dquick2014 The time has come!!!!👏

We are opening our doors to customers on Tuesday August 16th at 12 pm CST which is 1 pm for us here. 🥳📖

However, it will be limited due to high demand! Every day we will be releasing 1000 boxes (limited to one box per customer)!

My link is in the comments 📄

Want a 3 or 5 trial pack before you buy? I have that too. Shoot me a message and I will get it out to you.

Ready to Strip?

Getting Started Tips

- We recommend starting out with 1/4 of the strip and work your way up to the right therapeutic range for you.
- Make sure you are hydrating 1/2 your body weight in ounces. ex: 100 lbs =50 ounces.
- Remember everyones different, you may or may not go through a detox phase which is very normal.
- Always listen to your body. People react to it differently based on what your body needs.
- Need to crash? Take it and lay down!
- Need to Focus? Take it and grab your computer immediately!
- Need energy? Take it, count down from 5 & start moving!

Ready to Strip? Troubleshooting

- Overstimulation: If the strip is too much you might notice effects like headaches, uneasy, palpitations, jitters, exhaustion/ crashing, irritability, and more.
- Reducing the amount of the strip can help, as you may be detoxing very quickly.
- Start with a 1/4 and work up to your sweet spot.
- Make sure you are hydrating 1/2 your body weight in ounces. ex: 100 lbs =50 ounces.
- If you are drinking caffeine or other stimulants, you may need to play around the timing between taking them along with the strip.
