6 years without a job, because I made a decision.

I made a decision to invest in myself and accept only plan A.

I started learning about creating an online income, learned about crypto and trading and it helped me achieve freedom in life. 🌴

My life purpose is to make sure other's can have the same experiences, because many people want to live a life of freedom but don't know how. Like the bible says: "My people are being destroyed because of lack of knowledge."
