Welcome to my page 🛩️🍷🎉💰❤️😂🍾

6 years ago when I just graduated university I jumped into arbonne thinking it was THE best brand out there that promoted beauty from within with the biggest variety of clean/non toxic products. I was told these products could NOT be found in stores they were only sold through consultants- I remember thinking "I have to become a consultant so more people know about this brand" ✨

Fast forward to today, I am still obsessed with the products & growing my team to show other women what's possible when you become an independent consultant with arbonne for \$65!

I truly believe in my soul that life is meant to be lived and we shouldn't be putting things off because we ran out of days off with our job or we can barely make it through the money with our salary! Life is sooo abundant- join the movement and see how fast your life will change.
