I want you to know that on the other side of the temporary pain, heartache, frustration, and obstacles you're battling through is the life you've always dreamed of. All the speakers this weekend, @shawnmeaike @davidgoggins @shannonsharpe84 @barbaracorcoran, myself, & others all have one thing in common.. we all had to endure and push through pain to get to the other side. Are you willing to push

endure and push through pain to get to the other side. Are you willing to push through the daily bullshit your business and your life throws your way? Are you willing to work on YOU, to become obsessed with personal self development, & let go of the opinions of others? Are you willing to win the battle of discipline day in and day out. It takes consistency, determination, & building the correct habits in your life. Success is easy to do, and it's easy not to do. The decision is yours.

This morning I said it in front of 5000+ insurance agents and I'll say it to you right now.. STOP WORRYING ABOUT WHAT THEY THINK, because they don't even know how to think. Most people never make it, so don't be most people. Choose to be the few who get to live extraordinary lives, make a difference, earn incredible income, & potentially change the world.

Wake up with a winning attitude, an action plan, strategy, follow the right
