There are people who already have the recipe for success. The problem is that YOUR mentor doesn't have the results in LIFE you desire. 6/10 young entrepreneurs are following the wrong person.. sorry I am just being honest! I went 0 to hero in 2011 because I ONLY was taking guidance from people who had what I wanted. My first physical mentor in my profession had already earned \$40,000,000 when I signed up. From him, I pulled a bunch of \$100K monthly guys together off YouTube and studied them religiously. From there I shot to a guy who was earning \$1,000,000 a month with bags of coffee.. and then the whole time I was being guided by Bob Proctor and YouTube University Tony Robbins.
