Equelle®

@EQUELLEofficial

By taking one pill in AM and one in PM, EQUELLE works hard to reduce pesky #menopause symptoms (1). But don't just take our word for it. Check out real reviews from real customers. bit.ly/3b85Spi

EQUELLE is more effective than pills

I started taking this and returned to myself before the menopause. Insomnia, depression, heartburn, and stiff shoulders were resolved. EQUELLE works very well so far.

I am calm

I'm on my 3rd bottle and hot flashes are less severe in intensity and length. Also, because hot flashes are so uncomfortable, my anxiety is less and sleep is not disrupted. I am in my 10th year of menopause, until now, no over the counter pills have helped. The pills only last 10 to 12 hours, so I suggest the recommended dose of 2 in the a.m. and 2 in the p.m. I really became a crying, screaming, sweaty mess. So Thank you for the calm days and nights. Very grateful.

Kelly

This supplement worked instantly for me. The hot flashes are a whole lot less, and different. I would say that I get warm on occasion. Since taking equelle, I have not taken a sleeping at night. This supplement is amazing! Glad I found it. I like how the company will email you before shipping the product, so if you want you can delay the shipment.

Cool at last!

I've tried other supplements for menopause, with little relief. My gyn recommended Equelle and gave me a sample. After a couple weeks, I realized that I wasn't having any more hot flashes! Finally, something that works! And it is less expensive!
