2020 - The year Carico changed my life (and yours) for the better!
[Carousel Classics-Carico of Canada Carico International, Inc.](#)

In Jan of this year, after 9 years of being a loyal Carico customer, I had a realization. The realization was that I literally can't live without these products and if I love them this much others would too. I decided to start really sharing about how I used these products in my daily life. I simply just started documenting how I use them along with their benefits on my insta and FB stories and by the next month I was the top sales person in the world and sold over 75K worth of products in Feb alone.

We got our Clean Machine in Feb 2020 and that was truly what changed my life this year. We had a mold issue in our house as well as a lot of built up grime from only using natural cleaning products that didn't quite do the job they needed to. We cleaned for 5 days straight and it was like we moved into a new house. I felt so much more confident about having my family live here after we got everything cleaned up and restored. Now it's easy to maintain a clean house because I have the right tool to do the job! [Carico Clean Machine - Steamer and Vacuum]

I kept sharing my love for these products which allowed me to continue investing in what we needed. I dreamed for years about getting new stoneware for my kitchen and lucky for me the Canadian Warehouse had some vintage Carico stoneware stored away that I was fortunate enough to purchase (see the last pic to witness the gorgeousness). We also got our kids each a Carico Grounded bed which gave us way more flexibility for sleeping arrangements in our home (see our Carico "extend-a-bed" a king and twin xl bed together), we upgraded our Carico Air Purifier and took our 9 year old one to the office so we could have clean air at our office too. We also got a point of use water filter for the office too.

Through selling Carico, I earned an all expense trip to Spain and Florida for Neil and I but Covid kiboshed that so instead I was able to put that money toward paying off debt and doing some upgrades to my home office.

Sharing my love for these products allowed me to upgrade my life and help others do the same to theirs. It was a win-win-win, something Neil and I are very passionate about in our lives.

Thank you to those that have trusted me and chose to invest in these products to create your healthy home! I closed out the year as one of the top 10 sales people in the world with over 340K worth of personal sales. I'm so excited to continue serving you in 2021 and to see where this takes us!

P.S There is still 2 days left to get in on some epic Boxing Day sales. DM me with what you're interested in and I'll get you the prices and info 🥰🥰.

God bless, Fam.
