Tonight history was made in our industry! A new line of products for women was announced! 🙌

Tonight while I was watching our CEO Asma Ishaq go live and share our new product launch, and listening to our scientist Jennifer Anderson talk about the new products...I cried.

I cried for the years of pain and awful periods I had. I cried for the peri-menopausal years when I couldn't remember things. I cried for the menopausal symptoms I've had, such as night sweats and brain fog.

Then I cried tears of joy and excitement, while listening to women of different ages speak about how the products have changed their lives.

If you're looking for something to help with symptoms many women of all ages suffer from, help is on its way. Ask me when and how! I'm SO excited to share this with all of you!

(Men, share this with your ladies!)

All these ladies 🙌🙌🙌 are being helped already, or WILL be helped by the products! Are you next?
