**nataliewrobocop** OMG FRIENDS I finally get to share!!!! Ladies, this is going to be life changing for every single one of us. Men, you're welcome for helping lol.

I've been keeping it a BIG secret!

We have always been on the cutting edge of nutrition science, and we're doing it again with the upcoming launch of Project 23. This groundbreaking category of intuitive nutrition is designed to empower women to take ownership of their health.

I'm excited to share a sneak peek of this top-secret, category-disrupting, hormone-free product line

this top-secret, category-disrupting, hormone-free product line, scheduled to launch at our 2023 Social Retail Conference, and to show you why it has the potential to utterly transform your life!

Your body's responses to the different phases of your menstrual cycle and the phases of menopause aren't due to hormones alone, but also due to fluctuating metabolites and micronutrients. Project 23 takes a unique approach to hormonal health unlike anything else, by addressing these biochemical responses with easy-to-use, customizable products that sync to your cycle or menopausal needs, all without the use of hormones or soy

without the use of hormones or soy isoflavones.

If you suffer from PMS, cramps, bloating, low energy, low iron levels, UTI's, low libido, mental clarity, thyroid levels, inflammation, skin issues, hot flashes, night sweats, vaginal dryness<sup>[OBJ]</sup>, mood...basically all the terrible things our hormones and cycles can do to us women<sup>[OBJ]</sup>...

THIS IS FOR YOU!

I will be<sup>[OBJ]</sup> testing this product on myself for the next couple of months and then it will be available to everyone mid-March<sup>[OBJ]</sup>. If you want to be on my list to be notified when it is available, give me a holler<sup>[OBJ]</sup> 🍷
