alexmortonmindset  It's not suppose to be easy. All these gurus telling you that you can be "rich overnight" are full of 💩. You're going to struggle, go through pain, eat concrete, question your sanity, have heart break, get stabbed in the back, manipulated, lose money, lose biz partners, go through it... GOOD!! Welcome the pain because it'll build your character. All the 💩 I've been through in 13 years now nothing phases me. I'm cool as a cucumber because I know it's never that serious and when you have the skills / tenacity you can always do it again. Winners win and everyone else complains. You can't moan and complain about your income and watch Netflix every night on the couch. You can't be sad about your

complains. You can't moan and complain about your income and watch Netflix every night on the couch. You can't be sad about your body and stuff your face with burgers and ice cream nightly. Get a grip on reality... it takes GUTS in 2023 to win and continue to win at a high level. Get away from all the BS programming, accepting mediocrity, making it acceptable for your girl / wife to work 2 jobs and take care of the kids and split the dinner bill, what's wrong with you. Go lift some weights and eat some 90% lean meat and harness the power of your great grandpa who went through WAR AND PAIN to make sure your privileged vape smoking butt could exist in 2023.. while you complain about your "issues and traumas" maaaaannnnn get over it and get after it

about your "issues and traumas"
mannnnn get over it and get after it
or you'll be punished the rest of your
life. I like temporary pain in the gym,
almost passing out in the sauna,
touring like a nut case doing
meetings, banging out calls
constantly, taking care of MY FAMILY
because I'm the provider, hunter,
gatherer.. yes I'm ranting and it's a
good rant. STEP UP. Go prospect 50
people today in the mall, go knock
50 doors in your neighborhood, stop
listening to the opinion of your broke
relative who still clocks in at 55. Get
off of tik china tok, Truth hurts, SO
WHAT. Don't be sensitive and soft
and go make it freaking happen. I
wasn't raised on the streets or ate
out of trash cans but I know what it's
like to make a quantum leap for your
entire family tree through hard work,

Blessings and go make it happen, stop making excuses. ❤️. WIN!!!!!!
