Our *advanced approach* harnesses the power of drug-free ingredients to *combat follicle-shrinking DHT* and help the body *better manage stress*.

Genetics, lifestyle, stress, and age all increase the likelihood that DHT hormone will affect hair follicles, causing them to *shrink and eventually close entirely*.

1

### WHAT'S HAPPENING:

Hairline changes and decreased scalp coverage are a result of underlying imbalances in the body that activate genetic predisposition to thinning hair and accelerate DHT sensitivity.

2

### THE SCIENCE BEHIND IT:

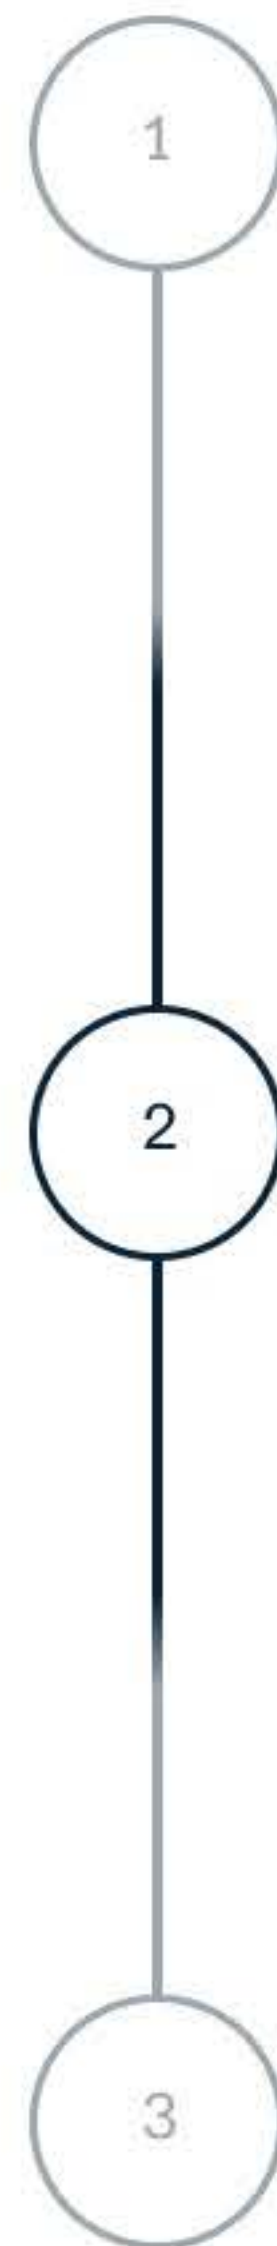

Nutrient deficiencies and stress can trigger genetic predisposition to thinning hair and increase DHT sensitivity in men—regardless of testosterone levels. DHT (dihydrotestosterone) is an androgen hormone known to shrink hair follicles and lead to premature and progressive hair thinning, especially along the hairline.

3

### HOW WE TARGET IT:

While many hair growth solutions target just one cause of thinning, our formulas address multiple imbalances that affect hair health with extra hormonal support from synergistic ingredients that work together to combat follicle-shrinking DHT.

NUTRAFOL MEN'S HAIR GROWTH  
NUTRACEUTICAL

## MULTI-TARGETED

While many hair growth solutions target just one cause of thinning, our formulas address multiple imbalances that affect hair health.

NUTRAFOL MEN'S HAIR GROWTH  
NUTRACEUTICAL

## STANDARDIZED + MEDICAL-GRADE

We extract our ingredients from the most concentrated, potent parts of each plant—and ensure you get the same amount of active phytonutrients in every pill.

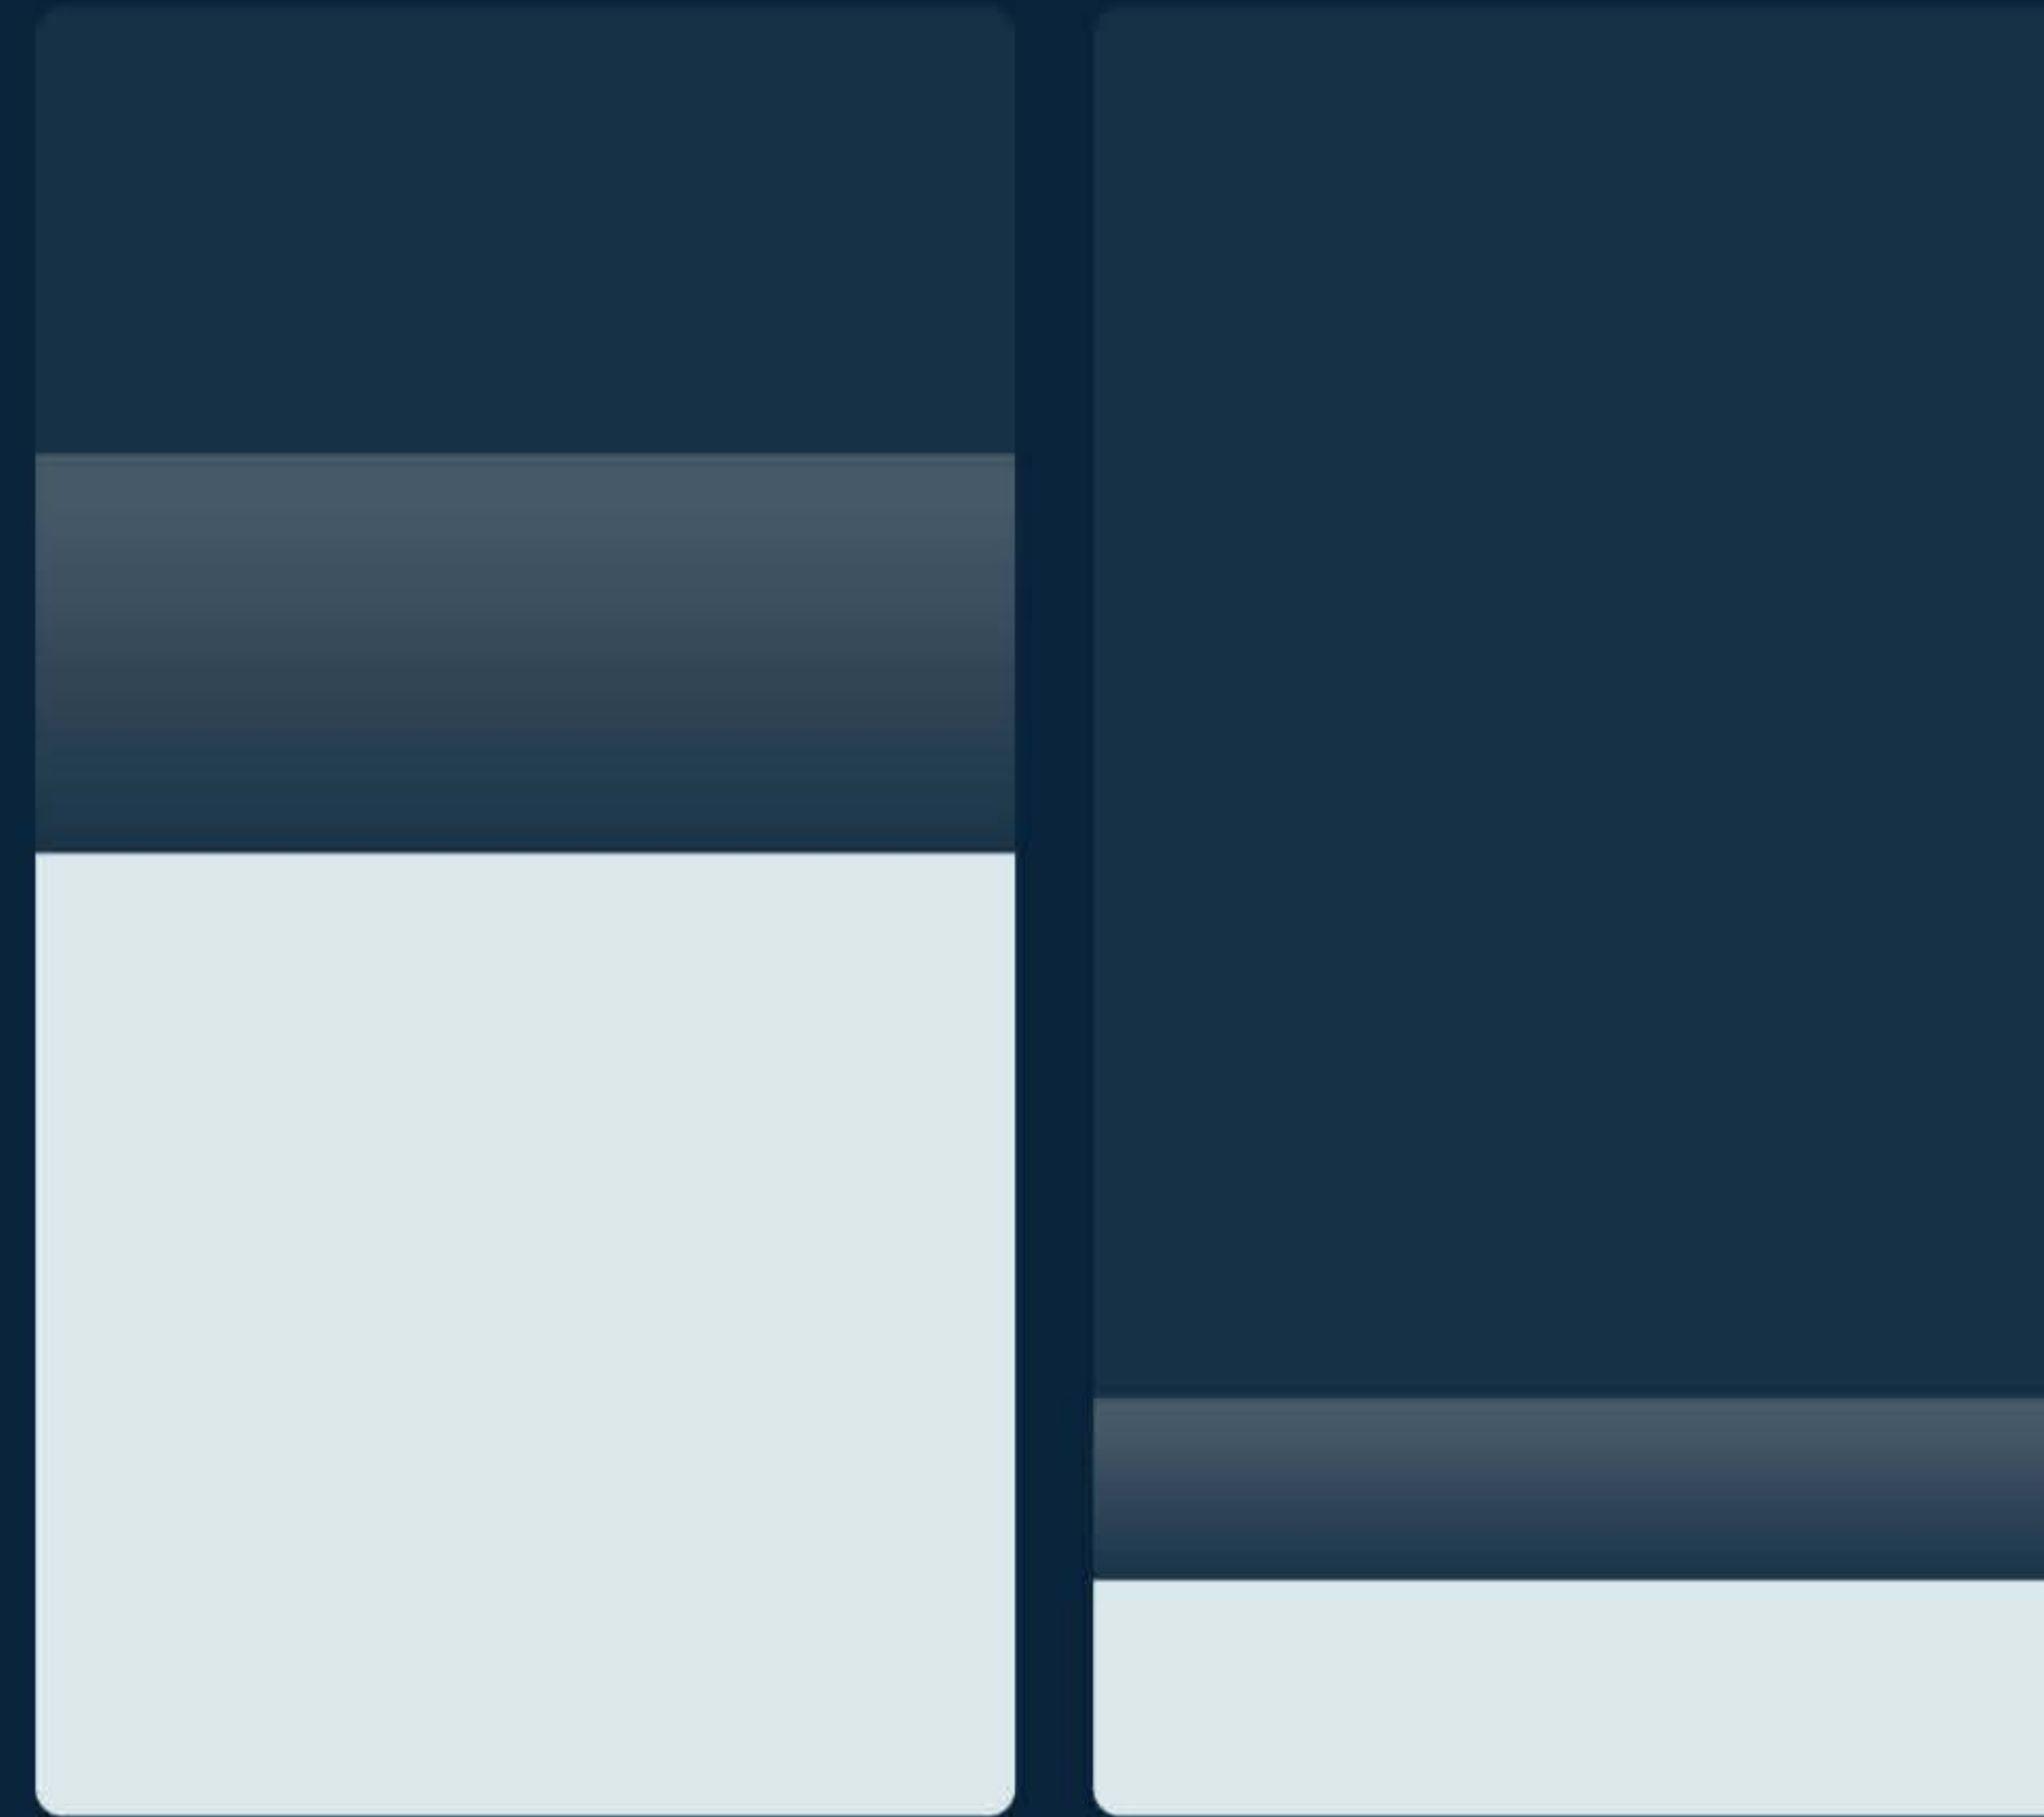

NUTRAFOL MEN'S HAIR GROWTH  
NUTRACEUTICAL

## BIO-OPTIMIZED

Our ingredients are more easily recognized and absorbed by the body—improving their efficacy.

The bio-optimized ingredients in Nutrafol Men absorb more quickly and efficiently into your bloodstream, providing your body more time to use the phytoactives that support hair growth and thickness, naturally.

“I fell in love with Nutrafol for its natural properties. My confidence level is back.”

SCALP COVERAGE

HAIR GROWTH

THICKNESS

### 1-2 Months

Vitamins and minerals are hard at work beneath the surface, nourishing your body and combating DHT for healthier hair that is getting stronger. Meanwhile, your stress levels are going down and you're likely getting more restful sleep. It's a win-win, honestly.

### 3-4 Months

As your body and your hormones come into balance, your hair reaps the benefits. Think more visible fullness and improvement in hair quality.

### 5-6 Months

As the hair growth cycle lengthens and DHT conversion is lessened thanks to our synergistic ingredients—you'll notice visibly thicker, healthier hair with more scalp coverage.

### 6+ Months

It's all about continuing to manage your root causes and hormone health for maximum results, like visible scalp coverage, reduced shedding, and improved growth over time.

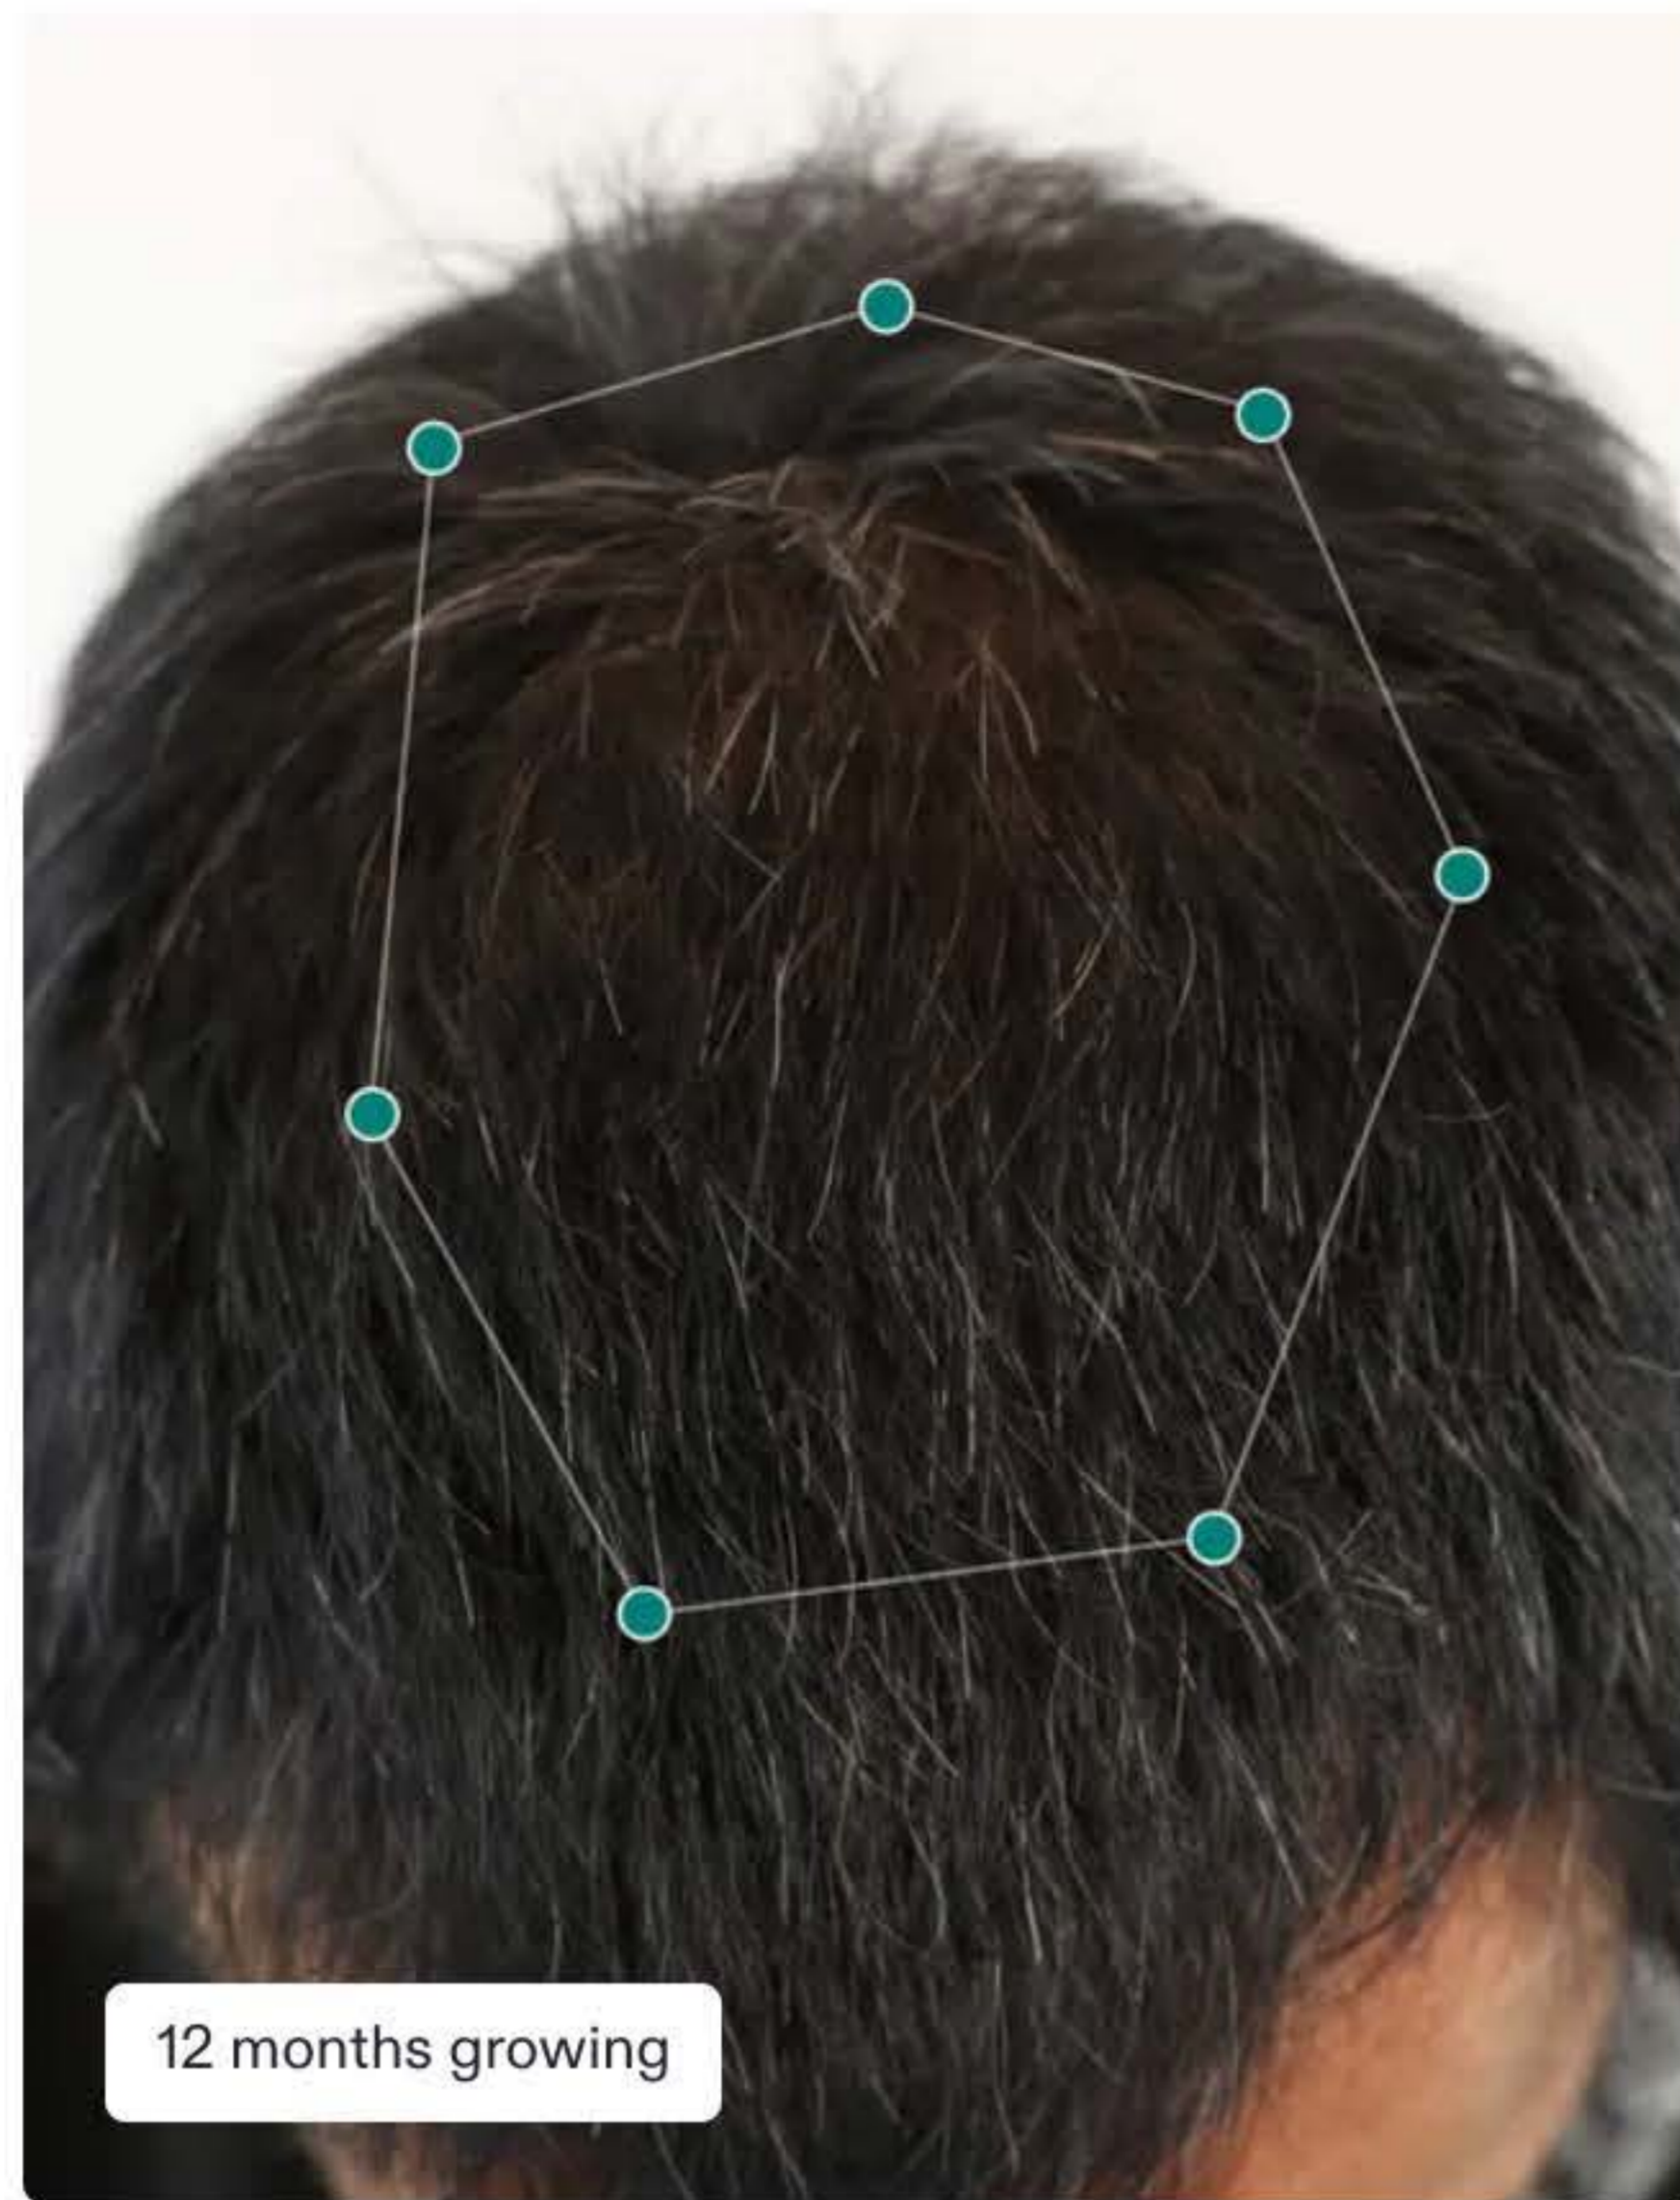

IN A CLINICAL STUDY,  
MEN SAW STRONGER, THICKER, FASTER HAIR  
GROWTH AFTER 6 MONTHS.<sup>1</sup>

# 84%

OF MEN EXPERIENCED  
IMPROVED HAIR QUALITY.<sup>1</sup>

# 72%

# WE'RE SERIOUS ABOUT FACTS. ASK AWAY.

[SEE ALL FAQs →](#)

---

DO I HAVE TO TAKE NUTRAFOL MEN AND DHT INHIBITOR FOREVER? -

Recent research reveals that hair thinning is due to many factors that affect us all—elevated stress, poor nutrition, hormone imbalances, aging, unhealthy lifestyles and metabolism . Achieving healthier hair means you have to address all of these causes on a daily basis. You'll see the best and most consistent results by combining Nutrafol with small changes to your daily routine.

---

HOW IS DHT CONNECTED TO HAIR THINNING? +

---

---

## IS THIS LIKE PROPECIA? ARE THERE SEXUAL SIDE EFFECTS?

No, and we'd go back to the drawing board if it did! In fact, part of the inspiration behind Nutrafol was that one of our founders was seeking an alternative solution for his own hair growth issues after experiencing years of sexual dysfunction caused by other therapies. You can rest assured that Nutrafol is made with 100% drug-free, natural, medical-grade ingredients that improve hair growth without compromising sexual performance. Bonus: in our clinical study, men reported an improvement in their sex drive after 6 months.

---

---

## DOES NUTRAFOL HELP GENETIC HAIR THINNING?

While we can't change your genetics, we can support your body and buffer the effects of dihydrotestosterone (DHT)—the primary hair-damaging hormone that triggers hair thinning in genetically predisposed individuals. Saw Palmetto, an ingredient in Nutrafol, is a high concentration of fatty acids that reduces the conversion of testosterone to DHT to help improve hair growth.

---

---

## HOW DO I KNOW IF I NEED THE HAIRLINE DEFENDER GROWTH DUO? -

You know your body best—but if you are experiencing active thinning along your hairline and noticing less forehead coverage, this combination could be for you.

---

---

## WHERE ARE YOUR MEN'S CLINICAL STUDIES?

-

You can view the results of our clinical study on our [results page](#).

---

---

## HOW IS DHT CONNECTED TO HAIR THINNING?

DHT (dihydrotestosterone) is an androgen hormone known to shrink hair follicles and lead to premature and progressive hair thinning, especially along the hairline.
