UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA

18 MARGARET PEGGI LOUISE GARVEY
19 on behalf of herself and all others similarly
20 situated,

20 Plaintiff,

21 v.

22 ULTA SALON, COSMETICS &
23 FRAGRANCE, INC.

24 Defendant.

CLASS ACTION COMPLAINT

JURY TRIAL DEMANDED

1 Plaintiff Margaret Peggi Louise Garvey (“Plaintiff” or “Plaintiff Garvey”) brings this action
2 on behalf of herself and all others similarly situated against Ulta Salon, Cosmetics & Fragrance, Inc.
3 (otherwise referred to as “Defendant” or “Ulta”). Plaintiff makes the following allegations based
4 upon information and belief, except as to the allegations specifically pertaining to herself, which are
5 based on personal knowledge.
6

7 **INTRODUCTION**

8 1. This is a class action lawsuit against Defendant for misleading consumers through
9 its marketing and sale of products as part of the “Conscious Beauty® at Ulta Beauty®” program
10 and claims that certain products are made with “Clean Ingredients” that excludes ingredients on Ulta
11 Beauty’s “Made Without List™,” which is Ulta’s set of standards that considers the human and
12 environmental impact of ingredients.
13

14 2. Ulta claims that its “Made Without List™” is designed to provide transparency to
15 help consumers make informed beauty and personal care product choices. Ulta requires brands
16 participating in the “Clean Ingredients” pillar of the “Conscious Beauty® at Ulta Beauty®” program
17 to all formulate their hair, skin, makeup, body and fragrance products to the “Made Without List™”
18 standards which prohibit the use of certain categories of ingredients.

19 3. Ulta has, intentionally and on its own, marketed products as part of the “Conscious
20 Beauty® at Ulta Beauty®” program and claims that certain products are made with “Clean
21 Ingredients” that “excludes” ingredients on Ulta Beauty’s “Made Without List™” which prohibits
22 the use of categories of ingredients that Ulta has determined are commonly associated with adverse
23 health and/or environmental impacts. In many cases, the manufacturers of these products and other
24 retailers selling the products do not label, advertise, or market the products as “conscious beauty”
25 or “clean” or “made without” ingredients commonly associated with adverse health and/or
26 environmental impacts.” Ulta created and utilized the “Conscious Beauty” and “Clean” marketing
27
28

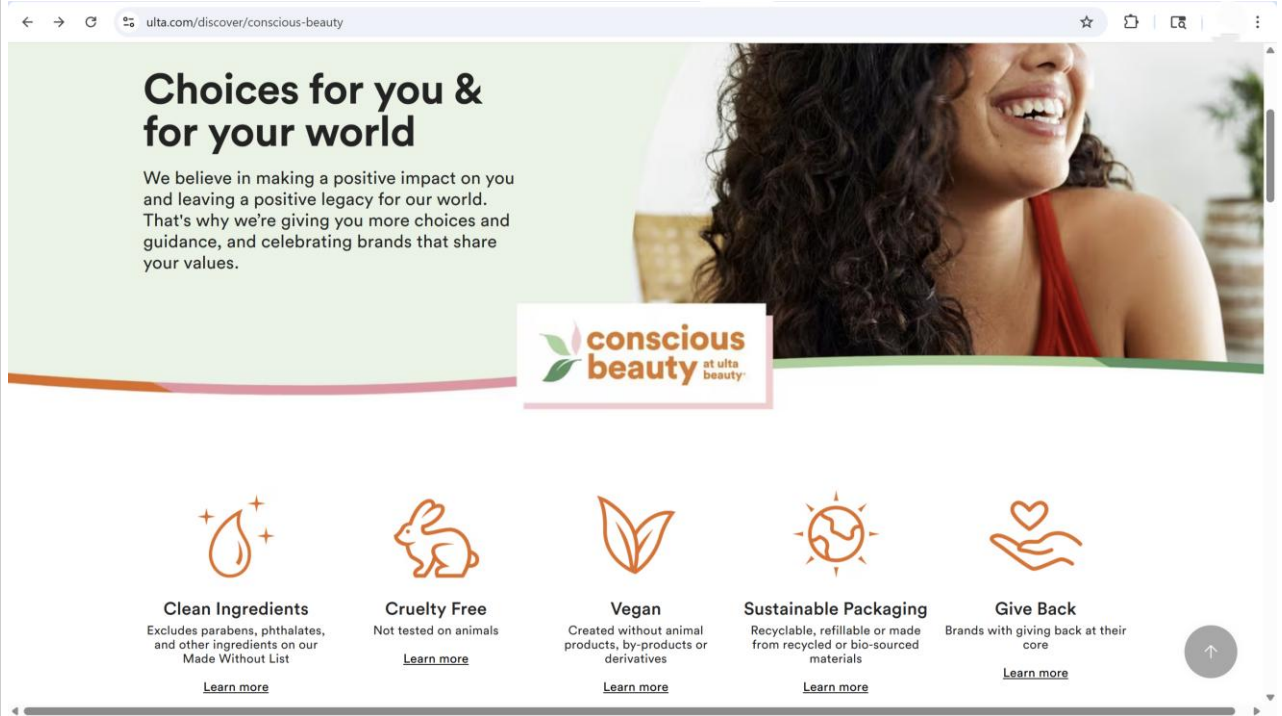

1 for its own profit, marketing the “Conscious Beauty® at Ulta Beauty®” program with claims that
2 the Products are made with “Clean Ingredients” that comply with Ulta Beauty’s “Made Without
3 List™” as an easy way for consumers to identify purportedly cleaner products, without having to do
4 any of their own analysis, and thereby creating an easier buying experience for consumers and
5 increasing the likelihood that consumers would choose to shop at Ulta, over other retailers, for their
6 beauty products.
7

8 4. Ulta launched its “Conscious Beauty” program in October 2020.¹ Ulta claimed that
9 it was “[t]he first-of-its-kind, holistic initiative [which] focuses on delivering transparency to inspire
10 more informed, conscious product choices for guests, their loved ones and the environment.”² The
11 program aims to provide transparency and empower consumers to make more informed choices
12 about their beauty purchases by focusing on five key pillars: clean ingredients, cruelty-free practices,
13 vegan options, sustainable packaging, and positive impact.³

³ *Id.*

<https://www.ulta.com/discover/conscious-beauty> (last visited July 11, 2025).

5. Ulta defines “Conscious Beauty® at Ulta Beauty®” on its website as “our way of empowering you with transparency and choices. You’ll be able to identify Clean Ingredients, Cruelty Free, Vegan, and Sustainable Packaging brands and products. It also highlights brands that Give Back to our communities and planet. Conscious Beauty at Ulta Beauty® includes brands across Makeup, Skin Care, Hair Care, Body Care, Fragrance and Nail product categories in order to give our guests even more choices.”

Id.

6. Ulta defines “Clean” at Ulta Beauty as “[b]rands within the Clean Ingredients pillar certify with Conscious Beauty at Ulta Beauty that they comply with the Ulta Beauty ‘Made Without List’, Ulta Beauty’s set of standards that considers the human and environmental health impact of ingredients.

How are you defining “Clean” at Ulta Beauty?

Brands within the Clean Ingredients pillar certify with Conscious Beauty at Ulta Beauty that they comply with the Ulta Beauty **"Made Without List"**, Ulta Beauty's set of standards that considers the human and environmental health impact of ingredients.

Id.

7. Ulta represents that that every brand certified as having Clean Ingredients complies with its “Made Without List™,” which excludes certain ingredients.

8. Ulta now sells thousands of products that are marketed as part of the “clean ingredients” pillar of the “Conscious Beauty” program.

9. Ulta has participated in the marketing and sale of the products identified in Exhibit A attached hereto. (collectively, the “Products” or “Ulta Products”). In an effort to increase profits, Ulta markets the Products as part of the “Conscious Beauty® at Ulta Beauty®” program and claims that the Products are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™.” However, these representations are false and misleading because the Products contain numerous ingredients that are excluded by Ulta Beauty’s “Made Without List™.”

10. This action seeks to remedy the unlawful, unfair, deceptive, and misleading business practices of Defendant with respect to the labeling, marketing, advertising, and sale of its household and personal care products, which are sold throughout the State of California and throughout the country.

11. Conscious of consumers increased demand for products that are made from safe ingredients and are environmentally sound, including products that do not harm the environment through the product's ingredients, manufacture, use, or disposal, and willingness to pay more for products that meet this preference, Ulta misleadingly, illegally, and deceptively seeks to capitalize on these consumer "green" trends. Consumers have poured billions of dollars into the "clean," "ecofriendly," and "natural" products market. In fact, in a recent report, researchers found that Gen Z (people born roughly between 1996 and 2010) are more likely to spend money on companies and brands seen to be ethical.⁴

12. Indeed, Ulta's own propriety research that led to the launch of the "Conscious Beauty® at Ulta Beauty®" program shows an overwhelming 75% of consumers wish it were easier to know which products are truly clean while 63% of clean buyers state "safer for the planet" options are somewhat or very important.⁵

13. By Ulta's own admission, the "Conscious Beauty at Ulta Beauty" program directly addresses these needs with established criteria to certify brands across five pillars, making it the most comprehensive program of its kind in the beauty industry."⁶ According to Dave Kimbell, president of Ulta at the time of Conscious Beauty's launch:

The introduction of Conscious Beauty at Ulta Beauty reflects the incredible value we place on listening to our guests. We consistently work to answer their evolving desires and with this holistic effort, we're aligning beauty choices with their personal values. The nationwide launch of this platform delivers a unique and

⁵ Ulta Beauty Clean Beauty quantitative research, April 2019 <https://www.businesswire.com/news/home/20201014005128/en/Conscious-Beauty-at-Ulta-Beauty-Educates-Guides-Simplifies-Product-Choices> (last accessed July 9, 2025) (source version <https://www.businesswire.com/news/home/20201014005128/en/Conscious-Beauty-at-Ulta-Beauty-Educates-Guides-Simplifies-Product-Choices>)

⁶ *Id.*

1 holistic way to empower guests on their respective wellbeing and consciousness
2 journeys.⁷

3 14. The launch marked the official release of Ulta Beauty's Made Without List, the
4 ingredient standard used to certify brands under the Clean Ingredients pillar, which Ulta claims was
5 developed with consideration for the human and environmental health impact of ingredients.⁸
6 Beginning in 2021, guests could find in-store and online guidance to easily identify clean products
7 that comply with the list.⁹

8 15. Seeking to take advantage of consumers' demands for such products, Ulta's
9 marketing materials and its website are replete with representations that its "Conscious Beauty
10 Products" are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made
11 Without List™" which prohibits the use of specific ingredients that Ulta has determined are
12 commonly associated with adverse health and/or environmental impacts.

13
14 16. Plaintiff purchased the Products in reliance on Defendant's representations that these
15 Products are part of the "Conscious Beauty® at Ulta Beauty®" program and are made with "Clean
16 Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the
17 use of specific ingredients that Ulta has determined are commonly associated with adverse health
18 and/or environmental impacts. If Plaintiff had known that the Products contained ingredients that
19 are prohibited by Ulta Beauty's "Made Without List™" and are commonly associated with adverse
20 health and/or environmental impacts, she would not have purchased the Products and would have
21 instead sought out other comparable products that are otherwise clean and do not contain ingredients
22 that have adverse health consequences and/or negatively impact the environment.
23
24
25
26

27 ⁷ *Id.*

28 ⁸ *Id.*

⁹ *Id.*

1 17. Plaintiff and the Class reasonably believed Defendant's false and misleading
2 representations. Defendant knew or reasonably should have known that its representations
3 regarding the Products were false, deceptive, misleading, and unlawful under California law.

4 18. Plaintiff and the Class Members paid a premium for the Products over comparable
5 products that did not purport to have "Clean Ingredients" which exclude the use of ingredients that
6 are commonly associated with adverse health and/or environmental impact. Given that Plaintiff and
7 Class Members paid a premium for the Products based on Defendants' representations that they
8 have "Clean Ingredients" and are free from ingredients that are commonly associated with adverse
9 health and/or environmental impact, Plaintiff and Class Members suffered an injury in the amount
10 of the purchase price and/or the premium paid.

11 19. Plaintiff brings claims against Defendant individually and on behalf the Class
12 Members who purchased the Products during the applicable statute of limitations period (the "Class
13 Period") for (1) violation of California's Consumer Legal Remedies Act ("CLRA"), Civil Code §
14 1750, *et. seq.*; (2) violation of California's False Advertising Law ("FAL"), California Business &
15 Professions Code § 17500 *et seq.*; (3) fraud; (4) negligent misrepresentation; (5) violation of
16 California's Unfair Competition Law ("UCL"), California Business & Professions Code § 17200,
17 *et seq.*; (6) violation of the Environmental Marketing Claims Act ("EMCA"), California Business
18 & Professions Code §§ 17580.5 and 17580(a); and (7) unjust enrichment.

19
20
21
22 **PARTIES**

23 20. Plaintiff Margaret Peggi Louise Garvey is a California citizen who resides in Novato,
24 California. Plaintiff is concerned about clean and green products that are healthy and
25 environmentally friendly and seeks out products that are clean and do not contain any unwanted or
26 harmful ingredients that have adverse health consequences and/or could negatively impact the
27 environment. During the Class Period alleged herein, including on February 25, 2025, Plaintiff
28

1 Garvey purchased, without limitation, Ulta Beauty Dermalogica - MultiVitamin Power Recovery
2 Mask, Drunk Elephant - A-Passioni Retinol Cream, L'Oréal - Revitalift Triple Power Anti-Aging
3 Face Moisturizer, ULTA Beauty Collection - Apple Cider Vinegar & Kaolin Clay Mask, and ULTA
4 Beauty Collection - Tinted Self Tan Mousse from an Ulta Beauty store in Novato, CA. Plaintiff
5 Garvey was specifically interested in purchasing clean household and personal care products.
6

7 21. Plaintiff Garvey purchased the Products because she saw the marketing, advertising,
8 Defendant's website, and representations in-store at the point-of-sale, which all represented that the
9 Products are "Conscious Beauty® at Ulta Beauty®" and are made with "Clean Ingredients" that
10 excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the use of specific
11 ingredients that Ulta has determined are commonly associated with adverse health and/or
12 environmental impacts. Plaintiff Garvey relied on Defendant's false, misleading, and deceptive
13 representations that the Products are "Conscious Beauty® at Ulta Beauty®" and are made with
14 "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which
15 prohibits the use of specific categories of ingredients that Ulta has determined are commonly
16 associated with adverse health and/or environmental impacts. She understood this to mean that she
17 was purchasing clean products that comply with Ulta Beauty's "Made Without List™" and do not
18 contain any unwanted or harmful ingredients that have adverse health consequences and/or could
19 negatively impact the environment. Plaintiff Garvey would not have purchased the Products at all,
20 or would have been willing to pay a substantially reduced price for the Products, if she had known
21 that they contained ingredients that are prohibited by Ulta Beauty's "Made Without List™" and are
22 commonly associated with adverse health and/or environmental impacts. Plaintiff Garvey would
23 purchase the products in the future if Defendant changed the composition of the Products so that
24 they conformed to their "Clean Ingredient" representations, or if the Ulta's representations were
25 corrected and she could trust that they were correct.
26
27
28

22. Defendant is the largest U.S. beauty retailer and a beauty destination for cosmetics, fragrance, skin care products, hair care products and salon services. In 1990, the Company reinvented the beauty retail experience by offering a new way to shop for beauty – bringing together all things beauty, all in one place. Today, Ulta Beauty is one of the top national retailers offering beauty products and experiences. Ulta sells more than 25,000 products from approximately 500 well-established and emerging beauty brands across all categories and price points in its retail locations and on its website www.ulta.com, including Ulta’s own private label. Ulta also offers a full-service salon in every store featuring hair, skin, brow, and make-up services.

JURISDICTION AND VENUE

23. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. § 1332(d) because there are more than 100 class members and the aggregate amount in controversy exceeds \$5,000,000, exclusive of interest, fees, and costs, and at least one Class member is a citizen of a state different from Defendant. This Court has supplemental jurisdiction over state law claims pursuant to 28 U.S.C. § 1367.

24. This Court has personal jurisdiction over Defendants because Defendants are a corporation with sufficient minimum contacts in California or otherwise intentionally avails itself of the laws of this State through their marketing of the products at issue in California to consumers in California, and through its direct sales of the products at issue in California to consumers in California, so as to render the exercise of jurisdiction by this Court consistent with traditional notions of fair play and substantial justice.

25. Venue is proper in this District pursuant to 28 U.S.C. 1391. Substantial acts in furtherance of the alleged improper conduct, including the dissemination of false, misleading and deceptive information regarding the nature, quality, and/or formulation of the products, occurred within this District.

COMMON FACTUAL ALLEGATIONS

26. In recent years, consumers have become significantly more aware and sensitive to their health and impact on the environment through the products they purchase and use. As a result, a movement has developed demanding consumer products that do not have adverse health and/or environmental impacts, i.e., that create less harm to health and the environment through the product's ingredients, manufacture, use, or disposal. Consumers have poured billions of dollars into the "clean" and "green" beauty products market.

27. In response to consumers' desire for safer, cleaner, and more environmentally friendly products, many companies "greenwash" their products by deceptively claiming that their products are safer or cleaner than they are. Unfortunately, rather than creating the safer, cleaner, and nontoxic products that consumers desire, many companies, like Ulta, have chosen to "greenwash" their products through deceptive marketing, suggesting and outright stating that their products are safe, clean, or environmentally friendly when, in fact, they contain ingredients that are harmful to humans, animals, and/or the environment, or are otherwise not clean products.

The Federal Trade Commission Green Guides

28. Recognizing this problem, the United States Federal Trade Commission ("FTC") created the "Green Guides" to help companies avoid making misleading and deceptive claims.¹⁰

29. Section 5 of the FTC Act prohibits deceptive acts and practices in or affecting commerce. A representation, omission, or practice is deceptive if it is likely to mislead consumers acting reasonably under the circumstances and is material to consumers' decisions. *See* FTC Policy Statement on Deception, 103 FTC 174 (1983).

30. The Green Guides state that "[t]he following general principles apply to all environmental marketing claims, including those described in §§ 260.4 – 16. Claims should

¹⁰ *See generally* 16 C.F.R. § 260 – Guides for the Use of Environmental Marketing Claims.

comport with all relevant provision of these guides.” 16 C.F.R. § 260.3. Further, the Green Guides’ general principles state:

- a. **Qualifications and Disclosures:** To prevent deceptive claims, qualifications and disclosures should be clear, prominent, and understandable. **To make disclosures clear and prominent, marketers** should use plain language and sufficiently large type, should place disclosures in close proximity to the qualified claim, and **should avoid making inconsistent statements or using distracting elements that could undercut or contradict the disclosure.**

- c. **Overstatement of environmental attribute:** An environmental marketing claim should not overstate, directly or by implication, an environmental attribute or benefit. **Marketers should not state or imply environmental benefits if the benefits are negligible.**

Id. (emphasis added).

31. The Green Guides also provide examples of General Environmental Benefit Claims in order to “provide the Commission’s views on how reasonable consumers likely interpret certain claims.”¹¹ The FTC provides the following relevant example:¹²

Example 3: A marketer’s advertisement features a picture of a laser printer in a bird’s nest balancing on a tree branch, surrounded by a dense forest. In green type, the marketer states, “Buy our printer. Make a change.” **Although the advertisement does not expressly claim that the product has environmental benefits, the featured images, in combination with the text, likely convey that the product has far-reaching environmental benefits and may convey that the product has no negative environmental impact. Because it is highly unlikely that the marketer can substantiate these claims, this advertisement is deceptive.**

Id. (emphasis added).

32. In addressing “General Environmental Benefit Claims,” the Green Guides state:

- (a) It is deceptive to misrepresent, directly or by implication, that a product, package, or service offers a general environmental benefit.
- (b) Unqualified general environmental benefit claims are difficult to interpret and likely convey a wide range of meanings. In many cases, such claims likely convey that the product, package, or service has specific and far-reaching

¹¹ 16 C.F.R. § 260.1(d).

¹² 16 C.F.R. § 260.4.

environmental benefits **and may convey that the item or service has no negative environmental impact. Because it is highly unlikely that marketers can substantiate all reasonable interpretations of these claims, marketers should not make unqualified general environmental benefit claims.**

(c) Marketers can qualify general environmental benefit claims to prevent deception about the nature of the environmental benefit being asserted. To avoid deception, marketers should use clear and prominent qualifying language that limits the claim to a specific benefit or benefits. Marketers should not imply that any specific benefit is significant if it is, in fact, negligible. If a qualified general claim conveys that a product is more environmentally beneficial overall because of the particular touted benefit(s), marketers should analyze trade-offs resulting from the benefit(s) to determine if they can substantiate this claim.

(d) Even if a marketer explains, and has substantiation for, the product's specific environmental attributes, this explanation will not adequately qualify a general environmental benefit claim if the advertisement otherwise implies deceptive claims. Therefore, marketers should ensure that the advertisement's context does not imply deceptive environmental claims.

16 C.F.R. § 260.4 (emphasis added).

Consumers and Green Products

33. Consumers are regularly choosing more environmentally friendly, safer, and cleaner products. In fact, some consumers are changing their buying behavior to reduce the impact of their consumption habits over the environment, choosing an environment-friendly consumption behavior, often called green consumption.¹³

34. Consumers and investors increasingly care about a business' positive impact and will make decisions according to brand perceptions. In a 2019 CSR Survey conducted by Aflac, 77% of consumers felt motivated to make purchasing decisions from companies committed to making the world a better place and 73% of investors viewed these efforts as contributors to return on investment, and, in turn, often look favorably on companies with conscious social and environmental impact.

¹³ "Greenwashing effect, attitudes, and beliefs in green consumption," EMERALD INSIGHT, Mar. 12, 2019, <https://www.emerald.com/insight/content/doi/10.1108/rausp-08-2018-0070/full/html>, (last accessed July 10, 2025).

1 35. In 2021, GreenPrint’s Business of Sustainability Index, found that 64% of Gen X
2 consumers would spend more on a product if it comes from a sustainable brand, and that figure
3 jumps to 75% among millennials.

4 36. Today, consumers across all generations—from Baby Boomers to Gen Z— are
5 willing to spend more for “greener” products, and the percentages of consumers in those generations
6 willing to pay more for sustainable products is growing. Now, at least 90% of Gen X consumers
7 said that they would be willing to spend an extra 10% or more for sustainable products.¹⁴

8 37. An international study of 20,000 customers by grocery brand giant Unilever
9 identified one in three (33%) people were choosing to buy from brands they believe are doing
10 environmental good.¹⁵

11 38. A desire to help the environment is a big reason consumers purchase sustainable
12 products and brands. Almost 30% say they want to improve the environment, with 23% wishing to
13 reduce production waste, 22% wishing to reduce their carbon footprint, and 17% concerned with
14 animal welfare.¹⁶ Consumers care about the environment and are purchasing environmentally sound
15 products to support those interests.

16 39. Consumers are also concerned about safety and an inclination towards safer products
17 is guiding consumer choices. A recent survey found that “[w]hen asked to choose the top three
18 factors they prioritize when deciding between products, the majority of consumers surveyed said
19
20
21

25 ¹⁴ Greg Petro, “Consumers Demand Sustainable Products and Shopping Formats,” FORBES, Mar.
26 11, 2022, <https://www.forbes.com/sites/gregpetro/2022/03/11/consumers-demand-sustainable-products-and-shopping-formats/>, (last accessed July 10, 2025).

27 ¹⁵ “Climate explained: are consumers willing to pay more for climate-friendly products?” THE
28 CONVERSATION, Sept. 29, 2020, <https://theconversation.com/climate-explained-areconsumers-willing-to-pay-more-for-climate-friendly-products-146757>, (last accessed July 10, 2025).

¹⁶ *Id.*

1 they prioritize the health/safety of products (71%) and products free from certain toxic chemicals
2 (70%).”¹⁷

3 40. Green labels and product marketing impact consumer buying decisions. Marketing
4 and labels allow consumers to make comparisons among products and services in the category and
5 decide their preference. Indeed, marketing makes it easier for consumers to identify green products
6 when they are shopping, reducing consumers’ purchase time. Consumers consider the information
7 related to the environmental attributes of products that companies, like Defendant, use in marketing
8 their products and use that information to make a purchase decision.¹⁸ Thus, labels and green
9 marketing tactics, like those used by Defendant, impact consumer buying behavior.

11 41. For these reasons, companies like Defendant have expanded their marketing efforts
12 to attract consumers into purchasing cosmetics branded as safe, sustainable, or clean. Indeed, “the
13 clean beauty market is estimated to reach \$22 billion by 2024,” according to Statista Research.¹⁹

15 42. In fact, that is precisely why Ulta, by its own admission, launched its “Conscious
16 Beauty” program in October 2020.²⁰ Ulta claimed that it was “[t]he first-of-its-kind, holistic
17 initiative [which] focuses on delivering transparency to inspire more informed, conscious product
18 choices for guests, their loved ones and the environment.”²¹ The program aimed to provide

3 The introduction of Conscious Beauty at Ulta Beauty reflects the incredible value
4 we place on listening to our guests. We consistently work to answer their evolving
5 desires and with this holistic effort, we’re aligning beauty choices with their
6 personal values. The nationwide launch of this platform delivers a unique and
7 holistic way to empower guests on their respective wellbeing and consciousness
8 journeys.²⁵

9 45. The launch marked the official release of Ulta Beauty’s Made Without List™, the
10 ingredient standard used to certify brands under the Clean Ingredients pillar, which Ulta claims was
11 developed with consideration for the human and environmental health impact of ingredients.²⁶
12 Beginning in 2021, guests could find in-store and online guidance to easily identify clean products
13 that comply with the list.²⁷

14 46. Ulta now sells thousands of products that are marketed as part of the “clean
15 ingredients” pillar of the “Conscious Beauty” program.

16 **“Clean Ingredients” and The “Made Without List™”**

17 47. Ulta requires brands participating in the “Clean Ingredients” pillar of the “Conscious
18 Beauty® at Ulta Beauty®” program to all formulate their hair, skink, makeup, body and fragrance
19 products to the “Made Without List™” standards which prohibit the use of certain ingredients.

20 48. According to the “Made Without List™” located on Ulta’s website during the Class
21 Period, Ulta requires brands participating in the “Clean Ingredients” pillar of the “Conscious
22 Beauty® at Ulta Beauty®” program to all formulate their hair, skink, makeup, body and fragrance
23 products to the “Made Without List™” standards which prohibit the use of the following
24 ingredients: Acrylates; Alkylphenols (Octylphenols, nonylphenols) and Alkylphenol Ethoxylates;
25

26

27 ²⁴ *Id.*

28 ²⁵ *Id.*

²⁶ *Id.*

²⁷ *Id.*

Aluminum compounds; Aluminum powder; Aluminum salts and complexes; Ethoxylated ingredients including PEGs and polyethylene glycol or polysorbate²⁸; Phthalates; Sodium Laureth Sulfate (SLES); Sodium Lauryl Sulfate (SLS); Styrene & styrene oxide.²⁹

49. The reason that Ulta placed these types of ingredients on the “Made Without List™” is because they all have adverse health and/or environmental impacts:

a. **Acrylates** pose risks to human health and the environment.

- Acrylates have numerous health impacts:

Acrylates are potential carcinogens. Methyl methacrylate, a type of acrylates used in nail products, are classified by the International Agency of Research on Cancer (IARC) and the U.S. Environmental Protection Agency (EPA) as possible human carcinogens. Workers in acrylic sheet manufacturing exposed to these chemicals have shown an increased risk of colorectal cancer.

Acrylates are known skin, eye, and respiratory tract irritants. Repeated exposure can lead to skin sensitization and allergic contact dermatitis, especially in professionals like manicurists and dental technicians.

Exposure to acrylates has been linked to developmental issues, neurological damage, cellular damage, reproductive toxicity, and organ system toxicity. Methyl methacrylate inhalation is associated with lung disease and damage to nasal passages, liver, and kidneys.

²⁸ After Ulta received Plaintiff’s CLRA Notice Letter, Ulta removed “Ethoxylated ingredients” from the “Made Without List™” and now claims that they are “Limited Use Ingredients” that “are permitted to be used in accordance with the corresponding restricted limits, grade requirements, and/or regulated standards.” <https://www.ulta.com/discover/conscious-beauty/clean-ingredients/made-without> (last accessed July 11, 2025).

²⁹ <https://web.archive.org/web/20250423204642/https://www.ulta.com/discover/conscious-beauty/clean-ingredients/made-without> (last visited July 11, 2025).

- Acrylates also have numerous environmental impacts. Many acrylate copolymers are not biodegradable and contribute to microplastic pollution, especially when washed off from personal care products like face washes and hair gels. These microplastics can end up in marine ecosystems and be ingested by aquatic life. Some acrylates are toxic to aquatic organisms, and improper disposal can lead to water pollution. The accumulation of acrylic polymer waste in landfills can lead to environmental issues like soil and water pollution, and contribute to greenhouse gas emissions.

b. **Alkylphenols (Octylphenols, nonylphenols) and Alkylphenol Ethoxylates** are associated with several potential health risks for humans and documented toxic effects on the environment, particularly aquatic life.

- Alkylphenols are known as endocrine-disrupting chemicals (EDCs) because they can interfere with the body's hormone system, particularly by mimicking the effects of estrogen. These hormone-mimicking effects can lead to a variety of reproductive and developmental problems in humans and wildlife.
- Some studies suggest a potential association between Alkylphenol Ethoxylates exposure and certain types of cancer, though more research is needed to establish a definitive link.
- Research indicates alkylphenols may have adverse effects on various body systems, including the reproductive system, nervous system, and immune system.
- Alkylphenols and their breakdown products, like nonylphenol, are persistent in the environment and can accumulate in the tissues of organisms, including fish and wildlife.
- Alkylphenols are toxic, and in some cases, highly toxic, to aquatic organisms. This toxicity can have significant and long-lasting negative effects on fish and other marine life.

- The endocrine-disrupting properties of alkylphenols can affect the hormonal systems of wildlife, leading to reproductive problems and other health issues in organisms like fish and invertebrates.
- Alkylphenol Ethoxylates are commonly found in wastewater effluent and sediment, entering the environment through sources like industrial discharge and agricultural runoff.

c. **Aluminum compounds** have both potential health effects and environmental impacts.

- High aluminum exposure can be linked to:

Neurological issues: Including dementia and impaired neural function. However, the role of aluminum in diseases like Alzheimer's is still being investigated and is not considered conclusive.

Respiratory problems: Especially for those who work in environments with high levels of aluminum dust or fumes.

Bone abnormalities: Aluminum can interfere with bone metabolism and lead to conditions like osteoporosis.

Cardiovascular problems: Elevated levels of aluminum are associated with a higher incidence of cardiovascular diseases, potentially through oxidative stress and inflammatory responses.

The production of primary aluminum is an energy-intensive process that can cause environmental damage:

- Environmental impacts:

Greenhouse gas emissions: Aluminum production is a significant source of potent greenhouse gases called perfluorocarbons (PFCs).

1 Air and water pollution: Mining of bauxite (aluminum ore) can lead to habitat
2 destruction, water contamination, and air pollution from dust. The refining process
3 can release mercury into waterways. Smelting can release sulfur dioxide.

4
5 d. **Aluminum powder's** production process can pose environmental risks:

6 Mining and Production: Extracting bauxite, refining it into alumina, and smelting
7 alumina into aluminum are energy-intensive processes that contribute to greenhouse gas
8 emissions and can impact local ecosystems.

9 Air pollution: Aluminum production can emit particulate matter, fluorides, sulfur
10 dioxide, and other air pollutants that harm communities and the environment.

11 Water pollution: Smelter wastewater may contain pollutants like mercury, lead, arsenic,
12 and cadmium, potentially harming aquatic life and drinking water supplies.

13 Habitat destruction: Bauxite mining can lead to the destruction of habitats, particularly
14 in sensitive ecosystems like rainforests, according to UK Green Building Council.

15 Waste Disposal: Red mud, a caustic waste product generated during alumina refining,
16 presents a significant environmental challenge due to its alkalinity, salinity, and potential
17 heavy metal content.
18

19 e. **Aluminum salts and complexes** have both potential health and environmental impacts.

20 Concerns exist regarding toxicity from high exposure, particularly in vulnerable populations
21 like infants and individuals with kidney problems. Some studies suggest a link between
22 aluminum exposure and neurodegenerative diseases like Alzheimer's and Parkinson's. In the
23 environment, aluminum can negatively affect aquatic life and contribute to pollution during
24 production. Aluminum can be toxic to aquatic organisms, particularly fish, impacting their
25 ability to regulate ions and causing respiratory problems. Aluminum production processes
26 release pollutants like particulate matter, sulfur dioxide, and fluorides into the air and water,
27
28

1 contributing to environmental contamination. Aluminum production generates waste that
2 requires proper management to prevent environmental harm. And the release of aluminum
3 compounds from various sources, including personal care products, can lead to soil and
4 water contamination.

- 5
6 f. **Ethoxylated ingredients** can break down into potentially harmful by-products, such as 1,4-
7 dioxane and ethylene oxide. 1,4-dioxane is a probable human carcinogen, and has been
8 linked to an increased risk of breast cancer. The Environmental Protection Agency (EPA)
9 has also classified it as a likely human carcinogen. On the other hand, Ethylene oxide is a
10 known human carcinogen and has been linked to an increased risk of lymphoma and
11 leukemia. *The International Agency for Research on Cancer (IARC) has classified*
12 *ethylene oxide as a known human carcinogen, and has been linked to an increased risk*
13 *of lymphoma and leukemia.*

14
15 In addition to the potential health risks, Ethoxylates can also have negative effects on the
16 environment. They can be toxic to aquatic life and can contribute to the formation of harmful
17 algal blooms. They can also persist in the environment for long periods of time, making them
18 difficult to remove.

- 19
20 g. **Phthalates** are not considered healthy and have a significant environmental impact. They
21 are endocrine disruptors, meaning they can interfere with hormone systems, and are linked
22 to various health issues, especially in children and during prenatal
23 development. Additionally, they are pervasive in the environment, found in air, water, soil,
24 and dust, and can negatively affect wildlife.

- 25
26 h. **Sodium Laureth Sulfate (SLES)** and **Sodium Lauryl Sulfate (SLS)** have health and
27 environmental impacts.
28

- With respect to health concerns, both SLS and SLES can cause skin and eye irritation, especially in individuals with sensitive skin or when used in high concentrations. SLES, in particular, can be contaminated with 1,4-dioxane, a potential carcinogen, during the manufacturing process. While this can be removed through vacuum stripping, it's not something consumers can easily verify. Some individuals may experience dryness, redness, or itching after using products containing SLS.

- Environmental impacts:

Biodegradability: SLS is generally considered less biodegradable than SLES, meaning it can persist longer in the environment. SLES is more readily biodegradable and can break down when exposed to sunlight and oxygen.

Potential for Environmental Accumulation: Due to its persistence, SLS could potentially accumulate in the environment, leading to long-term impacts on ecosystems.

i. **Styrene & styrene oxide** pose risks to both human health and the environment.

- Exposure to styrene can cause irritation to the eyes and mucous membranes, and more serious health problems if inhaled or ingested. Long-term exposure to high levels of styrene may affect the nervous system, leading to issues like changes in color vision, fatigue, and impaired concentration. The EPA also lists styrene as a Hazardous Air Pollutant.
- Styrene is released during the production and use of styrene-containing products, and it can contaminate air, water, and soil. It contributes to the formation of photochemical smog. Styrene is moderately toxic to aquatic organisms.

- 1 • Styrene oxide is classified as a probable human carcinogen by the International Agency
2 for Research on Cancer (IARC). Animal studies have shown that styrene oxide can cause
3 tumors in rats and mice when ingested, according to the EPA.
- 4 • Styrene oxide can contaminate water and soil, posing hazards to aquatic and terrestrial
5 organisms.

6 **Defendants' False and Misleading Representations**

7
8 50. Ulta makes numerous false and misleading statements in its marketing and
9 advertising materials about the Products. Ulta makes numerous statements at the point-of-sale, in
10 its marketing and advertisements, and on social media that the Products are “Conscious Beauty® at
11 Ulta Beauty®” and are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s
12 “Made Without List™.”

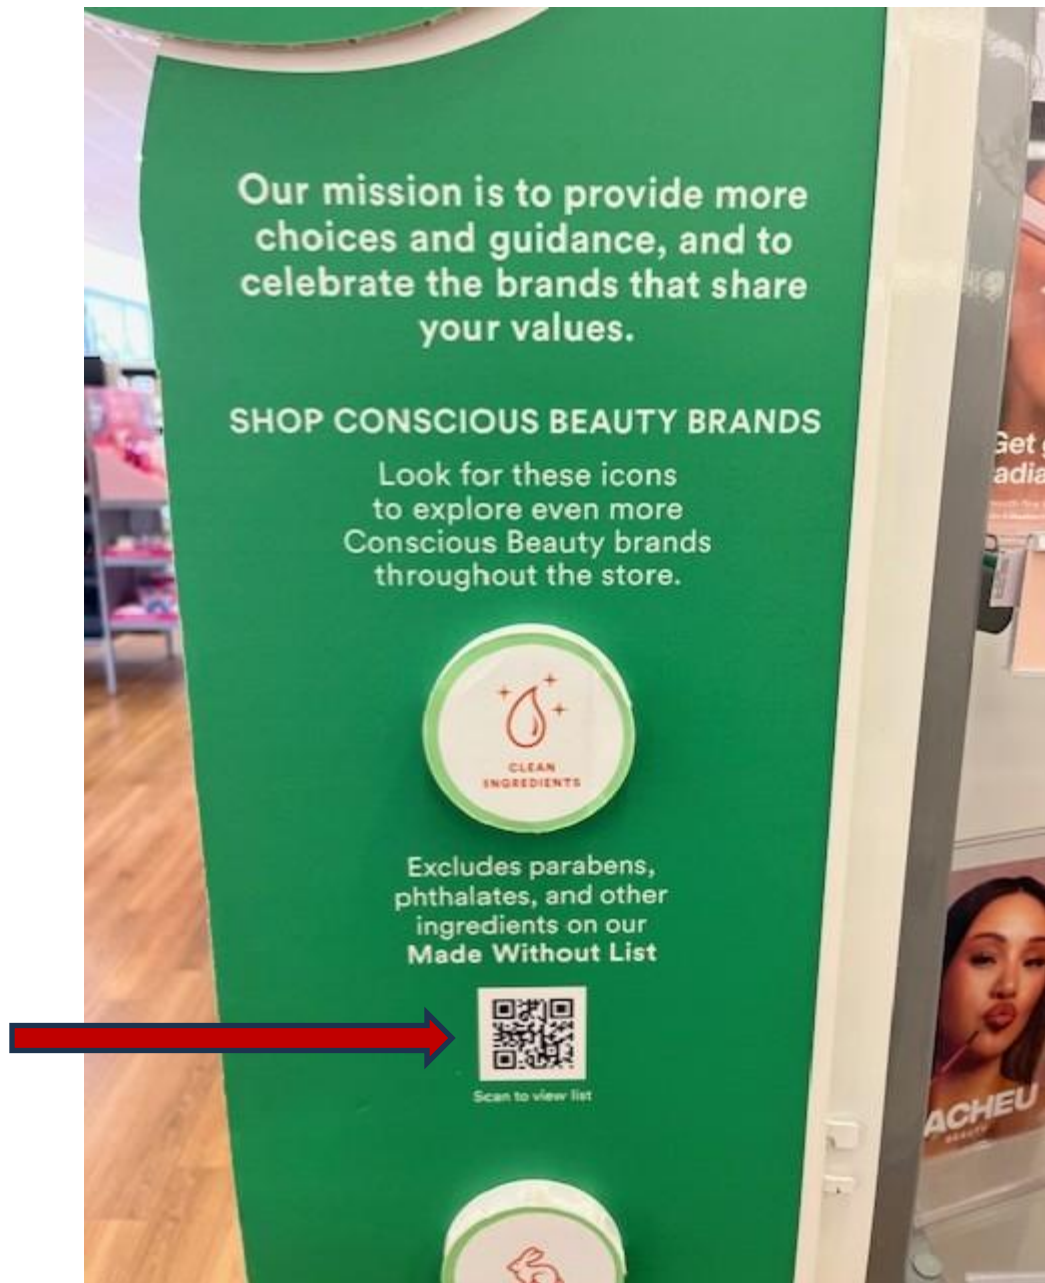

13
14 51. Ulta makes numerous statements in its stores that the Products are “Conscious
15 Beauty®” and are made with “Clean Ingredients” that excludes ingredients on with Ulta Beauty’s
16 “Made Without List™” which prohibits the use of specific ingredients that Ulta has determined are
17 commonly associated with adverse health and/or environmental impacts.

52. Ulta tells consumers at the point-of-sale that “[o]ur mission is to provide more choices and guidance, and to celebrate the brands that share your values” and provides a QR Code in its stores so that consumers can view the “Made Without List™.”

53. Ulta makes numerous statements in its advertisements that the Products are made with "Clean Ingredients":

54. Ulta makes numerous statements on its Facebook page that the Products are Conscious Beauty® and are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™” which prohibits the use of specific ingredients that Ulta has determined are commonly associated with adverse health and/or environmental impacts.

CLEAN INGREDIENTS at Ulta Beauty:

Products that *exclude*
parabens, phthalates and others
on our **Made Without List.**

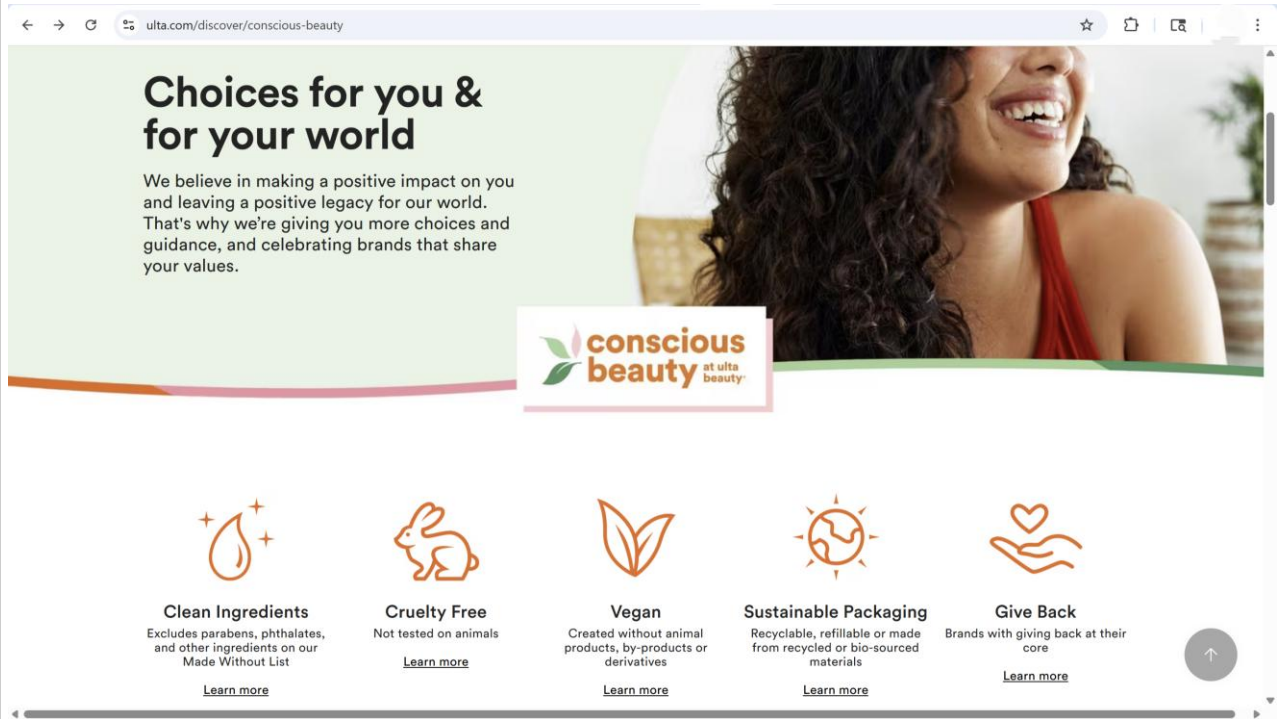

We're giving you more
choices and guidance,
and celebrating brands
that share your values

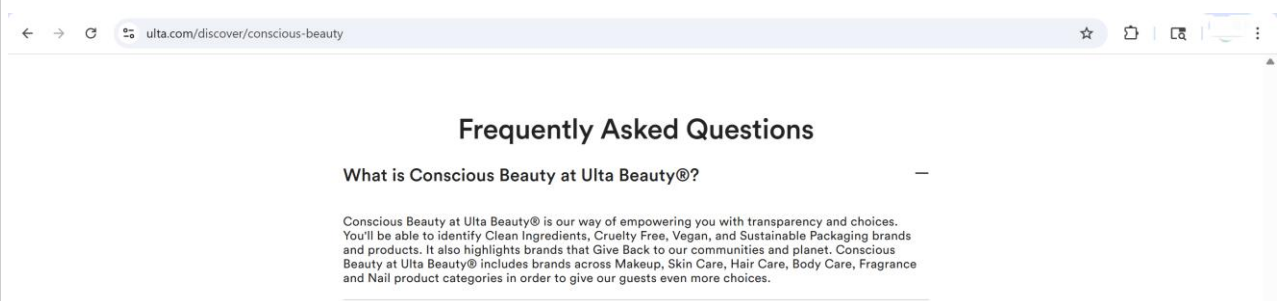

55. Ulta’s website contains numerous claims that the Products are “Conscious Beauty® at Ulta Beauty®” and are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™”

56. Ulta claims that the “Clean Ingredients” pillar of the “Conscious Beauty® at Ulta Beauty®” “[e]xcludes parabens, phthalates, and other ingredients on our Made Without List.”

<https://www.ulta.com/discover/conscious-beauty> (last visited July 11, 2025).

57. Ulta defines “Conscious Beauty® at Ulta Beauty®” on its website as “our way of empowering you with transparency and choices. You’ll be able to identify Clean Ingredients, Cruelty Free, Vegan, and Sustainable Packaging brands and products. It also highlights brands that Give Back to our communities and planet. Conscious Beauty at Ulta Beauty® includes brands across Makeup, Skin Care, Hair Care, Body Care, Fragrance and Nail product categories in order to give our guests even more choices.”

Id.

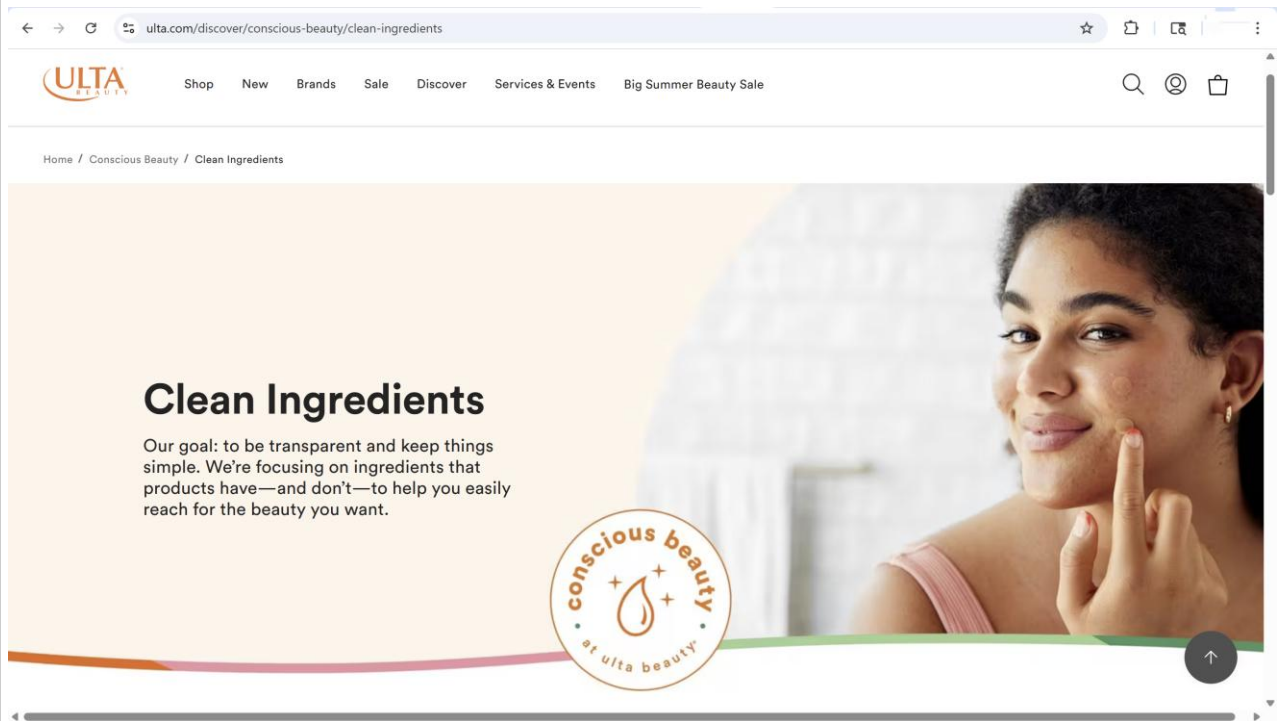

58. Ulta defines “Clean” at Ulta Beauty as “[b]rands within the Clean Ingredients pillar certify with Conscious Beauty at Ulta Beauty that they comply with the Ulta Beauty “Made Without List”, Ulta Beauty’s set of standards that considers the human and environmental health impact of ingredients.

How are you defining “Clean” at Ulta Beauty?

Brands within the Clean Ingredients pillar certify with Conscious Beauty at Ulta Beauty that they comply with the Ulta Beauty “Made Without List”, Ulta Beauty’s set of standards that considers the human and environmental health impact of ingredients.

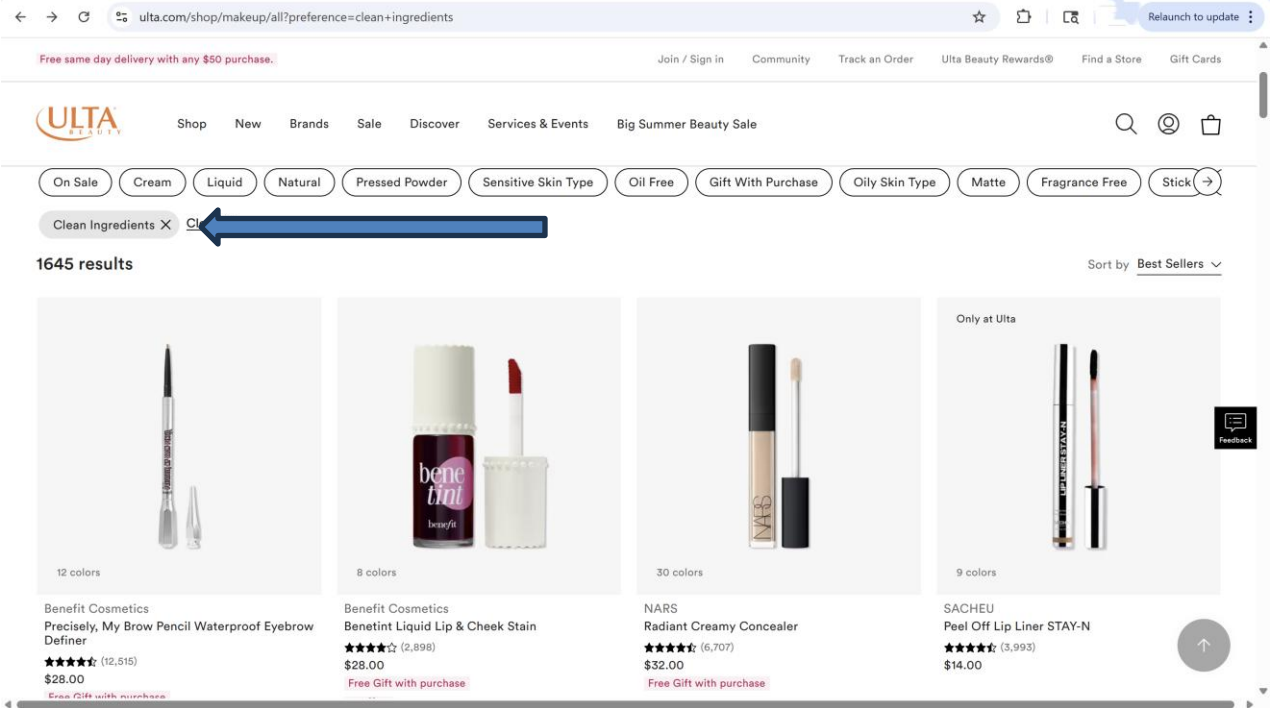

Id.

59. Ulta represents that its “goal” with “Clean Ingredients” is “to be transparent and keep things simple. We’re focusing on ingredients that products have—and don’t—to help you easily reach for the beauty you want.”

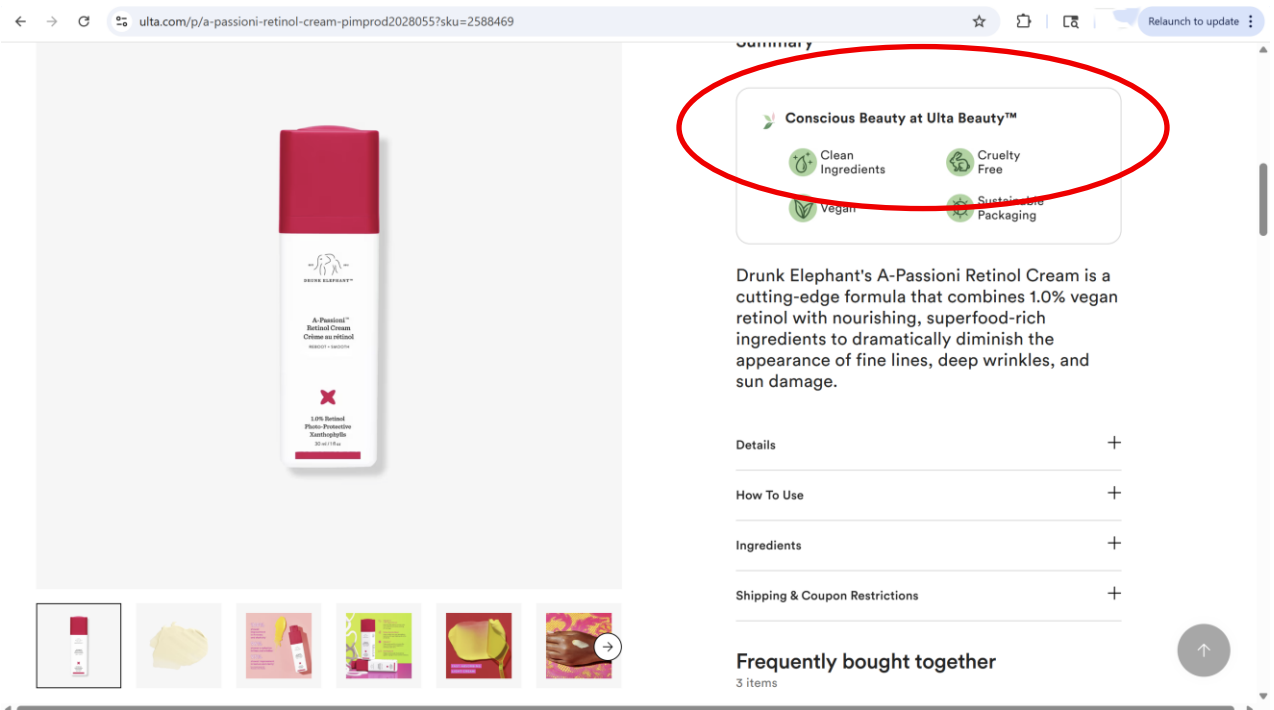

<https://www.ulta.com/discover/conscious-beauty/clean-ingredients> (last accessed July 11, 2025)

60. Ulta represents that the Products are part of the “Conscious Beauty® at Ulta Beauty®” program and are made with “Clean Ingredients” when consumers shop on its website:

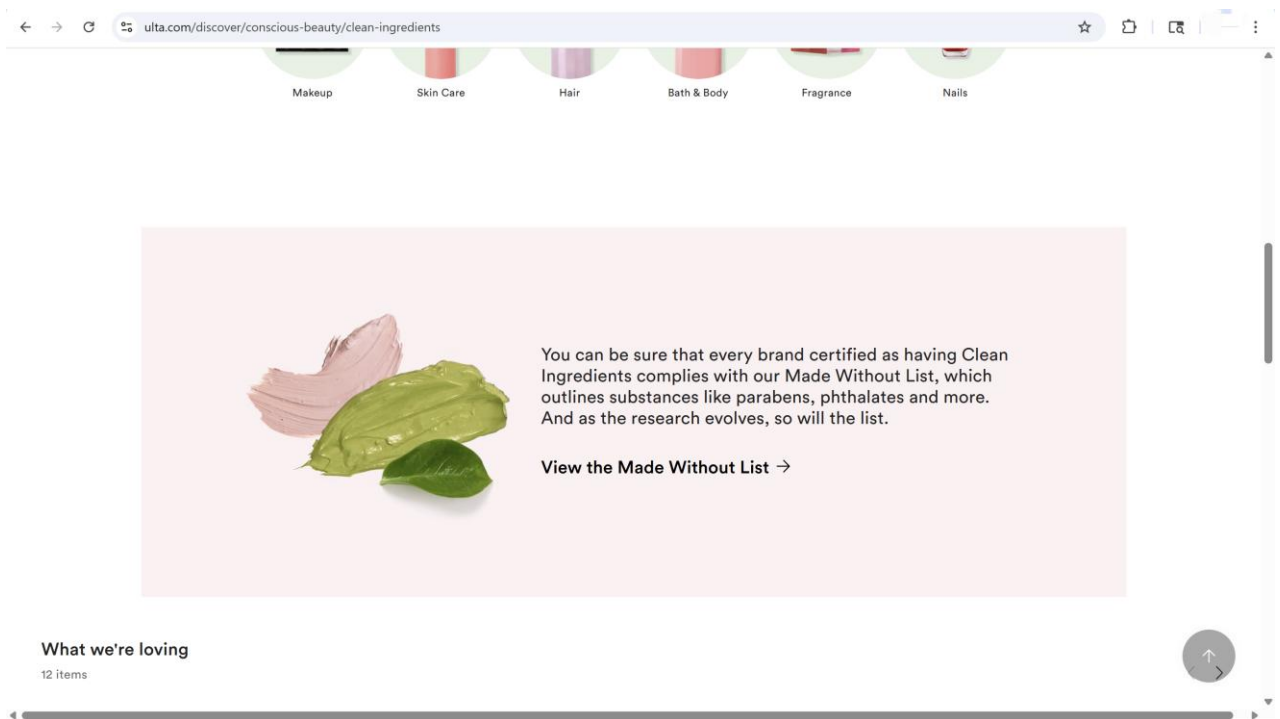

<https://www.ulta.com/shop/makeup/all?preference=clean+ingredients> (last accessed July 14, 2025).

61. Ulta's also represents that the Products are part of the "Conscious Beauty® at Ulta Beauty®" program and are made with "Clean Ingredients" when consumers view individual product pages on its website.

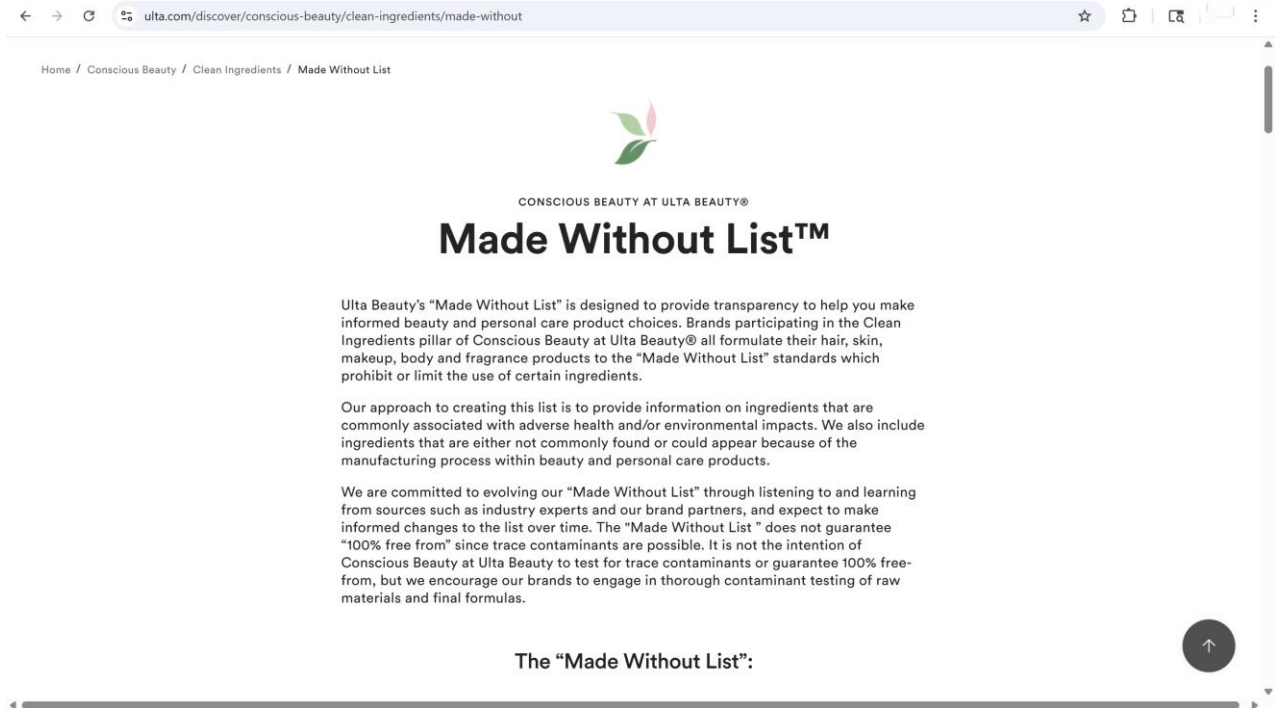

1 <https://www.ulta.com/p/a-passioni-retinol-cream-pimprod2028055?sku=2588469> (last accessed
2 July 14, 2025).

3 62. Ulta also represents on its website that “[y]ou can be sure that every brand certified
4 as having Clean Ingredients complies without our Made Without List, which outlines substances
5 like parabens, phthalates and more. And as the research evolves, so will the list.”
6

19 <https://www.ulta.com/discover/conscious-beauty/clean-ingredients> (last accessed July 11, 2025)

20 63. Ulta claims that its “Made Without List™” is designed to provide transparency to
21 help consumers make informed beauty and personal care product choices. Ulta requires brands
22 participating in the “Clean Ingredients” pillar of the “Conscious Beauty® at Ulta Beauty®” program
23 to all formulate their hair, skink, makeup, body and fragrance products to the “Made Without List™”
24 standards which prohibit the use of certain ingredients.
25
26
27
28

<https://www.ulta.com/discover/conscious-beauty/clean-ingredients/made-without> (last accessed July 11, 2025).

64. Ulta represents on its website that it requires brands participating in the “Clean Ingredients” pillar of the “Conscious Beauty® at Ulta Beauty®” program to all formulate their hair, skin, makeup, body and fragrance products to the “Made Without List™” standards which prohibit the use of the following ingredients:

The ‘Made Without List’:

Acrylates

Primarily used as adhesives in eyelash products, and as a barrier former/bonding agent in nail polish

Alkylphenols (Octylphenols, nonylphenols) and Alkylphenol Ethoxylates

Used in cosmetics products as a foaming agent and can be found in hair products, toothpaste, soaps, makeup remover, cleansers, and lotions.

Aluminum compounds

Allowed in cosmetics except antiperspirants, loose powder and dry shampoos.

Aluminum powder

Used as a colorant in many cosmetics. Allowed in cosmetics except lip products, antiperspirants, loose powder and dry shampoos.

Aluminum salts and complexes

Used to block pores in the skin to prevent sweat. Allowed in cosmetics except lip products, antiperspirants, loose powder and dry shampoos.

Ethoxylated ingredients

Ethoxylated ingredients including PEGs and polyethylene glycol or polysorbate.³⁰

Phthalates

Used to dissolve other chemicals in nail enamel and fragrances.

Sodium Laureth Sulfate (SLES)

Used in cosmetics products as a foaming agent and can be found in hair products, toothpaste, soaps, makeup remover, cleansers, and lotions.

Sodium Lauryl Sulfate (SLS)

Used in cosmetics products as a foaming agent and can be found in hair products, toothpaste, soaps, makeup remover, cleansers, and lotions.

Styrene & styrene oxide

Used as a solvent and is not used in cosmetics.”

<https://web.archive.org/web/20250423204642/https://www.ulta.com/discover/conscious-beauty/clean-ingredients/made-without> (last visited July 11, 2025).

65. Based on these representations that Products that are part of the “Conscious Beauty® at Ulta Beauty®” program are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™,” reasonable consumers, including Plaintiff, believe that the Products do not contain any ingredients prohibited by the “Made Without List™.” However, these representations are false and misleading because the Products contain numerous ingredients that are excluded by Ulta Beauty’s “Made Without List™.”

³⁰ After Ulta received Plaintiff’s CLRA Notice Letter, Ulta removed “Ethoxylated ingredients” from the “Made Without List™” and now claims that they are “Limited Use Ingredients” that “are permitted to be used in accordance with the corresponding restricted limits, grade requirements, and/or regulated standards.” <https://www.ulta.com/discover/conscious-beauty/clean-ingredients/made-without> (last accessed July 11, 2025).

66. Representing that the Products are made with “Clean Ingredients” that do not contain any ingredients prohibited by Ulta Beauty’s “Made Without List™” is a statement of fact.

67. Consumers reasonably believe that a product represented as made with “Clean Ingredients” that complies with Ulta Beauty’s “Made Without List™” does not contain any ingredients prohibited by the List.

68. Ulta’s representations that Products that are part of the “Conscious Beauty® at Ulta Beauty®” program are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™” are false, misleading, and deceptive because the Products contain numerous ingredients that are prohibited by Ulta Beauty’s “Made Without List™.”

69. Ulta’s Products contain the following non-exhaustive list of ingredients prohibited by Ulta Beauty’s “Made Without List™”:

- a. **Acrylates/Beheneth-25 Methacrylate Copolymer** is an ethoxylated ingredient because the "Beheneth-25" part of the name indicates that it is a derivative of behenyl alcohol that has been ethoxylated (meaning it has a PEG or polyethylene glycol chain added to it), with "25" representing the average number of ethylene oxide units in that chain. "Acrylate" or "acrylates" are polymers or copolymers based on acrylic acid and / or other alkyl acrylates (acrylic acid esters). "Beheneth-" refers to a PEG (polyethylene glycol-) ether of behenyl alcohol. The number behind "beheneth-" refers to the average number of molecular units - CH₂-CH₂-O-. Methacrylates are polymers or copolymers based on methacrylic acid and / or its esters. "Copolymer" refers to a polymer composed of several different (mostly two) basic units (monomers).
- b. **Acrylates/C10-30 Alkyl Acrylate Crosspolymer** belongs to the family of Acrylates Polymer.

- 1 c. **Acrylates/C12-22 Alkyl Methacrylate Copolymer** is an acrylate ingredient, specifically a
2 copolymer that includes acrylates and C12-22 alkyl methacrylate. It's a polymer formed by
3 combining these monomers, making it a type of acrylate-based ingredient.
- 4 d. **Acrylates/Steareth-20 Methacrylate Copolymer** is an ethoxylated ingredient because it
5 contains "Steareth-20," which indicates the presence of ethoxylation, a process where a
6 molecule is modified with ethylene oxide chains.
- 7 e. **Aluminum Benzoate** is an aluminum compound.
- 8 f. **Aluminum Hydroxide** is an aluminum salt.
- 9 g. **Aluminum Sucrose Octasulfate** is an aluminum salt.
- 10 h. **Aluminum Starch Octenylsuccinate** is an aluminum salt.
- 11 i. **Ammonium Acryloyldimethyltaurate/Beheneth-25 Methacrylate Crosspolymer** is an
12 acrylic ingredient. It's a copolymer, meaning it's a polymer made from two or more different
13 monomers, and in this case, those monomers include acryloyldimethyltaurate and beheneth-
14 25 methacrylate (both of which are derived from acrylic acid or methacrylic acid).
- 15 j. **Ammonium Acryloyldimethyltaurate/VP Copolymer** is an acrylate ingredient. It's a
16 copolymer, meaning it's a polymer made from two or more monomers, and one of those
17 monomers is ammonium acryloyldimethyltaurate, which is derived from acrylic acid.
- 18 k. **Bis-PEG-12 Dimethicone Beeswax** is considered an ethoxylated ingredient because it
19 contains polyethylene glycol (PEG), specifically a derivative of dimethicone that is end-
20 blocked with an average of 12 moles of ethylene oxide.
- 21 l. **Butylene/ethylene/styrene Copolymer** contains styrene. It is synthetic polymer that
22 contains butylene, ethylene, and styrene monomers that have been hydrogenated.
- 23
24
25
26
27
28

- 1 m. **Ceteareth-6** is considered an ethoxylated ingredient; it is a type of cetearyl alcohol that has
2 been modified through a process called ethoxylation, meaning ethylene oxide molecules are
3 added to its structure, making it an ethoxylated compound.
- 4 n. **Ceteareth-20** is an ethoxylated ingredient; it is a fatty alcohol that has been chemically
5 modified by adding 20 molecules of ethylene oxide through a process called ethoxylation.
- 6 o. **Ceteareth-25** is an ethoxylated ingredient; it is a mixture of cetyl and stearyl alcohols that
7 have been ethoxylated with 25 moles of ethylene oxide, meaning the "25" in its name
8 indicates the level of ethoxylation involved in its chemical structure.
- 9 p. **Ceteareth-33** is an ethoxylated ingredient; it is a blend of fatty alcohols (C16-C18) that have
10 been modified by adding ethylene oxide, making it a type of polyethylene glycol ether,
11 which is the defining characteristic of an ethoxylated compound.
- 12 q. **Ceteareth 60 Myristyl Glycol** is an ethoxylated ingredient. The "ceteareth" part denotes
13 that this ingredient is created by adding ethylene oxide to a fatty alcohol, making it an
14 ethoxylated compound. "Ceteareth-" refers to a PEG (polyethylene glycol-) ether of cetearyl
15 alcohol. The "60" in "ceteareth 60" represents the average number of ethylene oxide
16 molecules attached to the fatty alcohol chain. "Glycol" refers to divalent alcohol as alcoholic
17 component of this ingredient (ethylene glycol, propylene glycol, butylene glycol, pentylene
18 glycol, hexylene glycol and others).
- 19 r. **Cetyl PEG/PPG-10/1 Dimethicone** is an ethoxylated ingredient. It's a copolymer of Cetyl
20 Dimethicone and an alkoxylated derivative of Dimethicone that contains an average of 10
21 moles of ethylene oxide and 1 mole of propylene oxide.
- 22 s. **Diethylhexyl 2,6-Naphthalate** is considered a phthalate ingredient, although it is
23 technically not a "phthalate" in the strict chemical sense, but is often grouped with them due
24 to its similar chemical structure and potential for endocrine disrupting effects. Like other
25
26
27
28

1 phthalates, diethylhexyl 2,6-naphthalate has raised concerns regarding potential endocrine
2 disruption, especially in relation to reproductive health.

3 t. **Dihydroxypropyl PEG-5 Linoleammonium Chloride** is an ethoxylated ingredient. It
4 contains PEG-5, which stands for polyethylene glycol with an average of 5 ethylene oxide
5 units, indicating it's derived through the process of ethoxylation.

6
7 u. **Disodium Laureth Sulfosuccinate** is an ethoxylated ingredient. It's specifically the
8 disodium salt of an ethoxylated lauryl alcohol half ester of sulfosuccinic acid. The "Laureth"
9 part of its name indicates that it's derived from lauryl alcohol that has been ethoxylated
10 (meaning it has been reacted with ethylene oxide to create a polyethylene glycol chain).

11 v. **Disteareth-75 IPDI** is an ethoxylated ingredient; the "Steareth-75" portion indicates that it
12 is a fatty alcohol that has been ethoxylated, meaning ethylene oxide has been added to its
13 chemical structure to modify its properties.

14
15 w. **Ethylene/propylene/styrene Copolymer** contains styrene. It is a synthetic polymer that
16 contains ethylene, propylene, and styrene monomers that has been terminated by
17 hydrogenation.

18 x. **Glyceryl Acrylate/Acrylic Acid Copolymer** is an acrylate ingredient. It's a copolymer (a
19 polymer made from multiple monomers) that incorporates acrylic acid and glyceryl
20 acrylate.

21
22 y. **Glycereth-7 Caprylate/Caprates** is an ethoxylated ingredient. It's specifically an
23 ethoxylated glycerine derivative, meaning it's derived from glycerin and has been modified
24 by the addition of ethylene oxide (ethoxylation).

25 z. **Gratissima (Avocado) Oil Acrylates/C10-30 Alkyl Acrylate** is an acrylate-based
26 polymer. It's a crosspolymer that contains acrylic acid units, making it a type of acrylate.
27
28

- 1 aa. **Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer** is an acrylate
2 ingredient. It's a synthetic polymer made up of acryloyldimethyl taurate and sodium
3 hydroxyethyl acrylate monomers.
- 4 bb. **Hydrogenated Styrene/Isoprene Copolymer** is a type of copolymer that contains styrene
5 as one of its components. It's a complex molecule created by combining styrene and
6 isoprene, then undergoing a process called hydrogenation.
- 7 cc. **Lauryl Peg-9 Polydimethylsiloxylethyl Dimethicone** is an ethoxylated ingredient. It
8 contains PEG-9, which stands for polyethylene glycol, indicating that it has undergone a
9 process called ethoxylation. This process involves adding ethylene oxide to a molecule, in
10 this case, to modify the polydimethylsiloxylethyl dimethicone.
- 11 dd. **Laureth-3** is an ethoxylated ingredient, meaning it is produced through a process called
12 ethoxylation where ethylene oxide is added to lauryl alcohol, making it a member of the
13 ethoxylated fatty alcohol group; the "3" in Laureth-3 indicates the number of ethylene oxide
14 molecules added during the process.
- 15 ee. **Laureth-4** is an ethoxylated ingredient, meaning it is derived from lauryl alcohol through a
16 process called ethoxylation where ethylene oxide is added to the molecule; the "4" in
17 Laureth-4 indicates the average number of repeating ethylene oxide units in the molecule.
- 18 ff. **Laureth-7** is an ethoxylated ingredient. It's specifically an ethoxylated lauryl alcohol,
19 meaning it's created by adding ethylene oxide to lauryl alcohol (derived from coconut or
20 palm oil).
- 21 gg. **Laureth-12** is an ethoxylated ingredient. It's specifically an ethoxylated fatty alcohol,
22 meaning it's derived from lauryl alcohol through a process called ethoxylation, where
23 ethylene oxide is added to the lauryl alcohol molecule.
- 24
25
26
27
28

- 1 hh. **Laureth-13** is an ethoxylated ingredient. The "-eth" suffix in its name indicates that it's an
2 alcohol ethoxylate, meaning it's derived from an alcohol (in this case, lauryl alcohol) that
3 has been reacted with ethylene oxide (ethoxylated).
- 4 ii. **Laureth-21** is an ethoxylated ingredient. It's a polyethylene glycol ether of lauryl alcohol,
5 meaning it's created by reacting lauryl alcohol with ethylene oxide (EO), a process called
6 ethoxylation. The "21" in Laureth-21 refers to the average number of ethylene oxide units
7 in the molecule.
- 8
- 9 jj. **Laureth-23** is an ethoxylated ingredient. It's a polyethylene glycol ether of lauryl alcohol,
10 meaning it's created through the process of ethoxylation, where 23 moles of ethylene oxide
11 is added to lauryl alcohol.
- 12
- 13 kk. **Lauryl PEG-8 Dimethicone** is an ethoxylated ingredient. It's specifically a polyethylene
14 glycol (PEG) derivative of dimethicone, meaning it's created by chemically attaching
15 polyethylene glycol chains to dimethicone through a process called ethoxylation.
- 16 ll. **Lauryl PEG-10 Tris (Trimethylsiloxy)silylethyl Dimethicone** is an ethoxylated
17 ingredient because it contains PEG-10, which stands for polyethylene glycol with an average
18 of 10 moles of ethylene oxide.
- 19
- 20 mm. **Methyl Methacrylate Crosspolymer** is considered an acrylate ingredient,
21 specifically a type of methacrylate, which is a derivative of acrylic acid. Methacrylates are
22 related to acrylates, both being used in polymers and copolymers, with methacrylates having
23 an extra methyl group attached to the alpha carbon.
- 24 nn. **Olive Oil PEG-7 Esters** are an ethoxylated ingredient. They are a product of olive oil
25 transesterified with pre-ethoxylated glycerine.
- 26
- 27
- 28

1 oo. **PEG-6** is an ethoxylated ingredient. It's a polyethylene glycol (PEG) derivative, and the
2 process of adding ethylene oxide to a base molecule (in this case, often a fatty alcohol or
3 other compound) is called ethoxylation.

4 pp. **PEG-6 Caprylic/Capric Glycerides** is an ethoxylated ingredient. It's specifically a
5 polyethylene glycol (PEG) derivative of a mixture of mono-, di-, and triglycerides of caprylic
6 and capric acids, meaning it's been modified by the addition of ethylene oxide
7 (ethoxylation).
8

9 qq. **PEG-6 Isostearate** is an ethoxylated ingredient. It's a polyethylene glycol (PEG) derivative,
10 meaning it's created through a process called ethoxylation, where ethylene oxide is added to
11 another compound (in this case, isostearic acid).
12

13 rr. **PEG-7 Glyceryl Cocoate** is an ethoxylated ingredient. It's specifically an ethoxylated
14 derivative of glyceryl cocoate, meaning it's created by reacting glyceryl cocoate (derived
15 from glycerol and coconut oil) with ethylene oxide.

16 ss. **PEG-7 Trimethylolpropane Coconut Ether** is an ethoxylated ingredient because it is a
17 polyethylene glycol (PEG) compound. PEG compounds are created through an ethoxylation
18 process.
19

20 tt. **PEG-8** is an ethoxylated ingredient. It's a polyethylene glycol (PEG) derivative, and the
21 process of adding ethylene oxide to a base molecule (in this case, often a fatty alcohol or
22 other compound) is called ethoxylation.

23 uu. **PEG-8 Beeswax** is an ethoxylated ingredient. It's a derivative of natural beeswax that's
24 created by combining beeswax with polyethylene glycol (PEG).

25 vv. **PEG-8 Dimethicone** is an ethoxylated ingredient. It's specifically a polyethylene glycol
26 (PEG) derivative of dimethicone, meaning it's created through a process called ethoxylation,
27 where ethylene oxide is added to dimethicone.
28

1 ww. **PEG-8 Laurate** is an ethoxylated ingredient. It's specifically a polyethylene glycol
2 (PEG) ester of lauric acid, meaning it's created through the process of ethoxylation, where
3 ethylene oxide is added to lauric acid.

4 xx. **PEG-8/SMDI Copolymer** is considered an ethoxylated ingredient because it contains PEG-
5 8, which is a polyethylene glycol derivative and a product of ethoxylation. Ethoxylation is a
6 process that involves adding ethylene oxide to other molecules, in this case, to create the
7 PEG-8 component.

8 yy. **PEG-10** is an ethoxylated ingredient. PEG stands for polyethylene glycol, and the process
9 of adding ethylene oxide to a molecule is called ethoxylation. Specifically, PEG-10 indicates
10 that the polyethylene glycol molecule has been ethoxylated with an average of 10 moles of
11 ethylene oxide.

12 zz. **PEG-10 Dimethicone** is an ethoxylated ingredient. It's a blend of polyethylene glycol (PEG)
13 and dimethicone, where the PEG portion is created through a process called ethoxylation,
14 which involves the addition of ethylene oxide to a base molecule (in this case, dimethicone).

15 aaa. **PEG-10 Isostearate** is an ethoxylated ingredient. It's a polyethylene glycol (PEG)
16 derivative, specifically a polyethylene glycol ester of Isostearic Acid, indicating it's been
17 created through the process of ethoxylation.

18 bbb. **PEG-12 Dimethicone** is an ethoxylated ingredient. The "PEG" in its name stands
19 for polyethylene glycol, which is a type of polyether compound created through the process
20 of ethoxylation. This process involves adding ethylene oxide to other molecules, in this case,
21 to a dimethicone base.

22 ccc. **PEG-12 Dimethicone/PPG-20** is considered an ethoxylated ingredient because it
23 contains PEG (polyethylene glycol), which is a type of ethoxylated compound. The "PEG-
24 25 26 27 28

1 12" part of the name indicates that it is a polyethylene glycol derivative with a specific
2 average number of ethylene oxide units.

3 ddd. **PEG-10 Phytosterol** is an ethoxylated ingredient. It's specifically a polyethylene
4 glycol (PEG) derivative of phytosterols, meaning it's created by attaching ethylene oxide
5 (EO) to phytosterols (plant sterols).
6

7 eee. **PEG-10 Rapeseed Sterol** is an ethoxylated ingredient. Ethoxylated ingredients are
8 chemicals that contain polyethylene glycol (PEG) and ethylene oxide.

9 fff. **PEG-20 Glyceryl Laurate** is an ethoxylated ingredient. It's a polyethylene glycol (PEG)
10 ether of Glyceryl Laurate, meaning it's been modified through the process of ethoxylation,
11 where ethylene oxide is added to the base molecule (in this case, Glyceryl Laurate).
12

13 ggg. **PEG-20** is an ethoxylated ingredient. It stands for polyethylene glycol with a
14 specific molecular weight, and the "PEG" itself indicates it's derived through the process of
15 ethoxylation, where ethylene oxide is added to a base molecule.

16 hhh. **PEG-20 Glyceryl Triisostearate** is an ethoxylated ingredient because it contains
17 polyethylene glycol (PEG), which is a type of polyether formed through the ethoxylation
18 process (adding ethylene oxide to a molecule).
19

20 iii. **PEG-30 Dipolyhydroxystearate** is an ethoxylated ingredient. It's specifically a
21 polyethylene glycol (PEG) derivative, meaning it's created through a process called
22 ethoxylation, where ethylene oxide is added to a fatty acid (in this case, dipolyhydroxystearic
23 acid).
24

25 jjj. **PEG-30 Stearate** is an ethoxylated ingredient. It's a blend of polyethylene glycol (PEG) and
26 stearic acid, and PEG itself is produced through a process called ethoxylation, where
27 ethylene oxide is added to other chemicals.
28

1 kkk. **PEG-32** is an ethoxylated ingredient. It is a derivative resulting from the
2 ethoxylation of polyethylene glycol with moles of ethylene oxide.

3 **lll. PEG-40 Hydrogenated Castor Oil** is an ethoxylated ingredient. It's created by ethoxylating
4 (adding an average of 40 moles of ethylene oxide to) hydrogenated castor oil.

5 mmm. **PEG-40 Stearate** is an ethoxylated ingredient. It's specifically created through the
6 ethoxylation process, where ethylene oxide is reacted with stearic acid (a fatty acid) to create
7 the polyethylene glycol (PEG) derivative.
8

9 nnn. **PEG-60 Almond Glycerides** is an ethoxylated ingredient. Ethoxylated ingredients
10 contain ethylene glycol, which is identified by the prefix "PEG" (polyethylene glycol).

11 ooo. **PEG-60 Hydrogenated Castor Oil** is an ethoxylated ingredient. It's created by
12 ethoxylating (adding an average of 60 moles of ethylene oxide to) hydrogenated castor oil.
13

14 ppp. **PEG-75 Stearate** is an ethoxylated ingredient used in cosmetics and personal care
15 products, specifically as an emulsifier, surfactant, and conditioning agent. It's essentially a
16 blend of polyethylene glycol (PEG) and stearic acid, creating a compound that helps to blend
17 oil and water in products, improve texture, and provide cleansing and moisturizing benefits.

18 qqq. **PEG-80 Sorbitan Laurate** is an ethoxylated ingredient. It's specifically an
19 ethoxylated sorbitan ester of lauric acid, meaning it's created by attaching polyethylene
20 glycol (PEG) chains to sorbitan laurate through a process called ethoxylation.
21

22 rrr. **PEG-90** is an ethoxylated ingredient. It's a type of polyethylene glycol (PEG), which is
23 created through a process called ethoxylation, where ethylene oxide is added to a base
24 molecule (in this case, it's often a base like glycerol or a fatty alcohol).

25 sss. **PEG-90m** is an ethoxylated ingredient. It's a type of polyethylene glycol (PEG), which is
26 created through the process of ethoxylation, where ethylene oxide is reacted with water or
27 other compounds.
28

1 ttt. **PEG-100 Stearate** is an ethoxylated ingredient. It's specifically a polyethylene glycol
2 (PEG) ester of stearic acid, meaning it's created through the process of ethoxylation, where
3 ethylene oxide is added to stearic acid.

4 uuu. **PEG-120 Methyl Glucose Dioleate** is an ethoxylated ingredient. It's specifically
5 described as the polyethylene glycol ether of the diester of methylglucose and oleic acid,
6 meaning it's been modified through the addition of ethylene oxide (ethoxylation).

7 vvv. **PEG-150** is an ethoxylated ingredient. It's specifically a polyethylene glycol (PEG)
8 derivative, meaning it's created through a process called ethoxylation, where ethylene oxide
9 is added to another molecule (in this case, often a fatty acid like stearic acid).

10 www. **PEG-150 Distearate** is an ethoxylated ingredient. It's a polyethylene glycol (PEG)
11 diester of stearic acid, meaning it's created by reacting stearic acid with polyethylene glycol
12 (which is itself made by adding ethylene oxide to water).

13 xxx. **PEG-150 Pentaerythrityl Tetrastearate** is an ethoxylated ingredient. It is produced
14 by reacting pentaerythritol with ethylene oxide (ethoxylation) and then esterifying the
15 resulting ethoxylated pentaerythritol with stearic acid.

16 yyy. **PEG 200 Hydrogenated Glyceryl Palmate** is an ethoxylated ingredient. It is a
17 polyethylene glycol (PEG) derivative, specifically meaning it's created by reacting
18 hydrogenated glyceryl palmate (derived from palm oil) with ethylene oxide, a process called
19 ethoxylation.

20 zzz. **PEG/PPG-18/18 Dimethicone** is an ethoxylated ingredient. It's a silicone polymer
21 made from polyethylene glycol, polypropylene glycol, and dimethicone. It's an ethoxylated
22 and propoxylated silicone emulsifier.

23 aaaa. **PEG/PPG/Polybutylene Glycol-8/5/3 Glycerin** is an ethoxylated ingredient. It
24 specifically indicates that glycerin has been ethoxylated (meaning ethylene oxide has been
25

1 added to it), as well as propoxylated (propylene oxide added) and reacted with polybutylene
2 glycol.

3 bbbb. **Phenoxyethanol** is an ethoxylated ingredient, meaning it's produced through a
4 process involving ethylene oxide. It may contain carcinogenic byproducts 1,4-dioxane and
5 ethylene oxide.
6

7 cccc. **Poly C10-30 Alkyl Acrylate** is an acrylate ingredient. It's a polymer derived from
8 acrylic acid and specifically, it's a type of acrylate polymer created by combining acrylic
9 acid with C10-30 alkyl esters.

10 dddd. **Polyacrylate-33** is an acrylate ingredient. It's a type of polymer or copolymer based
11 on acrylic acid and potentially other monomers, making it part of the broader family of
12 acrylate materials. The production of Polyacrylate-33 involves a process known as
13 polymerization, where monomers (small, single molecules) of acrylate compounds are
14 chemically bonded together to form a large, chain-like molecule.
15

16 eeee. **Polyethylene** is an ethoxylated ingredient. It's created through a process called
17 ethoxylation, where ethylene oxide is added to a substrate (in this case, often water or other
18 alcohols).

19 ffff. **Polymethyl Methacrylate** is an acrylate, specifically a type of acrylic resin, and is
20 often referred to as "acrylic." It is a polymer derived from the monomer methyl methacrylate
21 (MMA), which is a key component in the family of acrylic resins.
22

23 gggg. **Polyphosphorylcholine Glycol Acrylate** is an acrylate ingredient. It contains
24 "acrylate" in its name, indicating it's a polymer or copolymer derived from acrylic acid or its
25 esters. This ingredient is a polymer, meaning it's a large molecule made up of repeating
26 smaller units (monomers). In this case, the monomers are related to acrylate and
27 phosphorylcholine, which are incorporated into a glycol backbone.
28

1 hhhh. **Polysorbate 20** is an ethoxylated ingredient. It's specifically formed by the
2 ethoxylation of sorbitan monolaurate, meaning it involves the addition of ethylene oxide to
3 sorbitan monolaurate.

4 iiiii. **Polysorbate 40** is an ethoxylated ingredient. It's derived from sorbitan, a derivative of
5 sorbitol, that's esterified with palmitic acid and then ethoxylated (meaning it's reacted with
6 ethylene oxide).

7 jjjj. **Polysorbate 60** is an ethoxylated ingredient. It's produced through a process called
8 ethoxylation, where ethylene oxide is added to sorbitan (a derivative of sorbitol) before being
9 esterified with fatty acids.
10

11 kkkk. **Polysorbate 80** is an ethoxylated ingredient. It's specifically created through a
12 process called ethoxylation, where sorbitan is reacted with ethylene oxide to create a
13 polyether chain (also known as polyoxyethylene or PEG) attached to the sorbitan molecule.
14

15 llll. **Polystyrene** contains styrene. Styrene is the main component of polystyrene. Polystyrene
16 is a homopolymer made up of styrene units.

17 mmmm. **PPG-5-Ceteth-20** is an ethoxylated ingredient. It's specifically a polyoxypropylene,
18 polyoxyethylene ether of cetyl alcohol, meaning it's created through the ethoxylation process
19 where ethylene oxide is added to cetyl alcohol (a fatty alcohol).
20

21 nnnn. **PPG-15 Stearyl Ether** is considered an ethoxylated ingredient because it's a
22 polypropylene glycol (PPG) ether, which means it is derived from the reaction of stearyl
23 alcohol with propylene oxide (a type of alkylene oxide).

24 oooo. **PPG-26-Buteth-26** is considered an ethoxylated ingredient because it contains a
25 polyoxyethylene component (indicated by "Buteth") which is derived from ethylene oxide.
26
27
28

1 pppp. **Propylene Glycol (PEG)** is an ethoxylated ingredient. It is produced through a
2 process called ethoxylation, where ethylene oxide is added to other molecules like alcohols
3 or phenols.

4 qqqq. **Sodium Acrylate/Sodium Acryloyldimethyl Taurate Copolymer** is an acrylate
5 ingredient. It's a synthetic polymer made from sodium acrylate and other acrylate
6 monomers.

7
8 rrrr. **Sodium Benzotriazolyl Butylphenol Sulfonate** is considered a type of
9 alkylphenol because it contains a "butylphenol" component, which is a specific type of
10 alkylphenol where the alkyl group is butyl (a four-carbon chain) attached to a phenol
11 molecule; essentially, it's a derivative of alkylphenols. "Sodium..." refers to a sodium salt.
12 "Butyl" normally refers to butanol (1-butanol or n-butanol) as an alcoholic component or
13 generally a saturated hydrocarbon chain with 4 carbon atoms. This ingredient contains
14 phenol (hydroxybenzene) as alcoholic component. Sulfonates are salts or esters of sulphonic
15 acids (alkane sulfonic acids, alkyl sulphuric acids; aromatic sulfonic acids).
16

17 ssss. **Sodium Polyacrylate Starch** is an acrylate ingredient because it's a polymer of
18 sodium acrylate grafted onto starch.

19 tttt. **Sodium Polyacrylate** is an acrylate ingredient. It's a polymer made up of chains of acrylate
20 compounds.

21
22 uuuu. **Sodium Polystyrene Sulfonate** contains styrene. It is a polymer made from 4-
23 styrene sulfonate monomers.

24 vvvv. **Sodium Trideceth Sulfate** is an ethoxylated ingredient. It's specifically the sodium
25 salt of sulfated ethoxylated tridecyl alcohol, meaning it's created through a process called
26 ethoxylation where ethylene oxide is added to tridecyl alcohol.
27
28

www. **Steareth-2** is considered an ethoxylated ingredient, meaning it is derived from a fatty alcohol (stearyl alcohol) that has been reacted with ethylene oxide to create a polyethylene glycol chain, making it a surfactant with emulsifying properties; the "2" in Steareth-2 indicates the degree of ethoxylation, meaning it has a relatively short ethylene oxide chain attached to the molecule.

xxxx. **Steareth-10** is an ethoxylated ingredient; it is a polyethylene glycol ether of stearyl alcohol, meaning it is derived from stearyl alcohol that has been reacted with ethylene oxide, making it an ethoxylated compound.

yyyy. **Steareth-20** is an ethoxylated ingredient, meaning it is created through a chemical process called ethoxylation where ethylene oxide is added to a fatty alcohol (in this case, stearyl alcohol) to produce a surfactant with emulsifying properties.

zzzz. **Steareth-21** is an ethoxylated ingredient; it is a surfactant made by combining stearyl alcohol with ethylene oxide, which is the process of ethoxylation, and the "21" indicates the average number of ethylene oxide units added to the molecule.

aaaaa. **Styrene/Acrylates Copolymer** contains styrene. It is a synthetic polymer made of styrene and acrylate monomers.

70. No product represented as made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" as part of the "Conscious Beauty® at Ulta Beauty®" program should contain any of these ingredients that are prohibited by Ulta Beauty's "Made Without List™." And yet, the Ulta Products contain the following, non-exhaustive, list of ingredients that are prohibited by Ulta Beauty's "Made Without List™":

Product	Ingredients Prohibited by Ulta's "Made Without List™"
af94 - Acid Patch Salicylic Acid Pimple Patches Ulta Beauty	Laureth-7 Phenoxyethanol

Product	Ingredients Prohibited by Ulta's "Made Without List™"
af94 - Talkback Pout Pleaser Lip Mask Ulta Beauty	Hydrogenated Styrene/Isoprene Copolymer Phenoxyethanol
Aveeno - 1.7 oz Calm + Restore Oat Gel Moisturizer Ulta Beauty	Phenoxyethanol Laureth-7
Aveeno - Calm + Restore Age Renewal Eye Gel for Sensitive Skin, Fragrance Free Ulta Beauty	Laureth-7 Sodium Polyacrylate
Aveeno - Calm + Restore Age Renewal Serum for Sensitive Skin, Fragrance Free Ulta Beauty	Laureth-7
Aveeno - Calm + Restore Daily Moisturizer Mineral Sunscreen with Broad Spectrum SPF 30 Ulta Beauty	PEG-100 Stearate Phenoxyethanol Aluminum Hydroxide
Aveeno - Calm + Restore Makeup Remover Wipes Ulta Beauty	PEG-6 Caprylic/Capric Glycerides Polysorbate 20 Acrylates/C10-30 Alkyl Acrylate Crosspolymer
Aveeno - Calm + Restore Nourishing Oat Facial Cleanser Ulta Beauty	Polysorbate 20 Acrylates/C10-30 Alkyl Acrylate Crosspolymer Phenoxyethanol Sodium Polyacrylate
Aveeno - Calm + Restore Redness Relief Cream, Face Moisturizer Ulta Beauty	Sodium Polyacrylate Phenoxyethanol Laureth-7
Aveeno - Calm + Restore Triple Oat Serum Ulta Beauty	Phenoxyethanol Acrylates/C10-30 Alkyl Acrylate Crosspolymer
Avène - 6.7 oz (tube) Cleanance Cleansing Gel Ulta Beauty	Ceteareth-60 Myristyl Glycol PEG-7 Glyceryl Cocoate Polysorbate 20 PEG-6 PPG-26-Buteth-26
Avène - Cicalfate HANDS Restorative Hand Cream Ulta Beauty	Aluminum Sucrose Octasulfate PEG-7 Glyceryl Cocoate Aluminum Starch Octenylsuccinate Phenoxyethanol
Avène - Cicalfate LIPS Restorative Lip Cream Ulta Beauty	Aluminum Sucrose Octasulfate
Avène - CleananceHYDRA Soothing Cream Ulta Beauty	Acrylates/C10-30 Alkyl Acrylate Crosspolymer

Product	Ingredients Prohibited by Ulta's "Made Without List™"
Avène - Honey Mineral Tinted Compact SPF 50 Ulta Beauty	Polyethylene Polymethyl Methacrylate Phenoxyethanol
Avène - Hydrance LIGHT Emulsion Ulta Beauty	Propylene Glycol Acrylates/C10-30 Alkyl Acrylate Crosspolymer Polysorbate 60
Avène - Hydrance RICH Hydrating Cream Ulta Beauty	PEG-100 Stearate Polysorbate 20
Avène - Retrinal Eye Cream Ulta Beauty	Aluminum Starch Octenylsuccinate PEG-100 Stearate Ceteareth-33
Avène - RICH Revitalizing Nourishing Cream Ulta Beauty	Polysorbate 20
Avène - Soothing Eye Contour Cream Ulta Beauty	PEG-12
Bali Body - Dark Instant Tan Cream Ulta Beauty	Laureth-7 Acrylates/C10-30 Alkyl Acrylate Crosspolymer Phenoxyethanol
Bali Body - Everyday Gradual Tan Body Moisturizer Ulta Beauty	Phenoxyethanol
Bali Body - Hydrating Face Self Tan Mist Ultra Dark Ulta Beauty	Polysorbate 20 Phenoxyethanol
Bali Body - Illuminating Bronzing Serum Ulta Beauty	Phenoxyethanol Acrylates/C10-30 Alkyl Acrylate Crosspolymer
Bali Body - Light Medium Instant Airbrush Tan Wash Off Ulta Beauty	Propylene Glycol Phenoxyethanol
Bali Body - Natural Tinted Bronzing Super Serum SPF 30 Ulta Beauty	Lauryl Peg-9 Polydimethylsiloxoethyl Dimethicone PEG/PPG-18/18 Dimethicone Phenoxyethanol
Bali Body - No Transfer Self Tan Light to Dark Body Mist Ulta Beauty	Phenoxyethanol
Bali Body - Self Tanning Body Milk Ulta Beauty	PEG-40 Hydrogenated Castor Oil Phenoxyethanol
Bali Body - Tinted Hydrating Self Tan Body Serum Dark Ulta Beauty	Phenoxyethanol Ceteareth-20
Bali Body - Ultra Dark Express Aerated Self Tan Foam Ulta Beauty	Propylene Glycol PEG-60 Hydrogenated Castor Oil Polysorbate 20 Phenoxyethanol

Product	Ingredients Prohibited by Ulta's "Made Without List™"
Banila Co - Clean it Zero Enriching Butter Cleansing Balm Ulta Beauty	Aluminum Hydroxide
Banila Co - Clean It Zero Firming Cleansing Balm Ulta Beauty	PEG-20 Glyceryl Triisostearate PEG-10 Isostearate Phenoxyethanol
bareMinerals - 1.7 oz SKINLONGEVITY Long Life Herb Serum Ulta Beauty	Acrylates/C10-30 Alkyl Acrylate Crosspolymer Polysorbate 20 Phenoxyethanol
bareMinerals - Ageless 10% Phyto ProCollagen Firming Anti-Age Cream Ulta Beauty	Phenoxyethanol

Plaintiff and Reasonable Consumers Were Misled by the Products

71. Given the significant presence of these ingredients prohibited by the Ulta Beauty's "Made Without List™," Ulta's representations that the Products are part of the "Conscious Beauty® at Ulta Beauty®" program and are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" are deceptive and misleading.

72. By misleadingly and deceptively labeling and marketing the Products, as described herein, Ulta sought to take advantage of consumers' desire for true safe, clean, and environmentally friendly beauty products. Ulta has done so at the expense of unwitting consumers—many of whom seek to protect themselves and their household members—and Ulta's lawfully acting competitors, over whom Ulta maintains an unfair competitive advantage.

1 73. The safe, clean, or environmentally friendly representations were and are material to
2 reasonable consumers, including Plaintiffs, in making purchasing decisions.

3 74. Plaintiff relied on Ulta’s misrepresentations, described herein, in making the decision
4 to purchase the Products.

5 75. At the time Plaintiff purchased the Products, Plaintiff did not know, and had no
6 reason to know, that the Products’ marketing and advertising were false, misleading, deceptive, and
7 unlawful as set forth herein.

8 76. Consumers lack the meaningful ability to test or independently ascertain or verify
9 whether ingredients in a product are safe, clean, or environmentally friendly, especially at the point
10 of sale. Consumers would not know the true nature of the ingredients merely by reading the
11 ingredients label.
12

13 77. Consumers also lack the meaningful ability to test or independently ascertain
14 whether the ingredients in the Products are excluded ingredients on the “Made Without List™”
15 which prohibit the use of the following ingredients: Acrylates; Alkylphenols (Octylphenols,
16 nonylphenols) and Alkylphenol Ethoxylates; Aluminum compounds; Aluminum powder;
17 Aluminum salts and complexes; Ethoxylated ingredients including PEGs and polyethylene glycol
18 or polysorbate; Phthalates; Sodium Laureth Sulfate (SLES); Sodium Lauryl Sulfate (SLS); Styrene
19 & styrene oxide.
20

21 78. Discovering that the Products are made “Clean Ingredients” that comply with the
22 “Made Without List™” and do not contain any of the prohibited ingredients and actually can cause
23 harm to humans, animals and/or the environment requires a scientific investigation and knowledge
24 of chemistry beyond that of the average consumer. That is why, even though all of the ingredients
25 listed above are identified on the back of the Products’ packaging in the ingredients listed, the
26 reasonable consumer would not understand – nor are they expected to understand - that these
27
28

1 ingredients are prohibited by the “Made Without List™,” harmful, dangerous, and environmentally
2 damaging.

3 79. Moreover, the reasonable consumer is not expected or required to scour the
4 ingredients list on the back of the Products in order to confirm or debunk Ulta’s prominent claims
5 and representations that the Products are made “Clean Ingredients” that that excludes ingredients on
6 the “Made Without List™.”
7

8 80. Ulta materially misled and failed to adequately inform reasonable consumers,
9 including Plaintiff, that the Products contain ingredients that are prohibited by the “Made Without
10 List™” that can cause harm to humans, animals, and/or the environment. A reasonable consumer
11 understands Ulta’s claims that the Products are made with “Clean Ingredients” that excludes
12 ingredients on Ulta Beauty’s “Made Without List™” to mean that the Products do not contain any
13 of the ingredients prohibited by the “Made Without List™” and are made without ingredients
14 commonly associated with adverse health and/or environmental impacts.”
15

16 81. Ulta’s representations that the Products are part of the “Conscious Beauty® at Ulta
17 Beauty®” program and are made with “Clean Ingredients” that excludes ingredients on Ulta
18 Beauty’s “Made Without List™” induced consumers, including Plaintiff and Class Members, to pay
19 a premium to purchase the Products. Plaintiff and Class Members relied on Ulta’s false and
20 misleading misrepresentations in purchasing the Products at some premium price above comparable
21 alternatives that are not represented to be safe, clean, or environmentally friendly. If not for Ulta’s
22 misrepresentations, Plaintiff and Class Members would not have been willing to purchase the
23 Products at a premium price. Accordingly, they have suffered an injury as a result of Ulta’s
24 misrepresentations.
25

26 82. Ulta knew that consumers will pay more for a product represented as made with
27 “Clean Ingredients” that do not contain any of the ingredients prohibited by the “Made Without
28

1 List™” that are commonly associated with adverse health and/or environmental impacts and
2 intended to deceive Plaintiff and putative class members by representing that the Products are
3 purportedly safe, clean, and environmentally friendly products.

4 83. Ulta has profited enormously from its false and misleading representations that the
5 Products are part of the “Conscious Beauty® at Ulta Beauty®” program and are made with “Clean
6 Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™.” The purpose of
7 this action is to require Ulta to undertake a corrective advertising campaign and to provide
8 consumers with monetary relief for Ulta’s deceptive and misleading product claims.
9

10 84. Plaintiff would not have purchased the Products if they had known the truth.
11 Accordingly, based on Ulta’s material misrepresentations and omissions, reasonable consumers,
12 including Plaintiff, purchased the Products to their detriment.
13

14 85. It is possible, however, that Plaintiff would purchase the Products in the future if they
15 were properly represented, and/or the Products complied with the marketing, advertising, and
16 website statements. Specifically, Plaintiffs would like to purchase the Products again if the Products
17 no longer posed a risk of harm to humans, animals, and/or the environment.

18 CLASS ALLEGATIONS

19 86. Plaintiff brings this suit individually and as a class action pursuant to Federal Rule
20 of Civil Procedure Rule 23, on behalf of herself and the following Class of similarly situated
21 individuals:
22

23 **Nationwide Class:** All residents of the United States who, within the applicable statute of
24 limitations periods, purchased the Products for personal, family, or household purposes
25 (“Nationwide Class”).

26 **California Subclass:** All residents of California who, within four years prior to the filing
27 of this action, purchased the Products for personal, family, or household purposes
28 (“California Subclass”).

1 87. Excluded from the Class are Defendants, their affiliates, employees, officers and
2 directors, persons or entities that purchases the Products for resale, and the Judge(s) assigned to this
3 case.

4 88. Plaintiff reserves the right to amend or otherwise alter the Class definitions presented
5 to the Court at the appropriate time in response to facts learned through discovery, legal arguments
6 advanced by Defendant or otherwise.

7 89. This action has been brought and may properly be maintained as a class action
8 against Defendant because there is a well-defined community of interest in the litigation and the
9 proposed Class is easily ascertainable.

10 90. Numerosity: Plaintiff does not know the exact size of the Class, but she estimates
11 that it is composed of more than 5,000 persons. The persons in the Class are so numerous that the
12 joinder of all such persons is impracticable and the disposition of their claims in a class action rather
13 than in individual actions will benefit the parties and the courts.

14 91. Common Questions Predominate: This action involves common questions of law
15 and fact to the potential classes because each Class Member's claim derives from the same
16 deceptive, unlawful and/or unfair statements and omissions. The common questions of law and fact
17 predominate over individual questions, as proof of a common or single set of facts will establish the
18 right of each member of the Class to recover. The questions of law and fact common to the Class
19 include, but are not limited to, the following:

- 20 a. Whether Defendants engaged in unlawful, unfair or deceptive business practices by
21 advertising and selling the Products;
22 b. Whether Defendants' conduct of advertising and selling the Products while
23 representing them as part of the "Conscious Beauty® at Ulta Beauty®" program and
24 made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made
25
26
27
28

Without List™,” and omitting that they contain ingredients prohibited by the “Made Without List™” that are commonly associated with adverse health and/or environmental impacts” constitutes an unfair method of competition, or unfair or deceptive act or practice, in violation of Civil Code section 1750, *et seq.*;

- c. Whether Defendants used deceptive representations or omission in connection with the sale of the Products in violation of Civil Code section 1750, *et seq.*;
- d. Whether Defendants represented that the Products have characteristics or qualities that they do not have in violation of Civil Code section 1750, *et seq.*;
- e. Whether Defendants advertised the Products with intent not to sell them as advertised in violation of Civil Code section 1750, *et seq.*;
- f. Whether Defendants’ marketing and advertising of the Products are misleading in violation of Business and Professions Code section 17500, *et seq.*;
- g. Whether Defendants knew or by the exercise of reasonable care should have known their marketing and advertising was and is misleading in violation of Business and Professions Code section 17500, *et seq.*;
- h. Whether Defendants’ conduct is an unfair business practice within the meaning of Business and Professions Code section 17200, *et seq.*;
- i. Whether Defendants’ conduct is a fraudulent business practice within the meaning of Business and Professions Code section 17200, *et seq.*;
- j. Whether Defendants’ conduct is an unlawful business practice within the meaning of Business and Professions Code section 17200, *et seq.*;
- k. Whether Plaintiff and the Class paid more money for the Products than they actually received;

1. How much more money Plaintiff and the Class paid for the Products than they actually received;
- m. Whether Plaintiff and the Class are entitled to injunctive relief; and
- n. Whether Defendants were unjustly enriched by its unlawful conduct.

92. Typicality: Plaintiff's claims are typical of the claims of other members of the Class because, among other things, all such claims arise out of the same wrongful course of conduct in which the Defendant engaged in violation of law as described herein. Plaintiff and Class Members purchased one or more of the Products. In addition, Defendants' conduct that gave rise to the claims of Plaintiff and Class Members (*i.e.*, marketing, sales and advertising of the Products as part of the "Conscious Beauty® at Ulta Beauty®" program and made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the use of specific ingredients that Ulta has determined are commonly associated with adverse health and/or environmental impacts) is the same for Plaintiff and all members of the Class. Plaintiff's claims, like the claims of the Class, arise out of the same common course of conduct by Defendants and are based on the same legal and remedial theories.

93. Adequacy of Representation: Plaintiff will fairly and adequately protect the interests of all Class Members because it is in her best interests to prosecute the claims alleged herein to obtain full compensation due to her for the unfair and illegal conduct of which she complains. Plaintiff also has no interests that are in conflict with, or antagonistic to, the interests of Class Members. Plaintiff has retained highly competent and experienced class action attorneys to represent her interests and those of the class. By prevailing on her own claims, Plaintiff will establish Defendant's liability to all Class Members. Plaintiff and her counsel have the necessary financial resources to adequately and vigorously litigate this class action, and Plaintiff and counsel

1 are aware of their fiduciary responsibilities to the Class Members and are determined to diligently
 2 discharge those duties by vigorously seeking the maximum possible recovery for Class Members.

3 94. Superiority: There is no plain, speedy, or adequate remedy other than by maintenance
 4 of this class action. The prosecution of individual remedies by members of the classes will tend to
 5 establish inconsistent standards of conduct for Defendants and result in the impairment of Class
 6 Members' rights and the disposition of their interests through actions to which they were not parties.
 7 Class action treatment will permit a large number of similarly situated persons to prosecute their
 8 common claims in a single forum simultaneously, efficiently, and without the unnecessary
 9 duplication of effort and expense that numerous individual actions would engender. Furthermore,
 10 as the damages suffered by each individual member of the class may be relatively small, the
 11 expenses and burden of individual litigation would make it difficult or impossible for individual
 12 members of the class to redress the wrongs done to them, while an important public interest will be
 13 served by addressing the matter as a class action.
 14
 15

16 95. Plaintiff is unaware of any difficulties that are likely to be encountered in the
 17 management of this action that would preclude its maintenance as a class action.

18 **PLAINTIFF'S FIRST CAUSE OF ACTION**

19 **(Violation of the Consumer Legal Remedies Act, California Civil Code § 1750, *et seq.*)**

20 ***On Behalf of Herself and the California Subclass***

21 96. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.

22 97. This cause of action is brought pursuant to California's Consumers Legal Remedies
 23 Act, Cal. Civ. Code § 1750, *et seq.* (the "CLRA").
 24

25 98. Defendant's actions, representations and conduct have violated, and continue to
 26 violate the CLRA, because they extend to transactions that are intended to result, or which have
 27 resulted, in the sale or lease of goods or services to consumers.
 28

1 99. Plaintiff and the other class members are “consumers,” as that term is defined by
2 California Civil Code § 1761(d), because they bought the Ulta Products for personal, family, or
3 household purposes.

4 100. The Products that Plaintiff (and others similarly situated class members) purchased
5 from Defendant were and are “goods” within the meaning of California Civil Code § 1761(a).
6

7 101. Defendant is a “person,” as defined by the CLRA in California Civil Code, section
8 1761(c).

9 102. Purchase of the Products by Plaintiff and members of the class are “transactions,” as
10 defined by the CLRA in California Civil Code, § 1761(e).

11 103. By engaging in the actions, representations and conduct set forth in this Complaint,
12 Defendant has violated, and continues to violate, § 1770(a)(5), § 1770(a)(7), and § 1770(a)(9) of the
13 CLRA. In violation of California Civil Code § 1770(a)(5), Defendant’s acts and practices constitute
14 improper representations that the goods it sells have sponsorship, approval, characteristics,
15 ingredients, uses, benefits, or quantities, which they do not have. In violation of California Civil
16 Code § 1770(a)(7), Defendant’s acts and practices constitute improper representations that the goods
17 it sells are of a particular standard, quality, or grade, when they are of another. In violation of
18 California Civil Code § 1770(a)(9), Defendant has advertised goods or services with intent not to
19 sell them as advertised. Specifically, in violation of §§ 1770(a)(5), (a)(7), and (a)(9), Defendant’s
20 acts and practices led customers to falsely believe that the Products are made with “Clean
21 Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™”, when they are not.
22

23 104. Defendant’s uniform and material misrepresentations and omissions regarding the
24 Products were likely to deceive the public. Defendant knew or should have known that its
25 misrepresentations and omissions were untrue and misleading.
26
27
28

1 105. Plaintiff and members of the class could not have reasonably avoided such injury.
2 Plaintiff and members of the class were unaware of the existence of the facts that Defendant
3 suppressed and failed to disclose; and Plaintiff and members of the class would not have purchased
4 the Products and/or would have purchased them on different terms had they known the truth.

5 106. Plaintiff and members of the class have been directly and proximately injured by
6 Defendant's conduct. Such injury includes, but is not limited to, the purchase price of the Products
7 and/or the premium paid for the Products.

8 107. Given that Defendant's conduct violated § 1770(a), Plaintiff requests that this Court
9 enjoin Defendant from continuing to employ the unlawful methods, acts and practices alleged herein
10 pursuant to California Civil Code § 1780(a)(2). If Defendant is not restrained from engaging in
11 these types of practices in the future, Plaintiff and the other members of the class will continue to
12 suffer harm.

13 108. CLRA § 1782 NOTICE. On April 1, 2025, Plaintiff provided Defendant with notice
14 and demand that within thirty (30) days from that date, Defendant correct, repair, replace or
15 otherwise rectify the unlawful, unfair, false and/or deceptive practices complained of herein.
16 Defendant failed to take any of the requested actions within thirty days. Plaintiff seeks, pursuant to
17 California Civil Code § 1780(a), on behalf of herself and those similarly situated members of the
18 Class, actual damages, punitive damages and restitution of any ill-gotten gains due to Defendant's
19 acts and practices. With regard to the amount of damages and restitution, Plaintiff seeks to recover
20 for herself and the Class a full refund of the price paid for the Products, or in the alternative, the
21 price premium paid for the Products, *i.e.*, difference between the price consumers paid for the
22 Products and the price that they would have paid but for Defendant's misrepresentation. This
23 premium can be determined by using econometric or statistical techniques such as hedonic
24 regression or conjoint analysis.

109. Plaintiff also requests that this Court award them costs and reasonable attorneys' fees pursuant to California Civil Code § 1780(d).

PLAINTIFF'S SECOND CAUSE OF ACTION

(False Advertising, Business and Professions Code § 17500, *et seq.* ("FAL"))

On Behalf of Herself and the California Subclass

110. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.

111. Beginning at an exact date unknown to Plaintiff, but within three (3) years preceding the filing of the Complaint, Defendant made untrue, false, deceptive and/or misleading statements in connection with the advertising and marketing of the Products.

112. Defendant made representations and statements (by omission and commission) that led reasonable consumers to believe the Products are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the use of specific ingredients that Ulta has determined are commonly associated with adverse health and/or environmental impacts when they do not. Defendant deceptively failed to inform Plaintiff, and those similarly situated, that the Products are made with ingredients prohibited by the "Made Without List™."

113. Plaintiff and those similarly situated relied to their detriment on Defendant's false, misleading and deceptive advertising and marketing practices, including each of the misrepresentations and omissions set forth above. Had Plaintiff and those similarly situated been adequately informed and not intentionally deceived by Defendant, they would have acted differently by, without limitation, refraining from purchasing the Products or paying less for them.

114. Defendant's acts and omissions are likely to deceive reasonable consumers and the general public.

115. Defendant engaged in these false, misleading and deceptive advertising and marketing practices to increase their profits. Accordingly, Defendant has engaged in false

1 advertising, as defined and prohibited by section 17500, *et seq.* of the California Business and
2 Professions Code.

3 116. The aforementioned practices, which Defendant has used, and continue to use, to its
4 significant financial gain, also constitute unlawful competition and provide an unlawful advantage
5 over Defendant's competitors as well as injury to the general public.

6
7 117. As a direct and proximate result of such actions, Plaintiff and the other members of
8 the Class have suffered, and continue to suffer, injury in fact and have lost money and/or property
9 as a result of such false, deceptive and misleading advertising in an amount which will be proven at
10 trial, but which is in excess of the jurisdictional minimum of this Court. In particular, Plaintiff, and
11 those similarly situated, paid a price premium for the Products, *i.e.*, the difference between the price
12 consumers paid for the Products and the price that they would have paid but for Defendant's
13 misrepresentation. This premium can be determined by using econometric or statistical techniques
14 such as hedonic regression or conjoint analysis. Alternatively, Plaintiff and those similarly situated
15 will seek a full refund of the price paid upon proof that the sale of the Products was unlawful.

16
17 118. Plaintiff seeks equitable relief, including restitution, with respect to her FAL claims.
18 Pursuant to Federal Rule of Civil Procedure 8(e)(2), Plaintiff makes the following allegations in this
19 paragraph only hypothetically and as an alternative to any contrary allegations in her causes of action
20 1, 3 and 4, in the event that such causes of action will not succeed. Plaintiff and the Class may be
21 unable to obtain monetary, declaratory and/or injunctive relief directly under causes of action 1, 3
22 and 4 and will lack an adequate remedy at law, if the Court requires her to show classwide reliance
23 and materiality beyond the objective reasonable consumer standard applied under the FAL, because
24 Plaintiff may not be able to establish each Class member's individualized understanding of
25 Defendant's misleading representations as described in paragraphs in this Complaint, but the FAL
26 does not require individualize proof of deception or injury by absent class members. *See, e.g., Ries*
27
28

1 v. *Ariz. Bevs. USA LLC*, 287 F.R.D. 523, 537 (N.D. Cal. 2012) (“restitutionary relief under the UCL
 2 and FAL ‘is available without individualized proof of deception, reliance, and injury.’”). In
 3 addition, Plaintiff and the Class may be unable to obtain such relief under causes of action 3 and 4
 4 and will lack an adequate remedy at law, if Plaintiff is unable to demonstrate the requisite mens rea
 5 (intent, reckless, and/or negligence), because the FAL imposes no such mens rea requirement and
 6 liability exists even if Defendant acted in good faith.
 7

8 119. Plaintiff seeks, on behalf of those similarly situated, a declaration that the above-
 9 described practices constitute false, misleading and deceptive advertising.

10 120. Plaintiff seeks, on behalf of those similarly situated, an injunction to prohibit the sale
 11 of the Products within a reasonable time after entry of judgment, unless marketing is modified to
 12 disclose the omitted facts about the ingredients in the Products. Such misconduct by Defendant,
 13 unless and until enjoined and restrained by order of this Court, will continue to cause injury in fact
 14 to the general public and the loss of money and property in that the Defendant will continue to
 15 violate the laws of California, unless specifically ordered to comply with the same. This expectation
 16 of future violations will require current and future consumers to repeatedly and continuously seek
 17 legal redress in order to recover monies paid to Defendant to which Defendant are not entitled.
 18 Plaintiff, those similarly situated and/or other consumers nationwide have no other adequate remedy
 19 at law to ensure future compliance with the California Business and Professions Code alleged to
 20 have been violated herein.
 21
 22

23 **PLAINTIFF’S THIRD CAUSE OF ACTION**

24 **(Fraud, Deceit and/or Misrepresentation)**

25 ***On Behalf of Herself and the Nationwide Class and, in the alternative, the California Subclass***

26 121. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.
 27
 28

1 Defendant fraudulently and deceptively led Plaintiff to believe that the Products are made with
2 “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™” which
3 prohibits the use of specific ingredients that Ulta has determined are commonly associated with
4 adverse health and/or environmental impacts when they are not. Defendant deceptively failed to
5 inform Plaintiff, and those similarly situated, that the Products are made with ingredients prohibited
6 by the “Made Without List™.”

8 122. These misrepresentations and omissions were material at the time they were made.
9 They concerned material facts that were essential to the analysis undertaken by Plaintiff as to
10 whether to purchase the Products.

11 123. Defendant made identical misrepresentations and omissions to members of the Class
12 regarding the Products.

13 124. Plaintiff and those similarly situated relied to their detriment on Defendant’s
14 fraudulent misrepresentations and omissions. Had Plaintiff and those similarly situated been
15 adequately informed and not intentionally deceived by Defendants, they would have acted
16 differently by, without limitation, not purchasing (or paying less for) the Products.

17 125. Defendant had a duty to inform class members at the time of their purchases that the
18 Products were not made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made
19 Without List™” and are made with ingredients prohibited by the “Made Without List™” that are
20 harmful to humans and the environment. Defendant omitted to provide this information to class
21 members. Class members relied to their detriment on Defendant’s omissions. These omissions were
22 material to the decisions of the class members to purchase the Products. In making these omissions,
23 Defendant breached its duty to class members. Defendant also gained financially from, and as a
24 result of, its breach.
25
26
27
28

126. By and through such fraud, deceit, misrepresentations and/or omissions, Defendant intended to induce Plaintiff, and those similarly situated, to alter their position to their detriment. Specifically, Defendant fraudulently and deceptively induced Plaintiff, and those similarly situated, to, without limitation, pay a premium to purchase the Products.

127. As a direct and proximate result of Defendant's misrepresentations and omissions, Plaintiff, and those similarly situated, have suffered damages. In particular, Plaintiff seeks to recover on behalf of herself and those similarly situated the price premium paid for the Products, *i.e.*, the difference between the price consumers paid for the Products and the price that they would have paid but for Defendant's misrepresentation. This premium can be determined by using econometric or statistical techniques such as hedonic regression or conjoint analysis.

128. Defendant's conduct as described herein was willful and malicious and was designed to maximize Defendant's profits even though Defendants knew that it would cause loss and harm to Plaintiff and those similarly situated.

PLAINTIFF'S FOURTH CAUSE OF ACTION

(Negligent Misrepresentation)

On Behalf of Herself and the Nationwide Class and, in the alternative, the California Subclass

129. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.

130. Defendant provided false and misleading information regarding the Products, representing that the Products are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the use of specific ingredients that Ulta has determined are commonly associated with adverse health and/or environmental impacts.

131. These representations were material at the time they were made. They concerned material facts that were essential to the analysis undertaken by Plaintiff as to whether to purchase the Products.

1 132. Defendant made identical misrepresentations and omissions to members of the Class
2 regarding the Products.

3 133. Defendant's representations regarding the Products are material to a reasonable
4 consumer because they relate to the composition of the Products purchased by consumers. A
5 reasonable consumer would attach importance to such representations and would be induced to act
6 thereon in making purchase decisions.

7
8 134. At all relevant times, Defendant should have known its representations to be false
9 and had no reasonable grounds for believing them to be true when they were made. Defendant had
10 no reasonable grounds for believing its representations were not false and misleading.

11 135. By and through such negligent misrepresentations, Defendant intended to induce
12 Plaintiff and those similarly situated to alter their position to their detriment. Specifically,
13 Defendant negligently induced Plaintiff, and those similarly situated to, without limitation, to
14 purchase the Products.

15
16 136. Plaintiff and those similarly situated relied to their detriment on Defendant's
17 negligent misrepresentations. Had Plaintiff and those similarly situated been adequately informed
18 and not intentionally deceived by Defendant, they would have acted differently by, without
19 limitation, not purchasing (or paying less for) the Products.

20 137. Therefore, as a direct and proximate result of Defendant's negligent
21 misrepresentations, Plaintiff and those similarly situated have suffered damages. In particular,
22 Plaintiff seeks to recover on behalf of herself and those similarly situated the price premium paid
23 for the Products, *i.e.*, the difference between the price consumers paid for the Products and the price
24 that they would have paid but for Defendant's misrepresentation. This premium can be determined
25 by using econometric or statistical techniques such as hedonic regression or conjoint analysis.
26
27
28

PLAINTIFF'S FIFTH CAUSE OF ACTION

(Unlawful Acts, Business and Professions Code § 17200, *et seq.*)

On Behalf of Herself and the California Subclass

138. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.

139. The violation of any law constitutes an unlawful business practice under Cal. Bus. & Prof. Code § 17200.

140. Defendant's conduct violates California Cal. Bus. & Prof. Code § 17500, which prohibits knowingly making, by means of any advertising device or otherwise, any untrue or misleading statement with the intent to sell a product or to induce the public to purchase a product. By misrepresenting that the Products are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the use of ingredients that are commonly associated with adverse health and/or environmental impacts, Defendant is violating Cal. Bus. & Prof. Code § 17500.

141. Defendant's conduct also violates EMCA, Cal. Bus. & Prof. Code § 17580.5, which makes it unlawful for any person to make any untruthful, deceptive, or misleading environmental marketing claim. Pursuant to § 17580.5, the term "environmental marketing claim" includes any claim contained in the Green Guides. 16 C.F.R. § 260.1, *et seq.* Under the Green Guides, "[i]t is deceptive to misrepresent, directly or by implication, that a product, package, or service offers a general environmental benefit." 16 C.F.R. § 260.4(a). By misrepresenting that the Products are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the use of ingredients that are commonly associated with adverse health and/or environmental impacts. as described above, Defendant is violating Cal. Bus. & Prof. Code § 17580.5.

1 142. Defendant's conduct further violates EMCA, Cal. Bus. & Prof. Code § 17580(a),
2 which makes it unlawful for any person to make any unsubstantiated environmental marketing
3 claim. Pursuant to Cal. Bus. & Prof. Code § 17580(a), "Any person who represents in advertising
4 or on the label or container of a consumer good that the consumer good that it manufactures or
5 distributes is not harmful to, or is beneficial to, the natural environment, through use of such terms
6 as 'environmental choice,' 'ecologically friendly,' 'earth friendly,' 'environmentally friendly,'
7 'ecologically sound,' 'environmentally sound,' 'environmentally safe,' 'ecologically safe,'
8 'environmentally lite,' 'green product,' or any other like term, or through the use of a chasing arrows
9 symbol or by otherwise directing a consumer to recycle the consumer good, shall maintain in written
10 form in its records...information and documentation supporting the validity of the representation."
11 Cal. Bus. & Prof. Code § 17580(a). EMCA specifically requires companies to maintain the
12 following records in written form supporting the validity of their recyclable representations: (1) the
13 reasons why a company believes the representation to be true; (2) any significant adverse
14 environmental impacts directly associated with the production, distribution, use, and disposal of the
15 consumer good; (3) any measures that are taken by the company to reduce the environmental
16 impacts directly associated with the production, distribution, and disposal of the consumer good;
17 and (4) violations of any federal, state, or local permits directly associated with the production or
18 distribution of the consumer good. *Id.*, § 17580(a)(1)-(4). The California Legislature declared its
19 intent that the information and documentation supporting the validity of any environmental
20 marketing claims shall be fully disclosed to the public, and information and documentation
21 maintained pursuant to Cal. Bus. & Prof. Code § 17580 must be furnished to any member of the
22 public upon request. *Id.*, § 17580(b), (d).

23
24 143. The Green Guides also require marketers to ensure that their claims are supported by
25 a reasonable basis prior to making the claim. 16 C.F.R. § 260.2. A reasonable basis is defined as
26
27
28

1 competent and reliable scientific evidence, such as “tests, analyses, research, or studies that have
2 been conducted and evaluated in an objective manner by qualified persons and are generally
3 accepted in the profession to yield accurate and reliable results.” *Id.* “Such evidence should be
4 sufficient in quality and quantity based on standards generally accepted in the relevant scientific
5 fields, when considered in light of the entire body of relevant and reliable scientific evidence, to
6 substantiate that each of the marketing claims is true.” *Id.*

8 144. Defendant’s conduct also violates Section 5 of the Federal Trade Commission Act
9 (“FTC Act”), 15 U.S.C. § 45, which prohibits unfair methods of competition and unfair or deceptive
10 acts or practices in or effecting commerce. By misrepresenting that the Products are made with
11 “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™” which
12 prohibits the use of specific ingredients that Ulta has determined are commonly associated with
13 adverse health and/or environmental impacts, Defendant is violating Section 5 of the FTC Act.

14 145. As detailed more fully elsewhere herein, Defendant’s acts and practices were
15 intended to and did result in the sale of the Products in violation of the CLRA, California Civil Code
16 §1750, *et seq.*, and specifically California Civil Code §§ 1770(a)(5), § 1770(a)(7), and § 1770(a)(9).

17 146. By violating the laws enumerated above, Defendant has engaged in unlawful
18 business acts and practices which constitute unfair competition within the meaning of Cal. Bus. &
19 Prof. Code § 17200.
20

21 147. Plaintiff has no adequate remedy at law for the injuries currently being suffered as
22 an award of monetary damages would not prohibit Defendant’s unlawful marketing, advertising,
23 sale, and distribution of the Products in California. If an injunction is not granted, Plaintiff will
24 suffer irreparable injury because she continues to desire to purchase Products from Defendant in the
25 future that are made with “Clean Ingredients” free from ingredients that are commonly associated
26 with adverse health and/or environmental impacts but is unable to determine with confidence
27
28

1 whether the Products are made with “Clean Ingredients” free from ingredients that are commonly
2 associated with adverse health and/or environmental impacts. In addition, adverse environmental
3 impacts caused by Defendant’s marketing, advertising, and sale of the Products in California will
4 continue to negatively harm California waters, coasts, communities, and marine life. Thus, Plaintiff
5 and the Class seek an order enjoining Defendant’s acts of unlawful, unfair, and deceptive acts and
6 practices in California, which serves the public interest by protecting the environment by preventing
7 Defendant from gaining an unfair advantage over companies that lawfully sell their products as free
8 from ingredients that are commonly associated with adverse health and/or environmental impacts.
9 In addition, Plaintiff and the Class seek restitution to the individual victims of Defendant’s unlawful,
10 unfair, and deceptive practices.
11

12 148. Plaintiff purchased the Products because she believed the Products as marketed,
13 advertised, and sold by Defendant complied with the law. If Plaintiff had known that the Products
14 were not made with “Clean Ingredients” free from ingredients that are commonly associated with
15 adverse health and/or environmental impacts in California, she would not have purchased the
16 Products and would have instead sought out other comparable products that are made with
17 ingredients that are not harmful to humans and/or the environment or would not have paid as much
18 as she did for the Products. Plaintiff purchased the Products based on a belief that Defendant’s
19 marketing, advertising, and sale of the Products complied with its legal obligations under California
20 law and in reliance on Defendant’s representations that the Products are made with “Clean
21 Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™” which prohibits the
22 use of ingredients that are commonly associated with adverse health and/or environmental impacts.
23 Defendant’s claims that the Products are made with “Clean Ingredients” that excludes ingredients
24 on Ulta Beauty’s “Made Without List™” which prohibits the use of ingredients that are commonly
25 associated with adverse health and/or environmental impacts. are material, untrue, and misleading.
26
27
28

1 These “Clean Ingredients” claims are uniform and prominent in the marketing, advertising, and sale
2 of the Products.

3 149. An action for injunctive relief and restitution is specifically authorized under Cal.
4 Bus. & Prof. Code § 17203.

5 150. Plaintiff also seeks equitable relief, including restitution, with respect to her UCL
6 unlawfulness claims. Pursuant to Federal Rule of Civil Procedure 8(e)(2), Plaintiff makes the
7 following allegations in this paragraph only hypothetically and as an alternative to any contrary
8 allegations in her causes of action 1, 3 and 4, in the event that such causes of action will not succeed.
9 Plaintiff and the Class may be unable to obtain monetary, declaratory and/or injunctive relief directly
10 under causes of action 1, 3 and 4 and will lack an adequate remedy of law, if the Court requires her
11 to show classwide reliance and materiality beyond the objective reasonable consumer standard
12 applied under the UCL, because Plaintiff may not be able to establish each Class member’s
13 individualized understanding of Defendants’ misleading representations as described in this
14 Complaint, but the UCL does not require individualized proof of deception or injury by absent class
15 members. *See, e.g., Stearns v Ticketmaster*, 655 F.3d 1013, 1020, 1023-25 (9th Cir. 2011)
16 (distinguishing, for purposes of CLRA claim, among class members for whom website
17 representations may have been materially deficient, but requiring certification of UCL claim for
18 entire class). In addition, Plaintiff and the Class may be unable to obtain such relief under causes
19 of action 3 and 4 and will lack an adequate remedy at law, if Plaintiff is unable to demonstrate the
20 requisite mens rea (intent, reckless, and/or negligence), because the UCL imposes no such mens rea
21 requirement and liability exists even if Defendants acted in good faith.
22
23
24
25
26
27
28

PLAINTIFF’S SIXTH CAUSE OF ACTION

(Fraudulent Acts and Practices, Business and Professions Code § 17200, *et seq.*)

On Behalf of Herself and the California Subclass

151. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.

152. Under Cal. Bus. & Prof. Code § 17200, any business act or practice that is likely to deceive members of the public constitutes a fraudulent business act or practice.

153. Defendant has engaged and continues to engage in conduct that is likely to deceive members of the public. This conduct includes, but is not limited to, representing that the Products are that the Products are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™”, when they are not.

154. Plaintiff has no adequate remedy at law for the injuries currently being suffered as an award of monetary damages would not prohibit Defendant’s unlawful marketing, advertising, sale, and distribution of the Products in California. If an injunction is not granted, Plaintiff will suffer irreparable injury because she continues to desire to purchase Products from Defendant in the future that are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™” which prohibits the use of ingredients that are commonly associated with adverse health and/or environmental impacts but is unable to determine with confidence whether the Products are made with “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™”. In addition, adverse environmental impact caused by Defendant’s marketing, advertising, and sale of the Products in California will continue to negatively harm California waters, coasts, communities, and marine life. Thus, Plaintiff and the Class seek an order enjoining Defendant’s acts of unlawful, unfair, and deceptive acts and practices in California, which serves the public interest by protecting the environment and by preventing Defendant from gaining an unfair advantage over companies that lawfully sell their products as made with clean ingredients

1 that do not have adverse health and/or environmental impacts. In addition, Plaintiff and the Class
2 seek restitution to the individual victims of Defendant's unlawful, unfair, and deceptive practices.

3 155. Plaintiff purchased the Products because she believed the Products as marketed,
4 advertised, and sold by Defendant complied with the law. If Plaintiff had known that the Products
5 were not made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without
6 List™" which prohibits the use of ingredients that are commonly associated with adverse health
7 and/or environmental impacts, she would not have purchased the Products and would have instead
8 sought out other comparable products that are otherwise made with clean ingredients that are not
9 commonly associated with adverse health and/or environmental impacts or would not have paid as
10 much as she did for the Products. Plaintiff purchased the Products based on a belief that Defendant's
11 marketing, advertising, and sale of the Products complied with its legal obligations under California
12 law and in reliance on Defendant's representations that the Products are made with "Clean
13 Ingredients" that excludes ingredients on Ulta Beauty's "Made Without List™" which prohibits the
14 use of ingredients that are commonly associated with adverse health and/or environmental impacts.
15 Defendant's claims that the Products are made with "Clean Ingredients" that excludes ingredients
16 on Ulta Beauty's "Made Without List™" are material, untrue, and misleading. These "Clean
17 Ingredients" claims are uniform and prominent in the marketing, advertising, and sale of the
18 Products.
19

20
21
22 156. By committing the acts alleged above, Defendant has engaged in fraudulent business
23 acts and practices, which constitute unfair competition within the meaning of Cal. Bus. & Prof. Code
24 § 17200.

25 157. An action for injunctive relief and restitution is specifically authorized under Cal.
26 Bus. & Prof. Code § 17203.
27
28

158. Plaintiff also seeks equitable relief, including restitution, with respect to her UCL fraudulent acts and practices claims. Pursuant to Federal Rule of Civil Procedure 8(e)(2), Plaintiff makes the following allegations in this paragraph only hypothetically and as an alternative to any contrary allegations in her causes of action 1, 3 and 4, in the event that such causes of action will not succeed. Plaintiff and the Class may be unable to obtain monetary, declaratory and/or injunctive relief directly under causes of action 1, 3 and 4 and will lack an adequate remedy of law, if the Court requires her to show classwide reliance and materiality beyond the objective reasonable consumer standard applied under the UCL, because Plaintiff may not be able to establish each Class member's individualized understanding of Defendants' misleading representations as described in this Complaint, but the UCL does not require individualized proof of deception or injury by absent class members. *See, e.g., Stearns v Ticketmaster*, 655 F.3d 1013, 1020, 1023-25 (9th Cir. 2011) (distinguishing, for purposes of CLRA claim, among class members for whom website representations may have been materially deficient, but requiring certification of UCL claim for entire class). In addition, Plaintiff and the Class may be unable to obtain such relief under causes of action 3 and 4 and will lack an adequate remedy at law, if Plaintiff is unable to demonstrate the requisite mens rea (intent, reckless, and/or negligence), because the UCL imposes no such mens rea requirement and liability exists even if Defendants acted in good faith.

PLAINTIFF'S SEVENTH CAUSE OF ACTION

(Unfair Acts and Practices, Business and Professions Code § 17200, et seq.)

On Behalf of Herself and the California Subclass

159. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.

160. Under California Cal. Bus. & Prof. Code § 17200, any business act or practice that is unethical, oppressive, unscrupulous, or substantially injurious to consumers, or that violates a legislatively declared policy, constitutes an unfair business act or practice.

1 161. Defendant has engaged and continues to engage in conduct which is immoral,
2 unethical, oppressive, unscrupulous, and substantially injurious to consumers. This conduct
3 includes, but is not limited to, unlawfully marketing, advertising, and selling the Products,
4 representing that the Products are made with “Clean Ingredients” that excludes ingredients on Ulta
5 Beauty’s “Made Without List™” which prohibits the use of ingredients that are commonly
6 associated with adverse health and/or environmental impacts when they are not, and failing to
7 substantiate the environmental benefits of the Products. By illegally marketing, advertising, and
8 selling the Products, and by taking advantage of consumers concerned about the adverse health and
9 environmental impacts of cosmetic ingredients, Defendant’s conduct far outweighs the utility, if
10 any, of such conduct.
11

12 162. Defendant’s conduct violates the policy of EMCA and the Green Guides. The Green
13 Guides mandate that “[i]t is deceptive to misrepresent, directly or by implication, that a product,
14 package, or service offers a general environmental benefit.” 16 C.F.R. § 260.4(a). EMCA states
15 that “it is unlawful for any person to make any untruthful, deceptive, or misleading environmental
16 marketing claim, whether explicit or implied. For the purpose of this section, environmental
17 marketing claims shall include any claims contained in the Guides for the use of Environmental
18 Marketing Claims published by the Federal Trade Commission.” Cal. Bus. & Prof. Code § 17580.5.
19 As explained above, the Products are not made with “Clean Ingredients” because they contain a
20 litany of ingredients prohibited by Ulta Beauty’s “Made Without List™” that are commonly
21 associated with adverse health and/or environmental impacts, and it is therefore unfair for Defendant
22 to make this clean ingredient claim. Taking advantage of consumer perception of clean ingredients
23 that do not have environmental impacts violates the policy of the Green Guides and EMCA.
24

25 163. Defendant’s conduct also violates the policy of substantiation policy of EMCA.
26 Under EMCA, “Any person who represents in advertising or on the label or container of a consumer
27
28

1 good that the consumer good that it manufactures or distributes is not harmful to, or is beneficial to,
2 the natural environment, through use of such terms as ‘environmental choice,’ ‘ecologically
3 friendly,’ ‘earth friendly,’ ‘environmentally friendly,’ ‘ecologically sound,’ ‘environmentally
4 sound,’ ‘environmentally safe,’ ‘ecologically safe,’ ‘environmentally lite,’ ‘green product,’ or any
5 other like term, or through the use of a chasing arrows symbol or by otherwise directing a consumer
6 to recycle the consumer good, shall maintain in written form in its records...information and
7 documentation supporting the validity of the representation.” Cal. Bus. & Prof. Code § 17580(a).
8 The California Legislature declared its intent that the information and documentation supporting the
9 validity of any environmental marketing claims shall be fully disclosed to the public, and
10 information and documentation maintained pursuant to Cal. Bus. & Prof. Code § 17580 must be
11 furnished to any member of the public upon request. *Id.*, § 17580(b), (d).
12

13 164. Defendant’s conduct also violates the substantiation policy of the Green Guides. The
14 Green Guides require marketers to ensure that their claims are supported by a reasonable basis prior
15 to making the claim. 16 C.F.R. § 260.2. A reasonable basis is defined as competent and reliable
16 scientific evidence, such as “tests, analyses, research, or studies that have been conducted and
17 evaluated in an objective manner by qualified persons and are generally accepted in the profession
18 to yield accurate and reliable results.” *Id.* “Such evidence should be sufficient in quality and
19 quantity based on standards generally accepted in the relevant scientific fields, when considered in
20 light of the entire body of relevant and reliable scientific evidence, to substantiate that each of the
21 marketing claims is true.” *Id.* It is unfair for Defendant to represent that the Products are made with
22 “Clean Ingredients” that excludes ingredients on Ulta Beauty’s “Made Without List™” which
23 prohibits the use of ingredients that are commonly associated with adverse health and/or
24 environmental impacts without a reasonable basis.
25
26
27
28

1 165. By committing the acts alleged above, Defendant has engaged in unfair business acts
2 and practices which constitute unfair competition within the meaning of California Cal. Bus. & Prof.
3 Code § 17200.

4 166. Plaintiff has no adequate remedy at law for the injuries currently being suffered as
5 an award of monetary damages would not prohibit Defendant's unlawful marketing, advertising,
6 sale, and distribution of the Products in California. If an injunction is not granted, Plaintiff will
7 suffer irreparable injury because she continues to desire to purchase Products from Defendant in the
8 future that are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made
9 Without List™" which prohibits the use of ingredients that are commonly associated with adverse
10 health and/or environmental impacts but is unable to determine with confidence whether the
11 Products are made with clean ingredients. In addition, the environmental impact caused by
12 Defendant's marketing, advertising, and sale of the Products in California will continue to
13 negatively harm California waters, coasts, communities, and marine life. Thus, Plaintiff and the
14 Class seek an order enjoining Defendant's acts of unlawful, unfair, and deceptive acts and practices
15 in California, which serves the public interest by protecting the environment and by preventing
16 Defendant from gaining an unfair advantage over companies that lawfully sell their products as
17 made with clean ingredients that do not negatively impact the environment. In addition, Plaintiff
18 and the Class seek restitution to the individual victims of Defendant's unlawful, unfair, and
19 deceptive practices.
20
21
22

23 167. Plaintiff purchased the Products because she believed the Products as marketed,
24 advertised, and sold by Defendant complied with the law. If Plaintiff had known that the Products
25 were not made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made Without
26 List™" which prohibits the use of ingredients that are commonly associated with adverse health
27 and/or environmental impacts, she would not have purchased the Products and would have instead
28

1 sought out other comparable products that are otherwise made with clean ingredients that do not
2 have adverse health and/or environmental impacts, or would not have paid as much as she did for
3 the Products. Plaintiff purchased the Products based on a belief that Defendant's marketing,
4 advertising, and sale of the Products complied with its legal obligations under California law and in
5 reliance on Defendant's representations that the Products are made with "Clean Ingredients" that
6 excludes ingredients on Ulta Beauty's "Made Without List™." Defendant's claims that the
7 Products are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made
8 Without List™" which prohibits the use of ingredients that are commonly associated with adverse
9 health and/or environmental impacts are material, untrue, and misleading. These "Clean
10 Ingredients" claims are uniform and prominent in the marketing, advertising, and sale of the
11 Products.
12

13
14 168. By committing the acts alleged above, Defendant has engaged in fraudulent business
15 acts and practices, which constitute unfair competition within the meaning of Cal. Bus. & Prof. Code
16 § 17200.

17 169. An action for injunctive relief and restitution is specifically authorized under Cal.
18 Bus. & Prof. Code § 17203.

19 170. Plaintiff also seeks equitable relief, including restitution, with respect to her UCL
20 unfair acts and practices claims. Pursuant to Federal Rule of Civil Procedure 8(e)(2), Plaintiff makes
21 the following allegations in this paragraph only hypothetically and as an alternative to any contrary
22 allegations in her causes of action 1, 3 and 4, in the event that such causes of action will not succeed.
23 Plaintiff and the Class may be unable to obtain monetary, declaratory and/or injunctive relief directly
24 under causes of action 1, 3 and 4 and will lack an adequate remedy of law, if the Court requires her
25 to show classwide reliance and materiality beyond the objective reasonable consumer standard
26 applied under the UCL, because Plaintiff may not be able to establish each Class member's
27
28

1 individualized understanding of Defendants' misleading representations as described in this
 2 Complaint, but the UCL does not require individualized proof of deception or injury by absent class
 3 members. *See, e.g., Stearns v Ticketmaster*, 655 F.3d 1013, 1020, 1023-25 (9th Cir. 2011)
 4 (distinguishing, for purposes of CLRA claim, among class members for whom website
 5 representations may have been materially deficient, but requiring certification of UCL claim for
 6 entire class). In addition, Plaintiff and the Class may be unable to obtain such relief under causes
 7 of action 3 and 4 and will lack an adequate remedy at law, if Plaintiff is unable to demonstrate the
 8 requisite mens rea (intent, reckless, and/or negligence), because the UCL imposes no such mens rea
 9 requirement and liability exists even if Defendants acted in good faith.

11 **PLAINTIFF'S EIGHTH CAUSE OF ACTION**

12 **(Unjust Enrichment)**

13 ***On Behalf of Herself and the Nationwide Class and, in the alternative, the California Subclass***

14 171. Plaintiff incorporates by reference and re-alleges herein all paragraphs alleged above.

15 172. At all times relevant hereto, Defendant deceptively marketed, advertised, and sold
 16 merchandise to Plaintiffs and the Classes.

17 173. Plaintiff and the Class members conferred benefits on Defendant by purchasing the
 18 Products.

19 174. Plaintiffs and members of the Classes conferred upon Defendant non-gratuitous
 20 payments for the Products that they would not have if not for Defendant's deceptive advertising and
 21 marketing. Defendant accepted or retained the non-gratuitous benefits conferred by Plaintiffs and
 22 members of the Classes, with full knowledge and awareness that, as a result of Defendant's
 23 deception, Plaintiffs and members of the Class were not receiving a product of the quality, nature,
 24 fitness, or value that had been represented by Defendant and reasonable consumers would have
 25 expected.
 26
 27
 28

1 175. Defendant voluntarily accepted and retained the benefits conferred.

2 176. Defendant has been unjustly enriched in retaining the revenues derived from
3 Plaintiff's and the Class members' purchases of the Products.

4 177. Retention of that money under these circumstances is unjust and inequitable because
5 Defendant falsely and misleadingly represented through its advertising and marketing materials that
6 the Products are made with "Clean Ingredients" that excludes ingredients on Ulta Beauty's "Made
7 Without List™" which prohibits the use of ingredients that are commonly associated with adverse
8 health and/or environmental impacts, when the Products are not in fact made with "Clean
9 Ingredients" excluded by Ulta Beauty's "Made Without List™."

10 178. These misrepresentations and omissions caused injuries to Plaintiff and the Class
11 members because they would not have purchased the Products, or would not have paid as much for
12 the Products, had they known that the Products are not made with "Clean Ingredients" that excludes
13 ingredients on Ulta Beauty's "Made Without List™".

14 179. Because Defendant's retention of the non-gratuitous benefits conferred to it by
15 Plaintiff and the Class members is unjust and inequitable, Defendant ought to pay restitution to
16 Plaintiff and the Class members for its unjust enrichment.

17 180. As a direct and proximate result of Defendant's unjust enrichment, Plaintiff and the
18 Class members are entitled to restitution or disgorgement in an amount to be proved at trial.

19
20
21 **PRAYER FOR RELIEF**

22 WHEREFORE, Plaintiff, on behalf of herself and those similarly situated, respectfully
23 request that the Court enter judgment against Defendant as follows:

- 24 a. Certification of the proposed Class, including appointment of Plaintiff's counsel as
25 class counsel;
26
27
28

- b. An order declaring the Defendant's conduct violates the statutes and laws referenced herein;
- c. An order finding in favor of Plaintiff and the Class on all counts asserted herein;
- d. An order temporarily and permanently enjoining Defendant from continuing the unlawful, deceptive, fraudulent, and unfair business practices alleged in this Complaint;
- e. An order requiring Defendant to immediately cease and desist from selling its misbranded Products in violation of law; enjoining Defendant from continuing to label, market, advertise, distribute, and sell the Products in the unlawful manner described herein; and order Defendant to engage in corrective action;
- f. An award of compensatory damages in an amount to be determined at trial;
- g. An award of statutory damages in an amount to be determined at trial;
- h. An award of punitive damages in an amount to be determined at trial;
- i. An award of treble damages;
- j. An award of restitution in an amount to be determined at trial;
- k. An order requiring Defendant to undertake a corrective advertising campaign;
- l. An order requiring Defendant to pay both pre- and post-judgment interest on any amounts awarded;
- m. For injunctive relief as pleaded or as the Court may deem proper;
- n. For reasonable attorney's fees and the costs of suit incurred; and
- o. For such further relief as this Court may deem just and proper.

JURY DEMAND

Plaintiff hereby demands a trial by jury of all claims in this action.

Dated: July 15, 2025

Respectfully submitted,

MORRIS LAW

James A. Morris, Esq.
Shane A. Greenberg, Esq.
