### As America's Healthy Home Experts for over 90 years, Aerus strives to develop innovative products with forward-thinking technology for millions of homes and businesses.

Aerus was originally established in 1924 as Electrolux, and has been the global leader in creating healthy indoor environments ever since. The flagship technology in many Aerus products is ActivePure, which has been proven in rigorous laboratory testing to significantly reduce airborne and surface viruses, mold, bacteria, and VOCs. Aerus offers extensive resources in research and development, sales training and marketing, and product engineering. [Join us and double your business!](#)

## Testimonials

I've always thought I had a good sales team and process. However, adding Aerus' tips and tricks to our current process has helped us gain, maintain, and grow our customer base!

**Water Dealer**  
Spain

Adding Aerus' products to my product line in today's climate eased my worries about making it through this pandemic. My business has MORE than doubled since March.

**Water Dealer**  
Massachusetts

Back in March when the pandemic hit, I really wasn't sure how I was going to continue to operate my business. Luckily the WQA worked directly with the government to keep my business open as an essential business. During this time I was contacted by Aerus for an opportunity to double my business. With their training and support, I took their state-of-the-art ActivePure products and incorporated them into my current product demonstrations to not only keep my business on solid ground but to increase my revenue year over year.
