Five years ago, at just 18 years old, I said yes to starting my Arbonne business. But really, this journey started long before that. I've been around these products and this amazing opportunity for 14 years because my mom has been selling Arbonne since I was nine. Watching her build something so impactful and inspiring showed me what's possible. She's been the best role model and mentor, and I'll forever be thankful for her yes because it eventually led to mine.

At the time, I was still in high school, juggling all the things—sports, school, you name it. Shortly after graduating, I got a full-time job as a receptionist at a law firm. I was so busy and had all the excuses, but I went for it anyway

law firm. I was so busy and had all the excuses, but I went for it anyway because I knew I wanted more.

Fast forward to now—five years later—and saying yes was the best decision I've ever made. I eventually replaced my full-time income at the law firm through a lot of hard work and sales to clients etc- Now Arbonne is my full-time job. This business has given me so much more than I ever thought possible: two incentive trips, lifelong friendships, the most incredible community of like-minded, positive people, and opportunities I never dreamed of—like training on MainStage in front of thousands to share my story.
