peyton.baxter who all has experienced hair thinning of any kind? 🤔 I'd say most of us are raising our hands right now ... especially if you have experienced postpartum. 😬 but good news, @nutrafol brought my hair back to life!

for the first time in 4 years, I felt comfortable enough to take out my extensions & even chop it off for a change 🙌 my hair hasn't felt this thick in YEARS & my bald spots are finally filling back in. 🙌 it's growing faster than it ever has before! sharing my personal hair journey on stories today & if you relate to it at all, then I'd highly recommend trying
