

Glenn Sanford

FOUNDER

When we set out to transform the real estate experience, I personally thought about what would it take for me, having been a real estate agent, to want to be at eXp over the long haul. It needed to be the place that I would be working at if it existed, which to a large extent had to do with how we thought about compensation and equity opportunities.

We also knew that we had to create a great environment to work. A place that empowers agents to manage their own businesses while receiving top-notch technology and training, and quick support. A place where entrepreneurial agents can voice their opinions and be heard. And a place where agents can plan for their family's future.
