“

“I recommend Nutrafol because it works! It has become a standard part of my multi-modal approach as a natural way to combat hereditary thinning hair as well as other types, including aging hair. The variety of supplements allows me to target each patient’s needs and personalize their treatment. They first notice less shedding, then improvement in hair quality like softer texture and increased shine, then hair feels thicker.”

Dr. Lady C. Dy, M.D.
Dy Dermatology Center

“

“I love and support Nutrafol because the brand listens. They took the time to ask the right questions and applied key learnings from dermatologists, the experts who understand that a great part of hair thinning-related issues are correlated to the elevated levels of cortisol due to stress allostatic load. Nutrafol’s formulations of antioxidants and stress adaptogens have been effective in our practice to manage a multitude of hair thinning issues caused by stress.”

Dr. Shino Bay Aguilera, D.O.

Shino Bay Cosmetic Dermatology & Laser Institute

“

“We use Nutrafol in conjunction with hair transplant surgery commonly. In fact, we recommend Nutrafol to every single one of our patients. There are multiple reasons for that. After a hair transplant, we want to reduce inflammation, nourish the skin, and enhance blood flow to the grafts. The ingredients in Nutrafol help the body reconnect the hair follicles to the bloodstream and accelerate the healing process. In our experience, it helps patients recover quicker and more comfortably, and ultimately get better hair growth results.”

Dr. Alan J. Bauman, M.D.

Hair Transplant Surgeon, Bauman Medical

“

“My patients, trained medical staff, and I love the convenience of the GrowthPartner platform on my website. Being a GrowthPartner has increased the number of patients seeking hair consultations in my office. This partnership has even helped my practice retain them. Finding a partner that supports the growth of your practice is important. I highly recommend Nutrafol’s GrowthPartner program.”

Dr. Hope Mitchell, M.D.

Mitchell Dermatology

“

“As a hormone and age management specialist, I see many patients looking for a solution to treat their thinning hair. The Nutrafol suite of products has given me the ability to confidently recommend therapies not only backed by science, but repeatedly praised by my satisfied patients. I’m happy with my own results too!”

Dr. Russell Bartels, M.D., F.A.C.O.G.
Gynecology & Men's Health Specialist
