTUAL ALLEGATIONS

Plaintiffs Have Valuable Rights in Their Names, Pictures, Voices, Identities, and Trademarks

69. As a result of the investment of considerable time, effort and expense, both Dr. Oz and Ms. Winfrey have developed valuable rights in their names, pictures, voices, identities personas, and trademarks.

The Oprah Name and Marks

70. Ms. Winfrey is one of the world's most famous and respected individuals. Her fame is so extensive that she is instantly recognized by her first name "Oprah" alone.

71. *TOWS*, featuring Ms. Winfrey as the host, has aired since 1986, and is watched by tens of millions of daily viewers in 145 countries. New York City is a major market for *TOWS* and for the activities of Plaintiffs.

72. *TOWS* has covered a wide range of topics, including lifestyle, health, and nutrition. Just getting mentioned by Ms. Winfrey on *TOWS* can lead to an exponential increase in a product's sales. This has been colloquially referred to as "The Oprah Effect" or "The O Factor," and was recently the subject of a documentary aired on CNBC titled *The Oprah Effect* which premiered on or about May 28, 2009. Ms. Winfrey's reputation depends, in part, on the quality of the products she recommends, which she does only after careful consideration and vetting to make sure such products meet her standards and approval.

73. Plaintiff Harpo is the owner of many federal trademark registrations and applications for the mark "OPRAH," alone and in combination with other words. Harpo owns a federal registration, Registration No. 1,726,373, for "OPRAH" in International Class 041, covering "entertainment services rendered through the medium of television in the nature of a variety talk show series." Harpo is also the owner of Registration No. 2,521,889 for "OPRAH" in International Class 041, covering "[c]omputer services, namely, information via a web site featuring information on the subject matter of Applicant's television programs, films and videos, food and books via the Internet," and International Class 042, covering "[c]omputer services, namely, information via a web site featuring health, nutrition, fitness, volunteerism for charities, charitable work and philanthropic lifestyles via the Internet." Harpo is also the owner of Registration No. 2,638,506 for "THE OPRAH WINFREY SHOW" in International Class 041, covering "entertainment services rendered through the medium of television in the nature of a variety talk show series; and computer services, namely, providing information via an Internet

web site featuring information on the subject matter of Applicant's television programs, films and videos, food, and books," and International Class 042, covering "computer services, namely, providing information via an Internet web site featuring health, nutrition, fitness, volunteerism for charities, charitable work and philanthropic lifestyles." These registrations are incontestable pursuant to 15 U.S.C. §§ 1065 and 1115(b).

74. The name and trademark OPRAH is well recognized as denoting Harpo and is famous under 15 U.S.C. § 1125(c).

75. The fame of *TOWS* together with the fame of Ms. Winfrey have resulted in invaluable and incalculable good will to the right of publicity of Ms. Winfrey and to the "OPRAH" and "O" family of trademarks and copyrights.

The Dr. Oz Name and Marks

76. Dr. Oz is a well-regarded medical doctor and is vice chair of surgery and professor of cardiac surgery at Columbia University Medical Center and its College of Physicians and Surgeons, and host of the soon-to-premiere *The Dr. Oz Show*. He has written numerous books, including the *You* series, and other publications, and is a sought-after lecturer. He is involved in a number of non-profit efforts, including as a spokesman and adviser for an organization that provides health information to consumers. He has received multiple awards for his work.

77. Dr. Oz frequently appears on television to talk about healthcare and nutritional advice and policy, and is a frequent guest on *TOWS*.

78. Dr. Oz is known to the public as "Dr. Oz." He has obtained celebrity status and soon will be appearing in his own television show.

79. Zo Co owns several federal trademark applications for the mark DR. OZ, alone and in combination with other words, including Serial No. 77,736,468 for "DR. OZ" in International

Class 041, covering "Entertainment services in the nature of providing newsletters in the fields of diet, exercise, fitness, health and wellness, medicine and medical practices via e-mail; providing on-line journals, namely, blogs featuring information and entertainment in the fields of diet, exercise, fitness, health and wellness, medicine and medical practices; providing information and entertainment via the Internet in the fields of diet, exercise, fitness, health and wellness, medicine and medical practices."

80. Dr. Oz's fame has resulted in invaluable and incalculable good will to the name and trademark DR. OZ.

Plaintiffs' Copyrighted Shows In Which No Particular Dietary Supplements, Cosmetics or Drugs are Endorsed

81. Dr. Oz and Ms. Winfrey are very discerning about the products and services with which they associate themselves.

82. On or about May 5, 2005, Dr. Oz appeared in an episode of *TOWS* entitled "Insider's Secrets to Make You Younger and Healthier," in which he discussed colon health. Immediately following the episode, upon information and belief, Defendants started advertising and selling dietary supplements that purport to aid in "colon cleansing" on various websites by unlawfully and deceptively using Dr. Oz's and Ms. Winfrey's names, images, and voices.

83. On or about February 5, 2008, Dr. Oz appeared in another episode of *TOWS* entitled "Dr. Oz Reveals the Ultimate Checklist for Great Aging" in which he discussed a fruit called the "acai berry." Immediately following the episode, upon information and belief, Defendants started advertising and selling dietary supplements that purport to contain acai berry on various websites by unlawfully and deceptively using Dr. Oz's and Ms. Winfrey's names, images, and voices.

84. Most recently, on March 24, 2009, Dr. Oz appeared in an episode of *TOWS* entitled "Dr. Oz Extreme Life Extension," which focused on aging. In a segment of that episode, he discussed resveratrol, a compound found in some plants, fruits and seeds, and especially in the skin of grapes and certain grape-derived products (such as red wine) ("Resveratrol"). This segment of the March 24, 2009 episode of *TOWS* is hereinafter referred to as the "Resveratrol Clip."

85. Immediately following the airing of the Resveratrol Clip, upon information and belief, Defendants started advertising and selling dietary supplements allegedly containing Resveratrol on various websites by unlawfully and deceptively using Dr. Oz's and Ms. Winfrey's names, images, and voices.

86. Upon information and belief, Defendants are also advertising and selling anti-wrinkle and cellulite creams, as well as tooth-whitening products, by unlawfully and deceptively using Dr. Oz's and Ms. Winfrey's names, images, and voices.

87. Critically, neither Dr. Oz nor Ms. Winfrey endorsed any specific dietary supplement, cosmetic, or drug, on *TOWS* or at any other time, and in fact, in certain cases, discouraged the use of certain dietary supplements, cosmetics or drugs altogether.

Defendants' Unauthorized Use of Plaintiffs' Names, Pictures, Voices, Identities, Trademarks and Copyrighted Works

88. Defendants are unlawfully using Dr. Oz and Ms. Winfrey's names, pictures, voices, identities, personas, Plaintiffs Dr. Oz's, Harpo's and Zo Co's trademarks and Plaintiff Harpo's copyrighted works (together, "Plaintiffs' Property") in a number of ways, including, but not limited to, through search engine optimization through the use of embedded meta-tags and other methods; by purchasing keywords for sponsored links in search engines' advertising programs; through Internet and behavioral advertising methods, such as banner ads and affiliated marketing

programs; by using Dr. Oz's and/or Ms. Winfrey's names in domain names or webpage addresses themselves; by using Dr. Oz's and or Ms. Winfrey's names, images and voices on their websites; by purporting to be Dr. Oz and/or Ms. Winfrey; by claiming their Infringing Products have been recommended by Dr. Oz and/or Ms. Winfrey; and through videos containing images of Dr. Oz and/or Ms. Winfrey (together, "Defendants Unlawful Marketing"). These methods are explained in further detail below.

89. Defendants are using Plaintiffs' Property without Plaintiffs' consent or authorization.

90. Upon information and belief, Defendants did not seek Plaintiffs' written consent for use of Plaintiffs' Property in connection with the Infringing Products because they believed that they would not have received it, and because they wished to profit from this use without paying any compensation to Plaintiffs.

91. Had their permission been sought, Plaintiffs would have flatly refused to consent to the use of Plaintiffs' Property in connection with the Infringing Products.

Unauthorized and Deceptive Use in Search Engine Optimization: Sponsored Links and Meta-Tags

92. Defendants are using the Dr. Oz and Oprah names and marks in a number of ways to optimize their visibility on online search engines such as Google, Yahoo!, and MSN (now Bing).

93. Upon information and belief, Defendants have embedded meta-tags containing the Dr. Oz and Oprah names and marks, and are engaging in other search engine optimization strategies that violate Plaintiffs' rights in the Dr. Oz and Oprah names and marks, such that links to Defendants' websites appear in results of online searches for Dr. Oz's and Ms. Winfrey's names.

94. Upon information and belief, Defendants have bought keywords using the Dr. Oz and Oprah names and marks from online search engines, such that a search for "Dr. Oz" or "Oprah"

on their own and in conjunction with other words results in “sponsored links” to Defendants’ websites. Copies of sample sponsored link results for “Dr. Oz” and “Oprah” on Google, Yahoo! and MSN/Bing printed on July 10, 2009 are attached as Exhibit 2. These sponsored links listings give the false impression that the listed websites are sponsored or otherwise approved of by Dr. Oz and Ms. Winfrey when they are not.

95. In addition to purchasing keywords containing the Dr. Oz and Oprah names and marks, the titles and descriptions of Defendants’ “sponsored links” contain the Dr. Oz and Oprah names and marks. For example, they bear titles such as “Free Resveratrol – Dr. Oz” and “Dr. Oz Recommends” and descriptions such as “Oz is Giving You Two Free Bottles of Resveratrol.” This reinforces the false impression that the listed websites are sponsored or otherwise approved of by Dr. Oz and/or Ms. Winfrey.

Unauthorized Use in Domain Names

96. Defendants have or are also using the Dr. Oz name and mark in the domain names for their websites and/or their web addresses for specific pages on their websites. A representative sample of these domain names and web addresses is attached as Exhibit 3.

97. Defendants have or are also using the Oprah name and mark in the domain names for their websites and/or their web addresses for specific pages on their websites. A representative sample of these domain names and web addresses is attached as Exhibit 4.

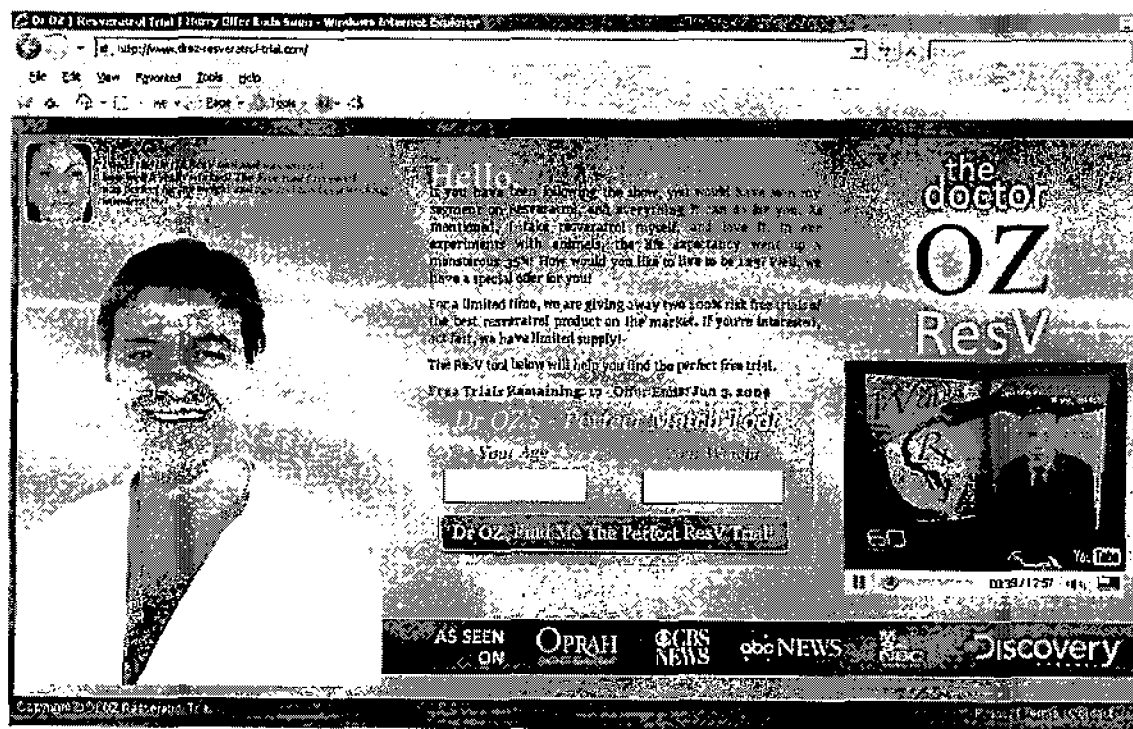

98. Many of these domain names are registered through third-party proxies, upon information and belief, in an effort to mask the identities of the true owners of the domain names and the operators of the offending websites, and to attempt to shield such owners from liability for their deceptive conduct.

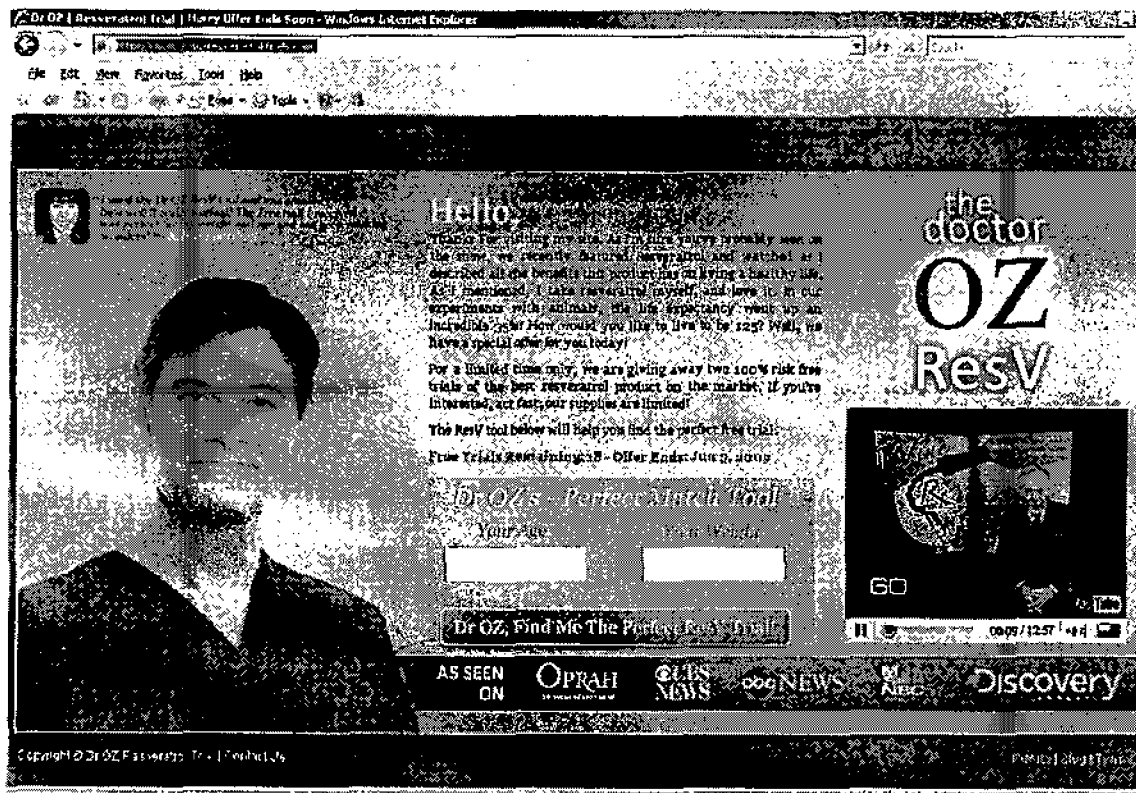

Unauthorized and Deceptive Use on Websites

99. Defendants are unlawfully using Plaintiffs' Property in a number of ways on their websites, such as: (a) prominently displaying Dr. Oz and/or Ms. Winfrey's name and marks as a false "branding" for their websites; (b) copying and distributing Harpo's copyrighted Resveratrol Clip, including Dr. Oz and/or Ms. Winfrey's voice, picture and identity; and/or (c) prominently displaying Dr. Oz and/or Ms. Winfrey's photographs, including still images from the Resveratrol Clip.

100. In addition, Defendants' websites claim or suggest that Dr. Oz and/or Ms. Winfrey specifically endorse or promote the Infringing Products, when in fact they do not.

101. For example, as shown below, on www.droz-resveratrol-trial.com and www.dr-oz-resveratrol-trial.com, Dr. Oz's name and image were illegally used to refer consumers to a Resveratrol product.

102. In the examples above, which are nearly identical, Defendants purport to sell “the doctor OZ ResV,” prominently display Dr. Oz’s photograph, and purport to be websites belonging to Dr. Oz, such as by including a “Dr. Oz’s Perfect Match Tool,” and state that he is giving away trials of Defendants’ product. All of this was done without Plaintiffs’ authority. The examples above also prominently display the words “As Seen On Oprah/The Oprah Winfrey Show,” misleadingly suggesting that this specific product was featured on *TOWS*, when in fact it was not.

103. Similar examples of Defendants’ Unlawful Marketing appear on websites that sell acai berry and colon cleanse dietary supplements, for example:

104. Attached as Exhibit 5 are equally egregious examples of additional websites that are part of the Defendants' Unlawful Marketing. These websites sell or promote several different Infringing Products and prominently display Dr. Oz's photograph and purport to speak in Dr. Oz's voice. For example, these websites make such misleading statements as, "if you have been following me on the Oprah show, you would have seen my segment on Resveratrol, and everything it can do for you." These websites go on to make specific false claims, such as that "our review team ordered twenty (20) products that provided FREE TRIALS and the good news is that the products arrived on time and were in fact free!" The websites also make specific health claims that are false, and which were never made by Dr. Oz on the Resveratrol Clip or in any other forum, such as that "a majority of patients were able to lose 15-35 lbs within a very short period of time and felt 50% healthier. We are also very happy to report that there were no

Resveratrol side effects detected during this test.” These websites also point to a particular Infringing Product, Resveratrol Ultra, and identifies it as “the Resveratrol that was showcased on Oprah,” when in fact it was not.

105. As set forth above, based upon information and belief, and on the identity or similarity of these websites, the fact that they are inter-linked, and the aggregation of these Infringing Products on certain websites, Defendants are alter egos of each other and/or are acting in concert with each other in connection with all the Defendants’ Unlawful Marketing and Infringing Products.

Fake Blogs and False News Reports

106. Defendants are also deceiving consumers by the use of fake blogs and news reports that purport to report true accounts of positive results from use of the Infringing Products, when in fact, these websites are advertisements for the Infringing Products. In addition, these fake blogs and news reports falsely reference Ms. Winfrey and Dr. Oz as their “sources.”

107. One such example is a false news report accessible at the URL www.news13direct.com, which contains a story reported by Cathy Diaz of News 13 WKTV in New York City. A copy of the fake news report is attached as Exhibit 6. Upon information and belief, no such reporter or news station, however, exists in New York City. The website directs visitors to purchase Resveratrol Ultra.

Unauthorized and Deceptive Use in Internet Advertising

108. In addition, Defendants advertise their Infringing Products through contextual and behavioral advertising methods, whereby advertisements are directed to consumers based on their browsing history or the content on the sites they visit.

109. These advertisements contain or use Plaintiffs' Property without authorization, and falsely claim or suggest that Plaintiffs endorsed or are affiliated with Defendants when in fact they are not. Representative samples of deceptive "banner ads" using Plaintiffs' Property are attached as Exhibit 7. Upon information and belief, these banner ads were placed by defendant CPX on behalf one or more of the defendant Does and ABC Companies 1 to 500 whose identities we have yet been able to ascertain. Upon information and belief, CPX placed these banner ads with, among other websites, AOL, and falsely and fraudulently represented to AOL that Dr. Oz had authorized the use of his name and image in the advertisement when he had not. Through AOL's advertising service, these banner ads have appeared on various websites, including the LA Times website, www.latimes.com.

Unauthorized and Deceptive Use in Unsolicited Email

110. Defendants advertise their Infringing Products through unsolicited spam emails using Plaintiffs' Property. Examples of Defendants' spam emails are attached as Exhibit 8.

Unauthorized and Deceptive Use in Videos

111. In addition, Defendants advertise their Infringing Products by distributing clips of *TOWS*, or making their own videos, which are distributed on various third-party websites, such as YouTube, which display user-generated video content ("UGC Video Sites"). These videos contain or use Plaintiffs' Property, and falsely claim or suggest that Plaintiffs endorsed or are affiliated with Defendants when in fact Plaintiffs have not endorsed and are not affiliated with Defendants. Examples of Defendants' use of Plaintiff's Property on UGC Video Sites are attached as Exhibit 9.

Unauthorized Use of Harpo's Copyrighted Works

112. Harpo is the owner of all rights, title and interest, including without limitation all copyrights, in and to various photographs of Oprah Winfrey (the Photographs") and the following episodes of *TOWS* (the "Episodes"): "Dr. Oz Extreme Life Extension" (containing the Resveratrol Clip), date of first publication March 24, 2009, Registration No. PA 1-633-071, with an effective date of registration within three months of first publication; "Insider's Secrets to Make You Younger and Healthier," date of first publication May 5, 2005, Registration No. PA 1-633-068; "Dr. Oz Reveals the Ultimate Checklist for Great Aging," date of first publication February 5, 2008, Registration No. PA 1-633-070; "Ask Dr. Oz," date of first publication February 13, 2007, Registration No. PA 1-635-926; "The Dr. Oz Diet," date of first publication November 2, 2006, Registration No. PA 1-635-927; "Dr. Oz 90 Day Live Longer, Feel Younger Plan," date of first publication May 1, 2006, Registration No. PA 1-635-929; "Look Ten Years Younger in 10 Days," date of first publication November 10, 2004, Registration No. PA 1-635-930; "The Great Debate: Should You Replace Your Hormones," date of first publication January 15, 2009, Registration No. PA 1-636-640. Copies of the recordation certificates for the assignment documents for the Photographs and representative samples of corresponding infringing uses are attached as Exhibit 10 and copies of the registration certificates for the Episodes and representative samples of corresponding infringing uses are attached as Exhibit 11.

113. Harpo has complied in all respects with the copyright laws of the United States, and all other laws governing copyright, and the Photographs and Episodes are original works of authorship.

114. Defendants have promoted the Infringing Products by, among other conduct, reproducing, distributing, publicly displaying and creating derivative works of the Photos and the Episodes on their websites, on UGC Video Sites and on third-party websites where Defendants' Unlawful Marketing appears, for example in banner ads.

115. A non-exhaustive list of websites on which Defendants have copied, distributed, publicly displayed and created derivative works of the Resveratrol Clip, is attached as Exhibit 12.

Defendants' Fraudulent Schemes Directed to the Public

116. Defendants' conduct does not stop at deceptively luring customers by unlawfully using Plaintiffs' intellectual property and other rights.

117. Upon information and belief, Defendants are engaging in fraudulent credit card scams. For example, consumers are promised a free trial, or told they will only incur certain limited charges, but Defendants then charge additional amounts to consumers, without their authorization, after obtaining their credit card account information. Defendants are also engaging in "negative option marketing," whereby consumers are required to automatically opt out of receiving unknown, recurring shipments and charges. When consumers attempt to reach company representatives in order to cancel their "free" trials, or to reverse or stop charges that the consumer did not agree to pay, they are unable to do so, and/or Defendants continue to charge additional amounts to the credit cards. In some cases, Defendants charge consumers and never send them any Infringing Products.

118. Upon information and belief, Defendants are also engaging in affiliated marketing programs, whereby they re-route visitors to various websites in order to increase the amount of "click through" revenues they can receive.

119. Upon information and belief, Defendants deliberately make themselves difficult to detect by failing to properly disclose their contact information, by obscuring their proper names and by changing their names, and by acting in concert in some other manner and/or as alter egos of each other which make them difficult to distinguish.

Injuries Due to Defendants' Unlawful Conduct

120. Defendants' Unlawful Marketing falsely suggests that Dr. Oz and/or Ms. Winfrey endorsed, sponsored and/or were otherwise affiliated or associated with the Infringing Products. Dr. Oz and Ms. Winfrey have never endorsed, sponsored or otherwise been affiliated or associated with the Infringing Products.

121. Defendants' actions are likely to cause, and have caused, confusion and misled the public, which has been and is being led to believe that Dr. Oz and Ms. Winfrey endorse, sponsor and/or are otherwise affiliated or associated with the Infringing Products, when, in fact, they are not.

122. In fact, Plaintiffs have received thousands of complaints from consumers, including consumers in New York and Illinois, reflecting their actual confusion and damage to Plaintiffs' reputation due to Defendants' conduct. Other organizations, such as the Better Business Bureau and www.complaintsboard.com, have also received thousands of similar complaints. For example, a recent article on Forbes.com, "A Headache for Dr. Oz" by Dirk Smillie, dated June 16, 2009, describes Defendants', including FWM's, deceptive conduct, details consumer complaints, and discusses the injury to Dr. Oz as a result. A copy of the article is attached as Exhibit 13.

123. Defendants' conduct is especially damaging to Dr. Oz's professional reputation as a doctor. In fact, Dr. Oz's employer, Columbia University, received a complaint based on

websites that falsely claim that Dr. Oz has conducted studies on the Infringing Products and endorsed particular brands.

124. The harm to consumers is both significant and widespread. Thousands of consumers have made complaints of Defendants' unlawful credit card charges and the effects they have had on the consumers' financial health and credit scores, in addition to other injuries. These complaints have been made, *inter alia*, directly to Plaintiffs, to consumer organizations such as the Better Business Bureau, www.complaintsboard.com and to law enforcement bodies.

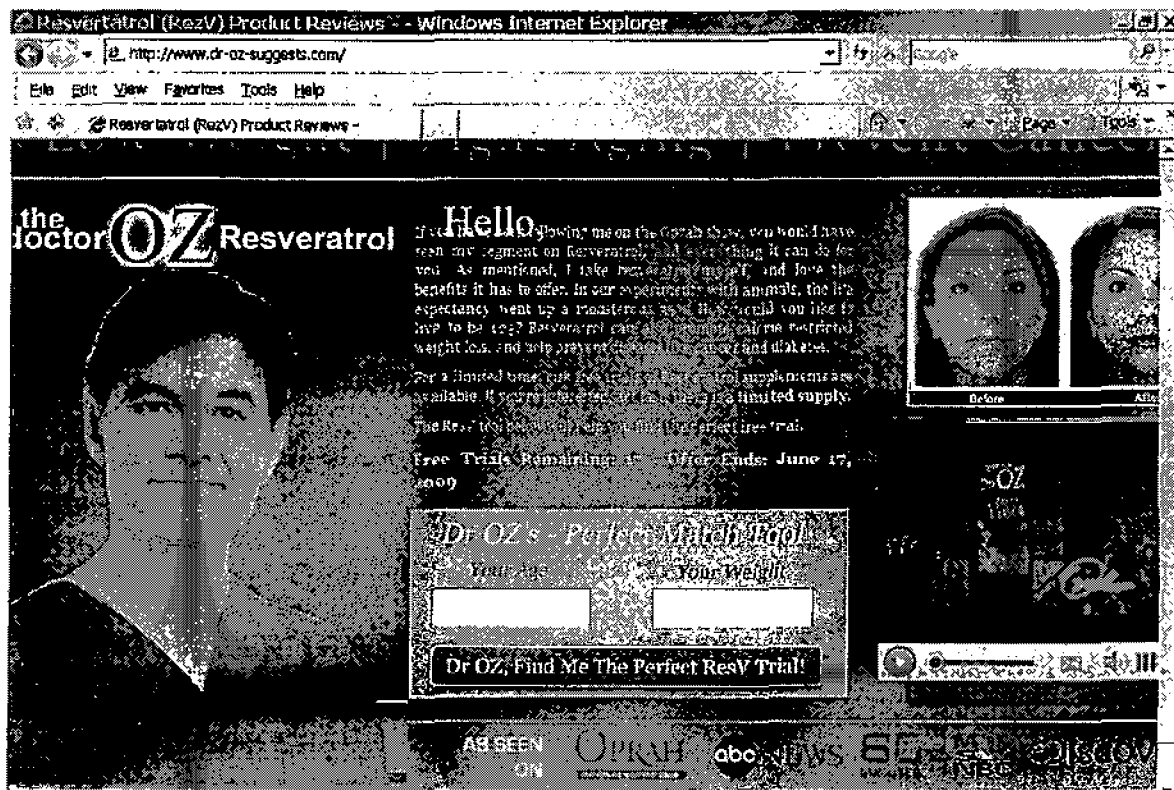

125. Upon information and belief, Defendants' unauthorized health claims also pose significant risk to public health and safety.

126. Upon learning about Defendants' wrongful actions, Plaintiffs have undertaken various efforts to stop Defendants' conduct and to stem the harm to consumers, such as by sending cease and desist letters, fielding phone calls from viewers and the public, issuing statements on the Oprah.com website, working with Internet Service Providers and search engines, and cooperating with various government authorities to remove infringing content. Plaintiffs have borne, and continue to bear, significant costs and expenses in undertaking these efforts.

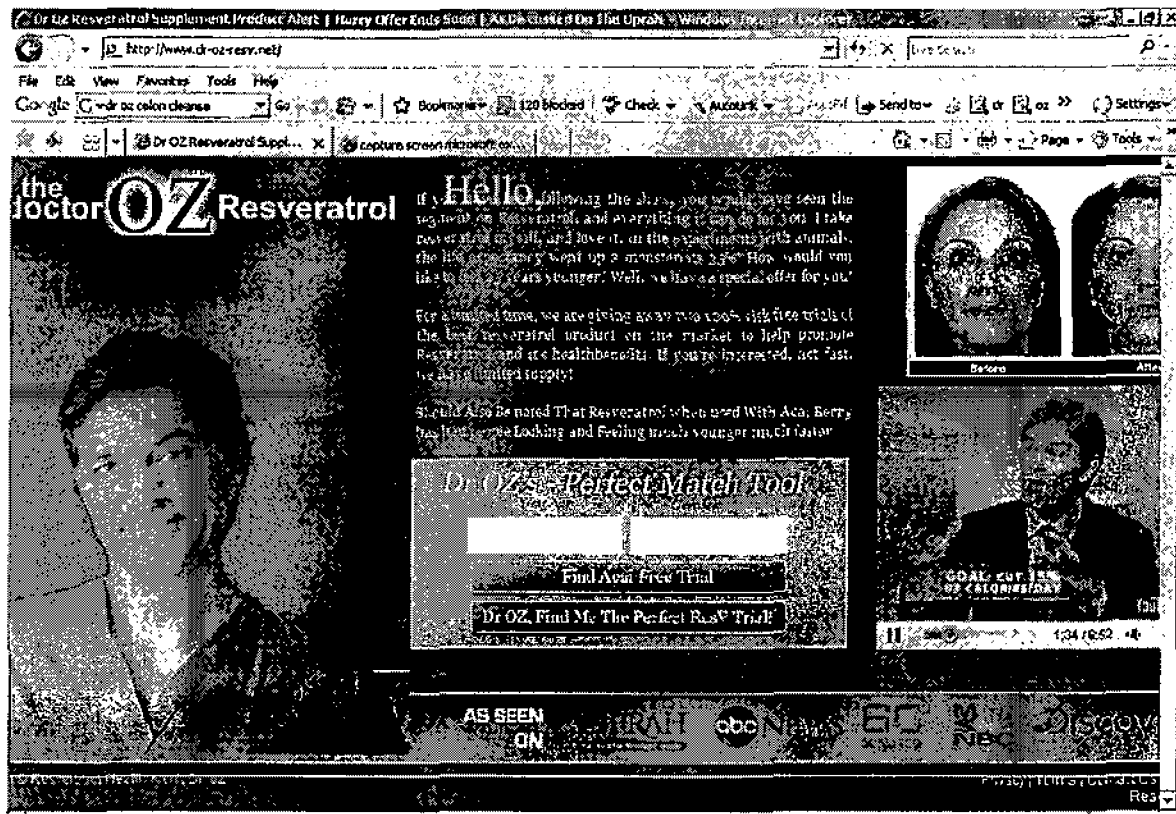

127. Despite these efforts, Defendants continue to violate Plaintiffs' rights and defraud the consuming public. Upon information and belief, in many instances, upon receiving notice from Plaintiffs of their unlawful conduct, or in response to Plaintiffs' efforts to have infringing materials removed or domain names transferred, many of the Defendants have merely changed the domain names at which the websites reside to avoid detection.

128. For example, shortly after Plaintiffs sent a Digital Millennium Copyright Act Notice to Google to request that the infringing materials on www.droz-resveratrol-trial.com and www.dr-oz-resveratrol-trials.com be removed, upon information and belief, Defendants registered a new

domain name through a proxy and posted the identical website at the domain name **www.dr-oz-suggests.com**:

129. Defendants' conduct of changing the domain names at which the websites reside to avoid detection continues to this day. For example, although the web site shown above is no longer accessible, a similar web site can be accessed at **www.dr-oz-resv.net**. A screenshot from **www.dr-oz-resv.net**, captured on August 17, 2009, follows below:

132. Dr. Oz did not consent, in writing or otherwise, to Defendants' use of his name, image, voice and/or persona in connection with the Infringing Products.

133. As a result, Defendants have violated Dr. Oz's right of publicity and right of privacy under Section 51 of the Civil Rights Law of the State of New York (the "CRL") and related statutes in other states and territories.

134. Defendants knowingly used Dr. Oz's name, image, voice and/or persona for advertising purposes without obtaining his written consent.

135. As a direct and proximate result of Defendants' actions, Plaintiff Dr. Oz has been damaged in an amount to be determined at trial.

136. By reason of the foregoing, plaintiff Dr. Oz is entitled to punitive or exemplary damages in an amount to be determined at trial, as well as disgorgement of Defendants' profits, receipt of plaintiff's costs, including reasonable attorneys' fees, and all other available relief under the CRL and related statutes.

COUNT II
(Violation of Right of Publicity, 765 ILCS 1075/1 et seq.)
(By Plaintiff OW)

137. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

138. Defendants used Ms. Winfrey's identity, including her name, image, voice and/or persona in connection with advertising the Infringing Products throughout the United States, including both within and outside of the States of New York and Illinois.

139. OW and/or Ms. Winfrey did not consent, in writing or otherwise, to Defendants' use of her identity in connection with the Infringing Products.

140. As a result, Defendants have violated OW's rights in Ms. Winfrey's right of publicity under the Illinois Right of Publicity Act and related statutes in other states and territories.

141. Defendants knowingly and willfully used Ms. Winfrey's name, image, voice and/or persona for advertising purposes without obtaining her written consent.

142. As a direct and proximate result of Defendants' actions, Plaintiff OW has been actually damaged in an amount to be determined at trial.

143. By reason of the foregoing, Plaintiff OW is entitled to punitive or exemplary damages in an amount to be determined at trial, as well as disgorgement of Defendant's profits, plaintiff's costs, including reasonable attorneys' fees, and all other available relief under the Illinois Right of Publicity Act and related statutes.

144. Plaintiff OW is also entitled to injunctive relief under the Illinois Right of Publicity Act and related statutes.

COUNT III
(Direct, Contributory and/or Vicarious Trademark Infringement
under Section 32(1) of the Lanham Act)
(By Plaintiff Harpo)

145. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

146. Upon information and belief, Defendants have either used the OPRAH marks directly on their websites without Harpo's consent, and/or with knowledge of the infringement, intentionally induced others to infringe the marks, continued to supply Infringing Products to others with knowledge or reason to know that they are engaging in trademark infringement, have profited from the infringement, are able to exercise direct control over the affiliates' infringement, had the ability to stop their affiliates' infringement, monitor their affiliates' actions that lead to sales of the Infringing Products, could take simple measures to prevent their affiliates' infringement and yet fail to do so, and there is an apparent or actual partnership between Defendants and the

direct infringers, giving each the authority to bind the other or exercise joint control over the products at issue.

147. Defendants' use of the OPRAH marks is likely to confuse or deceive the public in the United States into believing that the unauthorized activities of Defendants originate from, are associated with, or are licensed, sponsored or authorized, or otherwise approved by Harpo, all to the damage and detriment of the reputation and good will in the OPRAH marks.

148. Defendants' use constitutes direct, contributory and/or vicarious trademark infringement under section 32(1) of the Lanham Act, 15 U.S.C. § 1114(1).

149. Defendants' acts were done intentionally and with knowledge of Harpo's rights, and thus constitute deliberate and willful infringement. This is an exceptional case that warrants the award of attorneys' fees.

150. As a consequence of Defendants' willful misconduct, Harpo is entitled to injunctive relief as set forth below, and to an award against Defendants in the amount of three times Harpo's damages (which include damage to its marks and the reasonable value of a license), such sum above Defendants' profits arising from the infringement as the court deems just, destruction of all infringing materials, and Harpo's costs and attorneys' fees incurred in connection with this action.

COUNT IV
(Trademark Dilution by Blurring and Tarnishment under
Section 43(c) of the Lanham Act)
(By Plaintiff Harpo)

151. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

152. The OPRAH marks are distinctive and are famous as they are widely recognized by the general consuming public of the United States as a designation of the source of the goods and services of Plaintiffs Ms. Winfrey and Harpo.

153. Defendants began making use of the OPRAH Marks long after they became famous.

154. Defendants' use of the OPRAH Marks impairs the distinctiveness (blurs) and harms the reputation of (tarnishes) the OPRAH Marks.

155. Defendants willfully intended to trade on the reputation of and dilute the distinctiveness of the famous OPRAH Marks. This is an exceptional case that warrants the award of attorneys' fees.

156. Defendants' use of the OPRAH Marks without Harpo's consent, as described above, and/or causing, inducing or materially contributing to such use constitutes trademark dilution under section 43(c) of the Lanham Act, 15 U.S.C. § 1125(c).

157. Plaintiff Harpo is accordingly entitled to injunctive relief and an award against defendants in the amount of three times its damages (which include damage to its marks), such sum above Defendants' profits arising from the infringement as the court deems just, destruction of all infringing materials, together with Harpo's costs and attorneys' fees incurred in connection with this action.

COUNT V
(Direct, Contributory and/or Vicarious Trademark Infringement
under Section 43(a) of the Lanham Act)
(By Plaintiff Zo Co)

158. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

159. Upon information and belief, Defendants have either used the DR. OZ mark directly on their websites without Zo Co's consent and/or with knowledge of the infringement, intentionally induced others to infringe the marks, continued to supply Infringing Products to others with knowledge or reason to know that they are engaging in trademark infringement, have profited from the infringement, are able to exercise direct control over the affiliates' infringement, had the ability to stop their affiliates' infringement, monitor their affiliates' actions that lead to sales of the Infringing Products, could take simple measures to prevent their affiliates' infringement and yet fail to do so, and there is an apparent or actual partnership between Defendants and the direct infringers, giving each the authority to bind the other or exercise joint control over the products at issue.

160. Defendants' conduct constitutes direct, contributory and/or vicarious trademark infringement under section 43(a) of the Lanham Act, 15 U.S.C. § 1125(a).

161. Defendants' acts were done intentionally and with knowledge of Plaintiff Zo Co's rights, and thus constitute deliberate and willful infringement. This is an exceptional case that warrants the award of attorneys' fees.

162. As a result of Defendants' deliberate and willful infringement, Plaintiff Zo Co has suffered irreparable harm. Plaintiff Zo Co has no adequate remedy at law and, if Defendants' activities are not enjoined, Plaintiff Zo Co will continue to suffer irreparable harm and injury to its reputation and good will. In addition, as a result of this trademark infringement, Plaintiff Zo Co has sustained and is continuing to sustain damages in an amount to be determined at trial, plus interest, costs and attorneys' fees.

COUNT VI

**(False Designation of Origin, False Endorsement and Sponsorship and Unfair Competition
under Section 43(a) of the Lanham Act)
(By Plaintiffs Zo Co and Harpo)**

163. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

164. Defendants' use of Plaintiffs' names, marks, and identities, without their consent, as described above, and/or causing, inducing or materially contributing to such use, constitutes false designation of origin, and unfair competition under section 43(a) of the Lanham Act, 15 U.S.C. § 1125(a)(1)(A).

165. By disseminating the Defendants' Unlawful Marketing without authorization, Defendants have falsely represented to the public that Plaintiffs endorse, sponsor and/or are otherwise affiliated or associated with Defendants' goods, services or other commercial activities, when in fact that is not the case.

166. Defendants' acts were designed to entice consumers to purchase the Infringing Products, and their materially false representations were likely to deceive or confuse, and have deceived or confused, the public into believing that Plaintiffs endorse, sponsor and/or are otherwise affiliated or associated with Defendants, when in fact that is not the case.

167. Defendants availed themselves of the advantages of Plaintiffs' extensive efforts, goodwill and fine reputation willfully and deliberately, with knowledge of Plaintiffs' rights, and with the intent to unfairly commercially benefit Defendants' at Plaintiffs' expense. This is an exceptional case that warrants the award of attorneys' fees.

168. Plaintiffs have been damaged by Defendants' unauthorized use of their names, marks and identities.

169. Upon information and belief, Defendants have derived substantial revenue and profits as a result of their conduct, at Plaintiffs' expense.

170. As a consequence of Defendants' willful misconduct, Plaintiffs are entitled to injunctive relief and to an award against defendants in the amount of three times Plaintiffs' damages, such amount to be determined at trial, destruction of all infringing materials, and plaintiffs' costs and attorneys' fees incurred in connection with this action.

COUNT VII
(Cybersquatting under the Anticybersquatting Consumer Protection Act,
15 U.S.C. § 1125(d)(1)(A))
(By Plaintiffs Zo Co and Harpo)

171. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

172. Defendants' registration of domain names using Zo Co's and Harpo's marks, including those in Exhibits 3 and 4, constitutes cybersquatting in violation of Section 1125 of the Anticybersquatting Consumer Protection Act, 15 U.C.S. § 1125(d)(1)(A).

173. The DR. OZ mark and OPRAH marks are inherently distinctive.

174. The domain names registered by Defendants are identical and/or confusingly similar to the DR. OZ and OPRAH marks.

175. Upon information and belief, Defendants registered the above-described domain names in bad faith with an intent to profit. Defendants' bad-faith in registering the infringing domain names is evidenced by, among other things, Defendants' registration of multiple domain names which Defendants know are identical or confusingly similar to Plaintiffs' marks. Upon information and belief, Defendants were fully aware of Plaintiffs' strong marks in DR. OZ and OPRAH before they registered the domain names at issue.

176. Furthermore, for the following reasons, Defendants' actions have been taken in bad faith with an intent to profit: (a) Defendants do not have any trademark or intellectual property rights in the domain names; (b) the domain names do not contain the legal name of Defendants or a name commonly used to identify Defendants; (c) Defendants did not make noncommercial or fair use of the DR. OZ or OPRAH marks in a site accessible under the domain name; and (d) Defendants intended to divert consumers to websites that could harm the goodwill represented by the DR. OZ and OPRAH marks for commercial gain, by creating a likelihood of confusion as to the source, sponsorship, affiliation, or endorsement of their websites.

177. As a result of Defendants' actions, Plaintiffs have suffered irreparable harm. Plaintiffs have no adequate remedy at law and, if Defendants' activities are not enjoined, will continue to suffer irreparable harm and injury to their goodwill and reputations.

178. As a consequence of Defendants' willful misconduct, Plaintiffs are entitled to injunctive relief prohibiting Defendants from using or registering as a domain name Plaintiffs' names and trademarks, alone or in combination with other words, and ordering Defendants to transfer any such domain names to Plaintiffs, and to an award against Defendants in the amount of three times plaintiffs' damages, such sum above Defendants' profits arising from the infringement as the court deems just, destruction of all infringing materials, and plaintiffs' costs and attorneys' fees incurred in connection with this action. In the alternative, Plaintiffs are entitled to an award of statutory damages in the amount of up to \$100,000 per domain name, or as the court considers just but no less than \$1,000 per domain name, plus costs and attorney's fees.

COUNT VIII

**(Direct, Contributory and/or Vicarious Copyright Infringement Under The Copyright Act)
(By Plaintiff Harpo)**

179. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

180. Harpo owns valid copyrights in the registered Resveratrol Clip and all of the infringed *TOWS* episodes and images of Oprah, including the works identified in Exhibits 10 and 11, which are original works of authorship.

181. Defendants had access to Harpo's copyrighted works, and intentionally copied and distributed them, or portions or still images from them, without Harpo's consent, and/or had knowledge of infringing activity and induced, caused, or materially contributed to it, and/or induced the infringement, and/or had the right and ability to supervise the infringing activity and had a direct financial interest in the activity.

182. Defendants' use constitutes direct copyright infringement and/or contributory and/or vicarious infringement under the Copyright Act.

183. Defendants' acts were done intentionally and with knowledge of Harpo's rights, and thus constitute deliberate and willful infringement.

184. As a consequence of Defendants' willful misconduct, plaintiff Harpo is entitled to injunctive relief as set forth below; to an award against Defendants in the amount of (i) Harpo's damages and Defendants' profits arising from the infringement, or in the alternative, (ii) statutory damages in the amount of up to \$150,000 per work infringed; destruction of all infringing materials; and plaintiffs' costs and attorneys' fees incurred in connection with this action.

COUNT IX
(Common Law Unfair Competition / Unjust Enrichment)

185. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

186. Defendants' use of Plaintiffs' Property without Plaintiffs' consent, as described above, and/or causing, inducing or materially contributing to such use constitutes unfair competition under New York and Illinois common law.

187. As a direct and proximate result of the foregoing, Defendants have been unjustly enriched at the expense of Plaintiffs.

188. Defendants' acts were done intentionally and with knowledge of Plaintiffs' rights, and therefore in bad faith.

189. As a result of Defendants' deliberate and willful conduct, Plaintiffs have suffered irreparable harm. Plaintiffs have no adequate remedy at law and, if Defendants' activities are not enjoined, Plaintiffs will continue to suffer irreparable harm and injury to their reputations and good will. In addition, Plaintiffs have sustained and are continuing to sustain damages in an amount to be determined at trial.

COUNT X
(Violation of Section 349 of New York General Business Law)

190. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

191. Defendants' aforesaid acts constitute deceptive acts and practices in the conduct of business in willful and knowing violation of New York General Business Law § 349.

192. Plaintiffs have no adequate remedies at law to compensate them for all the damages that have been caused by defendants' wrongful acts, and that will be caused if Defendants' wrongful acts are not immediately enjoined.

193. Plaintiffs have suffered monetary damages as a result of Defendants' wrongful acts, in an amount to be proved at trial.

COUNT XI
(Violation of Section 350 of New York General Business Law)

194. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

195. New York General Business Law § 350 prohibits "[f]alse advertising in the conduct of any business, trade or commerce or in the furnishing of any service in this state"

196. Defendants' statements, as set forth above, were consumer-oriented and made in the conduct of business, trade or commerce in New York.

197. Defendants' statements were misleading in a material respect and were and/or are likely to mislead consumers.

198. Defendants' statements constitute false advertising in willful and knowing violation of New York General Business Law § 350.

199. Defendants' statements caused harm to Plaintiffs and to the public at large.

200. Plaintiffs have no adequate remedy at law to compensate them for all the damages that have been caused by Defendants' false advertising and that will be caused should those acts not immediately cease.

201. Defendants have suffered money damages as a result of Defendants' false advertising, in an amount not yet ascertainable but which will be determined at trial.

COUNT XII
(Violation of Illinois Uniform Deceptive Trade Practices Act)
(By Plaintiffs OW and Harpo)

202. Plaintiffs repeat and reallege the allegations stated in the preceding paragraphs of the Complaint as if set forth fully herein.

203. Defendants' conduct as described above constitutes deceptive trade practices in violation of the Illinois Uniform Deceptive Trade Practices Act, 815 ILCS §§ 510 *et seq.*

204. As a result of Defendants' unlawful acts, Plaintiffs have suffered, and continue to suffer irreparable harm and pecuniary damages in an amount yet to be determined.

WARNING! Beware of Resveratrol Scams:

Following the Dr Oz and 60 Minutes specials, a number of companies have started selling inferior or even fake Resveratrol Products. For this reason, we have reviewed all Resveratrol being sold on the market today. We found that some products have almost no effect at all while others worked rapidly and effectively at reversing aging, reducing weight and boosting metabolism.

We found only 3 Free Trial products worthy of Dr Oz's endorsement:

1. Resveratrol Ultra ~ 2. Pure RezV ~ 3. Vital RezV

OZ's TIP: "All products reviewed offer a Free Trial. You can trial multiple products for FREE"

All of the people who tested the product reported a lift in their overall energy levels only 3 days after they started taking it. Everyone also report their appetit has decreased and they were eating less and after only 7 days everyone lost a large amount of weight. Losing weight and feeling great is not a hard goal to complete. After using Oprah's Acai Berry Diet I was able to lose 17 pounds in 1 month using the two FREE trial products below! Let me give you a little more information about this amazing weight loss diet. Oprah's Acai Berry Diet is pretty simple and contains two major ingredients, all natural acai berry supplement and an all natural colon cleansing supplement. Together the products are great for your body, the reason I chose the Acai Berry Blast was that it also contained Hawaiian Noni and Green Tea, two other all natural ingredients that help boost energy and burn fat. For the colon cleansing supplement I chose Power Colon Cleanse - America's #1 selling Detox product. What this all natural product does is clean out your digestive track of unwanted sludge and build up which causes you to be sluggish and bloated. So what do you get by combining these two free trials? You get the great energy boost, increased mental focus and appetite suppressant of the Acai Berry Blast and you get rid of excess waste and toxins built up in your colon with the Power Colon Cleanse. Acai Berry Side Effects

 The verdict is in! Here are the final results of our 14 day test for Acai Berry Side Effects and overall effectiveness of the Acai berry for weight loss.

Oprah's show has only just recently reviewed the RezV or **Oprah Resveratrol pill** as one of the secrets to beating breast cancer and anti-aging. ResV is a compound found in **red wine and green diets** which helps protect your estrogen from potentially causing breast cancer which recent test tube studies have revealed.

These studies are obviously in their preliminary stages, but one medical fact is that it does increase the ability of certain enzymes to help destroy the dangerous estrogen metabolites which are present throughout your system.

Acting as an **anti-oxidant** the Resveratrol supplement composite which comes from **polyphenols** has some of the **highest level of anti-oxidants** on the market and is at the center of the anti-aging medical journal debate. In its purified form it has shown to gradually slow down the breakdown of muscle and fat tissue by detoxifying the body and subsequently **slowing down your aging time clock** and acting as a metabolism booster.

This composite is also located on the Japanese island of Okinawa in which the people are renowned for living longer and healthy lives. Health Specialist Cathy Diaz Reports On Her Experience Using Resveratrol

Cathy Diaz
Monday, June 15, 2009

NEW YORK - I'm a 35-year-old news veteran, who's been covering health and wellness news for more than a decade. I admit I can sometimes be jaded and skeptical with an 'I've seen it all attitude.'

"Scientists have identified a substitute to red wine called Resveratrol that they believe might do more than just protect the heart but could, in very high concentration, significantly extend life by preventing a number of age-related illnesses."

Birth of a Story

When the news director John Beamer asked me to do an investigative report on the nutritional supplement Resveratrol when combined with Dermapril, I had no idea that I would end up as the 'star' of my own story. But I did!

John had seen Resveratrol all over the news and media lately and wanted to get to the bottom of this new 'miracle product', so he gave me the task to do a story on it.

Rich in antioxidants and believed to promote healthy, younger looking skin as well as increasing energy levels, it has gotten a lot of attention in the national media. When I dug further, the real secret was adding it to a product called Dermapril as well. Here's why:

"Scientists have identified a substitute to red wine called Resveratrol that they believe might do more than just protect the heart but could, significantly extend life by preventing a number of age-related illnesses."

Oprah, Barbara Walters, CNN, and 60 Minutes were my 'sources'

Resveratrol has been 'in the news' for nearly two decades. For example, 17 years ago, CBS News and Morely Safer did a story on Europeans who tend to eat a high fat diet, but drink a lot of wine and have lower levels of fat and cholesterol than Americans.

Those benefits were not the wine, per se, but the Resveratrol in the skin of the grapes used to make the wine.

I learned more about Resveratrol's benefits from Dr. David Sinclair, Associate Professor of Pathology at Harvard University Medical School. In an interview for **ABC News**, Sinclair told Barbara Walters that study trial participants who used Resveratrol "had improved skin, increased energy and lived 30% longer."

Even **Oprah Winfrey's** favorite medical man - Dr. Oz says, 'I take Resveratrol myself, and love it.' Dr. OZ goes on to say 'It turns on a system in your body that prevents your cells from aging'.

Bottles of Resveratrol have been selling like wildfire ever since Dr. Oz's appearance. But were 'good sales' an indication that Resveratrol was a good product? I wasn't convinced yet. I decided to try Resveratrol while using Dermapril at the same time for myself...

Like I said... I'm in news, and I don't take anything at face value. So I decided to put these two products.

One of our loyal viewers sent these photos in recently. Marie combined a free* Trial of Dermapril Skin Crème with Resveratrol Ultra and saw a much younger appearance. Dermapril is offering our viewers the same free* trial!! I recommend combining the two products as she did.

Resveratrol & Dermapril to the test myself and monitor the results I achieved. I asked two colleagues -- my editor David and my photographer Vivien -- to take the challenge, too. They're skeptics like me, but they had become somewhat unhealthy over the years due to a hectic lifestyle and caring for their children and decided to give it a try.

So the three of us made a pact to take Resveratrol & Dermapril for 30 days and document our findings. We found the most reputable Resveratrol product, and skin cream product on the market (Resveratrol Ultra & Dermapril) and ordered the free trials. We received our order 3 days later and Cathy's 30-Day Resveratrol Challenge was officially 'on.'

Usually as a reporter I find products that are "too good to be true" and report on how they didn't live up to their claims. I can say with the utmost certainty that this is a feel good story for the "ages"!

"The results were so dramatic we started to look and feel younger within 24hrs of taking Resveratrol & Dermapril"

"Vivian combined a Free Trial of Dermapril Skin Cream with Resv Ultra and her results were astonishing. We took before and after photos! Dermapril is offering our readers the same free trial! I recommend combining the two products."

As the month wore on we gained a tremendous amount of energy from Resveratrol's antioxidant properties that helped to improve our overall health, while our wrinkles started disappearing from Dermapril.

We were all sleeping better and we looked way better, too. David became aware of how much his 'color' had improved. He looked healthy and literally 'in the pink.' His crows feet even started fading.

Vivien and I noticed that our skin seemed brighter and healthier. Both of us agreed that there were fewer visible wrinkles when we looked in the mirror. Our hair was also noticeably softer and had more volume to it.

We all experienced tremendous energy boosts all day long. All three of us had energy after a hard days work to spend time with the kids playing instead of in front of the TV as we used to do because of exhaustion.

John really liked the story we did. He was so impressed with the research I'd done and the information I'd uncovered, that he decided to give Resveratrol & Dermapril a try himself; maybe I'll do a follow-up report on HIM!

Resveratrol Ultra is trying to spread the word on the miracle powers of Resveratrol. I suggest checking out their site for a Free Trial, and don't forget to pair it up with a Free Trial from Dermapril for the ultimate results.

How I got a Six Month Supply Using Risk-Free Trials!

Digging a little deeper, I found that the 3 largest sellers of Resveratrol were essentially using the same amount of the supplement per pill. Seeing as how they were all offering free trials, I decided to order all 3 to save a little bit of money on my end. I recommend you do the same. With the shipping and handling it all comes out to \$18. If you take half the recommended dosage it will last an entire year! The products are listed below.

Resveratrol Ultra

- Another very good product I have been using at the recommendation of one of my readers. I was able to get this for free too with their trial program.

At the time this story goes to print, there are still Free Trials available. ☺

Video game group files lawsuit over CTA ad rule - Washington Post

Entertainment Software Association

The association maintains that computer and video games are entitled to the same free speech protection under the First Amendment as other forms of entertainment such as movies.

Kenneth L. Doroshow, general counsel of the association, pointed out that the movie "Resident Evil," which is based on a video game, could be advertised on CTA buses and trains but the game itself could not under the rule, which was approved in November 2008.

association court costs and legal fees.

Doroshow said association officials discussed the matter with CTA officials for some time and that the transit authority's objection was that some games labeled "mature" and "adults only" could inspire violence among those who play the games.

hoodia diet pills | Appetite Suppressants | Weight Loss Reviews - Part 9 - Windows Internet Explorer
<http://www.hoodiaheadquarters.com/page/9>

Since Hoodia arrived onto the weight loss scene, many a celebrity has been associated with it both commercially and unwittingly. None more so than the Queen of the chat show, Oprah Winfrey.

Certified Effective

Oprah's association with Hoodia was during the summer of 2005, much later than other high profile organizations such as the BBC, CNN and 60 Minutes.

After Oprah's article in her official magazine "O", Hoodia reached a pinnacle of popularity - the US public seem to take Oprah's opinion on whatever subject, product or brand and gloss over the fact that Oprah has never stated that she recommends or has ever used a Hoodia weight loss pill.

HoodiaHeadQuarters is pro Hoodia but we have to draw attention to this fact in the interest of the consumer - as many commercial Hoodia products have used the Oprah association to their advantage directly referencing Oprah Winfrey endorsing their specific brand.

Oprah Winfrey's Hoodia Article

O Magazine published a ghost written article entitled The Next Generation Of Diet PILLS - the article was a generalization about weight loss supplements, diet pills and appetite suppressants, highlighting Hoodia as the most effective and best of breed.

The article did not confirm or deny whether Oprah Winfrey has used a Hoodia diet pill but was cleverly written and up the reader to interpret.

Renowned the world over as "Oprah's Double Diet Magic", this two way diet plan draws its true inspiration from the world famous, "Oprah Winfrey Show"

Oprah's Double Diet Magic #1: The Acai Berry Supplement

The Acai Berry Supplement was rated as the #1 Super Food in the Oprah Winfrey Show.

Here is what Oprah had to say about it:

"According to the researchers, Acai Berry is one of the healthiest and the most nutritious foods in the world in fact it is a complete food in itself"

-Oprah Winfrey Show

A Brief Overview On Acai Berry?

Considered nature's #1 Energy Food by Oprah, Acai Berry has all the essential ingredients one needs to complete the basic bodily functions. A typical 100gms of Acai Berry extract contains calcium 250mgs, Vitamin C, iron 4.3 mgs, Vitamin A-1003U, amino acids 7.5%, glutamic and aspartic acids, omega3 and omega9 fatty acids, rich dietary fiber, high quality proteins and rare antioxidants. Acai Berry is therefore capable of completing your daily food requirements through

Colon Cleanser Supplement

Acai Berry on Rachael Ray:

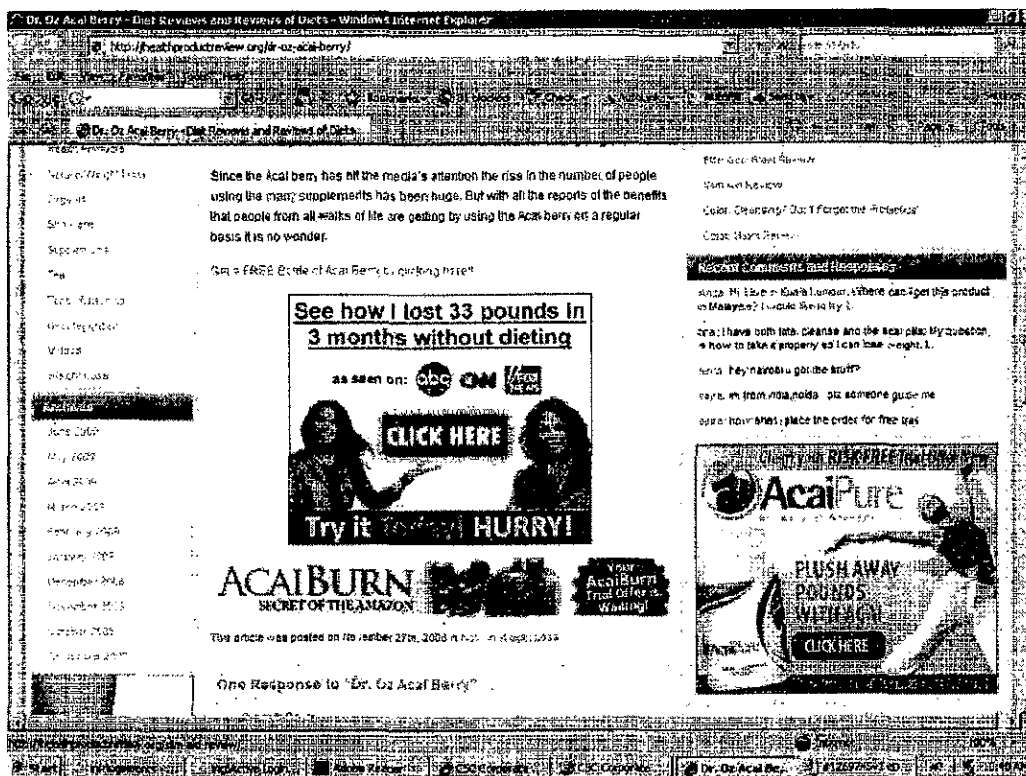

Rachael Ray Show: "It may seem odd to start this list of superfoods with one you've likely never even heard of. But studies have shown that this little berry is one of the most nutritious and powerful foods in the world. Acai (ah-sigh-ee) is the high-energy berry of a special Amazon palm tree. Harvested in the rainforests of Brazil, acai tastes like a vibrant blend of berries and chocolate. Hidden within its royal purple pigment is the magic that makes it nature's perfect energy fruit. Acai is packed full of anti-oxidants, amino acids and essential fatty acids."

Hoodia Diet Pills | Appetite Suppressants | Weight Loss Reviews - Part 9 - Windows Internet Explorer

http://www.hoodiaheadquarters.com/page/9

Since Hoodia arrived onto the weight loss scene, many a celebrity has been associated with it both commercially and unwittingly. None more so than the Queen of the chat show, Oprah Winfrey.

Oprah's association with Hoodia was during the summer of 2005, much later than other high profile organizations such as the **BBC, CNN and 60 Minutes**.

After Oprah's article in her official magazine "O", Hoodia reached a pinnacle of popularity - the US public seem to take Oprah's opinion on whatever subject, product or brand and gloss over the fact that Oprah has never stated that she recommends or has ever used a Hoodia weight loss pill.

HoodiaHeadQuarters is pro Hoodia but we have to draw attention to this fact in the interest of the consumer - as many commercial Hoodia products have used the Oprah association to their advantage directly referencing Oprah Winfrey endorsing their specific brand.

Oprah Winfrey's Hoodia Article

O Magazine published a ghost written article entitled **The Next Generation Of Diet Pills** - the article was a generalization about weight loss supplements, diet pills and appetite suppressants, highlighting Hoodia as a the most effective and best of breed.

The article did not confirm or deny whether Oprah Winfrey has used a Hoodia diet pill but was cleverly written and up the reader to interpret.

matter critical to the health of 65 million women in the U.S. At issue are the options for treatment of menopause symptoms that cause significant health problems for women in mid-life as their bodies produce fewer hormones. It doesn't seem like a complicated problem, given advances in medical science. [read more >](#)

If you're a woman who's planning to live past the age of 35, at some point you're going to face hormone imbalance.

I want to make the point that it's not just women who are on the verge of menopause who need to educate themselves about their bodies and hormones. I think all women should. Prior to the age of forty-five, I didn't know anything about how our hormone levels vary with each passing decade and how this can affect us, but I really wish I had. In that case, I would have started managing my hormone levels in my thirties."

A Headache For Dr. Oz

Dirk Smillie, 06.16.09, 6:00 AM ET

Oprah Winfrey's latest protégé, Dr. Mehmet Oz, made some startling claims this spring in appearances on *Oprah* and *Good Morning America*. Dr. Oz, whom Winfrey calls "America's doctor," talked up the anti-aging properties of resveratrol, a substance found in red wine. Oprah looked a tad skeptical as Dr. Oz, sitting in hospital scrubs and holding a bowl of green pills, described his belief that drinking red wine could substantially slow aging. To get enough resveratrol, however, you'd have to drink 24 bottles of wine a day. Or, you could just take a resveratrol pill.

After appearing as Oprah's health expert for the past five years, the 49-year-old Oz, director of the Cardiovascular Institute at Columbia University Medical Center in New York, is preparing to host his own daytime show produced by Oprah this fall.

When Dr. Oz speaks, people listen. His glowing endorsements of resveratrol have spawned an overnight industry of shadowy peddlers of the stuff. Dozens of Web sites using his name or image have appeared, usually offering free trials of resveratrol. One of the biggest operators is a North Miami Beach, Fla.-based company called FWM Laboratories that runs phony local television news Web sites hawking its anti-aging pills.

At the top of the Drudge Report's homepage, pictures of Nicole Kidman, Jennifer Aniston and Marisa Tomei are captioned: "How does she look so young?" A photo of Dr. Oz appears alongside the actresses. Clicking Dr. Oz brings you to "News 3," supposedly a Web site for a local television news outfit in Sacramento, Calif., which carries an article titled "Health Specialist Janice Wilson Reports on Her Experience Using Resveratrol." The same ads on other sites take users to sister pages with the same reports, like "News 9" (New Jersey) and "News 5" (Austin, Texas).

On each site, the reporter confides that her news director asked her to do an "investigative report" on resveratrol. So she challenged two colleagues, including an attractive photographer, Vivian, whose picture accompanies the story, to try it. After a 30-day trial, Wilson writes that they slept better, had fewer wrinkles and even noticed more volume in their hair. Apparently, resveratrol even gave one a new body (on the Sacramento page "Vivian" is a 30-something blue-eyed blonde; on the Austin page she is an auburn-haired woman in her 40s). In the middle of these news accounts, which sit next to real-time AccuWeather updates, is a link to "Resveratrol Ultra," which—surprise—is described as the most "reputable" resveratrol product on the market.

Click that link and you get to the offer: a free 30-day supply of resveratrol pills (pay only \$2.94 shipping and handling). At the bottom of the page, beneath a slew of news stories, is the clincher. The site states your credit card will be debited a recurring charge of \$85.26 a month to keep your supply of pills current, unless you cancel in 10 days.

Last month, the Resveratrol Ultra site drew 833,000 unique visitors. It has also drawn the lion's share of postings from 285 angry buyers on ComplaintsBoard.com, many of whom contend they were ripped off by FWM Laboratories, which makes Resveratrol Ultra and other supplements. Many write that after they tried to cancel their free trials, the company made monthly charges to their credit cards anyway. One buyer contends the capsules he was sent do not contain Resveratrol, but Japanese knotweed.

The Better Business Bureau rates the company an "F" and lists 2,694 consumer complaints against FWM Labs. The Florida Attorney General's Office is unhappy with FWM, too. It is investigating similar unauthorized credit card charge complaints involving another product. Attempts by phone and e-mail to reach FWM or the company's only listed executive, Vice President Brian Weiss, were unsuccessful.

Other rag-tag sites peddle resveratrol using Dr. Oz's imprimatur far more aggressively. There's the incorrectly spelled "Dr. Os Resveratrol," fronted by a photo of a beaming Dr. Oz, stating, "How would you like to live to be 125?" There is "Dr. Oz Resveratrol," "Dr. Oz Anti-Aging Secrets" and "Dr. Oz Resveratrol Wrinkle Cream." Another says, "Click Here to Get Free Dr. Oz's Resveratrol Top Choice!" Many of these sites draw from 30,000 to 160,000 unique visitors a month—some more, according to Quantcast. These pages often display earlier reports on CBS' *60 Minutes* and a Harvard study lauding the health benefits of resveratrol.

What power does resveratrol really have? Found in the skin of red grapes, it is one of a key group of enzymes called sirtuins. Worms, fruit flies, even yeast cells fed resveratrol in studies have lived longer. Resveratrol treatment helped fat mice live as long as healthy thin mice. But it didn't extend the lives of mice that were already healthy in one study. Researchers don't know what it will do in humans.

Dr. Oz says he does not endorse or profit from any resveratrol maker. He declined an interview with Forbes but said in a statement that he could not vouch for the "authenticity, safety or effectiveness" of any resveratrol seller. "Unfortunately, several companies are attempting to deceive consumers through the unauthorized use of my image or my name, and my attorneys are pursuing those making these false claims," he says.

When Dr. Oz's show launches in September, chances are he'll think twice about such endorsements. Topics he's expected to discuss on the show include infrared sauna baths and the healing properties of hyperbaric oxygen. If you see a Dr. Oz-hosted site selling air, think twice.

Resveratrol As Seen On Oprah With Dr. Oz

By RezV | Mar 25, 2009

On March 24, Oprah and Dr. Oz both introduced a new Anti-Aging formula

called RezV also known as Resveratrol. The guest on the Oprah show, Joe, was 51 years old but had the health of a 22 year old athlete. Dr. Oz and Oprah explained that Resveratrol is the active ingredient in red wine that can help you look younger.

The best thing about the new Resveratrol Anti-Aging medicine is that there are more and more uses for it, discovered every day by thousands of new users. Some claim that their acne has gone better, since they started to use Rezveratrol, some experienced a heightened sense of self when they started using the supplementary, others felt younger just after a few days (Rezveratrol is metabolized quite fast) after its usage - Resveratrol could really be the medicine of the century.

On the Oprah show, Dr. Oz confirmed that calorie intake is the best way to control how your body ages. However taking RezV Resveratrol will surely help take years off your skin and help you look and feel younger.

Resveratrol Wine Pills
Slow down the aging process, lose weight & boost your energy level!

Resveratrol is the antioxidant found in red wine and grapes. Resveratrol has proven to help keep the heart healthy, prevent cancer, help treat diabetes and new research shows Resveratrol to be a fat fighter. It is being called by some in the medical field "the fountain of youth". Until just recently the benefits of Resveratrol could only be achieved by drinking a glass of red wine. Only a small amount of Resveratrol is in one glass of red wine. Scientists have discovered how to extract the Resveratrol from grapes and offer it in a 100% pure dosage. Doctors have been telling their patients for years to have a glass of red wine. Now you can have the benefits of red wine without the alcohol. Recent findings show you would have to drink about three liters of red wine each day to get sufficient amount of Resveratrol (15 milligrams) for its real benefits.

We have searched the internet for you to find the best (and honest) three Resveratrol offers available. All offers below are free trials. If you're not happy with the product return it and you will get your money back.

Dr Oz Miracle - Dr Oz Secret Diet Works!

"I Lost 53 Lbs In 2 Months By Trying Out Dr Oz & Oprah Recommended Products"

Now It's Your Turn!

My Journey From 135 Lbs To 200 Lbs

Howdy folks, I am Sarah Johnson and I am a fulltime homemaker and mom. I have a very supportive husband and three angelic children. Before I had my first child I weighed a healthy 135 lbs. I never had the super model figure but I was very happy and confident about my body. When I got pregnant with my first child I gained about 15 lbs and throughout my pregnancy I kept telling myself that right after the baby is born I am going to exercise like a madwoman and shed those pounds in a month. But I guess everybody knows that first time parenthood can be a daunting and overwhelming experience. I was so busy taking care of our little bundle of joy that I never got around to putting my weight loss plans into action.

Before I get started with the reviews, let's take a look at what I had to say during Oprah's Resveratrol special.

Resveratrol Side Effects

Robert Farber MD says:

Hello and welcome, if you are looking for information on Resveratrol and all the different products made from it... you've come to the right place! For your convenience my review team has conducted an in depth study of Resveratrol because it has come to our attention that some companies out there are selling low quality Resveratrol products and are not providing accurate ratings in terms of side effects, weight loss power and speed of results.

If you have been following me on the Oprah show, you would have seen my segment on Resveratrol, and everything it can do for you. As mentioned, I take resveratrol myself, and love the benefits it has to offer. "Studies at Harvard Medical School and the Institute of Genetics and Molecular Biology have found that resveratrol, a natural compound found in the skin of red grapes and hence in red wine, may radically reduce the risk not only of heart disease but also of age related illnesses such as Alzheimer's disease. It might also counter the effects of a high-fat diet and even prolong life." As an independent study with no affiliation to any Resveratrol product currently being sold online, this site documents a controlled independent study various different types of Resveratrol products. As a part of the study we ordered free trial versions of almost all the products online. Our review team ordered twenty (20) products that provided FREE TRIALS and the good news is that the products arrived on time and were in fact free!
