acurlydhall 🌱 Happy Monday! I come to you with a personal story:

I struggled keeping up with my healthy eating in my late 2nd and 3rd trimester.

I say this because back in February of 2021 @nutrafol hadn't announced their Postpartum Hair Growth Nutraceutical yet.

If you're anything like I was, I highly suggest purchasing the Nutrafol hair supplement for the first year after giving birth.

Hair care is wayyyy more than the products you use. Just like our GUT

Getting mad at your hair is a whole
different kind of angry
