Don't be afraid to tell the world what you're about to do! It'll make you more accountable to your goals and dreams. Don't be scared and let fear hold you back. Fear is bull 🐮 anyways! It doesn't even exist, it's made up situations in our mind! Listen, one day we will die and leave this earth, so in all honesty, screw it and just start doing it. You'll find a way and figure it out. Playing it safe is a dumb idea. Play it safe for what? I rather try my hardest and risk mostly everything and TRY to accomplish what I want in life than play it safe and filled with regret in my 60's and 70's.

WRITE DOWN WHAT YOU WANT.  
MAKE A PLAN FOR ITS ATTAINMENT.  
FOLLOW THE RIGHT PEOPLE.  
WORK INCREDIBLY HARD.
