**CLASS ACTION COMPLAINT**

Plaintiffs Evelyn L. Williams, Tabatha Taggart, Tameka M. Meadows, Deborah Taylor, and Daphne Valentine (“Plaintiffs”), on behalf of themselves and all others similarly situated, file this Class Action Complaint (“CAC”) against Defendants L’Oreal USA, Inc., L’Oreal USA Products, Inc., Softsheen-Carson, Inc. and Softsheen Carson (W.I.), Inc. (“Defendants”), and in support state the following:

**NATURE OF THE ACTION**

1. This is a class action lawsuit by Plaintiffs, and others similarly situated, who purchased Hair Straighteners and/or Relaxers manufactured, sold, and distributed by Defendants. Defendants distribute, market, and sell several over-the-counter hair straightener and/or relaxer products under their brand names, including “Dark & Lovely” (“Toxic Hair-Straightener(s) and/or Relaxer(s)"). Defendants’ Toxic Hair-Straighteners and/or Relaxers (identified below) are

adulterated with Endocrine Disrupting Chemicals (“EDC”). EDC’s, including Di-2-ethylhexylphthalate (“DEP”), are known to increase a woman’s risk of: endometriosis, abnormalities in reproductive organs, various cancers, altered nervous system and immune function, respiratory problems, metabolic issues, diabetes, obesity, cardiovascular problems, growth, neurological and learning disabilities.<sup>1</sup> The presence of EDCs in Defendants’ Toxic Hair-Straightener was not disclosed in the products’ label, in violation of state and federal law. Plaintiffs and the putative classes suffered economic damages due to Defendants’ misconduct (as set forth below) and they seek injunctive relief and restitution for the full purchase price of the hair straighteners and/or relaxers product(s) they purchased. Plaintiffs allege the following based upon personal knowledge as well as investigation by counsel, and as to all other matters, upon information and belief. Plaintiffs further believe that substantial evidentiary support will exist for the allegations set forth herein after a reasonable opportunity for discovery.

### **JURISDICTION AND VENUE**

2. This Court has original jurisdiction pursuant to 28 U.S.C. §1332(d)(2). The matter in controversy, exclusive of interest and costs, exceeds the sum or value of \$5,000,000 and is a class action in which there are in excess of 100 class members and Plaintiffs are Citizens of States different from Defendants.

3. This Court has jurisdiction over each Defendants because Defendants are authorized to conduct and do business in Illinois. Defendants have marketed, promoted, distributed, and sold Toxic Hair-Straighteners and/or Relaxers, including the Toxic Hair-Straightener and/or Relaxer Products identified below, in Illinois and Defendants have sufficient

---

<sup>1</sup> *Endocrine Disrupting Chemicals (EDCs)*, Endocrine Society, Jan., 24, 2022, <https://www.endocrine.org/patient-engagement/endocrine-library/edcs#:~:text=EDCs%20can%20disrupt%20many%20different,%2C%20certain%20cancers%2C%20respiratory%20problems%2C> (last visited Oct. 28, 2022).

minimum contacts with this State and/or have sufficiently availed themselves of the markets in this State through promotion, sales, distribution, and marketing within this State to render the exercise of jurisdiction by this Court permissible.

4. Venue is proper in this Court pursuant to 28 U.S.C. §1391(a) and (b) because a substantial part of the events or omissions giving rise to Plaintiffs' claims occurred while she resided in this judicial district. Venue is also proper under 18 U.S.C. §1965(a) because Defendants transact substantial business in this District.

### **THE PARTIES**

#### **A. Plaintiffs**

5. Plaintiff Evelyn L. Williams is a citizen and resident of Chicago, Illinois, and at all times relevant hereto, has been a resident of Cook County. Ms. Williams purchased Dark & Lovely from Walgreens stores in Cook County. She paid anywhere from \$5.00 to \$8.00 for each of the hair straighteners and/or relaxers sold under the name Dark & Lovely. During that time, based on the false and misleading claims by Defendants, Ms. Williams was unaware that Defendants' Toxic Hair-Straighteners and/or Relaxers may be adulterated with EDCs. Ms. Williams purchased the Defendants' Toxic Hair-Straighteners and/or Relaxers on the assumption that the labeling of Defendants' Toxic Hair-Straighteners and/or Relaxers was accurate and that the products were unadulterated, safe, and effective. Ms. Williams would not have purchased Defendants' Toxic Hair-Straighteners and/or Relaxers had she known there was a risk the products may contain EDCs. As a result, Ms. Williams suffered injury in fact when she spent money to purchase products she would not otherwise have purchased absent Defendants' misconduct, as alleged herein. However, Ms. Williams would be interested in purchasing similar hair care products in the future provided they are not adulterated.

6. Plaintiff Tabatha Taggart is a citizen and resident of Chicago, Illinois, and at all times relevant hereto, has been a resident of Cook County. Ms. Taggart purchased Dark & Lovely from Walgreens stores in Cook County. She paid anywhere from \$5.00 to \$8.00 for each of the hair straighteners and/or relaxers sold under the name Dark & Lovely. During that time, based on the false and misleading claims by Defendants, Ms. Taggart was unaware that Defendants' Toxic Hair-Straighteners and/or Relaxers may be adulterated with EDCs. Ms. Taggart purchased the Defendants' Toxic Hair-Straighteners and/or Relaxers on the assumption that the labeling of Defendants' Toxic Hair-Straighteners and/or Relaxers was accurate and that the products were unadulterated, safe, and effective. Ms. Taggart would not have purchased Defendants' Toxic Hair-Straighteners and/or Relaxers had she known there was a risk the products may contain EDCs. As a result, Ms. Taggart suffered injury in fact when she spent money to purchase products she would not otherwise have purchased absent Defendants' misconduct, as alleged herein. However, Ms. Taggart would be interested in purchasing similar hair care products in the future provided they are not adulterated.

7. Plaintiff Tameka M. Meadows is a citizen and resident of Las Vegas, Nevada, and at all times relevant hereto, has been a resident of Clark County. Ms. Meadows purchased Dark & Lovely from Walmart stores in Clark County. She paid anywhere from \$5.00 to \$8.00 for each of the hair straighteners and/or relaxers sold under the name Dark & Lovely. During that time, based on the false and misleading claims by Defendants, Ms. Meadows was unaware that Defendants' Toxic Hair-Straighteners and/or Relaxers may be adulterated with EDCs. Ms. Meadows purchased the Defendants' Toxic Hair-Straighteners and/or Relaxers on the assumption that the labeling of Defendants' Toxic Hair-Straighteners and/or Relaxers was accurate and that the products were unadulterated, safe, and effective. Ms. Meadows would not have purchased

Defendants' Toxic Hair-Straighteners and/or Relaxers had she known there was a risk the products may contain EDCs. As a result, Ms. Meadows suffered injury in fact when she spent money to purchase products she would not otherwise have purchased absent Defendants' misconduct, as alleged herein. However, Ms. Meadows would be interested in purchasing similar hair care products in the future provided they are not adulterated.

8. Plaintiff Deborah Taylor is a citizen and resident of Piscataway, New Jersey, and at all times relevant hereto, has been a resident of Middlesex County. Ms. Taylor purchased Dark & Lovely from CVS and Walgreens stores in Middlesex County. She paid approximately \$10.00 for each of the hair straighteners and/or relaxers sold under the name Dark & Lovely. During that time, based on the false and misleading claims by Defendants, Ms. Taylor was unaware that Defendants' Toxic Hair-Straighteners and/or Relaxers may be adulterated with EDCs. Ms. Taylor purchased the Defendants' Toxic Hair-Straighteners and/or Relaxers on the assumption that the labeling of Defendants' Toxic Hair-Straighteners and/or Relaxers was accurate and that the products were unadulterated, safe, and effective. Ms. Taylor would not have purchased Defendants' Toxic Hair-Straighteners and/or Relaxers had she known there was a risk the products may contain EDCs. As a result, Ms. Taylor suffered injury in fact when she spent money to purchase products she would not otherwise have purchased absent Defendants' misconduct, as alleged herein. However, Ms. Taylor would be interested in purchasing similar hair care products in the future provided they are not adulterated.

9. Plaintiff Daphne Valentine is a citizen and resident of Houston, Texas, and at all times relevant hereto, has been a resident of Harris County. Ms. Valentine purchased Dark & Lovely from Fox Beauty Supply and PRO Beauty & Barber Supplies stores in Harris County. She paid anywhere from \$5.99 to \$7.99 for each of the hair straighteners and/or relaxers sold under the

name Dark & Lovely. During that time, based on the false and misleading claims by Defendants, Ms. Valentine was unaware that Defendants' Toxic Hair-Straighteners and/or Relaxers may be adulterated with EDCs. Ms. Valentine purchased the Defendants' Toxic Hair-Straighteners and/or Relaxers on the assumption that the labeling of Defendants' Toxic Hair-Straighteners and/or Relaxers was accurate and that the products were unadulterated, safe, and effective. Ms. Valentine would not have purchased Defendants' Toxic Hair-Straighteners and/or Relaxers had she known there was a risk the products may contain EDCs. As a result, Ms. Valentine suffered injury in fact when she spent money to purchase products she would not otherwise have purchased absent Defendants' misconduct, as alleged herein. However, Ms. Valentine would be interested in purchasing similar hair care products in the future provided they are not adulterated.

**B. Defendants**

10. Defendant L'Oreal USA, Inc. is, and at all relevant times was, a New York-based corporation with its headquarters and principal place of business at 575 Fifth Avenue, New York, New York 10017 and process may be served upon its registered agent, Corporation Service Company, 80 State Street, Albany, NY 12207. L'Oreal USA, Inc. manufactures, markets, advertises, labels, distributes, and sells the Toxic Hair-Straighteners and/or Relaxers at issue in this litigation.

11. Defendant L'Oreal USA Products, Inc. is, and at all relevant times was, a New York-based corporation with its headquarters and principal place of business located at 10 Hudson Yards 347 10<sup>th</sup> Avenue, New York, New York 10001 and process may be served upon its registered agent, Corporation Service Company, 80 State Street, Albany, NY 12207. L'Oreal USA Products, Inc. manufactures, markets, advertises, labels, distributes, and sells the Toxic Hair-Straighteners and/or Relaxers at issue in this litigation.

12. Defendant Softsheen-Carson, Inc. is, and at all relevant times was, a Georgia corporation with its principal place of business and headquarters located at 2870 Peachtree Rd. Suite 464, Atlanta GA 40405 and process may be served upon its registered agent, Justin Hill, 2870 Peachtree Rd., Suite 464, Atlanta GA 40405. Softsheen-Carson, Inc. manufactures, markets, advertises, labels, distributes, and sells the Toxic Hair-Straighteners and/or Relaxers at issue in this litigation.

13. Defendant Softsheen-Carson (W.I.), Inc. is, and at all relevant times was, a Delaware corporation and process may be served upon its registered agent, Corporate Services Company 251 Little Falls Drive, Wilmington, Delaware 19808.

14. Defendants manufactures, markets, advertises, labels, distributes, and sells a variety of hair straighteners and/or relaxers, including but not limited to:

1	Dark & Lovely	Relaxer	Triple Nourished Silkening Relaxer No-Lye
2	Dark & Lovely	Relaxer	Healthy Gloss 5 Shade Shea Moisture No-Lye Relaxer
3	Dark & Lovely	Relaxer	No-Lye Conditioning Relaxer System
4	Dark & Lovely	Relaxer	Healthy Gloss 5 Moisturizing No-Lye Relaxer with Shea Butter
5	Dark & Lovely	Relaxer	Superior Moisture Plus No-Lye Relaxer Kit
6	Dark & Lovely	Relaxer	Moisture Plus No-Lye Relaxer

**FACTUAL ALLEGATIONS**

**C. Hair Straighteners and Relaxers**

15. Hair straighteners and/or relaxers, typically creams, lotions, and/or oils, are marketed to women to make their hair smoother, straighter, and easier to manage on a daily basis.

16. Hair relaxing, or lantionization, can be performed by a professional cosmetologist

in a salon or barbershop, or at home with at-home relaxer kits designed for individual use. These home kits are sold in grocery, drug, and beauty supply stores in cities throughout the United States.

17. Relaxers are applied to the base of the hair shaft and left in place for a “cooking” interval, during which the relaxer alters the hair’s texture by purposefully damaging the hair’s natural protein structure. The effect of this protein damage straightens and smooths the hair. After a period of weeks (4 – 8 weeks on average), depending on the hair’s natural growth rate, the treated portion of the hair grows away from the scalp as new growth sprouts from the roots, requiring additional relaxer treatment to smooth the roots. These additional treatments are colloquially referred to in the community as “re-touches”, resulting in women relaxing their new growth every four to eight weeks on average, usually for decades.

18. The toxic chemicals in hair relaxers are absorbed and metabolized through direct skin contact. Moreover, hair relaxers can, and often do, cause burns and lesions in the scalp, further facilitating entry of hair relaxer constituents into the body. The main ingredient of “lye” relaxers is sodium hydroxide; no-lye relaxers contain calcium hydroxide and guanidine carbonate, and “thio” relaxers contain thioglycolic acid salts. No-lye relaxers are advertised to cause fewer scalp lesions and burns than lye relaxers, but there is little evidence to support this claim.

19. In some studies, up to 90% of black and brown women have used hair relaxants and straighteners, which is more commonplace for these women than for any other race.

20. Hair products such as relaxers contain hormonally active and carcinogenic compounds, such as phthalates, known to cause endocrine disruption, are not listed separately as ingredients but, instead, are often broadly lumped into the “fragrance” or “perfume” categories.

21. Relaxer habits usually begin in formative childhood years, and adolescence is likely a period of enhanced susceptibility to debilitating conditions resulting from exposure to these

chemicals.<sup>2</sup>

22. In the 1990s, the first relaxer product for young Black girls, Just for Me™, hit the market with a catchy advertising jingle that captured consumer attention.<sup>3</sup> It soon became one of the most popular straightening treatments, touting a no-lye formula designed to be gentler for children's sensitive scalps.

23. Once relaxer use begins in childhood, it usually becomes a lifetime habit. The duration and frequency of use of these products increases the risk of permanent and debilitating diseases associated with long-term exposure to endocrine-disrupting chemicals.

**D. Regulatory Framework**

24. The law does not require cosmetic products and ingredients, other than color additives, to have FDA approval before they go to market. But there are laws and regulations that apply to cosmetics placed into the market. The two most important laws pertaining to cosmetics marketed in the United States is the Federal Food Drug and Cosmetic Act ("FD&C Act") and the Fair Packaging and Labeling Act ("FPLA").

25. The FD&C Act expressly prohibits the marketing of "adulterated" or "misbranded" cosmetics in interstate commerce.

26. Adulteration refers to a violation involving product composition whether it results from ingredients, contaminants, processing, packaging shipping or handling.

27. Under the FD&C Act a cosmetic is adulterated if: 1) it bears or contains any poisonous or deleterious substance causing injury to the product user and 2) if its container is composed in whole or in part, of any poisonous or deleterious substance which may render the

<sup>3</sup> Dana Oliver, The '90s Just For Me Hair Relaxer Commercial Song Is Stuck In Our Heads, HuffPost, Feb., 1, 2014. [https://www.huffpost.com/entry/just-for-me-hair-relaxer-commercial-song\\_n\\_4689981](https://www.huffpost.com/entry/just-for-me-hair-relaxer-commercial-song_n_4689981) (last visited Oct. 27, 2022).

contents injurious to health.

28. Misbranding refers to violations involving improperly labeled or deceptively packaged products.

29. Under the FD&C Act, a cosmetic is misbranded if 1) labeling is false or misleading, 2) the label does not include all required information, 3) required information is not prominent and conspicuous, 4) the packaging and labeling is in violation of an applicable regulation issued pursuant to section 3 and 4 of the Poison Prevention Packaging Act of 1970.<sup>4</sup>

30. Under U.S. law, cosmetic manufacturers are not required to submit their safety data to the FDA. However, it is against the law to put an ingredient in a cosmetic that makes the cosmetic harmful when used as intended.<sup>5</sup> An example is methylene chloride because it causes cancer in animals and is likely to be harmful to human health, too.<sup>6</sup>

31. On May 19, 2022, the FDA issued a rule to amend its food additive regulations to no longer provide for most previously-authorized phthalates to be used as food additives because these uses have been abandoned by industry.<sup>7</sup> The FDA revoked authorizations for the food contact use of 23 phthalates and two other substances used as plasticizers, adhesives, defoaming agents, lubricants, resins, and slimicides.<sup>8</sup>

32. Companies and/or individuals who manufacture or market cosmetics have a legal responsibility and duty to ensure the safety of their own products. Neither the law nor FDA

regulations require specific tests to demonstrate the safety of individual products or ingredients, and the law also does not require cosmetic companies to share their safety information with the FDA.

33. The FDA has consistently advised manufacturers to use whatever testing is necessary to ensure the safety of products and ingredients, which may be substantiated through (a) reliance on already available toxicological test data on individual ingredients and on product formulations that are similar in composition to the particular cosmetic and (b) performance of any additional toxicological and other tests that are appropriate in light of such existing data and information.<sup>9</sup>

34. Except for color additives and ingredients prohibited or restricted by regulation, a manufacturer may use any ingredient in the formulation of a cosmetic, provided that (1) the ingredient and the finished cosmetic are safe under labeled or customary conditions of use, (2) the product is properly labeled, and (3) the use of the ingredient does not otherwise cause the cosmetic to be adulterated or misbranded under the laws the FDA enforces

35. Except for color additives and ingredients prohibited or restricted by regulation, a manufacturer may use any ingredient in the formulation of a cosmetic, provided that (1) the ingredient and the finished cosmetic are safe under labeled or customary conditions of use, (2) the product is properly labeled, and (3) the use of the ingredient does not otherwise cause the cosmetic to be adulterated or misbranded under the laws the FDA enforces.<sup>10</sup>

36. With respect to whether the product is properly labeled, Title 21 of the Code of

<sup>9</sup> *FDA Authority Over Cosmetics: How Cosmetics Are Not FDA-Approved, but Are FDA-Regulated*, U.S. Food and Drug Administration, Mar., 3, 2005, <https://www.fda.gov/cosmetics/cosmetics-laws-regulations/fda-authority-over-cosmetics-how-cosmetics-are-not-fda-approved-are-fda-regulated> (last visited Oct. 27, 2022).

<sup>10</sup> *Id.*

Federal Regulations defines the establishment of warning statements related to cosmetic products. Section 740.1 states that “[t]he label of a cosmetic product *shall* bear a warning statement whenever necessary or appropriate to prevent a health hazard that *may* be associated with the product.” (emphasis added). This warning directive directly correlates with the broad authority of manufacturers over their own cosmetic products to ensure that products are safe under labeled or customary conditions of use, properly labeled, and not adulterated or misbranded under FDA laws.

37. In short, under the current regulatory framework in the United States, it is incumbent upon the manufacturers of cosmetic products, and them alone, to assess the safety and efficacy of their products, and to warn consumers anytime a health hazard may be associated with their products. Here, a wealth of scientific information is available regarding long-term use of hair relaxers, straighteners and hair dyes as containing certain endocrine-disrupting chemicals, which should have alerted manufacturers of these products to the specific and dangerous harms associated with their products when used as intended, particularly in women of color.

**E. Endocrine-Disrupting Chemicals**

38. The endocrine system is indispensable for life and influences nearly every cell, organ, and processes within the body.<sup>11</sup> The endocrine system regulates all biological processes in the body from conception through adulthood, including the development of the brain and nervous system, the growth and function of the reproductive system, as well as the metabolism and blood sugar levels.<sup>12</sup>

39. The endocrine system is a tightly regulated system made up of glands that produce

---

<sup>11</sup> *Endocrine System: The Endocrine System Includes The Thyroid, Adrenals, and the Pituitary Gland*, Science Direct, <https://www.sciencedirect.com/topics/psychology/endocrine-system>. (last visited Oct. 28, 2022).

<sup>12</sup> *Endocrine Disruption*, United States Environmental Protection Agency, Mar., 7, 2022, <https://www.epa.gov/endocrine-disruption/what-endocrine-system>. (last visited Oct. 28, 2022).

and release precise amounts of hormones that bind to receptors located on specific target cells throughout the body.<sup>13</sup>

40. Hormones, such as estrogen, testosterone, progesterone, and androgen, are chemical signals that control or regulate critical biological processes.<sup>14</sup>

41. When a hormone binds to a target cell's receptor, the receptor carries out the hormone's instructions, the stimulus, and either switches on or switches off specific biological processes in cells, tissues, and organs.<sup>15</sup>

42. The precise functioning of the endocrine system is vital to maintain hormonal homeostasis, the body's natural hormonal production and degradation. A slight variation in hormone levels can lead to significant adverse-health effects, including reproductive impairment and infertility, cancer, cognitive deficits, immune disorders, and metabolic syndrome.<sup>16</sup>

43. Endocrine disrupting chemicals ("EDCs") are chemicals, or chemical mixtures, that interfere with the normal activity of the endocrine system.

44. EDC's can act directly on hormone receptors as mimics or antagonists, or on proteins that control hormone delivery.<sup>17</sup>

45. EDCs disrupt the endocrine system and interfere with the body's hormonal homeostasis in various ways.

46. EDCs can cause the body to operate as if there were a proliferation of a hormone

---

<sup>14</sup> *Id.*

<sup>15</sup> *Id.*

<sup>16</sup> *Id.*; Michele La Merrill, et al., *Consensus on the Key Characteristics of Endocrine-Disrupting Chemicals as a Basis for Hazard Identification*, *Nature Reviews Endocrinol*, Nov. 12, 2019, <https://www.nature.com/articles/s41574-019-0273-8> (last visited Oct. 28, 2022).

<sup>17</sup> Evanthia Diamanti-Kandarakis, et al., *Endocrine-Disrupting Chemicals: An Endocrine Society Scientific Statement*, *Endocrine Reviews*, June 30, 2009, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2726844/> (last visited Oct. 28, 2022).

and thus over-respond to the stimulus or respond when it was not supposed to by mimicking a natural hormone.

47. EDCs can increase or decrease the levels of the body's hormones by affecting the production, degradation, and storage of hormones.

48. EDCs can block the hormone's stimulus through inducing epigenetic changes, modifications to DNA that regulate whether genes are turned on or off or altering the structure of target cells' receptors.<sup>18</sup>

49. EDCs are known to cause to numerous adverse human health outcomes including endometriosis, impaired sperm quality, abnormalities in reproductive organs, various cancers, altered nervous system and immune function, respiratory problems, metabolic issues, diabetes, obesity, cardiovascular problems, growth, neurological and learning disabilities.<sup>19</sup>

50. EDCs that mimic the effects of estrogen in the body may contribute to disease risk because exposure to estrogen, endogenously and exogenously, is associated with breast cancer, uterine cancer, ovarian and other types of hormone-sensitive cancers. A woman's lifetime risk of developing these hormone-sensitive cancers increases with greater duration and cumulative exposure.

51. Natural and synthetic EDCs are present in hair products under the guise of "fragrance" and "perfumes", and thus enter the body when these products are exogenously applied to the hair and scalp. Studies exploring this issue have thus far classified EDCs as estrogens,

phthalates, and parabens.

52. Indeed, numerous studies spanning more than two decades have demonstrated the adverse impact EDCs including Di-2-ethylhexylphthalate have on the male and female reproductive systems such as inducing endometriosis, abnormal reproductive tract formation, decreased sperm counts and viability, pregnancy loss, and abnormal puberty onset.<sup>20</sup>

a. Phthalates

53. Phthalates are used in a variety of cosmetics and personal care products. Phthalates are chemical compounds developed in the last century that are used to make plastics more durable. These colorless, odorless, oily liquids also referred to as “plasticizers” based on their most common uses.

54. Phthalates also function as solvents and stabilizers in perfumes and other fragrance preparations. Cosmetics that may contain phthalates include nail polishes, hair sprays, aftershave lotions, cleansers, and shampoos.

55. At all relevant times herein, phthalates were used in Defendants’ products.

56. Phthalates are chemicals used to improve the stability and retention of fragrances and to help topical products stick to and penetrate skin and hair.<sup>21</sup>

57. Phthalates are known EDCs which interfere with natural hormone production and degradation and are detrimental to human health.<sup>22</sup>

58. Phthalates are commonly used by cosmetics and hair care product manufacturers to

<sup>21</sup> Olivia Koski & Sheila Hu, *Fighting Phthalates*, National Resources Defense Council, April 20, 2022, <https://www.nrdc.org/stories/fighting-phthalates> (last visited Oct. 28, 2022).

<sup>22</sup> Yufei Wang & Haifeng Qian, *Phthalates and Their Impacts on Human Health*, *Healthcare (Basel)* 9, 603, May 9, 2021, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8157593/> (last visited Oct. 28, 2022).

make fragrances and colors last longer, and to make hair more flexible after product is applied, among other uses.

59. Phthalates can be found in most products that have contact with plastics during producing, packaging, or delivering. Despite the short half-lives in tissues, chronic exposure to phthalates will adversely influence the endocrine system and functioning of multiple organs, which has negative long-term impacts on the success of pregnancy, child growth and development, and reproductive systems in both young children and adolescents. Several countries have established restrictions and regulations on some types of phthalates.<sup>23</sup>

60. Phthalates are a series of chemical substances, which are mainly used as plasticizers added to polyvinyl chloride (“PVC”) plastics for softening effects. Phthalates can potentially disrupt the endocrine system.<sup>24</sup>

61. Defendants’ products referenced herein contain phthalates, including Di-2-ethylhexylphthalate.

62. Under the authority of the Fair Packaging and Labeling Act (“FPLA”), the FDA requires an ingredient declaration on cosmetic products sold at the retail level to consumers. However, the regulations do not require the listing of the individual fragrance or flavor, or their specific ingredients meaning phthalates evade listing when combined with a fragrance. As a result, consumers, including Plaintiffs were not able to determine from the ingredient declaration on the label if phthalates were present in a fragrance used in the herein referenced hair products used by the Plaintiffs and placed into the stream of commerce by Defendants.

63. Since 1999, the Centers for Disease Control (“CDC”) have found phthalates in

---

<sup>23</sup> *Id.*

<sup>24</sup> *Id.*

individuals studied for chemical exposure.<sup>25</sup>

b. Di-2-ethylhexylphthalate

64. Di-2-ethylhexylphthalate (DEHP)<sup>26</sup> is a highly toxic manufactured chemical<sup>27</sup> that is not found naturally in the environment.<sup>28</sup>

65. DEHP was first used in 1949 in United States and has been the most abundantly used phthalate derivative in the Twentieth century.<sup>29</sup>

66. DEHP does not covalently bind to its parent material. Non-covalent bonds are weak and, as a result, DEHP readily leaches into the environment increasing human exposure.<sup>30</sup>

67. Humans are exposed to DEHP through ingestion, inhalation, and dermal exposure for their lifetimes, including intrauterine life.<sup>31</sup>

68. The Agency for Toxic Substances and Disease Registry (“ATSDR”) estimates that the range of daily human exposure to DEHP is 3–30 µg/kg/day.<sup>32</sup>

---

<sup>32</sup> Hannon, Patrick et. al., *Daily Exposure to Di(2-ethylhexyl) Phthalate Alters Estous Cyclicity and*

69. The no-observed-adverse-effect level for DEHP to humans is 4.8 mg/kg bodyweight/day and the tolerate daily intake (TDI) is 48 µg/kg bodyweight.<sup>33</sup>

70. When DEHP enters in the human body, it breaks down into specific metabolites. The toxicity of DEHP is mainly attributed to its unique metabolites which include the primary metabolite, mono-(2-ethylhexyl)phthalate (MEHP), and secondary metabolites, mono-(2-ethyl-5-hydroxyhexyl)phthalate (MEHHP), and mono-(2-ethyl-5-oxohexyl) phthalate (MEOHP).<sup>34</sup>

71. DEHP and its metabolites are known to cause significant adverse-health effects including but not limited to, endometriosis, developmental abnormalities, reproductive dysfunction and infertility,<sup>35</sup> various cancers, and metabolic syndrome within the human population and their future children.<sup>36</sup>

72. Most of the available studies on the health effects of DEHP in laboratory animals used oral administration, with a few inhalation studies and only two dermal exposure studies identified.<sup>37</sup>

73. The results of the selected animal studies, along with limited human data, suggest potential associations between DEHP exposure and the following health outcomes:

- a. **Reproductive effects.** Epidemiological studies suggest a potential association between DEHP exposure and decreased serum testosterone and altered sperm parameters in males. Available studies on fertility effects in humans do not indicate an association between DEHP exposure and infertility. In animals, the available oral and inhalation studies provide evidence that the male reproductive system, particularly the testes, is susceptible to DEHP toxicity. Evidence from animal studies indicates decreased male and female fertility at high oral doses.
- b. **Developmental effects.** Epidemiological studies suggest a potential association between reduced AGD and testicular descent in male infants and prenatal DEHP exposure. In addition, human epidemiological studies provide mixed results for potential relationships between exposure to DEHP and preterm birth, early puberty, and delayed mental and psychomotor development in children. Studies in animals indicate that altered glucose homeostasis and the development of the reproductive system following early life exposure is a particularly sensitive target of DEHP toxicity.

74. The global consumption of DEHP was estimated at 3.07 million tons (Global demand for plasticizers continues to rise). The estimated global market of phthalates in 2020 is expected to reach 10 billion USD and would still be widely used in plasticizers.<sup>38</sup>

75. Human epidemiological studies have shown a significant association between phthalates exposures and adverse reproductive outcomes in both women and men.<sup>39</sup>

---

<sup>38</sup> *Id.*

<sup>39</sup> *Id.*

76. Evidence found that DEHP was significantly related to insulin resistance and higher systolic blood pressure and the reproduction system problems, including earlier menopause, low birth weight, pregnancy loss, and preterm birth.<sup>40</sup>

77. When it comes to the impacts on children, epidemiological studies about phthalates toxicity focused on pregnancy outcomes, genital development, semen quality, precocious puberty, thyroid function, respiratory symptoms, and neurodevelopment.<sup>41</sup>

78. Since the turn of the century, restrictions on phthalates have been proposed in many Asian and western countries. In 2008, the U.S. Congress announced the Consumer Protection Safety Act (CPSA) that permanently banned the products, especially children's toys and childcare articles, containing DEHP, DBP, and BBP at levels >0.1% by weight.<sup>42</sup>

**F. Defendants' Marketing Efforts**

79. The manufacture of any misbranded or adulterated drug is prohibited under federal law<sup>43</sup> and Illinois state law.<sup>44</sup>

80. The introduction into commerce of any misbranded or adulterated drug is similarly prohibited.<sup>45</sup>

81. The receipt in interstate commerce of any adulterated or misbranded drug is also unlawful.<sup>46</sup>

82. Among the ways a drug may be adulterated are:

---

<sup>40</sup> N.M. Grindler, et al., *Exposure to Phthalate, an Endocrine Disrupting Chemical, Alters the First Trimester Placental Methylome and Transcriptome in Women*, Scientific Reports Volume 8, April 17, 2018, <https://doi.org/10.1038/s41598-018-24505-w> (last visited Oct. 28, 2022).

<sup>41</sup> *Id.*

<sup>42</sup> Consumer Product Safety Improvement Act of 2008, H.R. 4040, 110th Cong. (2008), <https://www.congress.gov/110/plaws/publ314/PLAW-110publ314.pdf> (last visited Oct. 28, 2022).

<sup>43</sup> 21 U.S.C. §331(g).

<sup>44</sup> See 410 ILCS 620/3-3.2.

<sup>45</sup> 21 U.S.C. §331(a).

<sup>46</sup> 21 U.S.C. §331(c).

If it consists in whole or in part of any filthy, putrid, or decomposed substance; or . . . whereby it may have been rendered injurious to health; . . . .<sup>47</sup>

83. A drug is misbranded:

(a) “If its labeling is false or misleading in any particular.”<sup>48</sup>

(b) If the labeling does not contain, among other things, “the proportion of each active ingredient[.]”<sup>49</sup>

(d) “If it is dangerous to health when used in the dosage or manner, or with the frequency or duration prescribed, recommended, or suggested in the labeling thereof.”<sup>50</sup>

84. If a manufacturer labels a drug but omits ingredients, that renders the drug misbranded.<sup>51</sup>

85. Because Defendants did not disclose EDCs may be present in the Toxic Hair-Straightener and/or Relaxers purchased by Plaintiffs and the putative class members, their Toxic Hair-Straightener and/or Relaxers are adulterated and misbranded. There is no “no safe level of EDCs” exposure, so it is unsuitable for human application as an ingredient in hair straighteners and/or relaxers.

86. Defendants wrongfully advertised and sold the Toxic Hair-Straightener and/or Relaxers without any labeling to indicate to consumers that these products may contain EDCs. The following images provide an example:

---

<sup>47</sup> 21 U.S.C. §351(a)(2)(B).

<sup>48</sup> 21 U.S.C. §352(a)(1).

<sup>49</sup> 21 U.S.C. §352(e)(1)(A)(ii).

<sup>50</sup> 21 U.S.C. §352(j).

<sup>51</sup> 21 C.F.R. §§201.6. “The labeling of a drug may be misleading by reason (among other reasons) of: ... (2) Failure to reveal the proportion of, or other fact with respect to, an ingredient present in such drug, when such proportion or other fact is material in the light of the representation that such ingredient is present in such drug.” 21 C.F.R. §201.10(2).

87. Plaintiffs have standing to represent members of the putative class because there is sufficient similarity between the specific Toxic Hair-Straightener and/or Relaxers purchased by the Plaintiffs and the other Toxic Hair-Straightener and/or Relaxers not purchased by Plaintiffs. Specifically, each and every one of Defendants' Toxic Hair-Straightener and/or Relaxers (i) are marketed in substantially the same way – as “Hair straighteners and/or relaxers”— and (ii) fail to include labeling indicating to consumers that the Toxic Hair-Straightener and/or Relaxers may contain EDCs as an active or inactive ingredient. Accordingly, the misleading effect of all of the Toxic Hair-Straightener and/or Relaxers are substantially the same.

### **CLASS ALLEGATIONS**

88. Plaintiffs bring this action on behalf of themselves and all other similarly situated class members (the “Class” or “Classes”) pursuant to Rule 23(a), (b)(2) and (b)(3) of the Federal Rules of Civil Procedure and seeks certification of the following Class and/or Sub-Classes against Defendants for violations of Illinois state laws and/or similar laws in other states:

**Multi-State Class Action**

All consumers who purchased any Hair straighteners and/or relaxers Product in the United States of America and its territories (excluding California) from May 25, 2017 to the present for personal use or consumption.

Excluded from the Class are any Defendant, any parent companies, subsidiaries, and/or affiliates, officers, directors, legal representatives, employees, co-conspirators, all governmental entities, and any judge, justice or judicial officer presiding over this matter.

89. In the alternative, Plaintiff brings this action on behalf of herself and all other similarly situated Illinois consumers pursuant to Rule 23(a), (b)(2) and (b)(3) of the Federal Rules of Civil Procedure and seeks certification of the following Sub-Classes:

**Illinois Sub-Class**

All consumers who purchased any of Defendants’ Hair straighteners and/or relaxers Product in the State of Illinois from November 3, 2018 to the present for personal use or consumption.

Excluded from the Class are any Defendants, any parent companies, subsidiaries, and/or affiliates, officers, directors, legal representatives, employees, co-conspirators, all governmental entities, and any judge, justice or judicial officer presiding over this matter.

**Nevada Sub-Class**

All consumers who purchased any Hair straighteners and/or relaxers Product in the State of Maryland from November 3, 2016 to the present for personal use or consumption.

Excluded from the Class are any Defendants, any parent companies, subsidiaries, and/or affiliates, officers, directors, legal

representatives, employees, co-conspirators, all governmental entities, and any judge, justice or judicial officer presiding over this matter.

**New Jersey Sub-Class**

All consumers who purchased any Hair straighteners and/or relaxers Product in the State of New York from November 3, 2016 to the present for personal use or consumption.

Excluded from the Class are any Defendants, any parent companies, subsidiaries, and/or affiliates, officers, directors, legal representatives, employees, co-conspirators, all governmental entities, and any judge, justice or judicial officer presiding over this matter.

**Texas Sub-Class**

All consumers who purchased any Hair straighteners and/or relaxers Product in the State of Texas from November 3, 2018 to the present for personal use or consumption.

Excluded from the Class are any Defendants, any parent companies, subsidiaries, and/or affiliates, officers, directors, legal representatives, employees, co-conspirators, all governmental entities, and any judge, justice or judicial officer presiding over this matter.

90. The members of the Class are so numerous that joinder of all members of the Class is impracticable. Plaintiffs are informed and believes that the proposed Class/Sub-Classes contains thousands of purchasers of Defendants' Toxic Hair-Straightener and/or Relaxers who have been damaged by Defendants' conduct as alleged herein. The precise number of Class members is unknown to Plaintiffs at this time.

91. Plaintiffs' claims are typical to those of all Class members because members of the Class are similarly injured through Defendant's uniform misconduct described above and were subject to Defendant's deceptive hair straighteners and/or relaxers claims that accompanied each and every hair straighteners and/or relaxers product in the collection. Plaintiffs are advancing the

same claims and legal theories on behalf of themselves and all members of the Class/Sub-Class.

92. Plaintiffs' claims raise questions of law and fact common to all members of the Class, and they predominate over any questions affecting only individual Class members. The claims of Plaintiffs and all prospective Class members involve the same alleged defect. These common legal and factual questions include the following:

- (a) whether Defendants' Toxic Hair-Straightener and/or Relaxers contained EDCs;
- (b) whether Defendants' omissions are true, or are misleading, or objectively reasonably likely to deceive.
- (c) whether the alleged conduct constitutes violations of the laws asserted;
- (d) whether Defendants' alleged conduct violates public policy;
- (e) whether Defendants' engaged in false or misleading advertising;
- (f) whether Defendants were unjustly enriched as a result of its labeling, marketing, advertising and/or selling of the Toxic Hair-Straightener and/or Relaxers;
- (g) whether Plaintiffs and the Class members are entitled to damages and/or restitution and the proper measure of that loss; and
- (h) whether an injunction is necessary to prevent Defendants from continuing to market and sell defective and adulterated Toxic Hair-Straightener and/or Relaxers that contain EDCs.

93. Plaintiffs and their counsel will fairly and adequately protect and represent the interests of each member of the class. Plaintiffs have retained counsel experienced in complex litigation and class actions. Plaintiffs' counsel has successfully litigated other class action cases similar to that here and have the resources and abilities to fully litigate and protect the interests of the class. Plaintiffs intend to prosecute this claim vigorously. Plaintiffs have no adverse or

antagonistic interests to those of the Class, nor are Plaintiffs subject to any unique defenses.

94. A class action is superior to the other available methods for a fair and efficient adjudication of this controversy. The damages or other financial detriment suffered by the Plaintiffs and individual Class members is relatively small compared to the burden and expense that would be entailed by individual litigation of their claims against Defendants. It would thus be virtually impossible for Plaintiffs and Class members, on an individual basis, to obtain meaningful and effective redress for the wrongs done to them. Further, it is desirable to concentrate the litigation of the Class members' claims in one forum, as it will conserve party and judicial resources and facilitate the consistency of adjudications. Plaintiffs know of no difficulty that would be encountered in the management of this case that would preclude its maintenance as a class action.

95. The Class also may be certified because Defendants have acted or refused to act on grounds applicable to the Class, thereby making appropriate final declaratory and/or injunctive relief with respect to the members of the Class as a whole.

96. Plaintiffs seek preliminary and permanent injunctive and equitable relief on behalf of the entire Class, on grounds generally applicable to the entire Class, to enjoin and prevent Defendants from engaging in the acts described above, such as continuing to market and sell Toxic Hair-Straightener and/or Relaxers that may be adulterated with EDCs, and requiring Defendants to provide a full refund of the purchase price of the Toxic Hair-Straightener and/or Relaxers to Plaintiffs and Class members.

97. Unless a Class is certified, Defendants will retain monies received as a result of their conduct that were taken from Plaintiffs and the Class members. Unless a Class-wide injunction is issued, Defendants will continue to commit the violations alleged and the members

of the Class and the general public will continue to be misled. Indeed, to this day, Defendant continues to market and sell Toxic Hair-Straightener and/or Relaxers to be adulterated with EDCs.

**TOLLING OF THE STATUTE OF LIMITATIONS,  
FRAUDULENT CONCEALMENT, EQUITABLE TOLLING,  
AND CONTINUING VIOLATIONS**

98. Plaintiffs did not discover, and could not have discovered through the exercise of reasonable diligence, the existence of the claims sued upon herein until immediately prior to commencing this civil action.

99. Any applicable statutes of limitation have been tolled by Defendants' affirmative acts of fraudulent concealment and continuing misrepresentations, as the facts alleged above reveal.

100. Because of the self-concealing nature of Defendants' actions and their affirmative acts of concealment, Plaintiffs and the Sub Classes assert the tolling of any applicable statutes of limitations affecting the claims raised herein.

101. Defendants continue to engage in the deceptive practice, and, consequently, unwary consumers are injured on a daily basis by Defendants' unlawful conduct. Therefore, Plaintiffs and the Sub Classes submit that each instance that Defendants engaged in the conduct complained of herein and each instance that a member of any Class purchased Defendants' Toxic Hair-Straighteners and/or Relaxers constitutes part of a continuing violation and operates to toll the statutes of limitation in this action.

102. Defendants are estopped from relying on any statute of limitations defense because of their unfair or deceptive conduct.

103. Defendants' conduct was and is, by its nature, self-concealing. Still, Defendants, through a series of affirmative acts or omissions, suppressed the dissemination of truthful

information regarding their illegal conduct, and actively have foreclosed Plaintiffs and the Classes from learning of their illegal, unfair, and/or deceptive acts.

104. By reason of the foregoing, the claims of Plaintiffs and the Classes are timely under any applicable statute of limitations, pursuant to the discovery rule, the equitable tolling doctrine, and fraudulent concealment.

## **FIRST CAUSE OF ACTION**

### **MEDICAL MONITORING**

**(On Behalf of the Illinois, New Jersey, and Nevada Plaintiffs and Sub-Class Members)**

105. Defendants provided misinformation about the presence of EDCs their Toxic Hair-Straighteners and/or Relaxers which are harmful to women's health as described herein and, as a result, Defendants succeeded in persuading large segments of the relevant consumer market to purchase Defendants' Toxic Hair-Straighteners and/or Relaxers despite the presence of significant dangers, as set forth herein.

106. Defendants had a pre-marketing, post-manufacturing and continuing duty to warn, which arose when Defendants knew, or with reasonable care should have known, that Defendants' Toxic Hair-Straighteners and/or Relaxers were injurious or fatal.

107. Defendants omitted, suppressed, or concealed material facts concerning the dangers and risks associated with the use of Defendants' Toxic Hair-Straighteners and/or Relaxers, including but not limited to the risks of death, disease, and other health problems associated with the use of Defendant's Toxic Hair-Straighteners and/or Relaxers. Defendants failed to disclose that Defendants' Toxic Hair-Straighteners and/or Relaxers contained toxic chemicals, including EDCs and/or purposely downplayed and/or understated the serious nature of the risks associated with the use of Defendants' Toxic Hair-Straighteners and/or Relaxers and instead encouraged the

use of Defendants' Toxic Hair-Straighteners and/or Relaxers despite knowledge of the dangerous side effects that these products present to the consuming population.

108. Defendants falsely and deceptively misrepresented or knowingly omitted, suppressed or concealed material facts regarding the ingredients contained within Defendants' Toxic Hair-Straighteners and/or Relaxers and the risk posed by those ingredients to the public.

109. Had the Illinois, New Jersey, and Nevada Plaintiffs known that Defendants' Toxic Hair-Straighteners and/or Relaxers contained the dangerous ingredients described herein and/or that those ingredients could cause serious life-threatening injuries, none of them would not have purchased Defendants' Toxic Hair-Straighteners and/or Relaxers.

110. Defendants knew or should have known, and would have known had appropriate testing been done, that the use of Defendants' Toxic Hair-Straighteners and/or Relaxers caused the serious and potentially life-threatening adverse health consequences and/or death as described herein.

111. Defendants' actions as set forth herein constitute knowing omission, suppression or concealment of material facts, made with the intent that others will rely upon such concealment, suppression or omission, in connection with the marketing of Defendants' Toxic Hair-Straighteners and/or Relaxers.

112. Defendants' actions as described herein evidence lack of good faith, honesty in fact and observance of fair dealing so as to constitute unconscionable commercial practices.

113. The Illinois, New Jersey, and Nevada Plaintiffs have suffered ascertainable loss – economic losses that include the purchase price of the drug, the out-of-pocket cost of interim medical tests and services and other costs incidental to their use of a harmful and defective product -- for which Defendants are liable to the Illinois, New Jersey, and Nevada Plaintiffs.

114. As a proximate result of consuming Defendants' Toxic Hair-Straighteners and/or Relaxers, the Illinois, New Jersey, and Nevada Plaintiffs have been significantly exposed to toxic chemicals and thereby have suffered an increased risk of disease and/or injury, making the periodic examination of the Illinois, New Jersey, and Nevada Plaintiffs both reasonable and medically necessary.

115. There currently exists a means to detect the onset of disease and/or injury, as well as the other adverse health problems caused by the use of Defendants' Toxic Hair-Straighteners and/or Relaxers, at an early stage, such that subsequent treatment would have a higher chance of success at prolonging life and reducing suffering than would exist without such monitoring and treatment.

116. The prescribed monitoring regime is different from that normally recommended in the absence of the exposure to this drug and is reasonably necessary according to contemporary medical and scientific principles.

117. The increased susceptibility to injuries and irreparable threat to the health of the Illinois, New Jersey, and Nevada Plaintiffs resulting from their exposure to this hazardous substance can only be mitigated or redressed by the Defendant's providing, and/or compensating the Illinois, New Jersey, and Nevada Plaintiffs for the costs of, medical monitoring for cancer and cancer-related conditions, necessary as a result of the use of Defendants' Toxic Hair-Straighteners and/or Relaxers.

118. As a result of Defendants' marketing of its Toxic Hair-Straighteners and/or Relaxers and Plaintiffs' use thereof, the Illinois, New Jersey, and Nevada Plaintiffs are entitled to appropriate medical monitoring funded by Defendants, including but not limited to, testing and preventative screening.

119. The foregoing wrongful, tortious, and negligent acts, omissions, and conduct by Defendants constitute actionable negligence.

120. Defendants' negligent, tortious, and wrongful acts are a proximate cause of the Illinois, New Jersey, and Nevada Plaintiffs' suffering an increased risk of serious injury and disease, which they will continue to suffer. The Illinois, New Jersey, and Nevada Plaintiffs have been exposed to a hazardous product and suffer a significantly increased risk of contracting serious injury and even death. This increased risk makes periodic diagnostic and medical examinations reasonable and necessary.

121. Medical monitoring is particularly appropriate, and, indeed, imperative, with respect to this action as:

- a. Defendants' Toxic Hair-Straighteners and/or Relaxers have been found to cause cancer, including breast, uterine and other hormone-driven cancers and diseases.
- b. It is reasonably believed that the injury and damage caused by Defendants' Toxic Hair-Straighteners and/or Relaxers may be latent, asymptomatic, chronic, and/or undiscovered in the absence of medical monitoring for these cancers.

122. Early detection and diagnosis of these diseases is clinically invaluable since it can prevent, reduce and/or significantly delay resulting discomfort, suffering, and/or death and since these conditions can be often asymptomatic absent proper testing.

123. Easily administered, cost-effective monitoring and testing procedures exist which make the early detection and treatment of such injuries or disease possible and beneficial. Early diagnosis of diseases and conditions will allow prompt and effective treatment which will reduce the risk of morbidity and mortality which these patients would suffer if treatment were delayed until their condition became overly symptomatic.

124. Appropriate tests include non-invasive, readily administrate able initial tests and procedures.

125. The increased susceptibility to injuries and irreparable threat to the health of the Illinois, New Jersey, and Nevada Plaintiffs resulting from their exposure to Defendants' Toxic Hair-Straighteners and/or Relaxers can only be mitigated or addressed by appropriate medical testing.

126. By reason of the foregoing, Defendants are liable to the Illinois, New Jersey, and Nevada Plaintiffs for the costs of periodic medical monitoring.

Wherefore, the Illinois, New Jersey, and Nevada Plaintiffs request damages in the form of costs for appropriate medical monitoring as requested in the Prayer for Relief below.

### **SECOND CAUSE OF ACTION**

#### **Violation of the Illinois Consumer Fraud and Deceptive Business Practices Act**

**815 Ill. Comp. Stat. 505/1 – 505/12**

**(On Behalf of Plaintiffs Evelyn Williams, Tabatha Taggart, and Carla Rose and the Illinois Sub-Class)**

127. The Illinois Plaintiffs incorporate by reference and re-alleges each and every allegation contained above, as though fully set forth herein.

128. The Illinois Plaintiffs brings this Count individually and on behalf of the Illinois Sub-Class.

129. The Illinois Consumer Fraud and Deceptive Business Practices Act ("ICFA") makes unlawful:

Unfair methods of competition and unfair or deceptive acts or practices, including but not limited to the use or employment of any deception, fraud, false pretense, false promise, misrepresentation or the concealment, suppression or omission of any material fact, with intent that others rely upon the concealment, suppression or

omission of such material fact, or the use or employment of any practice described in Section 2 of the “Uniform Deceptive Trade Practices Act”, approved August 5, 1965,<sup>1</sup> in the conduct of any trade or commerce are hereby declared unlawful whether any person has in fact been misled, deceived or damaged thereby.

815 ILCS 505/2.

130. Defendants have violated and continues to violate ICFA by, among other things, (1) misrepresenting that its Toxic Hair Straighteners and/or Relaxers were safe when in fact its Toxic Hair Straighteners and/or Relaxers are unsafe because they contain EDCs, (2) failing to disclose to consumers in its labeling or otherwise that its Toxic Hair Straighteners and/or Relaxers contained EDCs, and (3) continuing to market, advertise and sell Toxic Hair-Straightener and/or Relaxers adulterated with EDCs.

131. Defendants knew, or through the exercise of reasonable care should have known, that its Toxic Hair Straighteners and/or Relaxers were adulterated with EDCs. Defendants’ unfair conduct, as described herein, is intentional, and Defendants intend for consumers to rely on its unfair and misleading practices, including with respect to Defendants’ decision to continue to sell Toxic Hair-Straightener and/or Relaxers containing EDCs.

132. Defendants’ unfair conduct, as described herein, occurred in the course of trade or commerce.

133. Defendants’ conduct, as described herein, violates ICFA because it (1) offends public policy; (2) is immoral, unethical, oppressive, or unscrupulous; and (3) causes substantial injury to consumers.

134. Defendants’ conduct offends the public policy of Illinois in that it violates a standard of conduct contained in an existing statute or common law doctrine that typically applies to such a situation. Specifically, among other things, it is unfair and misleading to represent to

consumers that a product is safe and contains the ingredients identified on the label when in fact the product is unsafe because it contains a cancer-causing chemical not identified on the label.

135. Defendants' conduct, as described herein, has caused and continues to cause substantial injury to consumers, including the Illinois Plaintiffs the members of the Illinois Sub-Class.

136. Additionally, Defendants made deceptive statements and omissions regarding the Toxic Hair-Straightener and/or Relaxers. Defendants represented that the Toxic Hair-Straightener and/or Relaxers were safe when they are not because they are adulterated with EDCs. And, Defendants did not disclose that the Toxic Hair-Straightener and/or Relaxers contain EDCs when they do.

137. Defendants' deceptive statements and omissions are material because they concern ingredients and contaminants and safety, which are among the types of information that consumers, including the Illinois Plaintiffs and the members of the Illinois Sub-Class, would be expected to rely upon in making purchasing decisions.

138. Defendants' deceptive statements and omissions have the capacity to deceive consumers, including the Illinois Plaintiffs and the Illinois Sub-Class, by inducing them to purchase the Toxic Hair-Straightener and/or Relaxers.

139. Defendants' intended for consumers, including the Illinois Plaintiffs and the members of the Illinois Sub-Class, to rely on its deceptive statements and omissions by purchasing the Toxic Hair-Straightener and/or Relaxers.

140. Defendants made its deceptive statements and omissions in the course of conduct involving trade or commerce.

141. The Illinois Plaintiffs and the members of the Illinois Sub-Class have been injured

as a direct and proximate result of Defendants' deceptive conduct in violation of ICFA. The Illinois Plaintiffs and the members of the Illinois Sub-Class paid for the Toxic Hair-Straightener and/or Relaxers as a result of Defendants' deceptive statements and omissions.

142. Through its deceptive practices, Defendants have improperly obtained and continues to improperly obtain and retain money from the Illinois Plaintiffs and the members of the Illinois Sub-Class.

143. The injury caused by Defendants' conduct is not outweighed by any countervailing benefits to consumers or to competition.

144. The injury caused by Defendants' conduct could not reasonably have been avoided by consumers because they did not know and could not have known that the Toxic Hair-Straightener and/or Relaxers were adulterated with EDCs, particularly given that EDCs is not listed as an ingredient on the Toxic Hair-Straightener and/or Relaxers' label.

145. The Illinois Plaintiffs therefore requests that this Court grant the relief enumerated below. Otherwise, the Illinois Plaintiffs and the members of the Illinois Sub-Class may be irreparably harmed and/or denied an effective and complete remedy.

### **THIRD CAUSE OF ACTION**

#### **Violation of Nevada's Deceptive Trade Practices Act**

**NRS §§ 598.0901 et seq.**

**(On Behalf of Plaintiff Tameka Meadows and the Nevada Sub-Class)**

146. Plaintiff Tameka Meadows incorporates by reference and re-alleges each and every allegation contained above, as though fully set forth herein.

147. Plaintiff Tameka Meadows brings this Count individually and on behalf of the Nevada Sub-Class.

148. The Nevada Deceptive Trade Practices Act (“NDTPA”) provides that a person or entity may not engage in any unfair or deceptive trade practice in the sale of any consumer good. NRS §§ 598.0915, 598.092. Defendant participated in misleading, false, or deceptive acts that violated the NDTPA.

149. In the course of Defendants’ business, Defendants concealed and suppressed material facts concerning that its Toxic Hair-Straightener and/or Relaxers contain EDCs. EDCs are not identified as an ingredient on the Toxic Hair-Straightener and/or Relaxers’ label.

150. Plaintiff Tameka Meadows and members of the Nevada Sub-Class had no means of discerning that Defendants’ representations were false and misleading until after their purchase of the Toxic Hair-Straightener and/or Relaxers.

151. Defendants’ actions as set forth above occurred in the conduct of trade or commerce.

152. In the course of Defendants’ business, Defendants engaged in misleading, false, unfair, or deceptive acts or practices that violated the NDTP by, among other things, marketing and advertising its Toxic Hair-Straightener and/or Relaxers as safe when they are not because they are adulterated with EDCs and failing to disclose on the Toxic Hair-Straightener and/or Relaxers’ label that the Toxic Hair-Straightener and/or Relaxers contain EDCs.

153. Among other things, the NDTPA prohibits (1) “[k]nowingly makes a false representation as to the characteristics, ingredients, uses, benefits, alterations or quantities of goods or services for sale or lease;” (2) “[k]nowingly makes any other false representation in a transaction;” and (3) “[m]akes any untrue statement of a material fact or omits to state a material fact which is necessary to make another statement, considering the circumstances under which it is made, not misleading.” NRS §§ 598.0915(5), 598.0915(15), 598.092(5)(c).

154. Defendants misrepresented material facts that its Toxic Hair-Straightener and/or Relaxers were safe and EDC-free even when in fact they not safe because they contain EDCs, .

155. Defendants knew, or in the exercise of reasonable care should have known, that its conduct violated the NDTPA.

156. Defendants' practice of advertising, marketing, and labeling its Toxic Hair-Straightener and/or Relaxers as safe and not listing EDCs as ingredient was material to Plaintiff Tameka Meadows and the Nevada Sub-Class.

157. Defendants' unfair or deceptive acts or practices were likely to and did in fact deceive reasonable consumers, including Plaintiff Tameka Meadows, about the true and unsafe nature of the Toxic Hair-Straightener and/or Relaxers they purchased.

158. Plaintiff and the Nevada Sub-Class suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' misrepresentations and its concealment of and failure to disclose material information. Plaintiff and the Nevada Sub-Class members who purchased the Toxic Hair-Straightener and/or Relaxers would not have purchased the Toxic Hair-Straightener and/or Relaxers had they known they could contain EDCs.

159. Defendants had an ongoing duty to all consumers to refrain from unfair and deceptive practices under the NDTPA.

160. Defendants' violations present a continuing risk of deception to Plaintiff Tameka Meadows as well as to the general public insofar as the Toxic Hair-Straightener and/or Relaxers are still being marketed and sold throughout Nevada and the rest of the United States, including Toxic Hair-Straightener and/or Relaxers containing EDCs. Thus, Defendants' unlawful acts and practices complained of herein affect the public interest, including public health.

161. As a direct and proximate result of Defendants' violations of the NDTPA, Plaintiff

and the Nevada Sub-Class members suffered injury-in-fact and/or actual damage.

162. Pursuant to NRS § 598.0971, Plaintiff and the Nevada Sub-Class seek actual damages, attorneys' fees, and any other just and proper relief available under the NDTPA.

**FOURTH CAUSE OF ACTION**

**Violation of New Jersey's General Business Law**

**New Jersey Unfair Trade Practices Law § 56:8**

**(On Behalf of Plaintiff Deborah Taylor and the New Jersey Sub-Class)**

163. Plaintiff Deborah Taylor incorporates by reference and re-alleges each and every allegation contained above, as though fully set forth herein.

164. Plaintiff Deborah Taylor brings this Count individually and on behalf of the New Jersey Sub-Class.

165. Defendants are "persons" under New Jersey § 56:8-1.

166. Defendants' actions as set forth herein occurred in the conduct of trade or commerce under New Jersey law.

167. New Jersey law states: "The act, use or employment by any person of any unconscionable commercial practice, deception, fraud, false pretense, false promise, misrepresentation, or the knowing, concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale or advertisement of any merchandise or real estate, or with the subsequent performance of such person as aforesaid, whether or not any person has in fact been misled, deceived or damaged thereby, is declared to be an unlawful practice." N.J. Stat. § 56:8-2. Defendants' conduct, as set forth herein, constitutes deceptive acts or practices under this section.

168. In the course of business, Defendants violated New Jersey law by making false or

misleading statements on Toxic Hair-Straightener and/or Relaxers by not disclosing that the Toxic Hair-Straightener and/or Relaxers contained EDCs.

169. In the course of business, Defendants made affirmative misrepresentations that conveyed to Plaintiff Deborah Taylor and the New Jersey Sub-Class members that the Toxic Hair-Straightener and/or Relaxers were safe and suitable as hair straighteners and/or relaxers. Defendants, however, concealed and suppressed material facts concerning the Toxic Hair-Straightener and/or Relaxers, including that the Toxic Hair-Straightener and/or Relaxers were unsafe and unsuitable as hair straighteners and/or relaxers and that they contained EDCs.

170. Plaintiff Deborah Taylor and New Jersey Sub-Class members had no way of discerning that Defendants' representations were false and misleading because the labeling did not disclose the presence of EDCs, and the Sub-Class members had no reason to otherwise suspect the Toxic Hair-Straightener and/or Relaxers were adulterated with EDCs.

171. Defendants thus violated New Jersey law by making statements, when considered as a whole from the perspective of the reasonable consumer, that conveyed that the Toxic Hair-Straightener and/or Relaxers were safe and suitable as hair straighteners and/or relaxers.

172. Defendants made affirmative misrepresentations about the safety, quality, and ingredients of its Toxic Hair-Straightener and/or Relaxers that were not true, and they failed to disclose material facts regarding the Toxic Hair-Straightener and/or Relaxers which mislead Plaintiff Deborah Taylor and Sub-Class members.

173. Defendants knew or should have known that their conduct violated New Jersey law.

174. Defendant owed Plaintiff Deborah Taylor and the Sub-Class a duty to disclose the true and unsafe nature of the Toxic Hair-Straightener and/or Relaxers.

175. Defendants' concealment of the true characteristics of the Toxic Hair-Straightener

and/or Relaxers was material to Plaintiff Deborah Taylor and Sub-Class members.

176. Defendants' unfair or deceptive acts or practices were likely to and did in fact deceive reasonable consumers, including Plaintiff Deborah Taylor and Sub-Class members, about the true nature of the Toxic Hair-Straightener and/or Relaxers.

177. Plaintiff Deborah Taylor and Sub-Class members would not have purchased the Toxic Hair-Straightener and/or Relaxers had they known that the Toxic Hair-Straightener and/or Relaxers contain EDCs.

178. Defendants' violations present a continuing risk to Plaintiff Deborah Taylor and the Sub-Class as well as to the general public, including public health. Thus, Defendants' unlawful acts and practices complained of herein affect the public interest.

179. Plaintiff Deborah Taylor and the Sub-Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' misrepresentations and concealment of and failure to disclose material information. Defendants have an ongoing duty to all customers and the public to refrain from unfair and deceptive practices under the New Jersey law. Plaintiff Deborah Taylor and all New Jersey Sub-Class members suffered ascertainable loss because of Defendants' deceptive and unfair acts and practices made in the course of Defendants' business.

180. As a direct and proximate result of Defendants' violations of New Jersey law, Plaintiff Deborah Taylor and New Jersey Sub-Class members have suffered injury-in-fact and/or actual damage.

181. As a result of the foregoing willful, knowing, and wrongful conduct of Defendants, Plaintiff Deborah Taylor and the New Jersey Sub-Class members have been damaged in an amount to be proven at trial, and seek all just and proper remedies, including but not limited to "refund of

all moneys acquired by means of any practice declared . . . to be unlawful.” N.J. Stat. § 56:8-2.11.

**FIFTH CAUSE OF ACTION**

**Violation of Texas’s Deceptive Trade Practices Act - Tex. Stat. Ann. § 17.41 et seq.**

**(On Behalf of Plaintiff Daphne Valentine and the Texas Sub Class)**

182. Plaintiff Daphne Valentine incorporates by reference and re-alleges each and every allegation contained above, as though fully set forth herein.

183. Plaintiff Daphne Valentine brings this Count individually and on behalf of the Texas Sub-Class.

184. Defendants are “persons” under Texas Stat. Ann. § 17.45(3).

185. Defendants’ actions as set forth herein occurred in the conduct of trade or commerce under Texas Stat. Ann. § 17.45(6).

186. Texas law states: “[f]alse, misleading, or deceptive acts or practices in the conduct of any trade or commerce are hereby declared unlawful and are subject to action by the consumer protection division under Sections 17.47, 17.58, 17.60, and 17.61 of this code. Except as provided in Subsection (d) of this section, the term ‘false, misleading, or deceptive acts or practices’ includes, but is not limited to, the following acts:” (1) representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities which they do not have;” (2) “representing that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another;” and, among others, (3) “disparaging the goods, services, or business of another by false or misleading representation of facts.” TX Stat. Ann. § 17.46. Defendants’ conduct, as set forth herein, constitutes deceptive acts or practices under this section.

187. In the course of business, Defendants violated Texas law by making false or

misleading statements on Toxic Hair-Straightener and/or Relaxers by not disclosing that the Toxic Hair-Straightener and/or Relaxers contained EDCs.

188. In the course of business, Defendants made affirmative misrepresentations that conveyed to Plaintiff Daphne Valentine and the Texas Sub-Class members that the Toxic Hair-Straightener and/or Relaxers were safe and suitable as hair straighteners and/or relaxers. Defendants, however, concealed and suppressed material facts concerning the Toxic Hair-Straightener and/or Relaxers, including that the Toxic Hair-Straightener and/or Relaxers were unsafe and unsuitable as hair straighteners and/or relaxers and that they contained EDCs.

189. Plaintiff Daphne Valentine and the Texas Sub-Class members had no way of discerning that Defendants' representations were false and misleading because the labeling did not disclose the presence of EDCs, and the Sub-Class members had no reason to otherwise suspect the Toxic Hair-Straightener and/or Relaxers were adulterated with EDCs.

190. Defendants thus violated Texas law by making statements, when considered as a whole from the perspective of the reasonable consumer, that conveyed that the Toxic Hair-Straightener and/or Relaxers were safe and suitable as hair straighteners and/or relaxers.

191. Defendants made affirmative misrepresentations about the safety, quality, and ingredients of its Toxic Hair-Straightener and/or Relaxers that were not true, and they failed to disclose material facts regarding the Toxic Hair-Straightener and/or Relaxers which mislead Plaintiff Daphne Valentine and the Texas Sub-Class members.

192. Defendants knew or should have known that their conduct violated Texas law.

193. Defendant owed Plaintiff Daphne Valentine and the Texas Sub-Class a duty to disclose the true and unsafe nature of the Toxic Hair-Straightener and/or Relaxers.

194. Defendants' concealment of the true characteristics of the Toxic Hair-Straightener

and/or Relaxers was material to Plaintiff Daphne Valentine and the Texas Sub-Class members.

195. Defendants' unfair or deceptive acts or practices were likely to and did in fact deceive reasonable consumers, including Plaintiff Daphne Valentine and the Texas Sub-Class members, about the true nature of the Toxic Hair-Straightener and/or Relaxers.

196. Plaintiff Daphne Valentine and Sub-Class members would not have purchased the Toxic Hair-Straightener and/or Relaxers had they known that the Toxic Hair-Straightener and/or Relaxers contain EDCs.

197. Defendants' violations present a continuing risk to Plaintiff Daphne Valentine and the Texas Sub-Class as well as to the general public, including public health. Thus, Defendants' unlawful acts and practices complained of herein affect the public interest.

198. Plaintiff Daphne Valentine and the Texas Sub-Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' misrepresentations and concealment of and failure to disclose material information. Defendants have an ongoing duty to all customers and the public to refrain from unfair and deceptive practices under the Texas law. Plaintiff Daphne Valentine and all Texas Sub-Class members suffered ascertainable loss because of Defendants' deceptive and unfair acts and practices made in the course of Defendants' business.

199. As a direct and proximate result of Defendants' violations of Texas law, Plaintiff Daphne Valentine and the Texas Sub-Class members have suffered injury-in-fact and/or actual damage.

200. As a result of the foregoing willful, knowing, and wrongful conduct of Defendants, Plaintiff Daphne Valentine and the Texas Sub-Class members have been damaged in an amount to be proven at trial, and seek all just and proper remedies.

**SIXTH CAUSE OF ACTION**

**Unjust Enrichment**

**(On Behalf of the Multi-State Class and All State Classes)**

201. Plaintiffs incorporate by reference and re-alleges each and every allegation contained above, as though fully set forth herein.

202. As a result of Defendants' wrongful and deceptive conduct alleged herein, Defendant knowingly and voluntarily accepted and retained wrongful benefits in the form of money paid by the Plaintiffs and members of the Classes when they purchased the Toxic Hair-Straightener and/or Relaxers.

203. In so doing, Defendants acted with conscious disregard for the rights of Plaintiffs and members of the Classes.

204. As a result of Defendants' wrongful conduct as alleged herein, Defendants have been unjustly enriched at the expense of, and to the detriment of, Plaintiffs and members of the Classes.

205. Defendants' unjust enrichment is traceable to, and resulted directly and proximately from, the conduct alleged herein.

206. Under the common law doctrine of unjust enrichment, it is inequitable for Defendants to be permitted to retain the benefits it received, and is still receiving, without justification, from the false and deceptive labeling and marketing of the Toxic Hair-Straightener and/or Relaxers to Plaintiffs and members of the Classes.

207. Defendants' retention of such funds under circumstances making it inequitable to do so constitutes unjust enrichment.

208. The financial benefits derived by Defendants rightfully belong to Plaintiffs and

members of the Classes.

209. Defendants should be compelled to disgorge in a common fund for the benefit of Plaintiffs and members of the Classes all wrongful or inequitable proceeds received by them.

210. Finally, Plaintiffs and members of the Classes may assert an unjust enrichment claim even though a remedy at law may otherwise exist.<sup>52</sup>

## **SEVENTH CAUSE OF ACTION**

### **Negligent Misrepresentation/Omission**

#### **(On Behalf of the Multi-State Class and All State Classes)**

211. Plaintiffs incorporate by reference and re-allege each and every allegation contained above, as though fully set forth herein.

212. Through their labeling and advertising, Defendants made representations to the Plaintiffs and the Class members concerning the active and inactive ingredients in their Toxic Hair-Straightener and/or Relaxers.

213. Defendants have a duty to provide accurate information to consumers with respect to the ingredients identified in their Toxic Hair-Straightener and/or Relaxers as detailed above.

214. Defendants failed to fulfill its duty to accurately disclose in its labeling and advertising that the Toxic Hair-Straightener and/or Relaxers contained EDCs.

215. Additionally, Defendants have a duty to not make false representations with respect to their Toxic Hair-Straightener and/or Relaxers.

---

<sup>52</sup> See *Lewis v. Lead Indus. Ass'n, Inc.*, 793 N.E.2d 869, 877 (Ill. App. Ct. 2003) (citing *Board of Education of City of Chicago v. A, C & S, Inc.*, 546 N.E.2d 580 (1989)) (“To state a cause of action based on a theory of unjust enrichment, a plaintiff must allege facts supporting the conclusion that the defendant unjustly retained a benefit to the plaintiff’s detriment and that the defendant’s retention of the benefit violates the principles of justice, equity, and good conscience. . . . In order for a cause of action for unjust enrichment to exist, there must be some independent basis which establishes a duty on the part of the defendant to act and the defendant must have failed to abide by that duty.”).

216. Defendants failed to fulfill its duty when it made false representations regarding the quality and safety of the Toxic Hair-Straightener and/or Relaxers as detailed above.

217. Such failures to disclose on the part of Defendants amount to negligent omission and the representations regarding the quality and safety of the product amount to negligent misrepresentation.

218. Plaintiffs and the other members of the Classes reasonably relied upon such representations and omissions to their detriment.

219. By reason thereof, Plaintiffs and the other Class members have suffered damages in an amount to be proven at trial.

### **EIGHTH CAUSE OF ACTION**

#### **Breach of Express Warranty**

##### **(On Behalf of the Multi-State Class and All State Classes)**

220. Plaintiffs incorporate by reference and re-allege each and every allegation contained above, as though fully set forth herein.

221. As detailed above, Defendants, through its written literature, packaging and labeling, and written and media advertisement, expressly warranted that the Toxic Hair-Straightener and/or Relaxers were safe and fit for the purposes intended, that they were of merchantable quality, and that they did not pose dangerous health risks.

222. Moreover, the Toxic Hair-Straightener and/or Relaxers' labeling represents that the regular use of broad spectrum hair straighteners and/or relaxers is "protective" and that its use can "decrease the risk" of skin cancer and early skin aging. Such statements constitute an affirmation of fact or promise or a description of the product as being safe and not posing a dangerous health risk. Defendants breached this express warranty because its Toxic Hair-Straightener and/or

Relaxers are not safe. To the contrary, the Toxic Hair-Straightener and/or Relaxers pose a dangerous health risk because they contain EDCs—a chemical that actually increases the risk of cancer when exposure occurs either through inhalation or skin absorption.

223. Plaintiffs and the other Class members read and relied on these express warranties provided by Defendant in the packaging and written advertisements.

224. Defendants breached its express warranties because the Toxic Hair-Straightener and/or Relaxers are defective and not reasonably safe for their intended use.

225. Defendants knew or should have known that the Toxic Hair-Straightener and/or Relaxers did not conform to their express warranties and representations and that, in fact, the Toxic Hair-Straightener and/or Relaxers are not safe and pose serious health risks because they contain EDCs.

226. Plaintiffs and the other Class members have suffered harm on account of Defendants' breach of its express warranty regarding the fitness for use and safety of the Toxic Hair-Straightener and/or Relaxers and are entitled to damages to be determined at trial.

### **NINTH CAUSE OF ACTION**

#### **Breach of Implied Warranty**

##### **(On Behalf of the Multi-State Class and All State Classes)**

227. Plaintiffs incorporate by reference and re-allege each and every allegation contained above, as though fully set forth herein.

228. Because the Toxic Hair-Straightener and/or Relaxers contained EDCs, they were not of the same quality as those generally acceptable in the trade and were not fit for the ordinary purposes for which such Toxic Hair-Straightener and/or Relaxers are used.

229. Plaintiffs and members of the Classes purchased the Toxic Hair-Straightener and/or

Relaxers in reliance upon Defendants' skill and judgment and the implied warranties of fitness for the purpose.

230. The Toxic Hair-Straightener and/or Relaxers were not altered by Plaintiffs or members of the Classes.

231. Plaintiffs and members of the Classes were foreseeable users of the Toxic Hair-Straightener and/or Relaxers.

232. Plaintiffs and members of the Classes used the Toxic Hair-Straightener and/or Relaxers in the manner intended.

233. As alleged, the Toxic Hair-Straightener and/or Relaxers were not adequately labeled and did not disclose that they contain EDCs.

234. The Toxic Hair-Straightener and/or Relaxers did not measure up to the promises or facts stated in the written literature, media advertisement and communications by and from Defendants.

235. Defendants impliedly warranted that the Toxic Hair-Straightener and/or Relaxers were merchantable, fit and safe for ordinary use.

236. Defendants further impliedly warranted that the Toxic Hair-Straightener and/or Relaxers were fit for the particular purposes for which they were intended and sold.

237. Contrary to these implied warranties, the Toxic Hair-Straightener and/or Relaxers were defective, unmerchantable, and unfit for their ordinary use when sold, and unfit for the particular purpose for which they were sold.

238. By reason thereof, Plaintiffs and the other Class members have suffered damages in an amount to be proven at trial.

**TENTH CAUSE OF ACTION**

**Strict Product Liability – Failure to Warn**

**(On Behalf of the Multi-State Class and All State Classes)**

239. Plaintiffs incorporate by reference and re-allege each and every allegation contained above, as though fully set forth herein.

240. Defendants knew or should have known that their Toxic Hair-Straightener and/or Relaxers contained EDCs, which is a known carcinogen.

241. Defendants had a duty to warn Plaintiffs and the other Class members about the presence of EDCs in their Toxic Hair-Straightener and/or Relaxers.

242. In addition, Defendants had a duty to warn Plaintiffs and the other Class members about the dangers of the presence of EDCs in their Toxic Hair-Straightener and/or Relaxers.

243. Defendants knew that the risk of exposure to EDCs from use of its products was not readily recognizable to an ordinary consumer and that consumers would not inspect the product for EDCs content.

244. Defendants did not warn Plaintiffs and the other Class members that the Toxic Hair-Straightener and/or Relaxers contain EDCs or about the dangers of the presence of EDCs in their Toxic Hair-Straightener and/or Relaxers.

245. Plaintiffs and the other Class members suffered damages by purchasing Toxic Hair-Straightener and/or Relaxers in a manner promoted by Defendants, and in a manner that was reasonably foreseeable by Defendants, because EDCs is a known carcinogen that is absorbed through inhalation and through the skin. Plaintiffs and the members of the Classes would not have purchased Defendants' Toxic Hair-Straightener and/or Relaxers had they known they contained EDCs.

246. Plaintiffs and the other Class members were justified in their reliance on Defendants' labeling and advertising of the product for use as hair straighteners and/or relaxers.

247. Plaintiffs and the other Class members have suffered damages in an amount to be proven at trial.

### **ELEVENTH CAUSE OF ACTION**

#### **Strict Product Liability – Manufacturing Defect**

##### **(On Behalf of the Multi-State Class and All State Classes)**

248. Plaintiffs incorporate by reference and re-allege each and every allegation contained above, as though fully set forth herein.

249. The Toxic Hair-Straightener and/or Relaxers contained a manufacturing defect when they left the possession of Defendants. Specifically, the Toxic Hair-Straightener and/or Relaxers differ from Defendants' intended result or from other lots of the same product line because they contain EDCs.

250. Plaintiffs and the other Class members used the Toxic Hair-Straightener and/or Relaxers in a way that was reasonably foreseeable to Defendants.

251. As a result of the defects in the manufacture of the Toxic Hair-Straightener and/or Relaxers, Plaintiffs and the other Class members suffered damages.

252. Accordingly, Plaintiffs and members of the Classes suffered damages in an amount to be proven at trial.

### **PRAYER FOR RELIEF**

WHEREFORE, Plaintiffs, on behalf of themselves and all others similarly situated, pray for judgment against the Defendants as to each and every count, including:

A. An order declaring this action to be a proper class action, appointing Plaintiffs and

their counsel to represent the Class/Sub-Classes, and requiring Defendants to bear the costs of class notice;

- B. An order enjoining Defendants from selling the Toxic Hair-Straighteners and/or Relaxers;
- C. An order enjoining Defendants from suggesting or implying that they are safe and effective for human application;
- D. An order for payment by Defendants for appropriate medical monitoring needed by the Illinois, New Jersey, and Nevada Plaintiffs resulting from consumption of Toxic Hair-Straighteners and/or Relaxers
- E. An order requiring Defendants to engage in a corrective advertising campaign and engage in any further necessary affirmative injunctive relief, such as recalling existing Toxic Hair-Straighteners and/or Relaxers;
- F. An order awarding declaratory relief, and any further retrospective or prospective injunctive relief permitted by law or equity, including enjoining Defendants from continuing the unlawful practices alleged herein, and injunctive relief to remedy Defendants' past conduct;
- G. An order requiring Defendants to pay restitution/damages to restore all funds acquired by means of any act or practice declared by this Court to be an unlawful, unfair, or fraudulent business act or practice, untrue or misleading advertising in violation of the above-cited authority, plus pre- and post-judgment interest thereon;
- H. An order requiring Defendants to disgorge any ill-gotten benefits received from Plaintiff and members of the Class/Sub-Classes as a result of any wrongful or unlawful act or practice;

- I. An order requiring Defendants to pay all actual and statutory damages permitted under the counts alleged herein;
- J. An order awarding attorneys' fees and costs to Plaintiff and the Class/Sub-Classes;  
and
- K. An order providing for all other such equitable relief as may be just and proper.

**DEMAND FOR JURY TRIAL**

Plaintiffs demand a trial by jury on all issues so triable.
