

Reliv International, Inc. 2022 U.S. Income Disclosure Statement

Distributors join Reliv for various reasons. Some join because they appreciate the quality products and have no present interest in the income opportunity. Some enjoy the products and use the income opportunity as a way to share the products with friends and family and to earn additional income. Finally, certain Distributors see the income opportunity as a career choice. The most powerful element of Reliv's compensation plan is that it adjusts to your goals. As a result, there is no need to exaggerate the earnings potential of our business. Distributors should never purchase products solely for the purpose of receiving a commission, nor should they encourage others to do so.

The information below reflects all active distributors as of 12/31/2022 (5,868). The payment figures listed are in addition to and do not include amounts received on the resale of products directly to consumers nor do they reflect expenses a Distributor may have incurred in operating its business.

Distributor – Discount Buyer - The largest number of Distributors (2,337 or 39.8% of 5,868) join Reliv to enjoy discounts and often distribute the products at retail to their network of family and friends. Customers - Reliv has thousands of satisfied retail customers and many of those enroll as Preferred Customers to take advantage of discounts on the products they and their families enjoy. These individuals may, or may not, decide at some point to become active in the Reliv income opportunity. In 2022, Reliv had over 4,302 **Retail Customers** buying products from the Company for over 2.7 years on average. Approximately .1% of Reliv Distributors earned a trip in the past year based on their efforts while 4.7% of them qualified for a monetary bonus.
