# IN THEIR WORDS ...

## Mom of 2 – Full-time teacher – Gratitude journal enthusiast

I decided to try on Touchstone Crystal as an opportunity to meet and connect with women. This business was so easy to launch – and with rewards all along the way. One thing I appreciated from the start were the tools and support from the company and my team. We get to pick and choose from the “tool box” the company provides, like free training, an amazing social media platform and an app that’s literally my ‘personal assistant’ ... and the list goes on. The best part is that I can design my own schedule. This business is so much bigger than jewelry! I was NOT ever going back into direct sales for various reasons. But am I ever glad I did. **I’m evolving into the woman I always dreamed of.** A relationship builder, an encourager, a hope dealer, a developing leader, and a passionate entrepreneur spreading joy and sparkle!

## Full-time bling slinger – IVF warrior – Home refinishing enthusiast

I spent 14 years in Corporate America until I had my daughter, and although I loved being home with her, I quickly learned that I needed to go back to work for many reasons – including my own growth and stimulation. So, I went back to the professional world, but it just did not fill my tank. I wanted to align myself with a company that I was truly excited about – so I did my research!

**Once I saw Touchstone Crystal’s career plan and ground floor opportunity, it was a no-brainer.** Knowing the Swarovski brand was behind it and seeing how quickly I could grow, I knew it was for me. The fact that Touchstone offers virtual parties sealed the deal. I can completely run my business from home – using all the tools Touchstone provides. I’m loving the freedom to work when I want and earn what I want, and one day I’ll be at the top.

I have never felt more excited or more empowered in my life ... and I’m 57 years old! Because I can hold Touchstone Crystal parties virtually, I’m having fun meeting women from all over. My passion has become helping them feel beautiful and deserving - and encouraging them to give themselves permission to sparkle every day. **My customers are absolutely blown away by the quality and shine of the jewelry.** And I can truthfully say that I earned more in 6 months with this business than I did all year employed as a personal stylist (which I love and still pursue). This supplemental income has helped me pay bills, invest in an entrepreneurship program, and save up to treat my husband to a golf club membership! I’m loving the person I see in the mirror ... I realize that I’m capable of so much more, and I want other women to experience that, too.
