Black History is in session! This dynamic woman, [@gloriabanks](#) - Gloria Mayfield Banks, was an Elite National Sales Director and literally number one in sales globally at Mary Kay. She held that position for many years until a couple of months ago when she "retired" to Emeritus status and is continuing to grow in her status as a highly acclaimed public speaker.

Along the way she helped create many Mary Kay millionaires and was highly influential within the Mary Kay culture.

She is one of the people I admire, and she inspires me! I am committed to having an impact in whatever sphere I am blessed to travel in.
