Attorneys for Plaintiffs and the Putative Class

**UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF CALIFORNIA**

NATALIE GIANNE and LAURA
WILLIS ALBRIGO, on behalf of
themselves and all others similarly
situated,

Plaintiffs,

v.

THE CAMPBELL'S COMPANY d/b/a
KETTLE BRAND,

Defendant.

Case No: **'26CV5306 AJB VET**

CLASS ACTION COMPLAINT

[DEMAND FOR JURY TRIAL]

1 Plaintiffs Natalie Gianne and Laura Willis Albrigo (“Plaintiffs”), on behalf of
2 themselves and all other similarly situated, complain and allege based upon, among other
3 things, their investigation made by and through their attorneys as follows:

4 **NATURE OF THE ACTION**

5 1. Defendant The Campbell’s Company d/b/a Kettle Brand (“Kettle Brand” or
6 “Defendant”) manufactures, labels, advertises, markets, and sells its “Apple Cider Vinegar
7 Chips Made with Avocado Oil” and “Sea Salt with a Hint of Peppercorn Chips Made with
8 Avocado Oil” (the “Products”) online and at supermarkets throughout the country.
9 Plaintiffs’ instant putative class action complaint alleges that Kettle Brand falsely and
10 deceptively misrepresents to consumers that its Products are “MADE WITH AVOCADO
11 OIL,” which is unequivocally and verifiably untrue, and instead, contain undisclosed seed
12 oils that are not identified on its Products’ labels.

13 2. Defendant prominently represents, front and center of its Products’ packaging,
14 that the Products are “MADE WITH AVOCADO OIL” and doubles down on this
15 affirmative misrepresentation on the back of the Products’ packaging, wherein the
16 ingredients list confirms that “avocado oil” is supposedly the only oil content in the
17 Products.

18 3. Defendant’s strategy to create a Product line proudly bearing “MADE WITH
19 AVOCADO OIL” label for sale in the health food marketplace is not accidental. The recent
20 desire for consumers to seek out avocado oil- and olive oil-containing cooking oils in lieu
21 of the wide array of cheap seed oils is due to the rising awareness of the negative health
22 effects associated with consuming seed oils, which include fueling chronic inflammation
23 that leads to the onset of a host of diseases. Accordingly, consumers, when presented with
24 a choice, elect to pay a premium for products containing avocado oil instead—a healthier
25 whole-food alternative to highly refined seed oils given its richness in antioxidants and
26 healthy fats and stable performance in high-heat cooking.

27 4. However, Kettle Brand’s advertising and marketing campaign is false,
28 deceptive, and misleading because, unbeknownst to Plaintiffs and reasonable consumers,

its Products are not made with authentic avocado oil, but instead, made with cheap, inflammatory seed oils—the very oils that consumers intentionally pay a premium to avoid.

5. Indeed, in July 2026, in the latest study in the series of findings on the authenticity of avocado oil, researchers at the University of California, Davis (“UC Davis”) Department of Food Science and Technology published a peer-reviewed study in the journal *Applied Food Research* which found 89% of avocado oil-labeled chips, mayonnaises, and dressings were adulterated with cheaper, undisclosed seed oils.¹ Specifically, the UC Davis team tested two separate lots of each of Kettle Brand’s Products for consistency and found that the Products had established compositional profiles—fatty acids and plant sterol markers—that were ***inconsistent with authentic avocado oil***. Instead, the study revealed that Defendant’s Products contained the compositional profiles consistent with lower-cost refined oils, such as canola, corn, soybean, and/or sunflower oil.

6. In other words—at the very least—Kettle Brand’s Products contained exponentially more seed oils than the sole avocado oil ingredient as represented by Defendant—and at most—the oil present in Kettle Brand’s Products was fundamentally different on a DNA-level from authentic avocado oil such that it cannot be said to contain any authentic avocado oil at all.

7. Plaintiffs and those similarly situated Class Members relied to their detriment on Defendant’s misrepresentations and omissions that its Products were in fact “MADE WITH AVOCADO OIL” when deciding to purchase the Products. Plaintiffs and Class Members would not have purchased the Products absent Defendant’s misrepresentations and omissions regarding the composition of the Products. As a result of Defendant’s deceptive conduct, Plaintiffs and Class Members have suffered monetary damages as a

¹ Natalie Lopez-Alvarez, Xueqi Li, Benjamin Vizgordiski & Selina C. Wang, *Authenticity of avocado and olive oils used as ingredients in commercially processed foods*, 6 *Applied Food Research* 102389 (2026), <https://doi.org/10.1016/j.afres.2026.102389> (last accessed, September 2, 2026) (hereinafter referred to as “the UC Davis Study”).

1 result of Defendant's false and misleading advertising.

2 **PARTIES**

3 8. Plaintiff Natalie Gianne is a resident and citizen of Los Angeles, California.

4 9. Plaintiff Laura Willis Albrigo is a resident and citizen of San Diego,
5 California.

6 10. Defendant The Campbell's Company, doing business as Kettle Brand, is a
7 New Jersey corporation with its headquarters in Camden, New Jersey.

8 **JURISDICTION AND VENUE**

9 11. This Court has original jurisdiction over the action under the Class Action
10 Fairness Act ("CAFA") of 2005. Pursuant to 28 U.S.C. §§ 1332(d)(2) and (6), this Court
11 has original jurisdiction because the aggregate claims of the putative class members exceed
12 \$5 million, exclusive of interests and costs, and at least one member of the proposed classes
13 is a citizen of a different state than Kettle Brand.

14 12. This Court has personal jurisdiction over Kettle Brand because it purposefully
15 directed its activities in this District, committed the wrongful acts alleged herein in
16 California, regularly conducts business in this District, and has extensive contacts with this
17 forum.

18 13. Venue is proper in this District pursuant to 28 U.S.C. § 1391 because a
19 substantial part of the events giving rise to the claims occurred in this District, and Kettle
20 Brand regularly conducts business in this District.

21 **FACTUAL BACKGROUND AND COMMON GENERAL ALLEGATIONS**

22 **I. Avocado Oil as a Healthy Alternative to Industrially Processed Seed Oils**

23 14. Avocado oil, like olive oil, is widely renowned as a "premium" cooking oil
24 used in processed snack food products, salad dressings, and mayonnaises. Health-
25 conscious consumers gravitate towards avocado oil-containing products over industrial
26
27
28

seed oils for a variety of reasons,² including its production method of direct extraction from the fruit pulp; its nutrient dense composition rich in healthy monounsaturated fats and antioxidants; and its higher smoke point that makes it ideal for high-heat cooking without harmful oxidation.³ Studies have found avocado oil helps regulate blood lipid levels by lowering LDL cholesterol and protecting HDL cholesterol, lowers blood pressure, reduces the risk of diabetes, and fights free radical damage to reduce oxidative stress and prevent chronic diseases.⁴

15. Seed oils, on the other hand, are far inferior. For example, seed oils are industrially-produced via mechanical pressing of the seeds or by solvent extraction, and then heavily refined often times with harsh bleaching and deodorizing chemicals.⁵ These heavy industrial processes create oxidative stress in the body once consumed, produce toxins that damage cells, and fuel systemic inflammation.⁶ What's more, seed oils contain high levels of linoleic acid, an omega-6 polyunsaturated fat ("PUFA"), which is most responsible for the proliferation of chronic diseases including heart disease, obesity,

1 Alzheimer's disease, and cancer.⁷

2 16. For these reasons, it is no surprise that consumers searching for healthier
3 alternatives to seed oils consider products with avocado-oil containing representations to
4 be material to their purchasing decisions.

5 17. The UC Davis Study observed that consumers pay a premium for avocado oil
6 or olive oil labeled products in lieu of their seed oil counterparts, as the former "generally
7 commanded higher retail prices than comparable products formulated with vegetable oils."
8 For example, "[c]hips labeled with avocado oil ranged from \$0.30-2.00 per ounce,
9 compared with \$0.43-1.70 for olive oil chips and \$0.44-0.62 for vegetable oil chips."⁸

10 18. As lead author of the UC Davis Study, Professor Selina Wang observed:
11 "Consumers are increasingly paying a premium for products made with avocado oil" and
12 "[t]hey deserve to get what they pay for[.]"⁹

13 **II. Kettle Brand's Advertising and Marketing of its Products**

14 19. Kettle Brand manufactures, labels, markets, advertises, and sells a variety of
15 potato chips online, as well as in major grocery retailers like Walmart, Whole Foods
16 Market, and Ralphs, including the specific Products at issue here: Apple Cider Vinegar
17 Chips Made with Avocado Oil and Sea Salt with a Hint of Peppercorn Chips Made with
18 Avocado Oil.

19 20. On the front and center of Defendant's Products' Packaging—in large, bolded

27 ⁹ UC Davis News & Information, *That Avocado Oil Chip You're Eating May Not Be Made*
28 *With Pure Avocado Oil*, UC Davis, July 15, 2026, <https://www.ucdavis.edu/food/news/avocado-oil-chip-youre-eating-may-not-be-made-pure-avocado-oil> (last accessed September 3, 2026).

font within a bright green banner located next to a large image of an avocado—Kettle Brand prominently advertises its Products are “MADE WITH AVOCADO OIL.” For example, screenshots of the front label of the Products are displayed below:

21. Doubling down on its unequivocal front-label representations that the Products are “MADE WITH AVOCADO OIL,” Defendant lists “avocado oil” as the only oil ingredient for the Products on the back of the Products’ packaging. Screenshots of the ingredient lists located on the back of the Products’ packaging are reproduced below:

1 22. At no point does Kettle Brand state that its Products contain any oil other than
2 “avocado oil.” Thus, Defendant’s label representations and omissions mislead consumers
3 like Plaintiffs to believe that the Products contain avocado oil as their only oil ingredient,
4 and induce them to pay a premium for chips that, in reality, contain the very ingredients
5 they specifically sought to avoid.

6 23. Throughout the liability period defined below, Defendant has engaged in an
7 advertising campaign that falsely represents that its Products are “MADE WITH
8 AVOCADO OIL” and thus, serve as a healthier snack option in lieu of similar products
9 that openly contain seed oils.

10 24. As a result of this deception, Defendant sold numerous units of the Products
11 online and in retail stores.

12 25. Plaintiffs and Class Members have been, and will continue to be, deceived or
13 misled by Defendant’s deceptive advertising claims. Each Class Member purchased and
14 consumed the Products during the liability period and in doing so, read and considered the
15 advertising claims on the Products’ label and based their decision to purchase the Products
16 on those advertising claims and material omissions. Kettle Brand’s advertising claims that
17 the Products were “MADE WITH AVOCADO OIL” was not only a material factor, but
18 the only factor in influencing Plaintiffs’ decision to purchase and consume the Products.

19 26. Plaintiffs and the Class Members would not have purchased the Products had
20 they known they did not contain authentic avocado oil and instead contained undisclosed
21 seed oils.

22 **III. Kettle Brand’s Advertising Claims for the Products are Patently False and**
23 **Deceptive as Confirmed By the July 2026 UC Davis Study**

24 27. Despite this prominent marketing and advertising, Defendant’s Products do
25 not contain any authentic avocado oil at all, but instead, contains cheap and inferior seed
26 oils.

27 28. The adulterated avocado oil epidemic is not a novel issue. Since at least 2020,
28 researchers at the UC Davis Department of Food Science and Technology have

1 championed the landmark study of oil adulteration in bottled avocado oil products. Those
 2 studies, first published in 2020 and then in in 2023 as a follow-up, have previously found
 3 that at least 82% of commercial bottled avocado oils¹⁰ and 70% of private label avocado
 4 oils¹¹ were either rancid or mixed with other undisclosed oils. Thus, Kettle Brand knows,
 5 or reasonably should have known, that its labeling of the Product was likely false and
 6 misleading to reasonable consumers.

7 29. Most recently, in July 2026, the UC Davis team, led by Professor Selina
 8 Wang, published a first of its kind, peer-reviewed study in *Applied Food Research*, that
 9 tested the authenticity of avocado oil as the sole declared edible oil ingredient used in
 10 commercially processed food products, and found 48 out of 54 avocado oil-labeled
 11 products, or 89%, were adulterated with cheaper seed oils.¹²

12 30. In the UC Davis Study, the team of scientific researchers analyzed 74
 13 commercial chips, mayonnaise, and salad dressing products that bore labels containing
 14 avocado oil or olive oil from online retailers and California stores in 2025 and 2026.¹³

15 31. For each of the 37 distinct commercial products, two separate production lots
 16 were tested in duplicate to assess lot-to-lot variability.¹⁴ Two separate lots of each of Kettle
 17 Brand's Apple Cider Vinegar Chips Made with Avocado Oil and Sea Salt with a Hint of
 18 Peppercorn Chips Made with Avocado Oil Products, represented as Sample Nos. 17, 18,

¹³ *Id.* at 2.

¹⁴ *Id.*

19, and 20, were included in the Study.

32. Here’s how the study worked: Researchers extracted the oils from these products, evaluated them using established fatty acid and plant sterol profiles—which are referred to as the chemical fingerprints or DNA-markers that uniquely verify oil identity—and assessed these compositional markers against ingredient-level authenticity.¹⁵

33. The Products’ samples were compared against the referenced fatty acid and sterol profiles set forth in the *Codex Alimentarius* Standard for Named Vegetable Oils (CXS 210-1999) and the Standard for Olive Oils and Olive Pomace Oils (CXS 33-1981), “which are intended to encompass expected natural variability” of fatty acid and sterol compositions in oil.¹⁶

34. To hedge against any “analytical uncertainty, biological variability, and potential processing influences,” the Study allowed for deviations in the classification criteria. For example, samples with deviations limited to a single fatty acid or sterol marker not exceeding 10% of compositional limits were deemed “consistent” with authentic oil; samples with two fatty acid or sterol markers marginally exceeding the 10% allowance without deviations present across other markers were deemed “borderline”; and samples fully consistent with either fatty acids *or* sterols while borderline in the other were deemed “consistent.” At bottom, only those samples with multiple deviations or patterns inconsistent with authentic reference profiles were ultimately classified as “inconsistent” with authentic oil.¹⁷

35. What’s more, the Study also considered, and thoroughly tested, whether frying and emulsification processes would alter oil authenticity markers, and found these experiments showed only “minor shifts in authenticity markers, indicating that typical processing conditions do not explain the significant compositional deviations detected in

¹⁵ *Id.*

¹⁶ *Id.* at 3.

¹⁷ *Id.*

1 the inconsistent products.¹⁸

2 36. Both fatty acid and plant sterol profiles independently revealed oil
3 adulteration. For instance, as to fatty acids, “[l]ow levels of palmitic acid (C16:0) and
4 palmitoleic acid (C16:1), together with elevated stearic acid (C18:0), are not characteristic
5 of authentic avocado oil. Rather, this pattern is more consistent with substitution or dilution
6 using vegetable oils.”¹⁹ In addition, as to sterol composition, “[m]ost samples had
7 campesterol, stigmasterol and Δ 7-avenasterol levels outside the Codex standard ranges”
8 and elevated ranges of these sterols “are consistent with substitution or dilution with
9 vegetable oils.”²⁰ At bottom, the “sterol deviations support the fatty acid findings and
10 indicate widespread compositional inconsistency among the avocado oil-labeled products
11 evaluated.”²¹

12 37. At the end of the Study, both samples of each of Kettle Brand’s Products were
13 classified to be inconsistent with authentic avocado oil. Overall, the Study concluded that
14 48 of the 54 avocado oil-label products were classified as compositionally inconsistent with
15 authentic avocado oil. Specifically, 93% of chip samples, 71% of mayonnaises, and 100%
16 of salad dressings labeled as authentic avocado oil were adulterated with undisclosed seed
17 oils.²²

18 38. In contrast, only 1 of 20 olive oil-labeled products were found to be
19 inconsistent with authentic compositional ranges.²³ “[T]his may also reflect the
20 comparatively higher compliance and authenticity of olive oil sources relative to avocado
21 oil, as olive oil standards are more established and regulatory oversight and enforcement
22

²³ *Id.*

1 are considerably more developed than for avocado oil.”²⁴

2 39. Plainly, the UC Davis Study illustrates the serious problem that Defendant’s
3 adulterated oil products create for consumers who reasonably rely on product labels in
4 making their purchasing decisions:

5 All products included in the study declared only a single edible oil in the
6 ingredient statement and did not disclose blended oil formulations. Thus,
7 consumers would reasonably expect the named oil, particularly when
8 emphasized through front-of-package claims such as ‘made with 100%
avocado oil’ to be the primary lipid source of the product.²⁵

9 40. Jonathan Rubin, founder and CEO of the Seed Oil Free Alliance, a third-party
10 certification and oil authenticity independent lab, agreed: “A front-of-package claim is a
11 promise. It is not evidence by itself. Most companies we work with use avocado oil to meet
12 a real consumer preference. The problem is when suppliers fail to test for seed oil
13 adulteration, and the brand is still the one standing behind the claim.”²⁶ “Consumers are
14 right to be angry when a premium claim is not supported by the ingredients sourced. If a
15 package says 100% avocado oil or made with avocado oil, consumers should not need a
16 chemistry lab to know whether that statement is true.”²⁷

17 41. The economics of Defendant’s deception is clear: “Pure avocado oil costs
18 between \$4 and \$5 per pound” whereas “[s]eed oils, including sunflower, soybean, and
19 corn oil, cost between \$0.50 and \$1.50 per pound. For a food manufacturer producing chips
20 at scale, the incentive to cut avocado oil with cheaper seed oils is enormous. The label does
21
22
23

24 ²⁴ *Id.* at 4.

25 ²⁵ *Id.*

26 ²⁶ New UC Davis Study Shows Why “Made With Avocado Oil” Claims Need Testing,
27 Seed Oil Free Alliance, July 15, 2026, [https://www.seedoilfreecertified.com/seed-oils-](https://www.seedoilfreecertified.com/seed-oils-guide/oil-quality-and-fraud/uc-davis-2026-study-avocado-oil-adulteration)
28 [guide/oil-quality-and-fraud/uc-davis-2026-study-avocado-oil-adulteration](https://www.seedoilfreecertified.com/seed-oils-guide/oil-quality-and-fraud/uc-davis-2026-study-avocado-oil-adulteration) (last accessed
September 3, 2026).

²⁷ *Id.*

1 not change. The margin does.”²⁸

2 42. As illustrated above, whether Defendant’s Products were in fact “MADE
3 WITH AVOCADO OIL” can be determined with objective factual evidence.

4 43. The advertising and marketing of Defendant’s Products as containing avocado
5 oil is in a prominent place—front and center, in large, bolded font within in a bright green
6 banner, on the front label of the Products’ packaging with the large image of an avocado—
7 demonstrates Defendant’s awareness that this claim about the Products’ composition is
8 material to consumers.

9 44. Defendant’s deceptive representations and material omissions are material in
10 that a reasonable person would attach importance to such information and would be
11 induced to act upon such information in making purchasing decisions.

12 45. Plaintiffs and Class Members reasonably relied to their detriment on
13 Defendant’s misleading representations and omissions.

14 46. In making the false, misleading, and deceptive misrepresentations and
15 omissions described herein, Defendant knew and intended that consumers would purchase
16 a Product advertised as containing avocado oil over comparable snacking chips that are not
17 advertised as containing avocado oil only, and instead, as containing harmful seed oils.

18 47. As an immediate, direct, and proximate result of Defendant’s false,
19 misleading, and deceptive representations and omissions, Defendant injured Plaintiffs and
20 the Class Members in that the Class:

- 21 a. Paid a sum of money for Products that were not what Defendant represented;
22 b. Were deprived of the benefit of the bargain because the Products they
23 purchased were different from what Defendant warranted; and
24

25
26 ²⁸ Your “Avocado Oil” Chips Are Almost Certainly Made With Seed Oils. A UC Davis
27 Study Just Proved It, Animal Base, August 10, 2026, [https://animalbase.com/knowledge-](https://animalbase.com/knowledge-base/news/your-avocado-oil-chips-are-almost-certainly-made-with-seed-oils-a-uc-davis-study-just-proved-it)
28 [base/news/your-avocado-oil-chips-are-almost-certainly-made-with-seed-oils-a-uc-davis-](https://animalbase.com/knowledge-base/news/your-avocado-oil-chips-are-almost-certainly-made-with-seed-oils-a-uc-davis-study-just-proved-it)
[study-just-proved-it](https://animalbase.com/knowledge-base/news/your-avocado-oil-chips-are-almost-certainly-made-with-seed-oils-a-uc-davis-study-just-proved-it) (last accessed September 3, 2026).

1 c. Were deprived of the benefit of the bargain because the Products they
2 purchased had less value than what Defendant represented.

3 48. Had Defendant not made the false, misleading, and deceptive representations
4 and omissions, Plaintiffs and the Class Members would not have purchased the Products
5 at all, or would have had paid substantially less for them.

6 49. Consequently, Plaintiffs and Class Members have suffered an injury in fact
7 and lost money or property as a result of Defendant's wrongful conduct.

8 **IV. Plaintiffs' Experiences**

9 Natalie Gianne

10 50. On or about August 24, 2026, Plaintiff Gianne purchased Defendant's Apple
11 Cider Vinegar Chips Made with Avocado Oil Product from a Bristol Farms store located
12 in Santa Monica, California.

13 51. Plaintiff Gianne read the Product packaging, specifically, Defendant's
14 affirmative misrepresentation that the Product was "MADE WITH AVOCADO OIL" as
15 well as the ingredient list on the back of the Product packaging that listed "avocado oil" as
16 the only oil ingredient.

17 52. Plaintiff Gianne purchased the Product as a healthier alternative to snack chips
18 that are made with seed oils, and reasonably believed she was receiving a snack food
19 cooked in avocado oil only.

20 53. In making her purchasing decision, she reasonably relied on Defendant's
21 misrepresentations that the Product contained avocado oil as its only oil ingredient, and
22 would not have purchased Defendant's Product but for Defendant's material omissions and
23 misrepresentation that the Product was made with avocado oil only. Thus, Defendant's
24 "MADE WITH AVOCADO OIL" misrepresentation was material to her decision to
25 purchase the Product.

26 54. Had Plaintiff Gianne known that Defendant's Product was not "MADE WITH
27 AVOCADO OIL" as advertised, and instead were made with inferior, cheap, and harmful
28 seed oils, Plaintiff Gianne would not have purchased the Product at all, or would have paid

1 substantially less for it.

2 55. Thus, Plaintiff Gianne suffered injury in fact and lost money as a direct result
3 of Defendant's false and misleading advertising of its Product as described herein.

4 56. Although Plaintiff Gianne would like to purchase the Product in the future,
5 should it genuinely be made with real avocado oil as it is currently misrepresented, she will
6 be unable to do so because she is unable to rely on the truthfulness of the Product's "MADE
7 WITH AVOCADO OIL" representation absent scientific testing.

8 Laura Willis Albrigo

9 57. On or around August 16, 2026, Plaintiff Willis Albrigo purchased
10 Defendant's Sea Salt with a Hint of Peppercorn Chips Made with Avocado Oil from
11 Amazon to be delivered to her home in San Diego, California.

12 58. Plaintiff Willis Albrigo read the Product packaging, specifically, Defendant's
13 affirmative misrepresentation that the Product was "MADE WITH AVOCADO OIL" as
14 well as the ingredient list on the back of the Product packaging that listed "avocado oil" as
15 the only oil ingredient.

16 59. Plaintiff Willis Albrigo purchased the Product as a healthier alternative to
17 snack chips that are made with seed oils, and reasonably believed she was receiving a snack
18 food cooked in avocado oil only.

19 60. In making her purchasing decision, she reasonably relied on Defendant's
20 misrepresentations that the Product contained avocado oil as its only oil ingredient, and
21 would not have purchased Defendant's Product but for Defendant's material omissions and
22 misrepresentation that the Product was made with avocado oil only. Thus, Defendant's
23 "MADE WITH AVOCADO OIL" misrepresentation was material to her decision to
24 purchase the Product.

25 61. Had Plaintiff Willis Albrigo known that Defendant's Product was not "MADE
26 WITH AVOCADO OIL" as advertised, and instead were made with inferior, cheap, and
27 harmful seed oils, Plaintiff Willis would not have purchased the Product at all, or would
28 have paid substantially less for it.

62. Thus, Plaintiff Willis Albrigo suffered injury in fact and lost money as a direct result of Defendant's false and misleading advertising of its Product as described herein.

63. Although Plaintiff Willis Albrigo would like to purchase the Product in the future, should it genuinely be made with real avocado oil as it is currently misrepresented, she will be unable to do so because she is unable to rely on the truthfulness of the Product's "MADE WITH AVOCADO OIL" representation absent scientific testing.

CLASS ACTION ALLEGATIONS

64. Pursuant to Federal Rule of Civil Procedure 23, Plaintiffs bring this action on behalf of themselves, and all other similarly situated persons. The proposed Classes are defined as:

Nationwide Class: All persons in the United States who, during the applicable statute of limitations, purchased the Products for their personal use, rather than for resale or distribution.

California Subclass: All persons in California who, during the applicable statute of limitations, purchased the Products for their personal use, rather than for resale or distribution.

65. The Nationwide Class and the California Subclass are collectively referred to as the "Class" unless otherwise stated herein.

66. Excluded from the Class is Defendant, any entities in which they have a controlling interest, any of their parents, subsidiaries, affiliates, officers, directors, employees and members of such persons' immediate families, and the presiding judge(s) in this case and their staff. Plaintiffs reserve the right to expand, limit, modify, or amend this class definition, including, without limitation, the addition of one or more subclasses, in connection with their motion for class certification, or at any other time, based upon, *inter alia*, changing circumstances and/or new facts obtained during discovery.

67. **Numerosity (Rule 23(a)(1)).** The proposed Class is numerous such that joinder is impracticable. Upon information and belief, and subject to class discovery, the identities of Class Members are within the exclusive knowledge of and can be ascertained only by resort to Defendant's records. The proposed Class is also sufficiently ascertainable

1 because Defendant has the administrative capability, through its computer systems and
2 other business records, to identify all members of the proposed Class, and such contact
3 information is otherwise not available to Plaintiff.

4 68. **Commonality (Rule 23(a)(2)).** The questions here are ones of common or
5 general interests such that there is a well-defined community of interest among the
6 proposed Class Members. Such common legal or factual questions include, but are not
7 limited to:

- 8 a. Whether the Products were “MADE WITH AVOCADO OIL” as advertised;
- 9 b. Whether Defendant knew or should have known the Products contained no
10 authentic avocado oil, and instead, contained oils other than avocado oil;
- 11 c. Whether Defendant made false and/or misleading statements to the Class and
12 the public concerning the contents of its Products;
- 13 d. Whether Defendant’s advertising and marketing of the Products is misleading
14 and deceptive;
- 15 e. Whether Defendant has engaged in unfair, fraudulent, or unlawful business
16 practices with respect to the advertising, marketing, and sale of the Products;
- 17 f. Whether Defendant’s false and misleading statements concerning their
18 Products were likely to deceive the public;
- 19 g. Whether Defendant represents to consumers that the Products have
20 characteristics, uses, benefits, or qualities that the Products do not have;
- 21 h. Whether Defendant engaged in false advertising with respect to the Products;
- 22 i. Whether Defendant has been unjustly enriched;
- 23 j. Whether Plaintiffs and the Class were harmed by Defendant’s
24 misrepresentations, and if so, the proper measure of damages;
- 25 k. Whether Plaintiffs and the Class are entitled to injunctive, declaratory relief,
26 or other equitable relief; and
- 27 l. Whether Plaintiffs and the Class are entitled to reasonable attorneys’ fees and
28 costs.

1 69. **Typicality (Rule 23(a)(3)).** Plaintiffs' claims are typical of the claims of the
2 other Class Members because, *inter alia*, all Class Members have been deceived (or were
3 likely to be deceived) by Defendant's false and misleading advertising claims about the
4 composition of Defendant's Products. Plaintiffs are advancing the same claims and legal
5 theories on behalf of themselves and all Class Members.

6 70. **Adequacy of Representation (Rule 23(a)(4)).** Plaintiffs are more than
7 adequate representatives of the proposed Class in that they have suffered damages because
8 of Defendant's improper business practices. Additionally:

- 9 a. Plaintiffs are committed to the vigorous prosecution of this action on behalf
10 of themselves and all others similarly situated and have retained competent
11 counsel experienced in the prosecution of consumer class actions;
12 b. There is no conflict of interest between Plaintiffs and the unnamed Class
13 Members;
14 c. Plaintiffs anticipate no difficulty in the management of this litigation as a class
15 action; and
16 d. Plaintiffs' legal counsel has the financial and legal resources to meet the
17 substantial costs and legal issues associated with this type of litigation.

18 71. **Predominance & Superiority (Rule 23(b)(3)).** Common questions of fact or
19 law concerning Defendant's liability to all Class Members predominate over any questions
20 affecting only individual Class Members. Plaintiffs' proposed class action is the superior
21 method for resolving this dispute because it is impracticable to bring proposed Class
22 Members' individual claims before the Court, especially where, as here, individual Class
23 Members' damages are relatively small. Class treatment permits many similarly situated
24 persons or entities to prosecute their common claims in a single forum simultaneously,
25 efficiently, and without the unnecessary duplication of evidence, effort, expense, or the
26 possibility of inconsistent or contradictory judgments that numerous individual actions
27 would engender. The benefits of the class action mechanism, including providing injured
28 persons or entities with a method for obtaining redress on claims that might not be

1 practicable to pursue individually, substantially outweigh any difficulties that may arise in
2 the management of this class action. Plaintiffs know of no difficulty to be encountered in
3 the maintenance of this action that would preclude its maintenance as a class action.

4 72. **Final Declaratory or Injunctive Relief (Rule 23(b)(2)).** Plaintiffs satisfy the
5 requirements for maintaining a class action under Rule 23(b)(2). Defendant has acted or
6 refused to act on grounds generally applicable to the Class, thereby making appropriate
7 final injunctive relief or corresponding declaratory relief with respect to the Class as a
8 whole.

9 73. **Particular Issues (Rule 23(c)(4)).** Plaintiffs satisfy the requirements for
10 maintaining a class action under Rule 23(c)(4). Plaintiffs' claims consist of particular issues
11 that are common to all members of the Class and are capable of class-wide resolution that
12 will significantly advance the litigation.

13
14 **FIRST CAUSE OF ACTION**
15 **Violation of California's Unfair Competition Law**
16 **Cal. Bus. & Prof. Code §§ 17200, *et seq.***
17 **(On Behalf of Plaintiffs and the California Subclass)**

18 74. Plaintiffs allege and incorporate the allegations of the paragraphs above of
19 this Complaint as if fully set forth herein.

20 75. California's UCL prohibits, and provides civil remedies for, "unfair
21 competition," including any "unlawful, unfair, or fraudulent act or practice." Cal. Bus. &
22 Prof. Code § 17200, *et seq.* Its purpose is to protect both consumers and competitors by
23 promoting fair competition in commercial markets for goods and services. In service of
24 that purpose, the Legislature framed the UCL's substantive provisions in broad, sweeping
25 language.

26 76. The UCL imposes strict liability. Plaintiffs need not prove that Defendant
27 intentionally or negligently engaged in an unfair business practice—but only that such
28 practices occurred.

77. Plaintiffs have standing to pursue this claim because Plaintiffs have suffered
injury-in-fact and have lost money or property as a result of Defendant's unlawful, unfair,

1 and fraudulent actions. Specifically, Plaintiffs purchased Defendant's Products for their
2 own personal use. In doing so, Plaintiffs relied on the false representation that the Products
3 were "MADE WITH AVOCADO OIL" when in fact, they did not actually contain
4 authentic avocado oil, but instead contained undisclosed seed oils. Plaintiffs expended
5 money in the transaction that they otherwise would not have had they known Defendant's
6 advertising claims were false.

7 ***"Unfair" Prong***

8 78. A business act or practice is "unfair" under the UCL if it offends an
9 established public policy or is immoral, unethical, oppressive, unscrupulous, or
10 substantially injurious to consumers, and that unfairness is determined by weighing the
11 reasons, justifications, and motives against the gravity of the harm to the alleged victims.

12 79. Defendant's conduct constitutes an "unfair" business practice because, as
13 alleged herein, Defendant engaged in a false advertising campaign that mislead consumers
14 into believing that they were receiving a product that contained avocado oil, along with the
15 positive health benefits that are widely recognized with avocado oil, as opposed to cheaper
16 and inferior seed oils that have well-known harmful health effects.

17 80. Defendant's acts and practices offend an established public policy of truthful
18 advertising in the marketplace, and constitute immoral, unethical, oppressive, and
19 unscrupulous activities that are substantially injurious to consumers. As a result of
20 Defendant's false and deceptive labeling, consumers are misled into purchasing
21 Defendant's Products over other avocado oil chips and snacks that truthfully disclose their
22 oil composition.

23 81. Such practice is devoid of utility and outweighed by the gravity of the harm
24 to Plaintiffs and the California Subclass who lost money or property by paying for
25 Defendant's Products. There were reasonably available alternatives to further Defendant's
26 legitimate business interests, other than the unfair conduct described herein.

27 ///

28 ///

1 ***“Fraudulent” Prong***

2 82. A business act or practice is “fraudulent” under the UCL if it is likely to
3 deceive members of the public.

4 83. Defendant engaged in a fraudulent business practice by knowingly
5 representing the Products as being “MADE WITH AVOCADO OIL.” Defendant’s
6 practice deceived Plaintiffs and are highly likely to deceive members of the consuming
7 public who purchased the Products in reliance on their advertised composition.

8 84. Plaintiffs and California Class Members acted reasonably when they relied on
9 Defendant’s misrepresentations concerning the Products.

10 85. Had Plaintiffs and California Class Members known that Defendant’s
11 representations concerning its Products were false, they would not have purchased the
12 Products at all or would have paid substantially less for them.

13 ***“Unlawful” Prong***

14 86. A business act or practice is “unlawful” under the UCL if it violates any other
15 law or regulation.

16 87. Defendant’s actions, as alleged herein, constitute illegal and unlawful
17 practices committed in violation of the Consumers Legal Remedies Act, Cal. Civ. Code §
18 1750, *et seq.* (the “CLRA”) and the False Advertising Law, Cal. Bus. & Prof. Code §
19 17500, *et seq.* (the “FAL”).

20 88. As a direct and proximate result of Defendant’s unfair, fraudulent, and
21 unlawful practices, Plaintiffs and California Class members have suffered damages.

22 89. Defendant has been unjustly enriched and should be required to disgorge its
23 unjust profits and make restitution to Plaintiffs and California Class Members pursuant to
24 Cal. Bus. & Prof. Code §§ 17203 and 17204.

25 90. Additionally, Plaintiffs and California Class Members seek an order requiring
26 Defendant to pay attorneys’ fees pursuant to Cal. Civ. Code § 1021.5.

27 ///

28 ///

SECOND CAUSE OF ACTION
False and Misleading Advertising
Bus. & Prof. Code §§ 17500, *et seq.*
(On Behalf of Plaintiffs and the California Subclass)

91. Plaintiffs allege and incorporate the allegations of the paragraphs above of this Complaint as if fully set forth herein.

92. Plaintiffs have standing to pursue this claim because Plaintiffs have suffered injury-in-fact and have lost money or property as a result of Defendant's unlawful, unfair, and fraudulent actions. Specifically, Plaintiffs purchased Defendant's Products for their own personal use. In doing so, Plaintiffs relied on the false representation that the Products were "MADE WITH AVOCADO OIL" when in fact, they did not actually contain authentic avocado oil, but instead contained undisclosed seed oils. Plaintiffs expended money in the transaction that they otherwise would not have had they known Defendant's advertising claims were false.

93. California's False Advertising Law ("FAL"), California Business & Professions Code § 17500, states that "[i]t is unlawful for any . . . corporation . . . with intent . . . to dispose of . . . personal property . . . to induce the public to enter into any obligation relating thereto, to make or disseminate or cause to be made or disseminated . . . from this state before the public in any state, in any newspaper or other publication, or any advertising device, or by public outcry or proclamation, or in any other manner or means whatever, including over the Internet, any statement . . . which is untrue or misleading and which is known, or which by the exercise of reasonable care should be known to be untrue or misleading"

94. Defendant violated Business & Professions Code § 17500 by publicly disseminating false and misleading advertisements regarding Defendant's Products, including on the Products' packaging, that the chips were "MADE WITH AVOCADO OIL" when in fact, the Products contained no authentic avocado oil and rather, were made with inferior, undisclosed seed oils.

95. Defendant's false and misleading advertisements were disseminated to

1 increase the sales of its Products because consumers pay a premium for products made
2 with avocado oil in lieu of refined seed oils that have a well-known negative health impact.

3 96. Defendant knew or should have known its representations and advertisements
4 concerning its Products were false, deceptive, and misleading to reasonable consumers.

5 97. Plaintiffs and the members of the California Class have suffered harm as a
6 result of these violations of the FAL because they have paid money for Defendant's
7 Products that they otherwise would not have paid had they known they were not actually
8 made with authentic avocado oil, but instead, made with cheap seed oils.

9 98. Pursuant to Bus. & Prof. Code §§ 17203 and 17500, Plaintiffs and members
10 of the California Class seek an order of this Court enjoining Defendant from continuing to
11 engage, use, or employ its deceptive practices.

12 99. Further, Plaintiffs request an order awarding Plaintiffs and other California
13 Class Members restitution of the money wrongfully acquired by Defendant by means of
14 said misrepresentations.

15 100. Additionally, Plaintiffs and California Class Members seek an order requiring
16 Defendant to pay attorneys' fees pursuant to Cal. Civ. Code § 1021.5.

17 **THIRD CAUSE OF ACTION**
18 **Violation of California's Consumers Legal Remedies Act ("CLRA")**
19 **Cal. Civ. Code § 1750, *et seq.***
20 **(On Behalf of Plaintiffs and the California Subclass)**

21 101. Plaintiffs allege and incorporate the allegations of the paragraphs above of
22 this Complaint as if fully set forth herein.

23 102. Plaintiffs have standing to pursue this claim because Plaintiffs have suffered
24 injury-in-fact and have lost money or property as a result of Defendant's unlawful, unfair,
25 and fraudulent actions. Specifically, Plaintiffs purchased Defendant's Products for their
26 own personal use. In doing so, Plaintiffs relied on the false representation that the Products
27 were "MADE WITH AVOCADO OIL" when in fact, they did not actually contain
28 authentic avocado oil, but instead contained undisclosed seed oils. Plaintiffs expended
money in the transaction that they otherwise would not have had they known Defendant's

1 advertising claims were false.

2 103. The Consumer Legal Remedies Act (“CLRA”) was enacted to protect
3 consumers against unfair and deceptive business practices. The CLRA applies to
4 Defendant’s acts and practices because the Act covers transactions involving the sale of
5 goods to consumers.

6 104. Plaintiffs and each member of the proposed California Class are “consumers”
7 as defined by Cal. Civ. Code § 1761(d). Defendant’s Products are “goods” within the
8 meaning of Cal. Civ. Code § 1761(a). Defendant’s sale of its Products were “transactions”
9 within the meaning of Cal. Civ. Code § 1761(e).

10 105. Defendant violated the CLRA by engaging in the following proscribed
11 practices by California Civil Code § 1770(a) in transactions with Plaintiffs and California
12 Class Members which were intended to result in, and did result in, the sale of its Products:

- 13 a. “Representing that goods...have . . . characteristics, ingredients, . . [or]
14 benefits . . . that they do not have” (a)(5);
15 b. “Representing that goods are of a particular standard, quality or grade . . . if
16 [they are] of another” (a)(7); and
17 c. “Advertising goods...with intent not to sell them as advertised” (a)(9).

18 106. Defendant’s misrepresentations alleged herein were material to and relied
19 upon by Plaintiffs and reasonable consumers when deciding whether to purchase the
20 Products over similar chips that were not advertised to contain avocado oil.

21 107. If Plaintiffs and the California Class Members had known that the Products
22 were not actually “MADE WITH AVOCADO OIL” only and instead were made with
23 inferior and harmful seed oils, they would not have purchased the Products at all or would
24 have paid substantially less for them.

25 108. As a direct and proximate result of Defendant’s conduct, Plaintiffs and the
26 California Class Members suffered injury and damages in an amount to be determined at
27 trial.
28

1 109. Pursuant to § 1782(a) of the CLRA, Plaintiffs’ Counsel notified Defendant in
2 writing by certified mail of the particular violations of § 1770 of the CLRA and demanded
3 that it rectify the problems associated with the actions detailed above and give notice to all
4 affected consumers of Defendant’s intent to act. If Defendant fails to comply, Plaintiffs
5 will seek all available remedies. For now, Plaintiffs seek only public injunctive relief with
6 respect to this claim.

7
8 **FOURTH CAUSE OF ACTION**
9 **Breach of Express Warranty**
10 **California Commercial Code Section 2313, *et seq.***
11 **(On Behalf of Plaintiffs and the California Subclass)**

12 110. Plaintiffs hereby incorporate by reference the preceding paragraphs as if fully
13 set forth herein.

14 111. Defendant was a “seller” within the meaning of Cal. Comm. Code § 2103(d).

15 112. The Products were “goods” within the meaning of Cal. Comm. Code §
16 2105(1).

17 113. On the Products’ packaging, Defendant expressly warranted to all purchasers
18 that the Products were “MADE WITH AVOCADO OIL” and listed “avocado oil” as the
19 only oil ingredient in the Products.

20 114. Plaintiffs and Class Members formed a contract with Defendant at the time
21 they purchased the Products. As part of that contract, Defendant represented that the
22 Products were “MADE WITH AVOCADO OIL” as described above. This representation
23 constitutes an express warranty and became part of the basis of the bargain between
24 Plaintiffs and the Class Members.

25 115. Defendant made the above-described representations to induce Plaintiffs and
26 the Class Members to purchase the Products, and Plaintiffs and the Class Members relied
27 on the representations in purchasing the Products.

28 116. Defendant knowingly breached its warranty because the Products did not
contain avocado oil as advertised, but instead, contained no authentic avocado oil and were
made with cheap, undisclosed seed oils.

1 117. As a result, Plaintiffs and members of the Class are entitled to damages in an
2 amount to be determined at trial.

3 118. Within a reasonable time after they knew or should have known of such
4 breach, Plaintiffs, on behalf of themselves and the other members of the Class, placed
5 Defendant on notice thereof.

6 119. Therefore, Plaintiffs pray for the relief as set forth below.

7
8 **FIFTH CAUSE OF ACTION**
9 **Unjust Enrichment**
(On Behalf of Plaintiffs and the Nationwide Class)

10 120. Plaintiffs allege and incorporate the allegations of the paragraphs above of
11 this Complaint as if fully set forth herein.

12 121. To the detriment of Plaintiffs and the Nationwide Class, Defendant has been,
13 and continues to be, unjustly enriched as a result of its wrongful conduct alleged herein.

14 122. Plaintiffs and the Nationwide Class conferred a benefit on Defendant in the
15 form of payment for the Products.

16 123. Defendant unfairly, deceptively, unjustly and/or unlawfully accepted said
17 benefits, which under the circumstances, would be unjust to allow Defendant to retain.

18 124. Defendant's unjust enrichment is traceable to, and resulted directly and
19 proximately from, the conduct alleged herein.

20 125. Plaintiffs and the Nationwide Class, therefore, seek disgorgement of all
21 wrongfully obtained money received by Defendant as a result of its inequitable conduct as
22 more fully stated herein.

23 **PRAYER FOR RELIEF**

24 **WHEREFORE**, Plaintiffs, on behalf of themselves and the Class, seek judgment in
25 an amount to be determined at trial as follows:

- 26 a. Certifying the proposed Class, appointing Plaintiffs as representatives of the
27 Class, and appointing Plaintiffs' counsel as class counsel for the proposed
28 Class;

- b. Declaring Defendant's misconduct alleged herein to be unlawful;
- c. Enjoining Defendant from the wrongful conduct as described herein on behalf of the general public;
- d. For an order requiring Defendant to disgorge and make restitution of all monies it acquired by means of the unlawful practices set forth above;
- e. Awarding actual damages in an amount according to proof;
- f. Awarding pre-judgment interest at the maximum rate permitted by law;
- g. Reimbursing all costs, expenses, and disbursements accrued by Plaintiffs in connection with this action, including reasonable attorneys' fees, costs, and expenses, pursuant to applicable law and any other law basis; and
- h. Awarding such other and further relief as this Court deems just, proper, and equitable.

DEMAND FOR JURY TRIAL

Plaintiffs and all others similarly situated hereby demand a jury trial on all issues in this complaint that are so triable as a matter of right.

INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44

Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

- I.(a) Plaintiffs-Defendants.** Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.
- (b) County of Residence.** For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)
- (c) Attorneys.** Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".
- II. Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.Cv.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.
- United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here. United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.
- Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.
- Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; **NOTE: federal question actions take precedence over diversity cases.**)
- III. Residence (citizenship) of Principal Parties.** This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.
- IV. Nature of Suit.** Place an "X" in the appropriate box. If there are multiple nature of suit codes associated with the case, pick the nature of suit code that is most applicable. Click here for: [Nature of Suit Code Descriptions](#).
- V. Origin.** Place an "X" in one of the seven boxes.
- Original Proceedings. (1) Cases which originate in the United States district courts.
- Removed from State Court. (2) Proceedings initiated in state courts may be removed to the district courts under Title 28 U.S.C., Section 1441.
- Remanded from Appellate Court. (3) Check this box for cases remanded to the district court for further action. Use the date of remand as the filing date.
- Reinstated or Reopened. (4) Check this box for cases reinstated or reopened in the district court. Use the reopening date as the filing date.
- Transferred from Another District. (5) For cases transferred under Title 28 U.S.C. Section 1404(a). Do not use this for within district transfers or multidistrict litigation transfers.
- Multidistrict Litigation – Transfer. (6) Check this box when a multidistrict case is transferred into the district under authority of Title 28 U.S.C. Section 1407.
- Multidistrict Litigation – Direct File. (8) Check this box when a multidistrict case is filed in the same district as the Master MDL docket.
- PLEASE NOTE THAT THERE IS NOT AN ORIGIN CODE 7.** Origin Code 7 was used for historical records and is no longer relevant due to changes in statute.
- VI. Cause of Action.** Report the civil statute directly related to the cause of action and give a brief description of the cause. **Do not cite jurisdictional statutes unless diversity.** Example: U.S. Civil Statute: 47 USC 553 Brief Description: Unauthorized reception of cable service.
- VII. Requested in Complaint.** Class Action. Place an "X" in this box if you are filing a class action under Rule 23, F.R.Cv.P.
- Demand. In this space enter the actual dollar amount being demanded or indicate other demand, such as a preliminary injunction.
- Jury Demand. Check the appropriate box to indicate whether or not a jury is being demanded.
- VIII. Related Cases.** This section of the JS 44 is used to reference related cases, if any. If there are related cases, insert the docket numbers and the corresponding judge names for such cases.

Date and Attorney Signature. Date and sign the civil cover sheet.
