AI: There are so many benefits to having my mom as my sponsor. I love that we are always striving for more and pushing each other to be the best versions of ourselves but experiencing this lifestyle and making these memories daily are priceless! Building relationships constantly together through our business has also brought our personal relationship closer and I'm so grateful for that!

HN: Being that today is Mother's Day, do you have a special message for your mom?

AI: Mom, thank you for the sacrifices. Your work ethic, dedication, leadership, and passion for people shines through everything you do. I hope to be half the woman and Herbalife Distributor that you are one day. I love you! ❤️
