chloe_viesins When I say I'm stoked I'm STOKED. I am just here to share, I have tried everything out there y'all. I'm sure not everything but this skincare journey has been strenuous and when you just want consistency in your 20s and you're struggling to find it, it can be defeating. Even when I've found somewhat consistency, my skin has never felt super healthy and I haven't been my most confident. BUT these little omegas, I'm telling you, they're small but so powerful! They have worked wonders internally and externally for me! I've never been so confident in my skin and loved life without makeup. These plant based omegas are anti-inflammatory, great

omegas, i'm telling you, they're small but so powerful! They have worked wonders internally and externally for me! I've never been so confident in my skin and loved life without makeup. These plant based omegas are anti-inflammatory, great for skin, hair, immune, brain, cardiovascular, eye health and so much more! I open up the capsule and put it directly on my face everyday and also take the capsules and I will never do it any other way! Hoping I can just share the love with anyone else who in need of a good skincare refresher & overall confident booster too! ✨ #juiceplus #skinhealth #plantbasedomegas
