WOW! I wasn't expecting this room!!!
HUMBLED....so thankful
It's about **belonging**, for me... ❤️ it's
being aligned in purpose and vision.

You see, every company has community
but that doesn't mean you feel like you
belong... Authentically accepted as
yourself. Nor, aligned in vision and
purpose.

Hear me out : Their is a difference
between community & belonging.

a sense of fitting in or feeling like you
are an important member of a group. A
really close family gives each of its
members a strong sense of belonging.

- ♥ The loyalty
- ♥ The kindness
- ♥ The family
- ♥ The being there for one another throughout ALL of life's events.

Community you can find anywhere, truly belonging? Now that's hard to come by & when you find it. You cherish it.

No other places I'd rather be than alongside an amazing company like [@shakleehq](#) that is all about aligning their purpose to create a sense of belonging for everyone.

If you're curious as to what I do, or how you can be a part of my organization, don't hesitate to ask. There's no harm in
