Care in Every Drop

Every cup starts with nature's finest tea leaves and the people growing, tending, and harvesting them. Our Sourced with Care program works with tea-growing communities to support incomes, improve living standards, and empower women through healthcare and equal access to opportunities.

We also collaborate with others in the tea sector, through supporting the Ethical Tea Partnership's work to create a fairer, more sustainable tea industry for tea workers, farmers and their families, as well as the environment.

We are a member of
Ethical Tea Partnership
