1 2 3 4 5 6 7		DISTRICT COURT	
8	NORTHERN DISTR	ICT OF CALIFORNIA	
9 10	RACHELLE COLVIN, individually and as next friend of minor Plaintiff, G.D., and DANIELLE SASS, individually and as next friend of minor plaintiff, L.C., and on behalf	Civil Action No.:	
11	of all others similarly situated,	CLASS ACTION COMPLAINT FOR DAMAGES	
12	Plaintiffs, v.		
13 14 15	ROBLOX CORPORATION, SATOZUKI LIMITED B.V., STUDS ENTERTAINMENT LTD., and RBLXWILD ENTERTAINMENT LLC,	DEMAND FOR JURY TRIAL	
16	Defendants.		
17			
18	Plaintiffs Rachelle Colvin, individually	and as next friend of minor Plaintiff, G.D., and	
19	Danielle Sass, individually and as next friend of minor Plaintiff, L.C., bring this Class Action		
20	Complaint against Defendants Roblox Corporation ("Roblox"), Satozuki Limited B.V.		
21	("Satozuki"), Studs Entertainment Ltd. ("Studs"), and RBLXWild Entertainment LLC		
22	("RBLXWild"), and make the following allegations based upon information and belief, except as to		
23	allegations specifically pertaining to Plaintiffs, which are based on personal knowledge.		
24	NATURE OF THE ACTION		
25	1. This is a case concerning an illeg	gal gambling operation that is preying on children	
26	nationwide. As described herein, Plaintiffs brin	g this action on behalf of themselves, their minor	
27	children, and proposed classes of all those simila	rly situated against Roblox and its co-conspirators,	
28			
	COMPLAINT	FOR DAMAGES	

Satozuki, Studs, and RBLXWild. Together, these entities maintain and facilitate an illegal gambling
 ecosystem, targeted at children, through Roblox's online gaming platform and digital currency.

2. Defendant Roblox is one of the largest and fastest growing gaming platforms in the
world, designed to bring users together in a virtual universe, or "metaverse." It is a free online
gaming platform that allows users to interact with one another, play games, and purchase items
inside the Roblox virtual universe.

3. Indeed, Roblox is the largest entertainment website in the world for kids, with over
60 million daily active users. The vast majority of Roblox's users are children under the age of 18.
In fact, at least 70% of Roblox's users are under the age of 18, with more than half of all users being
under the age of 13.

4. Roblox's market dominance in the children's video game sector is so large that
Roblox itself claims that more than 75% of the kids aged 9-12 in the United States use Roblox on a
monthly basis.¹

14 5. These children spend an enormous amount of time and money exploring the Roblox
15 world day in and day out.

16 6. However, even though these children have made Roblox extremely successful,
17 Roblox systematically takes advantage of them.

18 7. In its relatively short existence, Roblox has been surrounded by a deluge of negative
19 attention as a dangerous space for children. Multiple child advocacy agencies and consumer
20 protection groups have spoken out about Roblox's targeting of children with deceptive commercial
21 advertising and addictive content.²

- 28 ² See, e.g., <u>https://www.newsnationnow.com/investigation/roblox-advertising-practices/</u>.

22

23

24

25

26

.

8. Roblox has also been the subject of countless press articles describing how Roblox's
 child users are exposed to predatory conduct from other—primarily adult—users on the platform,
 including "simulated violence, simulated sex, [and] simulated rape."³

9. Roblox, along with its co-Defendants, is behind another growing problem that has
ensnared hundreds of thousands of its adolescent and teenage users, causing substantial financial
loss—illegal online gambling.

7 10. Roblox allows users to make purchases of virtual items to be used in games or apps
8 within the Roblox ecosystem. These purchases can be made with Roblox's digital currency, called
9 Robux, which are exclusively created by and "only sold by the Roblox company."⁴

10 11. Robux are purchased using a credit card or digital payment service and users then
11 use this digital currency to buy items within the various games hosted in the Roblox universe.

12 12. Because most of Roblox's users are minors, Roblox allows adults, such as a user's
13 parents, to purchase Robux for their children to use on the Roblox ecosystem. Roblox also sells gift
14 cards that permit the user—often a minor child—to make purchases of Robux.

15 13. In its Terms of Service, Roblox misleadingly represents to parents and other users
16 that its platform and digital currency are safe. Further, Roblox explicitly represents that
17 "experiences that include simulated gambling, including playing with virtual chips, simulated
18 betting, or exchanging real money, Robux, or in-experience items of value are not allowed."⁵

But this representation is false, or misleading at best. In fact, Roblox allows third party gambling websites, including the highly popular online casinos operated by Defendants
 Satozuki, Studs, and RBLXWild (collectively, the "Gambling Website Defendants"), to use the
 Roblox website to accept online bets using Robux, to be placed on games at the Gambling Website

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 4 of 55

Defendants' virtual casinos. Roblox also facilitates the Gambling Website Defendants' efforts to
 track bets, complete transactions, wager Robux, and satisfy wagers in their digital casinos.

3 15. All of the gambling transactions take place on Roblox's website under Roblox's
4 virtual roof and are monitored by Roblox.

5 16. Roblox maintains an internal ledger or other recording system whereby it tracks both
6 the flow and/or exchange of Robux on its platform, as well as the individuals and organizations
7 involved in such transactions.

8 17. Roblox registers each and every exchange of Robux for gambling credits and allows
9 illicit gambling, by minors, using the Roblox website. All of the gambling transactions require
10 Roblox's affirmative support to continue. Roblox profits from these transactions to the detriment of
11 its users, including its minor, adolescent, and teenage users.

18. 12 Here is how the process works: Roblox's minor users first purchase Robux through 13 the Roblox website, using either their own money, a parent's credit card, or gift cards they possess. 14 Next, the minor user navigates to one of the Gambling Website Defendants' virtual casinos that 15 exist outside the Roblox ecosystem. Then, the user links their Robux wallet on Roblox's website to the gambling website. And finally, once the minor-user's wallet is linked, the gambling website 16 17 converts the minor user's Robux into credits that can only be wagered in their virtual casinos. Throughout this process, Roblox keeps track of all of these electronic transfers and has knowledge 18 19 of each transfer that occurs in its ecosystem.

Importantly, while a minor user must navigate off Roblox's website to access the
online casino and their new digital gambling credits, in reality the minor user's Robux have not been
converted to another currency and they never leave Roblox's website. Instead, the Gambling
Website Defendant merely take control of the Robux, while providing a corresponding number of
"credits" (which are also called Robux) on their third-party gambling websites.

25 20. Further, because the exchange of Robux must occur within the Roblox website,
26 Roblox allows the Gambling Website Defendants to establish a Robux exchange within the Roblox
27 ecosystem.

28

1 21. If a user happens to win at Defendants' casino games, thereby increasing their total 2 credits, the Gambling Website Defendants transfer back to the user the additional value in Robux. 3 If, as is more likely and common, a minor user loses their credits in the Gambling Website 4 Defendants' virtual casino, those Defendants retain the user's Robux. The gambling credits function 5 just like chips in a brick and mortar casino; users "buy in" using their Robux, obtain chips, gamble 6 until they lose their money or wish to cash out, and, if they increase their credits, they cash those 7 credits out in exchange for Robux.

8 22. This entire exchange of Robux occurs on the Roblox platform with Roblox's
9 knowledge and active support, and Robux never leave the Roblox ecosystem unless and until they
10 are cashed out for fiat currency.

11 23. Roblox works with and facilitates the Gambling Website Defendants' use of its
12 website to offer illegal gambling opportunities to minor users.

- 13 24. Roblox could, of course, prohibit and/or stop the Gambling Website Defendants from
 14 utilizing the Roblox ecosystem and digital currency to facilitate illegal gambling but it does not.
- 15 25. This is because Roblox is significantly enriched by this illegal scheme. After the
 16 Gambling Website Defendants take Robux from adolescent and teenage users and ultimately
 17 convert the Robux into cash, Roblox charges a 30% fee on this transaction, which amounts to
 18 millions in annual cash fees.

Roblox and the Gambling Website Defendants have concocted an illegal gambling
ring to target the adolescents and teenagers who comprise the majority of Roblox's users. Roblox
knows its Robux are being used to place bets in illegal virtual casinos, directly facilitates this transfer
within the Roblox ecosystem, then imposes a fee on the ill-gotten gains accrued by the Gambling
Website Defendants when they seek to convert Robux to cash.

- 24 27. Plaintiffs' minor children—like hundreds of thousands of others across the United
 25 States—fell prey to this illegal scheme and were victimized out of real money. As a result, the
 26 Gambling Website Defendants have earned millions off the backs of those too young to legally
 27 gamble, all the while providing Roblox with a sizable cut of the money they've illegally obtained.
- 28

28. Accordingly, this is a civil action seeking to put an end to this illegal scheme. 1 2 Through this class action lawsuit, Plaintiffs seek monetary damages, restitution, and declaratory and 3 injunctive relief on behalf of proposed Classes of minor victims. PARTIES 4 5 29. Minor Plaintiff G.D. and his mother and next friend, RACHELLE COLVIN, are citizens and residents of the State of CALIFORNIA. 6 30. 7 Minor Plaintiff L.C. and his mother and next friend, DANIELLE SASS, are citizens 8 and residents of the State of NEW YORK. 9 31. Defendant Roblox Corporation is a corporation existing under the laws of the State 10 of Delaware, with its principal place of business located at 970 Park Place, San Mateo, California 94403. Roblox regularly conducts and transacts business in this District and throughout the United 11 12 States. 13 32. Defendant Satozuki Limited B.V. is a foreign company registered in accordance with 14 the laws of Curaçao, with its principal office at Abraham de Veerstraat 9, Willemstad, Curaçao. 15 Satozuki owns and operates the popular gambling website RBXFlip. 33. 16 Defendant Studs Entertainment Ltd. is a foreign company purportedly registered to 17 do business in Cyprus. Studs owns and operates the popular gambling website Bloxflip. 18 34. Defendant RBLXWild Entertainment LLC is a domestic corporation existing under 19 the laws of Delaware. RBLXWild owns and operates the popular gambling website RBLXWild. RBLXWild regularly conducts and transacts business throughout the United States. 20 21 JURISDICTION AND VENUE 35. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. § 22 23 1332(d)(2) because this is a class action in which the matter in controversy exceeds \$5,000,000 24 exclusive of interest and costs, and Plaintiffs and members of the putative Classes are citizens of a state that is different from the states in which Defendants are citizens. Jurisdiction is also proper in 25 26 this Court pursuant to 28 U.S.C. § 1331 because Plaintiffs' RICO claims arise under federal law and 27 this Court has supplemental jurisdiction over Plaintiffs' state law claims under 28 U.S.C. § 1367. 28

36. This Court has personal jurisdiction over Defendants because they have their
 principal place of business in California, and/or because they have contacts with California that are
 so continuous and systematic that they are essentially at home in this state. All Defendants regularly
 conduct and solicit business in California, provide products and/or services by or to persons in the
 State of California, and derive substantial revenue from the same.

6 37. Venue is proper in this Court pursuant to 28 U.S.C. § 1391(b) because a substantial
7 part of the events or omissions giving rise to Plaintiffs' and the Class Members' claims occurred in
8 this District, and Defendants are subject to the Court's personal jurisdiction.

9

20

21

22

23

24

25

BACKGROUND FACTS

38. Rampant fraud and predatory behavior have been reported on Roblox for years.
According to multiple reports and investigations, Roblox has failed to properly deal with fraud on
the platform, wage disputes, sexual content, and abusive and predatory behavior displayed by some
users and developers.⁶

14 39. Unfortunately, the users most often victimized by these practices are those that are
15 the most vulnerable. Younger users, many of whom are under the age of 16, and who make up the
16 majority of the users on the Roblox platform, are more likely to be targets of predatory or sexual
17 behavior and more likely to be tricked, scammed, or defrauded out of their money or items.

40. Furthermore, these users are most at risk in the illegal gambling enterprise facilitated
by Roblox. In 2022, between 60% and 80% of high school students reported that they had gambled

⁶ Simon Parkin, *The trouble with Roblox, the video game empire built on child labour*, The Guardian (Jan. 9, 2022), <u>https://www.theguardian.com/games/2022/jan/09/the-trouble-with-roblox-the-video-game-empire-built-on-child-labour</u>; Burt Helm, *Sex, lies, and video games: Inside Roblox's war on porn*, FASTCOMPANY (Aug. 19, 2021), <u>https://www.fastcompany.com/90539906/sex-lies-and-video-games-inside-roblox-war-on-porn</u>.

for money in the past year.⁷ According to the Massachusetts Department of Public Health, problem
 gambling impacts 4-8% of youth, compared to just 1% of adults.⁸

3 41. Roblox and the Gambling Website Defendants act in concert to profit from gambling
4 games meant to attract kids. The interface of these websites is more like a mix between a video
5 game and a casino, and as a result, is more attractive to underage users.

42. And further, because of the creation of Robux, a digital currency with real-world
value in a children's game, the child users on Roblox have become targets of sophisticated gambling
operations without their parents' knowledge of such dangers.

9 43. As a result of the illegal gambling enterprise, Roblox has made substantial revenue
10 via its transaction fees and Robux sales to the tune of tens of millions of dollars, seeking to turn its
11 minor customers' gambling struggles into revenue. The Gambling Website Defendants, in turn, have
12 unlawfully enticed Roblox's minor users to wager Robux in their online casinos, manipulating
13 adolescents and teenagers out of digital currency worth tens of millions of dollars.

14

I. The Roblox Platform

15 A. Overview

44. Roblox was created in 2004 by David Baszukci and Erik Cassel, and it was released
in 2006. Roblox is a 3D digital world that is entirely user generated, built by a community of nearly
7 million developers. Most of the users on Roblox are kids, with estimates showing that more than
half of all U.S. kids under the age of 16 are active on Roblox.⁹

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 9 of 55

45. The Roblox platform consists of two primary layers: the Roblox Client and the
Roblox Studio. The Roblox Client is the application that allows users to explore 3D digital worlds
through the eyes of an avatar, which each user customizes with clothing, gear, animations, simulated
gestures, emotes, and other objects. The Roblox Studio is the toolkit developers and creators use to
build, publish, and operate 3D experiences and content for the Roblox Client. These developers
build games and objects that can be sold to users on the platform. Purchases can be made in the
Avatar Shop using Robux, the digital currency created for the platform.

8 46. Underlying everything on the Roblox platform is its digital currency—Robux.
9 Although the platform is free, nearly all experiences require the user to spend Robux in order to
10 participate in the activities on the platform.

47. As set forth in more detail below, Robux is sold on the Roblox platform in various
quantities. Robux can then be spent on the platform to purchase various items and/or pay for ingame experiences. Robux can also be converted back into real-world currency via the Developer
Exchange Program.

48. Roblox earns revenue by, *inter alia*, selling Robux to users so that they can make in
game purchases. Additionally, Roblox benefits financially from every transaction made on its
platform by taking a 30% commission fee on all user-to-user transactions.

18

B. Roblox's In-Game Currency—Robux.

49. Robux are the foundation of the entire Roblox platform. Roblox states in its March
20 2022 Quarterly Report that "[w]e generate substantially all of our revenue through the sales of our
virtual currency, 'Robux,' which players can use to purchase virtual items sold by our developer
and creator community on the platform."¹⁰

23 24 50. The Robux currency is not a cryptocurrency, but a digital currency. This means transactions are not publicly recorded on a blockchain and Robux are not transferrable off platform.

- 25
- 26

^{27 &}lt;sup>10</sup> See Roblox Corporation, Form 10-Q, March 31, 2022, available at https://d18rn0p25nwr6d.cloudfront.net/CIK-0001315098/ea0f0408-7ea4-48f8-a127-28 fef1fdb69aa3.pdf, at 59.

Roblox, however, knows and keeps track of the acquisition and transfer of its digital currency on its
 platform.

3 51. Although it is a digital currency, Robux have actual monetary value. One Robux is
4 currently equal to \$0.0125. Users can purchase Robux on Roblox at any time using a credit or debit
5 card. For instance, Roblox sells 400 Robux for \$4.99 and 800 Robux for \$9.99. Additionally, users
6 may subscribe to Robux Premium and receive a monthly allowance of Robux.

7 52. All transactions on Roblox are executed using Robux. Robux can also be exchanged
8 for real dollars.

9 53. Until 2013, Roblox did not allow Robux to be exchanged for real dollars. Then in
10 2013, Roblox implemented the Developer Exchange Program, through which developers on the
11 platform may exchange Robux for real world currencies.

12 54. Roblox requires developers that wish to exchange Robux for cash to join the
13 Developer Exchange Program so that Roblox can control the manner in which those developers
14 utilize and interact with the Roblox ecosystem, and so Roblox can more easily monitor Robux
15 exchanges.

16 55. The advent of the Developer Exchange Program has attracted an enormous amount
17 of users to the platform in search of riches in exchange for developing experiences or items on
18 Roblox. The yearly payout to developers on the platform has continued to increase year over year,
19 with Roblox paying out \$500 million to developers in 2021.

20 56. With that kind of money being exchanged for Robux, it's no surprise the platform
21 has also been overrun with predatory behavior, fraud, and gambling.

22

II. Roblox's Illegal Gambling Enterprise

57. Roblox, in conjunction with the Gambling Website Defendants, has directly assisted
in creating the unregulated market of virtual casino games that run adjacent to and rely on the Roblox
platform.

58. The extreme pace of growth of Roblox use among children has opened up a whole
new market to online gambling enterprises. Children, who previously could not access the funds to
participate in online gambling, now have, collectively, billions of Robux at their disposal.

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 11 of 55

59. Many times, children are able to gamble money on these virtual casinos without their
 parents' knowledge because they use Robux to facilitate the gambling transactions. Parents
 unwittingly provide the gambling funds to their children under the mistaken belief that their children
 are using Robux to purchase items that will enhance or accessorize a legitimate and/or harmless
 gaming experience.

6 60. As set forth herein, however, Roblox and the Gambling Website Defendants work
7 together to divert adolescent and teenage users to third-party gambling websites where Robux can
8 be gambled away on virtual games of chance, enriching both Roblox and the Gambling Website
9 Defendants.

10

A. The Illegal Gambling Websites

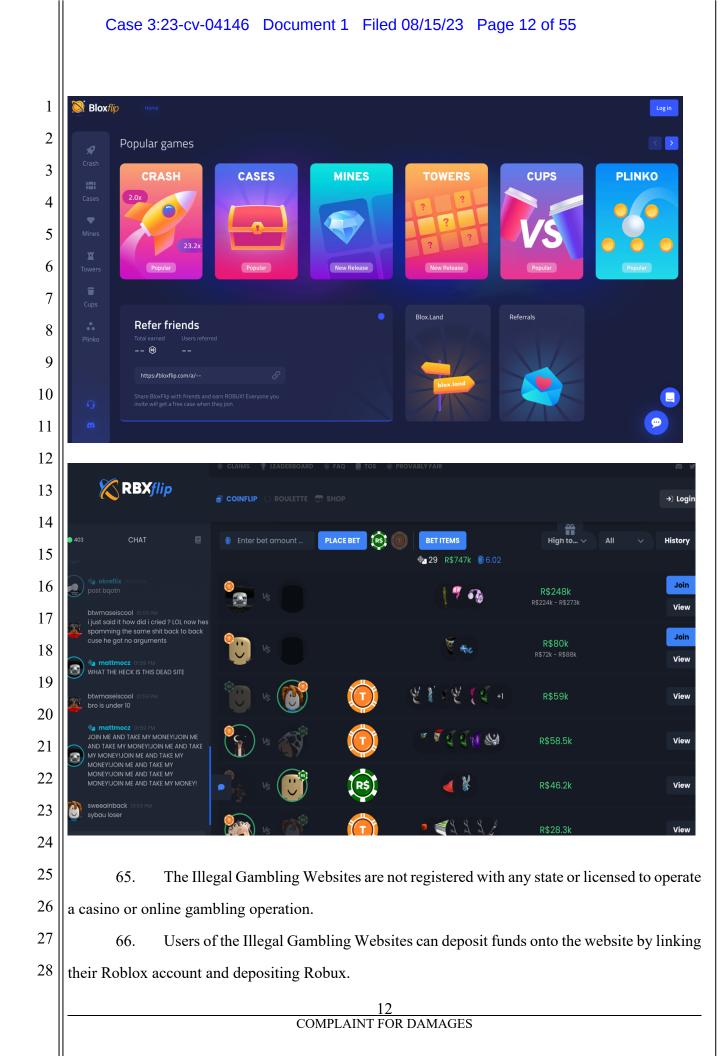

61. A growing secondary market for gambling is present on Roblox. This system is
comprised of three primary third-party gambling websites (the "Illegal Gambling Websites") that
feature games of chance such as coin flips, roulette, slot machines, treasure chests, as well as other
pure gambling games like blackjack and dice.

15 62. The three primary Illegal Gambling Websites are RBXFlip, which is operated by
16 Satozuki; Bloxflip, which is operated by Studs; and RBLXWild, which is operated by RBLXWild.
17 The Illegal Gambling Websites are each part of Roblox's Developer Exchange Program, allowing
18 them to exchange Robux acquired from Roblox's minor users for real-world currency.

Each of the Illegal Gambling Websites operates on or in concert with Roblox and the
Gambling Website Defendants, facilitating an exchange of Robux for gambling credits that occurs
on the Roblox platform. Indeed, Robux never leave the Roblox platform until they are exchanged
for cash. Once a minor user's credits are exhausted, the Gambling Website Defendants cash out
their newly-acquired Robux and provide Roblox with its 30% transaction fee.

64. These websites all have substantially similar interfaces, which make it easy for a
Roblox user to sign up, link their Roblox account, and begin gambling. The interface from Bloxflip
and RBXFlip are set forth below:

- 27
- 28

67. Prior to Roblox attaining popularity, these types of gambling websites did not have
 access to a vast underage online audience with funds to gamble.

3 68. However, because of the Roblox ecosystem, millions of children now have
4 transferrable funds in the form of Robux that they can gamble with.

6 69. As a result, most of the Illegal Gambling Websites' audience is children who use
Roblox. The Illegal Gambling Websites do not engage in any kind of age verification or
7 identification processes to prevent underage users from participating.

8 70. Furthermore, although many of the games on the Illegal Gambling Websites are
9 traditional gambling games, some are newer betting games such as "flip" and "crash," which are
10 more like video games where bets are made, making them more appealing to a younger audience.

71. Because the exchange of Robux for gambling credits occurs on the Roblox platform,
using Roblox's technology and digital currency, Roblox has knowledge of these exchanges and
facilitates them. When the Gambling Website Defendants cash out their ill-gotten gains, Roblox
also earns money on the cash-out fees. In short, all Defendants work together to enrich themselves
and each other at the expense of their adolescent and teenage users.

16

RBXFlip

¹¹ https://rbxflip.com/coinflip?modal=FAO

1.

17 72. RBXFlip was the first major third-party gambling website to operate with Roblox,
18 launching in approximately 2019. As its name suggests—"RBX" is short for Robux—the site was
19 designed for and dependent upon Roblox's legions of minor users gambling away Robux purchased
20 through Roblox's ecosystem.

21 73. RBXFlip describes itself as "the leading peer 2 peer marketplace with fun & fair
22 games" where users can bet Robux to play casino-style games.¹¹

- 23 24
- 25

26

- 27
- 28

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 14 of 55

74. RBXFlip expressly acknowledges that it operates as a gambling website, stating in
 section 1.6 of its terms of service that the "games" contained on its website "shall mean Casino,
 Live Casino, Sportsbook, cards, and other games."¹²

4 75. Before even signing in, RBXFlip prominently displays two casino "games" on its
5 homepage: Coinflip and Roulette. Both "games" allow players to bet Robux:

requirements," which are "the total amount of bets you must stake before the bonus and any accrued
 winnings are transferred into your cash balance and can be withdrawn."¹⁵

78. Although RBXFlip's terms of service state that "Persons who are under age of 18
years are not allowed to use the Website and/or any services available on it," the site's own
promotional material contradicts its claim. In a video entitled, "RBXFlip Login Tutorial And How
to Win Roblox Gambling," which has thousands of views, an RBXFlip spokesperson states that the
first "Requirement to Gamble" on "our" website is that the Roblox user has an "Account age 13+."¹⁶

8 79. The RBXFlip spokesperson continues by demonstrating how any user can connect 9 their Roblox account to RBXFlip and how, when gambling on its website, the user's Robux are 10 "sent to one of our storage bots for it to hold for the duration of the game." This storage bot is located on Roblox's website and uses Roblox's technology to exchange Robux for gambling credits, with 11 12 Roblox's knowledge. The storage bot, or RBXFlip itself, is also part of Roblox's Developer 13 Exchange, allowing RBXFlip to cash out its ill-gotten Robux for real-world currency. All participants in the Developer Exchange must register with Roblox, meaning Roblox has a full 14 15 understanding of the entities that participate through its Developer Exchange.

16 80. Minor users are easily able to create an account by copy and pasting their Roblox
17 "cookie"—their unique security code—when prompted. This "cookie" is information Roblox
18 generates on its website and tracks, thus providing it with knowledge of when a Roblox user's
19 "cookie" is linked to another website such as RBXFlip and facilitating the transfer of Robux to this
20 lillegal online casino.

81. RBXFlip also fails to utilize any age verification measures, meaning that any user,
regardless of their actual age, can access the site and place bets using their Robux.

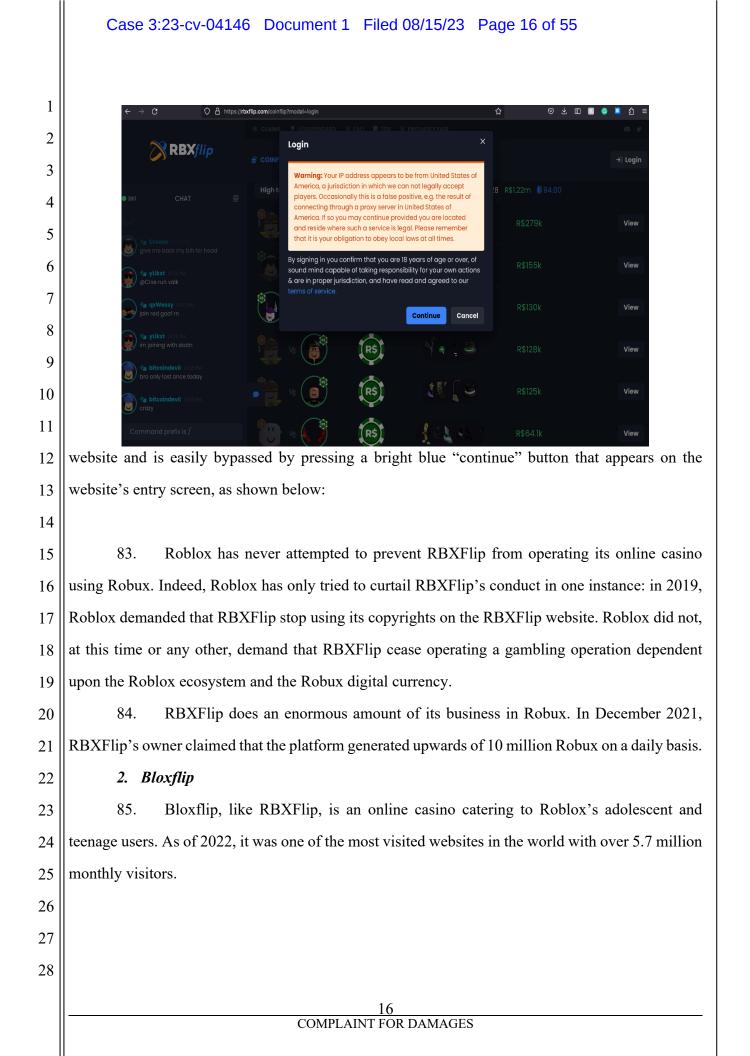

82. While RBXFlip states that its casino games are not accessible "from the United
States," this warning does not actually prohibit users in the United States from gambling on the

	COMPLAINT FOR DAMAGES				

18

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 19 of 55

BloxFlip in Bio!!!" is marked as a "paid partnership," and has been viewed over 1.7 million times
and "liked" over 113,000 times.²¹ In this sponsored post, the TikTok influencer tells his adolescent
audience that in just "10 minutes" he was able to win "over 100k plus" worth of Robux, and states
that "you guys can too."

93. As the above example demonstrates, Bloxflip was designed to attract Roblox's minor
users who could illegally gamble on the site using their Robux. For this reason, Bloxflip entered a
paid partnership with an influencer whose name incorporates the word "roblox," and the illegal
gambling website's name itself is a reference to the Roblox gaming platform.

9 94. Although Bloxflip's website states that "Robux have no cash value and are for
10 entertainment purposes only," its terms of service describe the process by which a user can "Cashout
11 your ROBUX into your account."²²

12 95. When a user attempts to withdraw Robux from Bloxflip's casino website, Bloxflip
13 notifies the user that "ROBLOX imposes a 30% marketplace fee on all withdraws and the ROBUX
14 will go into your pending balance for 3-7 days."²³

6	Amount of Robux				
7 8	€ 0 +1 +10 +15 +20 +25				
9	Withdraw Robux				
10 11					
12	96. Bloxflip, like RBXFlip, uses a storage bot to accept and hold minor users' Robux on				
13	the Roblox platform. This storage bot is located on Roblox's website and uses Roblox's technology				
14	to exchange Robux for gambling credits, with Roblox's knowledge. The storage bot, or Bloxflip				
15	itself, is also part of Roblox's Developer Exchange, allowing Bloxflip to cash out its ill-gotten				
16	Robux for real-world currency. All participants in the Developer Exchange must register with				
17	Roblox, meaning Roblox has a full understanding of the entities that participate through its				
18	Developer Exchange.				
19	97. In a 2022 interview, Bloxflip's founder stated that he was "inspired" to create				
20	Bloxflip when he "saw the success of RBXFlip." ²⁴ He further claimed that he designed the website				
21	to offer "PvP gambling" that focused on betting with Robux, which "open[ed] [the site] to more				
22	people." The Bloxflip founder also proclaimed that Bloxflip was the "#1 Roblox gambling site."				
23	Again, Bloxflip, like RBXFlip, is intended to capture Roblox's audience of minors, all while				
24	enriching both the operators of the website and their collaborators at Roblox.				
25	3. RBLXWild				
26					
27					
28	²⁴ <u>https://www.youtube.com/watch?v=yFaR33G5yhQ</u>				
	20				

1 102. RBLXWild, like the other Illegal Gambling Websites, also allows users to withdraw
 2 Robux from their accounts, explaining that any amount withdrawn will be reduced by the "30% fee
 3 that Roblox charges."

4 103. Although RBLXWild claims that users must be over eighteen to access the site, it
5 employs no age verification mechanisms to prohibit those under the age of eighteen from accessing
6 the website and placing bets.

Further, RBLXWild pays social media influencers to advertise and promote
RBLXWild to children.²⁶ Several videos available on YouTube, for example, suggest that minor
users can make enormous profits by gambling on RBLXWild. These videos have titles such as "I
won over 5 million R\$ In this Battle! (RBLXWild),"²⁷ and "I Won R\$50,000 On RBLXWild! (Real
Balance)."²⁸ The use of "R\$" in these titles and others is a reference to Robux.

12 105. Indeed, the name RBLXWild is itself a reference to Roblox and its digital currency,
13 Robux, and the site is designed to attract Roblox's minor uses who will wager the ecosystem's
14 digital currency, all while RBLXWild and Roblox share the profits.

15 106. As set forth herein, each of the Illegal Gambling Websites works closely with Roblox
16 and is intended to attract Roblox's minor users, who can freely wager their Robux.

17

B. Roblox's Facilitation, Control, and Profit Sharing with the Illegal Gambling Websites

18 107. Roblox knowingly and intentionally allows the Illegal Gambling Websites to operate
19 in the Roblox ecosystem, access the Roblox platform, and facilitates the accessibility of illegal
20 online casinos to its minor users. Further, because each of the Gambling Website Defendants must
21 register themselves, or through a proxy, in Roblox's Developer Exchange Program, Roblox knows
22 and understands that these entities move large quantities of Robux through the Roblox platform and
23 in exchange for real-world currency.

24

25

26 https://www.youtube.com/watch?v=20PF9PWvi8A (stating that this video, with over 60,000 views, is sponsored by "Wild").

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 23 of 55

108. Because Robux is not a cryptocurrency, but merely a digital currency, it cannot be 1 removed from the Roblox platform. This means that when a user "deposits" Robux onto an Illegal 2 3 Gambling Website, something else is really going on. The user's Robux do not leave the Roblox platform, but instead are transferred to another Roblox account controlled by a Gambling Website 4 5 Defendant. Meanwhile, the user's Illegal Gambling Website account shows that it holds the equivalent amount of gambling credits, which are also called "Robux" by each of the Gambling 6 Website Defendants. 7

8 109. Roblox monitors and records each of these illegal transactions, yet does nothing to 9 prevent them from happening.

10 110. Here is how the practice works. When a Roblox user visits an Illegal Gambling 11 Website, the user links their Roblox account to the gambling website by providing their login 12 credentials or Roblox Security Token. Once the Illegal Gambling Website has this information, the 13 user enters the amount of Robux they wish to deposit. The Illegal Gambling Website, now having control of the user's account, automatically initiates a removal of Robux from the user's account 14 15 without any additional input from the user and then credits the user's gambling account with the equal amount of Robux. 16

17 111. However, the Illegal Gambling Website is not actually transferring Robux from the Roblox platform to the Illegal Gambling Website. Instead, the Gambling Website initiates a 18 19 transaction on Roblox between the user and a "stock" Roblox account (the "Stock Account") controlled by the Illegal Gambling Website. Because Roblox does not allow users to gift Robux to 20 21 each other, the Illegal Gambling Website initiates a sale of a worthless item or experience from the Stock Account to the user for the amount of Robux the user wishes to deposit on the gambling 22 23 website.

24 112. The Illegal Gambling Website now holds the user's Robux in their Stock Account 25 on the Roblox system, and the user's account on the Illegal Gambling Website is credited with a 26 digital credit also labeled "Robux," with which the user can now gamble.

27 113. Upon conclusion of gambling, a user may wish to withdraw their Robux from the 28 Illegal Gambling Website. Just like the initial deposit process, the withdrawal process is not an

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 24 of 55

actual withdrawal, but merely a subtraction of the "Robux" on the gambling account and transfer of
 actual Robux back to the user's Roblox account by one of the Illegal Gambling Website's Stock
 Accounts.

4 114. For instance, after the withdrawal of Robux, a user can see that their account now
5 contains the Robux withdrawn from the Illegal Gambling Website. If the user reviews their "Sale
6 of Items" page on their Roblox account, they can see that they received those Robux in exchange
7 for the sale of a useless, or dummy, item or experience.

8 115. However, the user will notice that after the withdrawal, their balance of Robux will
9 be less than the amount they had on the Illegal Gambling Website. This is because Roblox takes a
10 30% fee on all transactions on the platform.

11 116. For example, if the user withdrew 1000 Robux from an Illegal Gambling Website,
12 they would only receive 700 Robux after the transfer from the Stock Account and Roblox will take
13 the other 300 as a transaction fee.

14 117. Roblox also takes a 30% fee on the original "deposit" transaction that occurs as a
15 result of the user "depositing" Robux onto the Gambling Website.

16 118. Therefore, Roblox collects a 30% fee off every transaction that deposits or withdraws
17 funds on the Illegal Gambling Websites, earning Roblox millions in real-world revenue.

18 119. As described above, Roblox earns nearly all of its \$2 billion in annual revenue from
19 selling users Robux and charging transaction fees on all transactions on the platform.

20 120. Robux are an item of value equal to real-world currency. As described above, they
21 have an exchange rate with the dollar and Roblox regularly pays out hundreds of millions of dollars
22 to developers on its Robux exchange.

23 121. As a result, Roblox profits from the gambling losses incurred by its users on the
24 Illegal Gambling Websites and even charges fees on the transactions that facilitate the gambling.

122. Furthermore, Roblox monitors and facilitates these exchanges of Robux, and tacitly
approves the Illegal Gambling Websites' use of Stock Accounts to "hold" Robux in exchange for
gambling credits that Roblox's minor users can utilize to place bets on the Illegal Gambling
Websites.

24

1 2

C. Roblox Knows These Transactions are Facilitating Illegal Gambling but Continues to Allow the Transactions and Collect Fees Anyway.

123. Roblox knows that the Gambling Website Defendants use these Stock Accounts to 3 facilitate transactions on the platform and that they are accessing Roblox servers in order to facilitate 4 Illegal Gambling Website user transactions. Indeed, all such Accounts are required to register with 5 Roblox through its Developer Exchange Program. 6

7

124. Indeed, Roblox monitors each and every transaction for Robux on its website.

125. Roblox has acknowledged in court filings that it can identify, track, and disable 8 accounts using the Roblox platform for illegal purposes. For example, in a March 28, 2023, filing 9 in the Northern District Court of California, Roblox and the plaintiffs filed a Notice of Motion and 10 Motion in Support of Class Settlement as part of Jane Doe v. Roblox Corporation, Case 3:21-cv-11 03943-WHO (N.D. Cal. March 28, 2023). The filings stated that as part of the settlement terms, 12 Roblox and the plaintiff had identified 311 accounts on its platform that spent over 80,000 Robux 13 (equaling over \$1000) engaging in suspicious behavior like purchasing the same virtual item from 14 the same seller multiple times and creating and purchasing their own virtual item, which is exactly 15 the procedure the Gambling Website Defendants utilize to exchange Robux for gambling credits. 16 Roblox excluded these accounts from the settlement class and named them the "laundering 17 exclusion" because it suspected they were engaged in money laundering or other suspicious 18 activities. 19

The "laundering exclusion" class in Roblox's settlement statements describes the 126. 20 type of transactions that the owners of the Illegal Gambling Websites use to facilitate the transfer of 21 Robux on and off of the gambling platforms. 22

23

127. Roblox admits that it can identify such suspicious activity and even labels it as so but refuses to ban these accounts. Furthermore, Roblox continues to earn a 30% commission on each of 24 these suspicious transactions, reaping extraordinary profits. 25

128. Roblox can also monitor and identify third-party websites, such as the Illegal 26 Gambling Websites, that access its computers and servers in order to facilitate the gambling 27

28

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 26 of 55

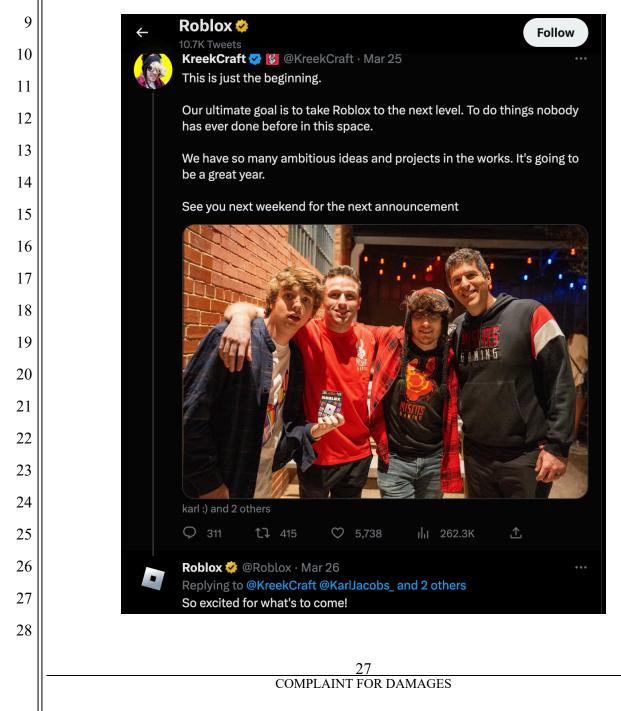

transactions. Indeed, Roblox actively monitors these websites and keeps track of their exchange of
 Robux for gambling credits.

3 129. Many of the Illegal Gambling Websites claim to have had millions of dollars' worth
4 of Robux wagered on their platforms. For example, RBXFlip's owner shared a screenshot in a 2020
5 interview showing that over 7 billion Robux (equal to over \$70 million) had been wagered on the
6 platform:²⁹

1 131. Roblox cannot credibly claim it is unaware of the Illegal Gambling Websites since
 2 numerous Roblox-affiliated social media influencers have gone public about their concerns that the
 3 site is permitting children to be preyed upon.

4 132. As far back as at least 2019, Roblox social media celebrity "KreekCraft"
5 (@KreekCraft), who has 1.3 million followers, tweeted that he "Heard a lot about rbxflip today. For
6 the people unaware it's a Roblox robux gambling site. 1. It is ILLEGAL for anyone not an adult to
7 gamble. 2. Don't use it. You'll be banned." Roblox frequently interacts with "KreekCraft" on social
8 media and monitors his Twitter account. As but one example:

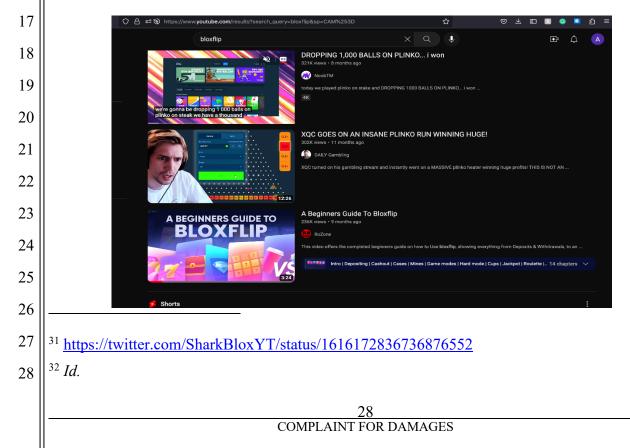

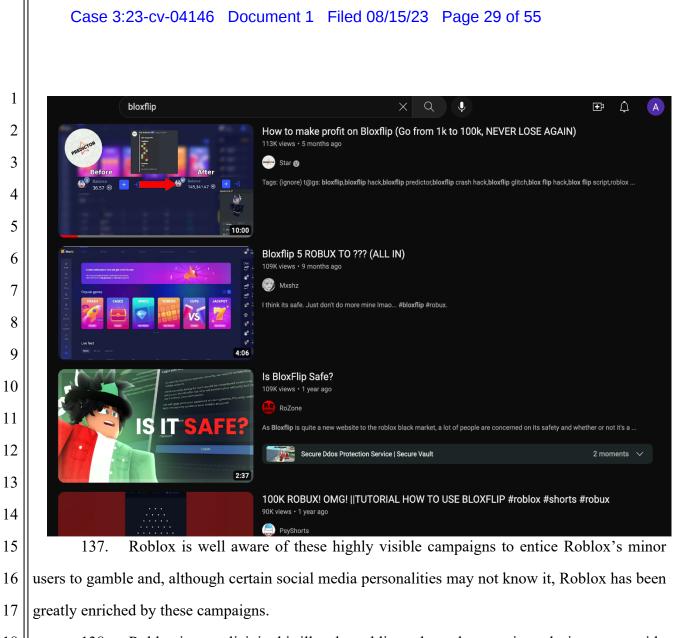

1 133. Accordingly, Roblox knew or should have known that one of its primary social media
 2 personalities was raising alarms about RBXFlip. But Roblox did nothing because, unbeknownst to
 3 "KreekCraft" and his followers, Roblox was making significant profit off RBXFlip's gambling
 4 operation.

5 134. Further, in a January 2019 tweet sent to its more than 95,000 followers, the popular 6 Twitter account "Roblox Trading News" tweeted that it "Got into an argument with the owner of 7 the Roblox gambling site @rbxflip in which he bragged about how he was a 'multi-millionaire' off 8 his site only to edit that portion out after I replied, 'You made all your money off the backs of 9 children losing thousands of dollars."³¹ "Roblox Trading News" is a social media personality 10 followed and monitored by Roblox.

11 135. Another popular Roblox social media personality, "SharkBlox" (@SharkBloxYT),
12 with over 196,000 followers, replied to this tweet and stated that these sites [the Illegal Gambling
13 Websites] were "Also probably gonna get kids addicted to gambling. Sites like these suck. No body
14 wins at gambling except the website owners, I just wish more people realized that."³²

15 136. Additionally, both BloxFlip and RBLXWild have mounted social media ad
16 campaigns with several videos totaling over one million views:

18 138. Roblox is complicit in this illegal gambling scheme because it works in concert with,
19 and continues to allow, the Illegal Gambling Websites to operate on its platform and assesses a 30%
20 fee on all transactions of Robux to and from the Illegal Gambling Websites. This means Roblox has
21 likely earned hundreds of millions in fees charged on transactions related to illegal gambling.

139. Furthermore, Roblox executives are personally aware of the Illegal Gambling
Websites' existence and Roblox knows that the Websites do nothing to prevent its minor users from
gambling on the Websites with Robux.

140. Roblox understands the ease with which minor users are able to link their Robux
wallet to the Illegal Gambling Websites and begin illegally gambling, but has failed for years to
prevent such transactions.

28

III. Plaintiffs' Experiences

1	A. Rachelle Colvin			
2	141. Plaintiff Rachelle Colvin is the parent and next friend of G.D. G.D. is a minor who			
3	plays Roblox using his own user-created account. Minor Plaintiff G.D. is a resident of California			
4	and is represented in this action by his mother and next friend, Plaintiff Rachelle Colvin.			
5	142. Minor Plaintiff G.D. has purchased thousands of Robux through the use of Roblox			
6	gift cards that were under his complete ownership and control.			
7	143. Minor Plaintiff G.D. utilized his in-game currency to gamble on the Illegal Gambling			
8	Websites.			
9	144. Specifically, Minor Plaintiff G.D. has paid money to RBLXWild and other Illegal			
10	Gambling Websites through Defendant Roblox.			
11	145. Minor Plaintiff G.D. has lost thousands of Robux playing gambling games on			
12	RBLXWild and other Illegal Gambling Websites.			
13	146. At the time that Minor Plaintiff G.D. was wagering Robux on RBLXWild and other			
14	Illegal Gambling Websites, Plaintiff Rachelle Colvin was not aware that her son was using Robux			
15	to engage in gambling activities.			
16	B. Danielle Sass			
17	147. Plaintiff Danielle Sass is the parent and next friend of L.C. L.C. is a minor who plays			
18	Roblox using his own user-created account. Minor Plaintiff L.C. is a resident of New York and is			
19	represented by his mother and next friend, Plaintiff Danielle Sass.			
20	148. Minor Plaintiff L.C. has purchased thousands of Robux through the use of Roblox			
21	gift cards that were under his complete ownership and control and through a monthly subscription			
22	to Roblox.			

23 Minor Plaintiff L.C. utilized his in-game currency to gamble on the Illegal Gambling 149. 24 Websites.

Specifically, Minor Plaintiff L.C. has paid money to Bloxflip and other Illegal 150. 25 Gambling Websites through Defendant Roblox. 26

Minor Plaintiff L.C. has lost thousands of Robux playing gambling games on 27 151. Bloxflip and other Illegal Gambling Websites. 28

30

152. At the time Minor Plaintiff L.C. was wagering Robux on Bloxflip and other Illegal 1 Gambling Website, Plaintiff Danielle Sass was not aware that her son was using Robux to engage 2 3 in gambling activities. 4 **CLASS ALLEGATIONS** 5 153. Plaintiffs bring this action individually and on behalf of all others similarly situated. The proposed classes are defined as: 6 7 Nationwide Class: 8 All adult persons in the United States who, during the applicable limitations period, 9 are or were the parent and/or legal guardian of a minor who acquired Robux through 10 the Roblox platform and subsequently wagered and lost some or all of those Robux on any of the Illegal Gambling Websites. 11 12 13 <u>California Class</u>: All adult persons residing in the State of California who, during the applicable 14 15 limitations period, are or were the parent and/or legal guardian of a minor who acquired Robux through the Roblox platform and subsequently wagered and lost 16 some or all of those Robux on any of the Illegal Gambling Websites. 17 18 19 New York Class: All adult persons residing in the State of New York who, during the applicable 20 21 limitations period, are or were the parent and/or legal guardian of a minor who 22 acquired Robux through the Roblox platform and subsequently wagered and lost 23 some or all of those Robux on any of the Illegal Gambling Websites. 24 154. The Nationwide Class, California Class, and New York Class are collectively 25 referred to herein as the "Classes." 26 27 155. Excluded from the Classes are Defendants, their subsidiaries and affiliates, officers, 28 directors, the members of their immediate families, and any entity in which any Defendant has a

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 32 of 55

controlling interest, to include the legal representatives, heirs, successors, or assigns of any such
 excluded party. Also excluded are the judicial officer(s) to whom this action is assigned, and the
 members of their immediate families.

- 4 156. Plaintiffs reserve the right to modify or amend the definition of the proposed Classes
 5 if necessary, before this Court determines whether certification is appropriate.
- 6

7

157. This case is properly brought as a class action under Fed. R. Civ. P. 23(b)(2) and (b)(3) and all requirements are met for the reasons set forth in the following paragraphs.

8 158. *Numerosity*. The members of the Classes are so numerous that separate joinder of
9 each member is impracticable. Upon information and belief, and subject to discovery, the Classes
10 consist of many thousands of members, the identity of whom are within the exclusive knowledge of
11 Defendants and can be ascertained only by resorting to Defendants' records, discovery, and other
12 third-party sources.

13

13 159. *Commonality*. There are numerous questions of law and fact common to the Classes
14 relating to Defendants' business practices challenged herein, and those common questions
15 predominate over any questions affecting only individual Class members. The common questions
16 include, but are not limited to:

- Whether the Defendants formed an Enterprise engaged in illegal gambling
 activity in violation of the federal RICO statute;
- Whether each Defendant and/or the Enterprise engaged in a pattern of
 racketeering activity in violation of 18 U.S.C. § 1962;
 - Whether one or more Defendants engaged in unlawful or unfair conduct prohibited by the California UCL;
- 23 O Whether Defendants, individually or collectively, maintained, owned, operated,
 24 or managed gambling websites prohibited by California Penal Code §§ 330a,
 25 330b, and 330.1 *et seq.*;
- 26 O Whether Defendants, individually or collectively, violated 18 U.S.C. § 1955 by
 27 operating the gambling businesses described herein;
- 28

21

22

	Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 33 of 55
1	• Whether Defendant Roblox accepted payments in connection with unlawful
2	internet gambling in violation of 31 U.S.C. § 5633;
3	\circ Whether Defendants, individually or collectively, violated the CLRA's
4	prohibition on unfair methods of competition and/or unfair and deceptive
5	practices;
6	• Whether Defendants engaged in deceptive acts or practices prohibited by the
7	New York GBL;
8	• Whether Defendants collectively engaged in a civil conspiracy to violate the New
9	York GBL, or to conduct themselves negligently under New York law;
10	• Whether Defendants' actions, individually or collectively, constitute negligence
11	per se;
12	• Whether Defendants unjustly enriched themselves to the detriment of Plaintiffs
13	and members of the Class;
14	• Whether Defendants' collective conduct constitutes a civil conspiracy to violate
15	the UCL, CLRA, and/or commit negligence per in violation of California law;
16	• the proper measure of damages; and
17	\circ the declaratory and injunctive relief to which the Class is entitled.
18	160. <i>Typicality</i> . Plaintiffs' claims are typical of the claims of the other Class members in
19	that they arise out of the same wrongful business practices engaged in by Defendants, as described
20	herein.
21	161. Adequacy of Representation. Plaintiffs are adequate representatives of the Classes
22	because Plaintiffs, both individually and on behalf of their minor children, have sustained damage
23	as a result of Defendants' uniform conduct. In addition:
24	• Plaintiffs are committed to the vigorous prosecution of this action individually
25	and on behalf of and all others similarly situated and have retained competent
26	counsel experienced in the prosecution of class actions and, in particular, class
27	actions on behalf of consumers against financial institutions;
28	
	33 COMPLAINT FOR DAMAGES

- There is no hostility of interest between Plaintiffs and the unnamed Class members;
- Plaintiffs anticipate no difficulty in the management of this litigation as a class action; and

5

6

1

2

3

4

• Plaintiffs' legal counsel has the financial and legal resources to meet the substantial costs and legal work associated with this type of litigation.

7 162. *Predominance*. The questions of law and fact common to the Classes as set forth in
8 the "commonality" allegation above predominate over any individual issues. As such, the
9 "commonality" allegations are restated and incorporated herein by reference.

10 163. Superiority. A class action is superior to other available methods and highly desirable for the fair and efficient adjudication of this controversy. Since the amount of each individual Class 11 12 member's claim is very small relative to the complexity of the litigation and since the financial 13 resources of Defendants are significant, no Class member could afford to seek legal redress 14 individually for the claims alleged herein. Therefore, absent a class action, the Class members will 15 continue to suffer losses and Defendants' misconduct will proceed without remedy. In addition, even if Class members themselves could afford such individual litigation, the court system could 16 17 not. Given the complex legal and factual issues involved, individualized litigation would significantly increase the delay and expense to all parties and to the Court. Individualized litigation 18 19 would also create the potential for inconsistent or contradictory rulings. By contrast, a class action 20 presents far fewer management difficulties, allows claims to be heard which might otherwise go 21 unheard because of the relative expense of bringing individual lawsuits, and provides the benefits of adjudication, economies of scale and comprehensive supervision by a single court. 22

23

164.

All conditions precedent to bringing this action have been satisfied and/or waived.

24

25

26

FIRST CAUSE OF ACTION

VIOLATION OF RACKETEER INFLUENCED AND CORRUPT ORGANIZATIONS ACT ("RICO"), 18 U.S.C. § 1961 *et seq*.

27 165. Plaintiffs hereby incorporate by reference the allegations contained in the preceding
28 paragraphs of this Complaint.

1 166. This Claim is brought on behalf of the Nationwide Class for actual and treble
 2 damages and equitable relief under 18 U.S.C. § 1964. Members of the Nationwide Class are referred
 3 to herein collectively as "Class Members."

4

167. Plaintiffs, Class Members, Roblox, and each of the Illegal Gambling Website Defendants are "persons" within the meaning of 18 U.S.C. § 1961(3).

6

5

A. The Roblox RICO Enterprise

7 Since at least 2019, Roblox, along with an enterprise of associated-in-fact entities 168. 8 that controlled the Illegal Gambling Websites (the "Enterprise"), operated an unlawful online 9 gambling ring that preved on children, adolescents, and teenagers. The Enterprise targeted Roblox's 10 prime users-those under the age of eighteen-and encouraged them to wager Robux on virtual games of chance, depriving these users of millions of Robux. As set forth herein, Robux have cash 11 12 value and, after the Enterprise acquired the sought-after digital currency from its victims, it 13 converted Robux to cash. The exchange of Robux for gambling credits occurred entirely on Roblox's platform, with Roblox's knowledge and active engagement. 14

15 169. Roblox was associated with the illegal Enterprise and conducted and participated in
16 the Enterprise's affairs through a pattern of racketeering activity including gambling, illegal
17 gambling businesses, and laundering of monetary instruments, all in violation of 18 U.S.C. § 1962.

18 170. The RICO Enterprise that engaged in, and whose activities affected, interstate
19 commerce, is an association-in-fact enterprise within the meaning of 18 U.S.C. § 1961(4) and
20 consists of "persons" associated together for the common purpose of employing the multiple
21 deceptive, abusive, and fraudulent acts described herein.

171. At all times, the Enterprise consisted of at least Roblox and the owners and operators
of the Illegal Gambling Websites—Satuzoki, Studs, and RBLXWild. Each of these entities was at
all times aware that they were engaged in illegal gambling operations that relied on and was
facilitated by Roblox's digital currency, Robux. Further, each of these entities knew that the primary
users of Roblox—children, adolescents, and teenagers under the age of eighteen—were wagering
Robux on the Illegal Gambling Websites.

28

1 172. The RICO Enterprise is an ongoing organization with an ascertainable structure and
 2 a framework for making and carrying out decisions, that functions as a continuing unit with
 3 established duties, and that is separate and distinct from the pattern of racketeering activity in which
 4 Enterprise members have engaged and are engaging. The Enterprise was and is used by Roblox as
 5 a tool to effectuate the pattern of racketeering activity.

6 173. Roblox, Satozuki, Studs, and RBLXWild were and are entities separate and distinct
7 from each other and from the Enterprise. All of the Enterprise constituents are independent legal
8 entities with the authority and responsibility to act independently of the Enterprise and of the other
9 Enterprise members.

10 174. The members of the Enterprise all had a common purpose: to facilitate and promote
11 an illegal gambling operation that preyed upon minor victims and thereby enrich themselves.

12 175. Each member of the Enterprise benefited from the common purpose: the Illegal
13 Gambling Websites acquired Robux wagered by minor users and thereafter converted those Robux
14 to cash. Roblox took a 30% fee each time the Illegal Gambling Websites made such a transfer.

15

B. Pattern of Racketeering Activity

16 176. As set forth herein, Roblox conducted and participated in the affairs of the
17 Enterprise through a pattern of racketeering activity that lasted several years, beginning in at least
18 2019 and continuing to the present day. This pattern consisted of continuous acts involving
19 conducting, financing, managing, supervising, directing, or owning all or part of an illegal gambling
20 business, in violation of 18 U.S.C. § 1955.

177. Since at least 2019, Roblox and the Gambling Website Defendants have engaged in
numerous, continuous predicate acts that constitute racketeering activity, including its known
facilitation of illegal gambling websites that cater to, and prey upon, Roblox's minor users. During
the class period, Roblox has facilitated numerous exchanges of Robux for gambling credits on its
platform and thereafter permitted the Gambling Website Defendants to cash those illegally-acquired
Robux out in exchange for real-world currency, all while Roblox takes a 30% fee from each
transaction.

28

178. During the entirety of this period, and as set forth herein, Roblox knowingly 1 2 facilitated this racketeering activity; indeed, every exchange of Robux took place entirely on 3 Roblox's platform, using Roblox's technology, with Roblox's knowledge, and resulted in Roblox's 4 enrichment.

5 179. Furthermore, Roblox required each of the Gambling Website Defendants to register in its Developer Exchange program, or to register a proxy or agent in the program, so that the 6 7 Gambling Website Defendants could exchange ill-gotten Robux for real-world currency. Because 8 they were registered in its Developer Exchange, Roblox knew and understood that the Gambling Website Defendants and their agents were not selling goods to minors in exchange for Robux, but 9 10 were instead using the Roblox platform to exchange Robux for gambling credits. Roblox has in the past identified such exchanges and characterized them as laundering fronts, demonstrating that it 11 12 knows full well when such sham exchanges are occurring.

13

C. Plaintiffs' Injuries

14 180. Plaintiffs and members of the Classes were injured and lost money or property, 15 including but not limited to money paid for Roblox's in-game currency, Robux, as a result of the illegal practices of the RICO Enterprise. 16

17

181. Among other things, Plaintiffs would not have lost money playing illegal gambling games if not for the illegal acts and practices of the RICO Enterprise. 18

19 182. The wrongful conduct of the RICO Enterprise has been and remains part of the RICO Enterprise's ongoing way of doing business and constitutes a threat to the Plaintiffs' and the Classes' 20 21 property. Without the repeated illegal acts and intentional coordination between all participants, the RICO Enterprise's scheme would not have succeeded and would not pose a threat to Plaintiffs and 22 23 the Classes into the future.

SECOND CAUSE OF ACTION

24

25

VIOLATION OF THE "UNLAWFUL PRONG" OF CALIFORNIA'S UNFAIR

26

27

COMPETITION LAW ("UCL") (Cal. Bus. & Prof. Code §§ 17200, et seq.) 183. Plaintiffs hereby incorporate by reference the allegations contained in the preceding

28 paragraphs of this Complaint.

1 184. This Claim is brought on behalf of the Nationwide Class and the California Class,
 2 referred to in this section collectively as the "Class."

3 185. Plaintiffs and Defendants are "persons" within the meaning of the UCL. Cal. Bus. &
4 Prof. Code § 17200.

5 186. As a result of engaging in the conduct alleged in this Complaint, Defendants have
6 violated the UCL's proscription against engaging in "unlawful" conduct by virtue of their violations
7 of the following laws:

8 California Penal Code § 330a: Section 330a states that "[e]very person, who a. 9 has in his or her possession or under his or her control . . . or who permits to be placed, 10 maintained, or kept in any room, space, inclosure, or building owned, leased, or occupied 11 by him or her, or under his or her management or control, any slot or card machine, 12 contrivance, appliance or mechanical device, upon the result of action of which money 13 or other valuable thing is staked or hazarded, and which is operated, or played, by placing or depositing therein any coins, checks, slugs, balls, or other articles or device, or in any 14 15 other manner and by mean whereof, or as a result of the operation of which any merchandise, money, representative or articles of value, checks, or tokens, redeemable 16 17 in or exchangeable for money or any other thing of value, is won or lost, or taken from or obtained from the machine, when the result of action or operation of the machine, 18 19 contrivance, appliance, or mechanical device is dependent upon hazard or chance . . . is guilty of a misdemeanor." Defendants, individually and collectively, violate section 330a 20 21 because they operate illegal gambling websites upon which minors are able to, and do, 22 gamble Robux, which have real-world cash value, in virtual games of chance.

b. **California Penal Code § 330b**: Section 330b states that "[i]t is unlawful for any persons to manufacture, repair, own, store, possess, sell, rent, lease, let on shares, lend or give away, transport, or expose for sale or lease, or to offer to repair, sell, rent, lease, let on shares, lend or give away, or permit the operation, placement, maintenance, or keeping of, in any place, room, space, or building owned, leased, or occupied, managed, or controlled by that person, any slot machine or device, as defined in this

19

20

21

22

23

24

25

26

27

28

section." Defendants, individually and collectively, violate section 330b because they operate illegal gambling websites upon which minors are able to, and do, gamble Robux, which have real-world cash value, in virtual games of chance, including virtual slot machines and other gambling devices defined as illegal under this section.

California Penal Code § 330.1 et seq.: Section 330.1(a) states that "[e]very c. person who manufactures, owns, stores, keeps, possesses, sells, rents, leases, lets on shares, lends or gives away, transports, or exposes for sale or lease, or offers to sell, rent, lease, let on shares, lend or give away or who permits the operation of or permits to be placed, maintained, used, or kept in any room, space, or building owned, leased, or occupied by him or her or under his or her management or control, any slot machine or device as hereinafter defined, and every person who makes or permits to be made with any person any agreement with reference to any slot machine or device as hereinafter defined, pursuant to which agreement the user thereof, as a result of any element of hazard or chance, may become entitled to receive anything of value or additional chance or right to use that slot machine or device, or to receive any check, slug, token, or memorandum, whether of value or otherwise, entitling the holder to receive anything of value, is guilty of a misdemeanor." Defendants, individually and collectively, violate section 330.1 because they operate illegal gambling websites upon which minors are able to, and do, gamble Robux, which have real-world cash value, in virtual games of chance, including virtual slot machines and other gambling games defined as illegal under this section.

d. California Penal Code § 337j(a)(1): By "operat[ing], carry[ing] on, conduct[ing], maintain[ing], or expos[ing] for play" unlicensed gambling in the state, Defendants, individually and collectively, violate section 337j(a)(1).

e. **California Penal Code § 337j(a)(2)**: By "receiv[ing], directly or indirectly, any compensation or reward or any percentage or share of the revenue, for keeping, running, or carrying on any controlled game," Defendants, individually and collectively, violate section 337j(a)(2).

3

12

13

14

15

16

17

f. The Illegal Gambling Business Act of 1970 (18 U.S.C. § 1955) (the "IGBA"): The IGBA makes it a crime to "conduct, finance, manage, supervise, direct, or own all or part" of an illegal gambling business. Defendants, both individually and collectively, violate the IGBA because their respective businesses involve five or more persons, have been in continuous operation for more than thirty days, and violate California's gambling laws as alleged herein.

g. The Unlawful Internet Gambling Enforcement Act of 2006 (31 U.S.C. §§ 5361-5367) (the "UIGEA"): The UIGEA makes it illegal for a "person engaged in the business of betting or wagering" to knowingly accept payments "in connection with the participation of another person in unlawful Internet gambling." 31 U.S.C. § 5633. "Unlawful Internet Gambling" is placing, receiving, or transmitting a bet or wager through, at least in part, the Internet where such bet or wager "is unlawful under any applicable Federal or State law in the State or Tribal lands in which the bet or wager is initiated, received, or otherwise made." 15 U.S.C. § 5362(10)(a). Defendants, individually and collectively, violate the UIGEA because they operate the illegal gambling websites upon which minors are able to, and do, gamble Robux, which have real-world cash value, in virtual games of chance.

h. Consumers Legal Remedies Act ("CLRA"), Cal. Civ. Code §
19 1770(a)(14): As alleged below, Defendants' conduct, individually and collectively,
20 violates section 1770(a)(14) of the CLRA. Therefore, Defendants have also violated the
21 UCL's "unlawful" provision.

187. Plaintiffs reserve the right to allege other violations of law, which constitute other
unlawful business acts or practices. Such conduct is ongoing and continues to this date. Unless
restrained and enjoined, Defendants will continue to engage in the unlawful conduct described
herein.

188. Defendants' conduct caused and continues to cause substantial injury to Plaintiffs
and the Class. As described herein, Defendants facilitate and profit from the Robux acquired through
the Illegal Gambling Websites. Roblox not only hosts and facilitates the exchange of Robux for

40

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 41 of 55

gambling credits, but it takes a fee each time the Gambling Website Defendants cash out Robux
 acquired from Roblox's minor users. But for Defendants' unlawful and unfair conduct, Plaintiffs
 and Class members would not and could not have lost Robux, which were purchased with real world currency, and could not have engaged in illegal gambling on the Illegal Gambling Websites.
 Plaintiffs have suffered injury in fact and have lost money and property as a result of Defendants'
 conduct.

7 189. Accordingly, Plaintiffs, individually and on behalf of G.D. and L.C., as well as all
8 others similarly situated, seek restitution from Defendants of all money obtained from Plaintiffs and
9 the Class as a result of Defendants' unfair competition.

10

11

12

THIRD CAUSE OF ACTION VIOLATION OF THE "UNFAIR" PRONG OF CALIFORNIA'S UNFAIR

COMPETITION LAW ("UCL") (Cal. Bus. & Prof. Code §§ 17200, et seq.)

13 190. Plaintiffs hereby incorporate by reference the allegations contained in the preceding
14 paragraphs of this Complaint.

15 191. This Claim is brought on behalf of the Nationwide Class and the California Class,
16 referred to in this section collectively as the "Class."

17 192. Plaintiffs and Defendants are "persons" within the meaning of the UCL. Cal. Bus. &
18 Prof. Code § 17201.

19 193. The UCL defines unfair competition to include any "unlawful, unfair or fraudulent
20 business act or practice." Cal. Bus. & Prof. Code § 17200.

21 194. As a result of engaging in the conduct alleged herein, Defendants, both individually
22 and collectively, have violated the UCL's proscription against "unfair" business practices.

195. Defendants' unfair conduct alleged in the Complaint is illegal, immoral and unscrupulous. Under federal and state law, as well as under prevailing ethical principles, establishing a website on which adolescents and teenagers are able to gamble digital currency with real-world value violates the UCL. The conduct is illegal not only because it deprives children of money and property, but also because it fosters highly addictive behavior in a population that is illequipped to deal with the psychological and cognitive impacts. However, because Defendants

____4

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 42 of 55

prioritized profits over legality and morality, they have constructed an ecosystem in which Roblox's
 adolescent and teenage users can easily and manipulatively fall prey to the Illegal Gambling
 Websites' harms.

4 196. This conduct also violates legislatively declared policies articulated in, *inter alia*,
5 California and federal statutory provisions, as set forth above.

6 197. Indeed, California's legislature has declared that "[g]ambling can become addictive
7 and is not an activity to be promoted or legitimized as entertainment for children or families." Cal.
8 Bus. & Prof. Code § 19801(c). In violation of this public policy, Defendants' conduct promotes,
9 facilitates, and profits from addictive gambling websites that are marketed, sold, and made available
10 to children.

198. 11 California's legislature has also declared that "[u]nregulated gambling enterprises 12 are inimical to the public health, safety, welfare, and good order. Accordingly, no person in this 13 state has a right to operate a gambling enterprise except as may be expressly permitted by the laws of this state and by the ordinances of local governmental bodies." Cal. Bus. & Prof. Code § 19801(d). 14 15 In violation of this public policy, Defendants, individually and collectively, operate unregulated gambling enterprises that are inimical to the public health, safety, and welfare, and that prey on 16 17 adolescents and teenagers. Defendants have not been permitted by the State of California or any local governmental bodies to engage and operate the gambling enterprise as described herein. 18

19 199. California's legislature has also found and declared that "[p]ublic trust that
20 permissible gambling will not endanger public health, safety, or welfare requires that comprehensive
21 measures be enacted to ensure that gambling is free from criminal and corruptive elements, that it
22 is conducted honestly and competitively, and that it is conducted in suitable locations." Cal. Bus. &
23 Prof. Code § 19801(g). In violation of this public policy, and in contravention of the "public trust,"
24 Defendants, individually and collectively, have brought unregulated gambling into the homes of
25 millions of underage consumers, often without their parents' knowledge or consent.

26 200. Defendants' unfair conduct also includes and arises from their operation of the 27 gambling operation as described herein, which is designed to exploit addictive and/or compulsive

tendencies in vulnerable youth to thereby ensure that these addictive and compulsive behaviors will 1 2 continue.

3 201. There is, simply put, no societal benefit to Defendants' conduct, which is illegal and violates the public policy of the State of California. Defendants' conduct causes only harm, which 4 5 enriches Defendants at the expense of Roblox's minor users.

6

202. Defendants' violations of the UCL, both individually and collectively, continue to 7 this day. Unless restrained and enjoined, Defendants will continue to engage in the unfair conduct described herein. 8

9 203. Defendants' conduct caused and continues to cause substantial injury to Plaintiffs, 10 both individually and on behalf of L.C. and G.D., as well as the Class members. As described herein, 11 Defendants facilitate and profit from the Robux acquired through the Illegal Gambling Websites, 12 which are cashed out for real-world currency. Roblox not only hosts and facilitates the exchange of 13 Robux for gambling credits, but it takes a fee each time the Gambling Website Defendants cash out Robux acquired from Roblox's minor users. But for Defendants' unlawful and unfair conduct, 14 15 Plaintiffs and Class members would not and could not have lost Robux, which were purchased with real-world currency, and could not have engaged in illegal gambling on the Illegal Gambling 16 Websites. Plaintiffs have suffered injury in fact and have lost money and property as a result of 17 Defendants' conduct. 18

19 204. Accordingly, Plaintiffs and the Class seek restitution from Defendants of all money obtained from Plaintiffs and the Class members as a result of Defendants' unfair competition. 20

- 21
- 22

23

FOURTH CAUSE OF ACTION

VIOLATION OF THE CONSUMERS LEGAL REMEDIES ACT ("CLRA")

(Cal. Civ. Code §§ 1750, et seq.)

24 205. Plaintiffs hereby incorporate by reference the allegations contained in the preceding paragraphs of this Complaint. 25

This Claim is brought on behalf of the Nationwide Class and the California Class, 26 206. referred to in this section collectively as the "Class." 27

28

207. Plaintiffs and members of the Class are "consumers," as that term is defined by Civil
 Code § 1761(d), because they purchased Robux for personal, family, or household purposes.

3 208. Plaintiffs and Class members have engaged in a "transaction" with Roblox, as well
4 as the Gambling Website Defendants, as that term is defined by Civil Code § 1761(e).

5 209. The conduct alleged in this Complaint constitutes unfair methods of competition and unfair and deceptive acts and practices for purposes of the CLRA, and was undertaken by 6 7 Defendants, individually and collectively, in transactions intended to result in, and which resulted 8 in, the sale of goods or services to consumers—namely, the sale of Robux, as well as Roblox's 9 associated services in facilitating access to virtual gambling offered by the Gambling Website 10 Defendants. In addition, Roblox provides users, including Class members, access to a gaming 11 platform, which is itself a good or service, as those terms are defined by the CLRA, and this platform 12 serves to direct minor users to the Illegal Gambling Websites, on which users can participate in 13 illegal gambling activities.

14 210. As a result of Defendants' conduct, Plaintiffs and Class members purchased
15 Roblox's goods and/or services for use by their minor children, and Defendant Roblox then
16 facilitated those children to exchange Robux for gambling credits on the Roblox ecosystem and
17 ultimately to participate in illegal gambling on the Illegal Gambling Websites.

18 211. By engaging in the conduct described herein, Defendants, individually and
19 collectively, have violated subdivision (a)(14) of California Code § 1770 by "Representing that a
20 transaction confers or involves rights, remedies, or obligations that it does not have or involve, or
21 that are prohibited by law." Under this provision, omissions are actionable.

22 212. Defendants, individually and collectively, violated the CLRA by representing to
23 Plaintiffs and their minor children that none of the developers that operate in the Roblox ecosystem
24 host games that constitute illegal gambling and that Robux could not be used to engage in illegal
25 gambling when, in fact, Defendants set up and collectively facilitated an illegal gambling enterprise
26 in which adolescents and teenagers exchange Robux in the Roblox ecosystem for gambling credits
27 for the express purpose of gambling. Moreover, Defendant Roblox publicly claimed, both in its
28 terms of service and in public representations, that it actively monitored its platform to prohibit its

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 45 of 55

minor users from engaging in illegal gambling when, in fact, it knowingly facilitated such illegal
 activities. Defendants further violated the CLRA by failing to disclose to Plaintiffs and their children
 that Roblox supported and facilitated an illegal gambling enterprise that minors could engage in
 using Robux.

5 213. Defendants' violations of the CLRA proximately caused injury in fact to Plaintiffs,
6 their minor children, and the Class.

7 214. Pursuant to Cal. Civ. Code § 1782(d), Plaintiffs, individually and on behalf of the
8 Class, seek a Court order enjoining the above-described wrongful acts and practices of Defendants
9 and for restitution and disgorgement.

10 215. Pursuant to Cal. Civ. Code § 1782(a), Defendant Roblox was notified in writing by
11 certified mail of the particular violations of Section 1770 of the CLRA, which notification demanded
12 that Defendant Roblox rectify the problems associated with the actions detailed above and give
13 notice to all affected consumers of its intent to so act.

14 216. Undersigned counsel conferred with counsel for Defendant Roblox, and Roblox
15 indicated it would not rectify or agree to rectify the problems associated with the actions detailed
16 above or give notice to all affected consumers. Accordingly, Plaintiffs further seek claims for actual,
17 punitive, and statutory damages, as appropriate.

217. Defendants' conduct, individually and collectively, is wanton and malicious.

19

18

20

VIOLATION OF NEW YORK GENERAL BUSINESS LAW § 349

FIFTH CAUSE OF ACTION

21 218. Plaintiffs hereby incorporate by reference the allegations contained in the preceding
22 paragraphs of this Complaint.

23 219. This Claim is brought on behalf of the New York Class, referred to in this section
24 collectively as the "Class."

25 220. New York General Business Law § 349 ("GBL 349") prohibits "[d]eceptive acts or
26 practices in the conduct of any business, trade, or commerce, or in the furnishing of any service" in
27 the State of New York.

221. Defendants engaged in "business," "trade," or "commerce" within the meaning of 1 2 N.Y. Gen. Bus. Law § 349(a).

3 222. Plaintiffs and Class Members are "persons" within the meaning of N.Y. Gen. Bus. Law § 349(h). 4

5 223. By reason of the conduct alleged herein, Defendants engaged in unlawful practices within the meaning of GBL 349. The conduct alleged herein is a "business practice" within the 6 7 meaning of GBL 349, and the deception occurred within the State of New York.

8 224. Defendant Roblox transmitted false and misleading information to Class members in 9 the State of New York. In particular, Roblox represented to Plaintiffs and Class members that 10 gambling was not permitted on its platform, yet facilitated the illegal gambling enterprise through the exchange of Robux that occurred entirely within Roblox's platform, with Roblox's knowledge 11 12 and support.

13

225. Most, if not all, of the alleged misrepresentations and omissions made by Defendants were transmitted to members of the Class residing in the State of New York. 14

15 226. Defendant Roblox expressly represented that it did not permit gambling to occur on its platform, that Robux cannot be used for gambling purposes, and that it monitored third parties to 16 ensure that its platform was not used to facilitate illegal gambling using Robux. None of these 17 representations are true or accurate, as set forth above. 18

19 227. Defendant Roblox further omitted material information from its users, including its minor users, failing to inform them that it was facilitating an illegal gambling enterprise along with 20 21 the Gambling Website Defendants. Roblox also failed to inform its users that they could, in fact, use their Robux to engage in gambling activities, which were facilitated through the Roblox 22 23 platform.

24 228. The misrepresentations and omissions for which Defendant Roblox is responsible 25 constitute representations as to the particular standard, quality, or grade of goods and/or services 26 that such goods and/or services did not actually have, in violation of GBL 349.

27 229. Further, the misrepresentations and omissions for which Defendant Roblox is 28 responsible relate to unlawful practices-namely, illegal gambling by minors, which is illegal in the

46 COMPLAINT FOR DAMAGES

State of New York. Accordingly, Roblox's misrepresentations and omissions violate N.Y. Gen. Bus.
 Law § 349(g).

3 230. Defendant Roblox knew or should have known that its minor users could and were
4 likely to engage in illegal gambling using the Roblox platform, and therefore Roblox's
5 representations that such activities were prohibited were misleading and/or false.

6 231. Defendant Roblox did not disclose to Plaintiffs or the Class members that Roblox
7 users, including minors, could use Robux to engage in illegal gambling on the Illegal Gambling
8 Websites, and that Roblox facilitated such gambling by supporting the exchange of Robux for
9 gambling credits on its platform.

10 232. Defendant Roblox also did not disclose to Plaintiff or the Class members that it knew
11 that the Gambling Website Defendants were operating the Illegal Gambling Websites, or that
12 Roblox was facilitating the operation of these websites and profiting from their operation.

13 233. Defendant Roblox's misrepresentations and omissions were material because they
14 were likely to deceive reasonable consumers, including both parents and Roblox's minor users,
15 about whether Roblox facilitated illegal gambling using Robux.

16 234. Such acts by Defendant Roblox are and were deceptive acts or practices that were
17 likely to mislead a reasonable consumer, including Roblox's minor consumers, using the Roblox
18 platform in a reasonable manner.

19 235. The misrepresentations and omissions described herein that were transmitted to
20 consumers, including minors, residing in New York, were consumer-oriented acts and thereby fall
21 under the protection of GBL 349.

22 236. Defendant Roblox's violations of GBL 349 have an impact and general importance 23 to the public, including the people of New York. Conservatively, thousands of minors residing in 24 New York have fallen victim to Roblox's misrepresentations and omissions and, in turn, the illegal 25 gambling scheme in which Roblox participates. In addition, New York residents have a strong 26 interest in regulating the conduct of companies that provide services to minors residing in the state, 27 to ensure those minors are protected from harm and deception.

28

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 48 of 55

237. As a direct and proximate result of the deceptive practices alleged herein, Plaintiff
 and members of the Class have suffered (and will continue to suffer) the predatory harms inflicted
 by Defendants' illegal gambling scheme. Minor Plaintiff L.C., as well as other minor members of
 the Class, has lost Robux, with monetary value, as a result of Defendants' deceptive conduct.

5 238. Further, although Defendant Roblox has engaged in material misrepresentations and omissions, as set forth herein, it has also participated in a civil conspiracy to violate GBL 349 along 6 7 with the Gambling Website Defendants. To accomplish their objectives, Defendants agreed to create 8 an illegal gambling environment that would cater to Roblox's minor users. The Gambling Website 9 Defendants created gambling websites that would accept Robux in exchange for gambling credits, 10 Roblox would facilitate the exchange of Robux for gambling credits on the Roblox platform, and Roblox would charge a 30% fee when the Gambling Website Defendants cashed out the Robux 11 obtained from minor users like L.C. and other minor members of the Class. Each participant in this 12 13 conspiracy understood that Roblox was deceiving its minor users and their parents or guardians when it claimed that Robux could not be used on its platform to engage in illegal gambling when, 14 15 in fact, Roblox was working with the Gambling Website Defendants to achieve exactly this purpose. 239. Minor Plaintiff L.C. and members of the Class lost Robux as a result of the violations 16

17 described herein, and these Robux have real-world monetary value.

18 240. Pursuant to N.Y. Gen. Bus. Law § 349(h), Plaintiff, on behalf of herself, her minor 19 child, L.C., and all others similarly situated, seeks all monetary and non-monetary relief allowed by law, including damages in the amount of actual damages or \$50, whichever is greater, for each 20 21 violation of GBL 349, injunctive relief, and attorneys' fees and costs, as well as all damages permitted as a result of Defendants' civil conspiracy, including damages inflicted due to unlawful 22 acts taken in furtherance of the conspiracy. Because Defendants' conduct was committed willfully 23 24 and knowingly, Plaintiff and Class Members are entitled to recover up to three times their actual damages. 25

26 SIXTH CAUSE OF ACTION
 27 NEGLIGENCE PER SE
 28
 48
 COMPLAINT FOR DAMAGES

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 49 of 55

Plaintiffs hereby incorporate by reference the allegations contained in the preceding 241. 1 2 paragraphs of this Complaint.

3 242. This Claim is brought on behalf of the California and New York Class, respectively, referred to in this section collectively as the "Class." 4

5

243. Under federal law, California law, and New York law, it is illegal for those under the age of 18 to patronize a gambling business of any kind. 6

7 244. At all times relevant hereto, Defendants had a duty to comply with federal law, as 8 well as the laws of California and New York.

9 245. Pursuant to the IGBA (18 U.S.C. § 1955), Defendants are prohibited by federal law from conducting, financing, managing, supervising, directing, or owning all or part of an illegal 10 gambling business. 11

12 246. Pursuant to the UIGEA (31 U.S.C. § 5363), Defendants are prohibited by federal law 13 from knowingly accepting payments in connection with unlawful Internet gambling.

Pursuant to the following laws of California and New York, Defendants are 14 247. prohibited from operating, managing, financing, directing, facilitating, and/or profiting from illegal 15 gambling websites that cater to and permit those under the age of eighteen to place wagers on games 16 17 of chance:

California Penal Code § 330a; 18 a. 19 California Penal Code § 330b; b. California Penal Code § 330.1; 20 c. 21 California Penal Code § 337j(a)(1); d. 22 California Penal Code § 337i(a)(2); e. 23 New York Penal Law § 225.05; f. 24 New York Penal Law § 225.10; g. New York Penal Law § 225.30; and 25 h. 26 New York Penal Law § 225.95. **i**. 27 28 49 COMPLAINT FOR DAMAGES 248. Further, the New York State Constitution prohibits gambling unless expressly
 permitted by law. Both California and New York prohibit gambling by those under the age of
 eighteen.

4 249. The above-referenced laws and legal prohibitions imposed a duty upon Defendants
5 to ensure Plaintiffs and Class members were not able to engage in illegal gambling activities using
6 the Roblox platform, as well as a duty not to promote and provide access to the Illegal Gambling
7 Websites through the Roblox platform, using Robux digital currency.

8 250. Defendants breached their duties to Plaintiffs and Class members under the
9 aforementioned statutes and laws by providing Roblox's minor users with access to—and
10 facilitating—illegal gambling through the Illegal Gambling Websites.

11 251. Defendants further breached their duties by representing that minor users could not
12 use the Roblox platform or Robux digital currency to engage in illegal gambling activities when, in
13 fact, Defendants had constructed an illegal gambling scheme to accomplish just such a purpose.

14

252. Defendants' failure to comply with applicable laws constitutes negligence per se.

15 253. But for Defendants' wrongful and negligent breach of their duties owed to Plaintiffs
16 and Class members, Plaintiffs and Class members would not have been injured.

17 254. The injury and harm suffered by Plaintiffs and Class members was the reasonably
18 foreseeable result of Defendants' breach of their duties. Defendants knew or should have known
19 that they were failing to meet their duties, either knowingly or negligently, and that Defendants'
20 breach would cause Plaintiffs and Class members to experience the foreseeable harms the above21 referenced statutes were enacted to prevent.

22 255. Further, not only does Defendants' conduct constitute negligence per se, Defendants
have also participated in a civil conspiracy under New York law to engage in negligence per se. To
accomplish their objectives, Defendants agreed to create an illegal gambling environment that would
cater to Roblox's minor users. The Gambling Website Defendants created gambling websites that
would accept Robux in exchange for gambling credits, Robux facilitated the exchange of Robux for
gambling credits on the Roblox platform, and Roblox charged a 30% fee when the Gambling
Website Defendants cashed out the Robux obtained from minor users like L.C. and other minor

members of the Class. These actions, collectively, violated New York's constitutional and statutory 1 2 prohibitions on underage gambling.

3 256. As a direct and proximate result of Defendants' negligent conduct, Plaintiffs and Class members have suffered injury and are entitled to damages in an amount to be proven at trial. 4

SEVENTH CAUSE OF ACTION

UNJUST ENRICHMENT

7 257. Plaintiffs hereby incorporate by reference the allegations contained in the preceding 8 paragraphs of this Complaint.

9 258. This Claim is brought on behalf of the California and New York Class under the 10 respective state law of each Class.

259. 11 Plaintiffs and Class members conferred a monetary benefit on Defendants when they 12 purchased Robux from Defendant Roblox, then wagered those Robux in the virtual casinos operated 13 by the Gambling Website Defendants.

260. Defendants appreciated or had knowledge of the benefits conferred upon them by 14 15 Plaintiffs and Class members.

261. As a result of Defendants' conduct, Plaintiffs and Class members suffered actual 16 17 damages in an amount equal to the monies paid to obtain Robux that were subsequently wagered and lost on the Gambling Website Defendants' virtual casinos. 18

19 262. Under principles of equity and good conscience, Defendants should not be permitted 20 to retain the money belonging to Plaintiffs and Class members because Defendants have obtained 21 that money through misrepresentations and omissions, and by facilitating illegal gambling by Roblox's minor users, which is illegal in both California and New York. 22

23

5

6

263. Defendants should be compelled to disgorge into a common fund for the benefit of 24 Plaintiffs and Class members all unlawful or inequitable proceeds received through the illegal gambling scheme described herein. 25

26	EIGHTH CAUSE OF ACTION
27	CIVIL CONSPIRACY
28	
	51
	COMPLAINT FOR DAMAGES

264. Plaintiffs hereby incorporate by reference the allegations contained in the preceding
 paragraphs of this Complaint.

3 265. This Claim is brought on behalf of the California, which is referred to in this section
4 as the "Class."

5 266. At all times relevant hereto, Defendant Roblox was aware that the Gambling Website
6 Defendants had operationalized illegal gambling websites that catered to Roblox's minor users and
7 allowed minors to place wagers after exchanging Robux for gambling credits on the Roblox
8 platform.

9 267. The Gambling Website Defendants, in turn, were aware that Roblox made
10 representations stating that it did not permit gambling on its platform and that Robux could not be
11 used to engage in illegal gambling. The Gambling Website Defendants understood that these were
12 misrepresentations and/or material omissions, as Roblox knew about the Illegal Gambling Websites
13 and facilitated the exchange of Robux for gambling credits.

14 268. Defendant Roblox actively facilitated the illegal gambling scheme by knowingly
15 permitting the exchange of Robux for gambling credits on its platform and profiting from this
16 exchange.

17 269. Each time the Gambling Website Defendants cashed out the Robux obtained from
18 Roblox's minor users, a 30% fee was paid to Roblox, thus enriching all parties to the conspiracy.

19 270. Defendants jointly conspired to violate the California UCL, CLRA, to commit
20 negligence per se, and to defraud Roblox's minor users by conducting their illegal gambling scheme
21 targeted at those users.

22 271. Minor Plaintiff G.D. and other minor Class members were harmed by Defendants'
23 unlawful conspiracy, losing Robux digital currency as a result of Defendants' misconduct.

24 272. As a direct and proximate result of Defendants' negligent conduct, Plaintiffs and
25 Class members have suffered injury and are entitled to damages in an amount to be proven at trial.

26

27

NINTH CAUSE OF ACTION

NEGLIGENCE

Case 3:23-cv-04146 Document 1 Filed 08/15/23 Page 53 of 55

273. Plaintiffs hereby incorporate by reference the allegations contained in the preceding
 paragraphs of the Complaint.

3 274. This Claim is brought on behalf of the California and New York Class under the
4 respective state law of each Class.

5 275. Under California and New York law, Defendant Roblox undertook a duty of care
6 when it provided a gaming platform that catered to, and was designed for, children and teenagers.

7 276. This duty included, at a minimum, a responsibility not to allow minors on its platform
8 to engage in illegal behaviors, including gambling, that Roblox was actively facilitating.

9 277. Roblox also had a duty not to misrepresent, both to parents and to children
10 themselves, the dangers faced by children on its platform, including the dangers of illegal gambling
11 schemes in which Roblox was actively participating.

12 278. Roblox breached its duties to Plaintiffs, their minor children, and members of the
13 Class, by permitting its minor users to wager Robux on the Illegal Gambling Websites, exchanging
14 Robux for gambling credits on the Roblox platform.

15 279. Roblox's breach of its duties caused harm to its minor users, including G.D. and L.C.,
16 who lost Robux participating in the illegal gambling scheme perpetrated by the Gambling Website
17 Defendants with Roblox's active participation.

18 280. As a result of this misconduct, Plaintiffs and Class members have been injured and
19 seek damages in an amount to be proven at trial

20 **REQUEST FOR RELIEF** 21 WHEREFORE, Plaintiffs, individually and on behalf of the minor children and members of the Classes, respectfully request that the Court: 22 23 a. Certify this case as a class action, designating Plaintiffs as class representatives and 24 designating the undersigned as Class Counsel; b. Declaring that Defendants' conduct violates the statutes set forth above; 25 26 Declaring that Defendants' conduct, as set out above, constitutes unlawful c. racketeering activities, and conspiracy to engage in the same; 27 28 d. Award Plaintiffs and the Classes actual damages in amount according to proof; COMPLAINT FOR DAMAGES
