Empowering change with faith, hope, and hard work

Cristina Stults

EXECUTIVE

Sick and tired of being sick and tired, Cristina Stults was desperate for a better life. She was suffering from health issues that left her exhausted and prevented her from being the mom she wanted to be. With doctors unable to figure out exactly what was causing these problems, Cristina turned to her faith, praying that God would provide a way for her to improve her health. The answer to Cristina's prayers wasn't far away.

Her mother-in-law had lost 50 pounds using Xyn-gular's weight loss products. For 5 months, Cristina watched her mother-in-law, never expressing any interest, until one day she decided enough was enough. She was done being sick, done being exhausted, done being unhealthy and was taking matters into her own hands. Her mother-in-law helped her get signed up and Cristina started using the Xyn-gular system.

"When I started Xyngular in 2016, I was in a major health rut. I was feeling a lot older than 28! This system has completely changed how I eat and how my kids eat. I am so much more aware of harmful chemicals and ingredients in foods that we used to consume all the time. In 2018, after committing to the Xyngular system, I am feeling so much better. I am able to do things with my 3 kids that I didn't have the energy to do before. My kids don't have to miss out on spending time with me because I'm sick in bed. I'm so thankful that Xyngular has given me a vehicle and a path to improve my overall health and wellness," said Cristina.

"I'm so thankful that Xyngular has given me a vehicle and a path to improve my overall health and wellness."

Part of Cristina's hope for a better life was finding a way she could stay at home with her kids while still earning income. The opportunity for Cristina to own her own independent Xyngular business provided a way to do that. She was especially excited to become a Xyngular Distributor after experiencing the benefits of Xyngular's products.

"My husband was driving 4 hours a day to and from work to provide for our family. I had just had my third baby and didn't want to go back to work. I wanted to stay home with him while still contributing to our family. I was a former hairdresser and was with another health and wellness company before coming aboard with Xyngular. But the products were not helping me so I was stuck trying to sell a system that didn't work and that I had no heart for. With Xyngular, the products work. I have seen people I know personally have success using the products. So deciding to start my own Xyngular business was a no-brainer," said Cristina.

From the beginning of Cristina's journey, she made honesty and transparency a priority. She focused on building genuine relationships and sharing her story, which helped her business grow rapidly.

"My goal was to be me and to be authentic and true to who I am. I wanted, and still want, people to be able to relate to me and to see what these products and this company are doing for people. I held group events and added my social media friends to them so I could share my story and the Xyngular system. But the one thing that has led me to success has been establishing strong relationships of trust with people, to show the people I'm talking to that I truly care about them and their lives," said Cristina.

Cristina's ability to connect with people on a deep level also makes her a great leader for her team. She is able to inspire and motivate others to become their best self and achieve things they never thought were possible.

"I always try to point out the strengths of each one of my team members. I want them to see the good in themselves. I want them to believe that they have greatness inside them and that they can do anything they want to do. It's so hard for someone to come out of their comfort zones and this business is not comfortable. I want to be their biggest cheerleader so they can enjoy the benefits of working hard and so they can use their strengths to find success," said Cristina.

Cristina and her family have come a long way since joining Xyngular. As a Xyngular Executive, she is starting to enjoy the bonuses and compensation that comes with a successful Xyngular business. Most importantly though, Cristina's health has continued to improve, which is something she is extremely grateful for.

"Our life a year ago looks completely different than it does today. My husband has been able to accept a job in the town we live in and doesn't have to travel 4 hours to get to work. I get to stay home with my 3 little ones every day. We have been able to travel to places we would never have been able to see. I am so happy that we didn't settle for mediocre lives and that we never stopped working for our goals. We have been so blessed and our lives have completely changed all because I made a decision for my health. God truly has a plan for all of us," said Cristina.
