gimmeyk Have you thought.....I wish I made more money! 💰

Food for thought. ▶ A traditional job paying \$60k annually typically earns a 3% increase. That is \$1,800 more for the year = \$150/month. Insurance benefits typically increase 2-3% annually so there may not even be an actual increase in a paycheck. 📄 Shocking when you put it in writing and think about it!! 🤔🤔

A side hustle in network marketing could give you way beyond a 3% increase so you can actually do something with it. ❤️

You could pay extra on bills, save more for retirement, take that long

overdue vacation. There is no ceiling or salary scale!! 🤔

If you have the opportunity to make more money, what would that be able to do for you and your family?? Forbes agrees!! 🙌🙌🙌

What if you try it and don't like it? Then you've learned something in life!! That's what can happen!! 🧑

Being able to share something that helps you and your family and thousands of others, does not feel like a job. It feels like [👉] you are helping make a difference. 🥰

Does anybody want to help us make a difference?
