moments.with.liv.and.isla #AD With Earth Month coming up, I've been thinking more and more about small and simple changes I can make to make my family's lifestyle more eco-friendly. Although we've made some changes in the last few years, I know I could do more to show my children the importance of how making even a small change can make a significant positive impact to our environment. I'm very happy that today I'm partnering with @toms_of_maine in sharing one of their innovations that can help each of us make our self-care routine more eco-friendly during Earth Month and beyond! Tom's of Maine Antiplaque & Whitening and Silly Strawberry toothpaste tubes are

month and beyond! Tom's of Maine Antiplaque & Whitening and Silly Strawberry toothpaste tubes are made with a single type of plastic, #2 HDPE. This means that we can now place our Tom's of Maine recyclable toothpaste tubes in our household recycling bin since our community accepts plastic #2 for recycling, which also means less toothpaste tubes in our landfills!

Head over to my stories to check out some Tom's of Maine's product that we love and use!
